—Messrs. J. E. McGarvin & Co., are offering the trunk factory for sale by auction.

—The strawberry season is nearly over. Never have their been finer berries in this vicinity.

—Mr. W. Gripps, market gardener, left a peck of excellent green peas at this office yesterday.

—The Ingersoll *Chronicle* has been much improved. It is now an eight-page and printed from new type.

—The first three days of this week were the hottest 8th, 9th and 10th July that Ontario has had in ten years.

—We have received from the Queen's Printer for Ontario, a bound volume of the "Statutes of Ontario," 52nd Victoria, 1889.

—The Acton FREE PRESS has commenced its fifteenth volume and it is the cleanest printed and neatest local paper on our exchange list.—Ingersoll *Sun.*

—The corporation has had its thistles and weeds on the streets decapitated. The authorities should now see that citizens destroy those to be found on their premises.

—A social under the auspices of the Ladies' Aid Society of Knox Church will be held on the lawn at the home of Mr. D. Henderson, on Friday evening, 12th inst.

—On Monday afternoon Freddie, the four-year-old son of Mr. James Matthews, carpenter, fell from a buggy in his father's yard and broke his arm.—Orangeville *Sun.*

—The laundryman now counts the dollars taken in for wilted collars; counts them o'er with joy profound, piles them in a stack, smiles a smile that reaches round and buttons in the back.

—Professor Stewart, "of South American fame," was announced to illustrate the self-healing art of "Massage," in the town hall last evening. The meeting is in progress as we go to press.

—*Our Little Once* for this month contains a most splendid lot of pictures and stories, every page having on it one or more illustrations. It is only $1.50 a year, at which price any bookseller will supply it monthly.

—As announced in last issue a social under the auspices of the Ladies' Aid Society will be held at the Methodist Parsonage on Monday evening next. An interesting and pleasant evening is being arranged for.

—Haying is now general in this vicinity. The crop is fair and better than was at first anticipated, due to the recent fine and favorable weather. The fall wheat is ripening fast, and the prospect for barley is exceedingly good.

—Messrs. Jno. Newton & Sons, Woollen Manufacturers, Limehouse, are shipping large quantities of their excellent blankets to various parts of the country. Their recent improvements have facilitated the work of the factory very much.

—We are in receipt of a copy of Johnston's Canadian School Shorthand for self-instruction. It is a very simple system and the volume gives a complete exposition of the Art. It is compiled by G. W. Johnston, head-master of the Central School Hamilton.

—The Renfrew *Mercury* is one of the foremost local papers of Canada. It is under practical and enterprising management and occupies one of the most tasty and conveniently arranged offices to be found anywhere. It has just commenced its 19th year.

—We read about a million bushels of wheat, but few people realize what a vast amount it is. But if a million bushels of wheat were loaded on frieght cars, 500 bushels to the car, it would fill a train fifteen miles long. If transported by wagons the line of teams would be 142 miles long.

—Mr. J. T. Brown, shoemaker, received a telephone message yesterday, that John Livingston, a cousin of his wife's, had been killed at Barrie on Saturday, but how was not mentioned. Mr. Livingston was well known as a farmer at Speyside, Esquesing, a few years ago.—Guelph *Mercury.*

—The *Dominion Illustrated* has completed its first year. It has filled a want in Canada, and has been, so far, successful. Its letterpress and illustrations are particularly good. Messrs. G. E. Desbarats & Son, the publishers, deserve a wide circulation of their beautiful publication.

—The cities have their places of business known as "The Fair" where cheap goods are always expected. Just such a business will be opened to-morrow, in Mrs. Secord's block, next to Havill's. "The Fair" announces goods at 50, 50 and 75c. on the dollar, and that bargains are in store for everyone.

—An error was unintentionally made in these columns last week in reference to the runaway at the races in the park on Dominion Day. It appears that the colt belonging to C. H. Strong, of Streetsville, which ran away and did the damage reported. Mr. Wallace's colt was injured by the runaway.

New Post Offices.

The following new post offices were established in Ontario during the past month: Asselstine, Lenox, Michael Asselstine, postmaster; Cley, Muskoka, Robert Fullerton, postmaster; Fair Ground, Norfolk, W. W. Williams, postmaster; Reeve Craig, Carleton, F. Salter, postmaster. The office of Aboyne, county of Wellington, has been closed.

