NOTES AND COMMENTS.

The officials of the finance department have closed the books for the fiscal year ending June 30th, the transactions of each year, owing to the intricacies of Dominion book-keeping, generally overlapping ten or twelve weeks into the following year. The revenue for the year amounts to $38,513,037, and the expenditure to $36,275,447, leaving a surplus of $2,237,550.

Rev. Hugh Price Hughes, the great Methodist minister, attending the Ecumenical Conference at Washington, has a thorough appreciation of the power of the press. Speaking on journalism he said: "Treat the newspapers well. I owe much of my success to them. I tell my ushers to treat a duke with courtesy, but a reporter with reverence, for a reporter now-a-days is a person of much more consequence."

The outlook in Russia for the coming winter is one that may well touch the heart of every generously disposed person. The failure of crops has been general, and the prices of food have already reached a ruinous figure. With a long winter in a rigorous climate staring them in the face the poverty-stricken peasantry are indeed in a pitable condition. Only very generous relief from outside sources can prevent the death of hundreds from starvation before spring.

It is stated, on apparently good authority that the Rothschilds have during the last seventy-five years furnished to the various governments, mostly in Europe, a total of about $2,750,000,000, apportioned substantially as follows:—Great Britain, $1,000,000,000; France, $500,000,000; Italy $300,000,000; Austria, $250,000,000; Prussia, $200,000,000; Russia, $125,000,000; Brazil, $70,000,000; other States, $250,000,000. What the volume of private loans by the Rothschilds may have been nobody can tell.

The amount of the award in the C.P.R. arbitration case was made known after council on Saturday. It is slightly in excess of the amount previously mentioned but even then is considered satisfactory. The amount awarded by the arbitrators is $579,000. The decision as to the payment of costs is yet unknown. The very favorable result—to the Government—of the arbitration must be considered eminently satisfactory. The original claim of the C.P.R. after considerable arguments and whittling down was about $4,000,000.—*Empire.*

Sir Joseph Hickson, who has just returned from a sojourn in England, said to reporter:—"The question of trade relations between the Mother Country and Canada I noticed evidently receives more attention now than it did formerly; and public men there are beginning to take great interest in all the suggestions which have been made for uniting more closely the commercial interests of the colonies and the Mother Country. I may remark that Canadian affairs now receive from the English metropolitan press almost as much attention as do those of the great European nations."

A few months ago the Massey and Harris companies combined forces; last week two more of the big agricultural implement firms of Ontario, the Pattersons of Woodstock, and the Wisners, of Brantford, consolidated with a view to saving expenses. This is another mark of the tendency of special industries to centralization and indicates a bad future for those towns that depend upon bonuses as a means of inducing manufacturing firms to establish industries within their bounds. Has any municipality in the province which has granted a bonus found the result entirely satisfactory?

The Home Government has called upon his Excellency the Governor-General to request the Minister of Militia to submit to his Excellency at the earliest possible moment for transmission to Downing street the report on the defences and fortifications of Canada which was prepared some time since under the supervision of his department. Lord Salisbury's Administration is preparing military estimates and revising the whole Imperial system of outlay for the purposes of offence and defence, and requires this information from Canada as part of the data for the revision. Major-General Herbert, it is understood, has made a general report to the Imperial Government on the militia system of the Dominion. The report which the Minister of Militia has been requested to transmit to London is a more elaborate one than this, and covers far more ground with greater particularity of detail.

The *Globe* pays the following tribute in connection with Dr. Dewart's address at the Ecumenical Conference, to the religious press of the province:—Dr. Dewart's contribution to the discussion of the religious newspaper at the Ecumenical Conference in progress at Washington was a bright and vigorous presentation of the duty of that section of the press. No man could be better qualified to speak on the subject. Dr. Dewart himself conducts one of the very ablest religious newspapers on the continent. Indeed, Toronto's religious press all round is remarkably well conducted, and compares more than favorably with journals of a similar class published anywhere outside of London and New York. The Presbyterian, Methodist, Anglican and Baptist bodies all have admirable weeklies, and the Congregationalists have an excellent little monthly. If *The Christian Guardian* is perhaps the strongest of the representatives of the religious press in the city it is probably because the Methodists have been wise in their generation in confining their energies to one denominational newspaper only, while the Anglicans and Presbyterians, though certainly no stronger numerically than the Methodists, each are required to support two such journals.

COMING AND GOING.