Another Taking Swindle.

A very thick swindler is operating. Upon entering a town he lays in a supply of glasses at the expense of about ten cents apiece. These he fills with earth, into which he places a couple of short stalks of milk weed or any other plant, and then annoints the earth and plant with attar of roses. He is now prepared to furnish confiding purchasers with shoots from the celebrated "Ceylon Rose," using that or some other high-sounding name, at $1.50 each, and does it as fast as he can handle them. Those people who do not subscribe for their own local paper are generally the first to get bitten.

A Kind Word From a First-Class Office.

We have received several financial reports of Methodist churches, printed at the office of the FREE PRESS, Acton, which, so far as typographical excellence and mechanical execution go, are up to the high standard for which brother Moore is noted, and whose good work we have on former occasions been moved to recognize with our distinguished consideration. Mr. Moore's typographical works are like oasis in the desert, amid the innumerable "blacksmith" jobs, so barren of the least artistic idea, which one finds sent out from country printing offices, and sometimes from city job offices.—Clinton *News Record.*

Mr. Wm. Kannawin, teacher at Crieff, was in town a few days this week. He left yesterday to spend the vacation at his father's home at Shelburne.

Hugh Kennedy, son of Alex. Kennedy, left on Monday to write at the honor junior matriculation examinations in progress at Toronto University this week.

Mr. Turten, of Toronto, was the guest of his brother Mr. Wm. Turten, over Sunday. Mr. Turten, is about to leave for Australia to take charge of the office business of the Massey Mf'g. Co. there.

An interesting marriage ceremony was celebrated in St. Paul's Church at Regina, N. W. T., on the 2nd inst., the parties being Dr. Bourinot, Clerk of the House of Commons, Ottawa, and Miss Cameron, of Regina.

Rev. G. H. Cobbledick, of the Paisley street church, Guelph, left Monday afternoon for Philadelphia, where he has been delegated to attend the convention of Christian Endeavor, which opened in that city on Tuesday.

At the recent ordination held at the Grand Seminary, Montreal, His Grace, the Most Right Rev. Dr. Fabre, Archbishop of Montreal, conferred the order of deacon on Mr. R. J. Maloney, son of Mr. David Maloney, of this place. Mr. Maloney is home for vacation.

—Mr. E. R. Bollert left last Thursday morning for New York whence he sails in the Cunard steamer Umbria for the European markets to purchase fall and winter goods for his extensive business. S., on the ground of adultery and desertion.

—The city editor of the Muncie (Ind.) *Evening Herald* is a woman—Miss Minnie McKillip. She is an energetic news-gatherer, meeting trains, getting interviews at the hotels and furnishing the printers with more "copy" than any one else on the paper. Miss McKillip is 18 years old, petite in figure, and is said to be quite pretty.

—Rev. J. H. Hilts, of Hamilton, occupied the pulpit of the Methodist church last Sunday morning. Mr. Hilts is an old resident of this vicinity and his numerous reminiscences of happenings of half a century ago have a peculiar interest to many. He is the author of two volumes:—"Adventures of a Backwoods Preacher" and "Among the Forest Trees."

—The Guelph *Herald* has donned a new dress throughout and is now as neat and tidy a journal as the country contains. For a number of years a cloud a good deal larger than a man's hand, has hovered over the Herald. A few months ago, however, Mr. Gummer, the proprietor succeeded in dispersing the darkness and now he is engaged in the pleasurable duty of practically illustrating to the public every day that the cloud had a brilliant silver lining. There is no more profitable territory for a live, go-ahead paper of the *Herald's* stripe of politics than Guelph and its vicinity, and now that the *Herald* has taken a step foward no doubt it will distance many rivals.

John Hays, Credit P. O., says:—"His shoulder was so lame for nine months that he could not raise his hand to his head, but by the use of Dr. Thomas' Eclectric Oil the pain and lameness disappeared, and although three months has elapsed, he has not had an attack of it since."

THE CROPS.

The crop reports from all over the Province, published in yesterday's dailies, are full of hope for the farmers and full of encouragement for the business community.

The effect of the recent rains seem to have been overcome by dry weather, and all the cereal crops promise a good average yield.

The reports as to fall wheat are especially hopeful, and spring wheat seems also to promise a fair average yield.

The reports as to barley, peas and oats are fairly satisfactory.

Hay will perhaps hardly be an average crop.

Apples and small fruits seem to be a comparative failure.

It is perhaps rather early to speak with confidence as to vegetables, but the great majority of the reports received are of an encouraging character.

Upon the whole, we have a strong reason to congratulate ourselves that the outlook is so bright, and some reason to expect a good business year.

If you want to buy or sell a Farm, advertise in the Toronto *Weekly Mail*. That paper reaches 100,000 Farmers' homes every week, and your advertisement should meet the eye of someone who wants to purchase. Advertisements of this class are inserted in the Toronto *Weekly Mail* for Five Cents a word each insertion, or Twenty Cents a word for five insertions. Address The Mail, Toronto, Canada.

CATARRH,
CATARRHAL DEAFNESS—HAY FEVER
A NEW HOME TREATMENT.

Sufferers are not generally aware that these diseases are contagious, or that they are due to the presence of living parasites in the lining membrane of the nose and eustachian tubes. Microscopic research, however, has proved this to be a fact, and the result of this discovery is that a simple remedy has been formulated whereby catarrh, catarrhal deafness and hay fever are permanently cured in from one to three simple applications made at home by the patient once in two weeks. N B—This treatment is not a snuff or an ointment; both have been discarded by reputable physicians as injurious. A pamphlet explaining this new treatment is sent on receipt of ten cents by A. H. Dixon & Son, 303 West King Street, Toronto, Canada.—*Toronto Globe.*

Sufferers from Catarrhal troubles should carefully read the above.

Ask For Ayer's

Sarsaparilla, and be sure you get it, when you want the best blood-purifier.

With its forty years of unexampled success in the cure of Blood Diseases, you can make no mistake in preferring Ayer's

Sarsaparilla

to any other. The forerunner of modern blood medicines, Ayer's Sarsaparilla is still the most popular, being in greater demand than all others combined.

"Ayer's Sarsaparilla is selling faster than ever before. I never hesitate to recommend it."—George W. Whitman, Druggist, Albany, Ind.

"I am safe in saying that my sales of Ayer's Sarsaparilla far exceed those of any other, and it gives thorough satisfaction."—L. H. Bush, Des Moines, Iowa.

"Ayer's Sarsaparilla and Ayer's Pills are the best selling medicines in my store. I can recommend them conscientiously."—C. Bickhaus, Pharmacist, Roseland, Ill.

"We have sold Ayer's Sarsaparilla here for over thirty years and always recommend it when asked to name the best blood-purifier."—W. T. McLean, Druggist, Augusta, Ohio.

"I have sold your medicines for the last seventeen years, and always keep them in stock, as they are staples. There is nothing so good for the youthful blood as Ayer's Sarsaparilla."—R. L. Parker, Fox Lake, Wis.

"Ayer's Sarsaparilla gives the best satisfaction of any medicine I have in stock. I recommend it, or, as the Doctors say, 'I prescribe it over the counter.' It never fails to meet the cases for which I recommend it, even where the doctors' prescriptions have been of no avail."—C. F. Calhoun, Monmouth, Kansas.

THE CENTAUR COMPANY, 77 Murray Street, N. Y.

DR. WASHINGTON,

Throat and Lung Surgeon of Toronto,

Dr. Washington has been compelled to make monthly visits to fully supply the wishes of hundreds of patients who availed themselves of his successful treatment. His new method is based on the principle of conveying cold medicated vapor direct to the seat of disease, thus bringing the medication in direct contact with the diseased tissues. He does not claim to cure all patients who consult him; but he does claim to cure a much larger per centage than the general practitioner in general practice. It is not an unreasonable claim either, when it is considered that the doctor has devoted 7 years to the study of his specialty and improved on all the new systems which have been before the scientific world. His treatment has risen superior in its effects and results to that adopted by the most eminent specialists even in New York, as he has to-day patients in that city who have been given up by New York's most distinguished Throat and Lung Surgeons and have been cured by his treatment. The names of some of them have been published, in this paper, on several occasions.