Visitors to and from Acton, and Various Other Personal Notes.

Mrs. Dr. Lowry returned home from Detroit on Monday.

Miss Stoddart, of Beaverton, visited her sister here last week.

Mrs. Andrews, of Clinton, is a guest at the Methodist Parsonage.

Mr. Thurlell Brown, of Teeswater, is home for a few days vacation.

Mr. Robert Holmes has been ill the past week and unable to attend his business.

Rev. G. B. Cooke, has been suffering the past week from a severe attack of Asthma.

Rev. Mr. Norton has been a delegate to the Baptist Convention, at Toronto, the past week.

Miss Forbes, of Saginaw City, Mich., returned home on Monday morning after spending a couple of months here.

Mrs. Wm. Campbell, Annie, Florence and Allan, left for their home in Toronto, on Monday, after spending a few days with Acton friends.

Mr. R. D. Warren, of the Georgetown *Herald*, is attending the Baptist Convention at Toronto, as a delegate from the Baptist Church of that town.

Mr. John Lawson, sr., Mrs. W. Lawson and Mrs. Ferguson returned home on Monday evening, having spent two or three weeks with friends in Michigan.

Conductor Snyder is soon to be placed on the Toronto and Stratford division. He will then have a better opportunity for evangelistic work without interfering with his duties.

Friend Kerr, of the Brussels *Post* is feeling better just now than for three or four months past. Mrs. Kerr and son returned last week from Winnipeg where they went to visit friends last June.

A GEORGETOWN AGENT FLITS.

GEORGETOWN, Oct. 19.—The very sudden departure from the town of the local agent of the Ontario Mutual Life Assurance Company is causing considerable gossip. In making his last regular return it was accompanied by his check for the amount due to the company, but which was subsequently dishonored. This alarmed the company, and they sent Mr. Hodgins, their superintendent of Agencies, at once to make inquiries, which resulted in the discovery that the bird had flown, a defaulter to the company as well as to several citizens. The company holding a bond purporting to have been signed by two responsible parties, it was supposed that the amount of the defalcations would be made good, but on seeing one of the parties he denied having signed it, and claimed that the document was a forgery. The other party to the instrument acknowledged that he actually did sign, and, therefore, he alone will have to make good the loss. The witness to the bond can prove nothing as to the genuineness of the signatures, as he was not present when they were attached, although the names were upon it when he was asked by the agent to attach his name, "merely as a matter of form," which he did, without thinking, simply to help a chum. The probabilities are that the company will seek to extradite the culprit.

Grain Shipments.

MONTREAL, Oct. 21.—A great quantity of Canadian grain will have to go by way of the American ports and probably the most of the Northwest grain will seek an outlet that way. The steamships here have all their space engaged ahead, and shippers in the west are even now commencing to ship through the United States. But some of the steamships will run the risk of being frozen in by ice this autumn, as the rates offering for freight are very tempting. Saturday a consignment of apples was sent from here to Boston for shipment to Britain. All the space on the St. Lawrence steamships has been taken. Hundreds of barrels of apples are piled up along the wharves awaiting shipment.

Return of Prof. Russel.

VANCOUVER, B. C., Oct. 20.—Prof. Isaac C. Russel, who was sent by the United States Government and the National Geographical Society to explore the region about Mount St. Elias, has arrived here. His party ascended Mount St. Elias on the north side, reaching an elevation of 14,500 feet, when they were turned back by clouds and a severe snow storm. From observations taken the mountain is between 18,000 and 19,000 feet high. The party then explored the coast from Icy Bay to Disenchantment Bay, a distance of 100 miles, and also the glaciers.

The Award Handed in.

OTTAWA, Oct. 20.—It is understood that the arbitrators between the Government and the firm of Barber Bros., who made a claim for a breach of contract regarding paper which they were to supply to the Government, have rendered an award of $38,000 in Barber Bros'. favor. This was one of the arbitrations interrupted by the Parliamentary session. Another was the arbitration on the claim of McLean, Roger & Co., which is now being resumed.

A Scarcity of Threshers.

WIKKIPEG, Oct. 19.—It is evident that although scores of new separators have been brought into the province this autumn there will not be enough threshing outfits to thresh the grain out in a reasonable time. A Morden paper says that 500 aditional threshing outfits could find profitable employment for the whole winter and urges the C. P. R. to give special rates to induce Ontario men to bring threshers in here for the season.