It must be remembered that Dr. Washington, who has been devoting years to the special study of Throat and Lung Diseases, has to-day been handsomely rewarded for his indomitable and indefatigable perseverance, and could there be a more tangible recognition than the testimonials published in this paper from time to time? The Dr. has built up an extensive practice throughout the Dominion, examining all patients personally; and will be wholly responsible to all who have an opportunity to visit him. Another fact—It is well for all to remember that who may be troubled with any of the following symptoms of Catarrh, that in a very large majority of cases it is the incipient stage of Consumption. In fact 90 per cent. of all the cases of Consumption have their origin in Catarrh of the head and throat. A few of the most prominent symptoms of Catarrh will be found below, and let those who have seen Consumption in its first stages recall the terrible fact if the above is not correct, and how many died of this terrible disease before it was known and every chance of treatment or a successful issue is held out, the patient neglects till too late. To-day is the golden opportunity. Take warning before Tempus Fugit. Time flies. Procrastination is the theft of time.

Symptoms of Catarrh.

Susceptibility to catch cold in the head. A feeling of tightness across the bridge of the nose, with sometimes pain. Stuffing of the nasal passages. Accumulation of mucus which is discharged by the nostrils, or drops back into the throat. A sense of pain or heaviness over the eyes, often in the back of the head and neck, sometimes in the top of the head. At times dizziness. Pain in the eyeballs. In severe cases a dull, drowsy, sloopy feeling in the head. dwelling of the nose and eyes. Sometimes a protruding and distorted appearance is given to the upper part of the face. A tendency to sneeze frequently. Sometimes the secretions are collected together in hard masses or chunks, which are with great difficulty removed. Sometimes the mucus membrane is broken, and scabs form which are discharged with mucus.

In some cases the secretions are very copious, and are found in the back of the head and throat chiefly, and very little stuffing of the nasal passage, with a constant desire to clear the throat. Hawking or spitting or raising of tough phlegm, especially in the morning or after taking a warm drink. In other cases the amount of phlegm is very little, but it is extremely tough and almost impossible to remove.

A Few Facts to be Remembered.

1st. Dr. Washington is the only Throat and Lung surgeon in the Dominion devoting his whole time to diseases of the passages.

2nd. He has been devoted seven years to his specialty.

3rd. He has been compelled to open an office in Ottawa to meet the ever increasing demands.

4th. He consults, examines, treats all cases personally, and is solely responsible.

5th. He represents his own business.

6th. He gives testimonials of the most reliable and prominent character of residents of Ontario of the most wonderful cures ever recorded, with whom a large number are acquainted.

7th. He gives the name in full and P. O. address, not the mere initials, which might mean any Tom, Dick or Harry, and invites any person interested to write for particulars.

8th. This is the best season to treat Catarrh, which leads to consumption, and all diseases of the head, throat and lungs.

9th. Dr. Washington graduated in 1882, at Toronto, with honors; in 1890 visited New York and Boston, taking a special Policlinic course on diseases of the Throat and Lungs.

10th. Dr. Washington will be at Acton personally superintending his own business every month. Consultation free.

You Can't Impeach Dr. Brodie's HOSPITAL REMEDIES, because 400,000 PEOPLE IN CANADA AND UNITED STATES VOUCH THAT IF YOU ARE SICK THEY ARE THE ONLY REMEDIES IN THE WORLD THAT WILL GIVE YOU HEALTH.

Read this extract from the scientific papers of Great Britain and Europe:

A NEW DEPARTURE IN MEDICINE.

The four great test medical centres of the world are London, Paris, Berlin and Vienna. These cities have immense hospitals teeming with suffering humanity. Crowds of students throng the wards studying under the Professors in charge. The most renowned physicians of the world teach and practice here, and the institutions are storehouses of medical knowledge and experience. With a view of making this experience available to the public the Hospital Remedy Co at great expense secured the prescriptions of these hospitals, procured the specifics, and although it would cost from $5 to $10 to secure the attention of their distinguished originators, yet in this way their prepared specifics are offered at the price of the quack patent medicines that flood the market and absurdly claim to cure every ill from a single bottle. The want always felt for a reliable class of domestic remedies is now filled with perfect satisfaction. The Hospital Remedies make no unreasonable claims. The specific for Catarrh cures that and nothing else; so with the specific for Bronchitis, Consumption and Lung Troubles: Rheumatism is cured by No 3, while troubles of Digestion, Stomach, Liver and Kidneys have their own cure. To these is added a specific for Fever and Ague, one for leucorrhœa—a general tonic and blood-maker that makes blood and gives form and fulness, and an incomparable remedy for Nervous Debility.

NO. 1—CURES CATARRH, HAY FEVER, ROSE COLD, CATARRHAL DEAFNESS—The only authentic cure emanating from scientific sources now before the public. This is not a snuff or ointment—both are distorted as injurious. $1.00.

NO. 2—COUGHS, COLDS, BRONCHITIS, ASTHMA, CONSUMPTION—A formidable remedy; does not merely stop a cough, but eradicates the disease and strengthens the lungs and restores wasted tissues, giving a new lease of life. $1.00.

NO. 3—RHEUMATISM—A distinguished and well-known specialist from Paris, who treats nothing else, to uphold reputation on this remedy. $1.

NO. 4—LIVER AND KIDNEYS, DYSPEPSIA AND INDIGESTION, CONSTIPATION, BRIGHT'S DISEASE—A favorite slaughtered foe for the quack who has ruined more stomachs than one has. Use a remedy sanctioned in high places. $1.00.

NO. 5—FEVER AND AGUE, CHILLS AGUE, MALARIA, NEURALGIA—You know what gross damage this does the system; it is treated to break it for a time. Use a remedy that eradicates it. $1.00.

NO. 6—FEMALE WEAKNESS, IRREGULARITIES, WHITES—Many women are broken down because they neglect these diseases until chronic and incurable. Use No. 6 and regain health and strength. $1.00.

NO. 7—HEALTH, FIRM AND FULNESS depend on good blood and lots of it. If weak, if tired to rest, if scrawny, use this perfect tonic. $1.00.

NO. 8—NERVOUS DEBILITY, LOSS OF POWER—A quack cure-ridden public will hail a genuine remedy for an unfortunate condition. No. 8 is sold on this one trial will prove. Beware of ignorant crooks who charge high prices for your worthless drugs and pills, the properties of which they are utterly ignorant, and who expose you by selling your confidential letters to others in the same confidence business. Use No. 8 and the cash. $1.00.

ONE DOLLAR EACH.

TO BE HAD OF ALL DRUGGISTS.

If your Druggist does not keep these remedies send price to us and we will ship to you direct. New Pamphlet Take no other remedy; discontinue quack cure-all medicines—we can refund those dollars which emanate from scientific sources, and then prolong your life. Avoid high priced and dishonest quacks who pretend that their medicines cost a fabulous amount. Any respectable druggist will tell you that there is no medicine known that should cost more than One Dollar for twenty five doses. The prescriptions for leucorrhœa and nervous debility is where these diseases quack pretend their work, is actually doing irreparable injury to the patient. We do not think that you are unwilling should be sold and bartered to others in the same disreputable manner. Our prescriptions are secret and worthless. The quack nostrum stores make the transgression of the confiding female. Buy of a reputable and responsible firm doing business under a genuine name and not under some foreign alias. We guarantee one bottle of any of our medicines to give more genuine benefit than a dozen of any special or patent medicine in the world.

THIS PICTURE

Is an exact representation of the repair department of my jewellery store, Guelph. It was photographed for the purpose of showing what careful arrangements for closing and overseeing all work and the systematic manner of doing so. I claim that no workshop can turn out satisfactory work without everything being done systematically, each workman having his own kind of work to do and each person's work directed and examined by the employer. Every good job brings another and every poor job turns away a customer. Now every watch, clock and piece of jewelry which comes in my shop for repairs is examined by me before it is given to the workman and again after it is done, of course once in a while an article will slip through if in a hurry but I am as particular as it is possible to be. It is impossible to do all the repairs which come in myself but I do what is next best. I see that a good workman does the balance properly. I wish particularly to impress on the public that the repairing of watches is what I pay the greatest attention to no matter how much I have to sell, the work does not get neglected and I always will return the money if I cannot make the watch give satisfaction. No watchmaker can prevent mainsprings breaking and watches getting dirt in them before the warrant is out, but careful attention by a good workman will save many annoyances in that way. Repairs from the neighborhood of Acton solicited.

GEO. D. PRINGLE, Watchmaker, Guelph.