4000 Prizes.

Harper's Young People a "World's Fair" for boys and girls, in which no less than 4000 prizes are offered. The prizes include a bicycle and a library of 100 volumes, while not a few of even the lesser prizes are worth from $8 to $20. Every boy and girl is entitled to compete. The *Young People* sends a Prize List free which gives full particulars. Its address is Franklin Square, New York.

The trial of the petition against the election of Mr. Mulock, member for North York, was set to take place at Aurora on Saturday. When the Court met the counsel for the petitioner stated that he had no evidence to offer, and the petition was dismissed with costs. The cross petition was also dropped. Hon. Mr. Justice Ferguson stated, after dismissing the petition, that the impression had prevailed that when a petition was fyled the duty of investigating the charges devolved upon the judges, but the judges had come to the conclusion that they had no power to order the petitioner to proceed with the charges.

It is officially announced that Right Hon. Arthur J. Balfour, M.P., for East Manchester, and at present the Chief Secretary for Ireland, has been appointed First Lord of the Treasury. It is reported that Mr. Balfour will retain his position as the Chief Secretary for Ireland.

SENECAL TO DISGORGE.

Suit Commenced Against one Boodler and Promised for Others.

MONTREAL, Oct. 20.—Great interest was excited here yesterday afternoon by the fact that the Minister of Justice has through Messrs. Archibald & Foster, started proceedings to make Senecal disgorge the commissions he exacted from the various parties from whom he purchased material for the Government. The particulars of Senecal's boodling are so notorious and fresh in the recollection of the public that it is unnecessary to repeat them.

The indictments cover the moneys received from Miller & Richards, of Edinburg, $6000 on purchases amounting to $90,000; from the Barber & Ellis Company, of Toronto, $2000 on purchases of $20,000; from W. B. Blackhall, of Toronto, $2000, on purchases of $19,000; from the Polson Iron Works Company, of Toronto and Owen Sound, $540 on purchases of $7900; from Lannoslot Montgomery, of Montreal, $27 on $1200; from the Dominion Type-Foundry Company, of Montreal, $1800 on $18,000; from Buntin, Reid & Co., of Montreal, $200 on about $3000; from O'Dillon Beauchemin, of Montreal, $100 on $600; the whole sum of Senecal's commissions amounting to $14,817.

ERIN SHOW.

This widely known fair was held last week and as usual attended by thousands. The show is of some considerable excellence from a local standpoint but many of the visitors after arriving at the village puzzled their brains to decide what brought them and so many others to the show.

The exhibition was equal both in point of numbers and exhibits to any that has yet been held under the auspices of the Society, and to make things cheery for the large crowd the Acton and Alton Bands were in attendance on Thursday and furnished excellent music which was appreciated by all. In the Band competion Acton took the first prize. The exhibit in the hall, as usual was first class. The ladies were to the front in their departments, and their exhibits were most creditable in everything. However while giving praise to the women the men must not be forgotten. The exhibits in grain were large and the quality good throughout. The wheat was first class, and so was peas and barley. One sample of White Star wheat, grown by Mr. Wm. Farrow, weighed 65 pounds to the bushel. Field roots were exceptional and so were vegetables. As an instance it may be mentioned that Mr. Thos. Young had six turnips which weighed 166½ pounds, and there were other samples very little behind. There was a falling off in the exhibit of potatoes this year. This may be partly accounted for in that Mr. D. McMillan, generally the the largest exhibitor, did not show. The show of apples was simply grand. Other fruits were well represented.

There was a good show of sheep, cattle pigs and horses, but it would be impossible to particularize. In the afternoon the horse riding was the chief attraction, and it was very near dark before the judges were through.

It is said that the United States importers of "hat-trimmings" are in a state of hilarious ecstacy. For many months they have been importing large quantities of ribbons and other goods of kindred nature at a high rate of duty and paying the tariff under protest, claiming that these articles should be classed as "hat-trimmings." The Treasury Department has finally allowed their claim, has refunded their goods and will refund to them about $6,000,000 already paid in duties. To them, this sum will represent so much clear profit, as the "hat trimmings" have been sold to the owners of American hats at a figure which covered the original high tariff.

The Great Benefit.

Which people in run down state of health derive from Hood's Sarsaparilla, conclusively proves that this medicine "makes the weak strong." It does not act like a stimulant, imparting fictitious strength, but Hood's Sarsaparilla builds up in a perfectly natural way all the weakened parts, purifies the blood, and assists to healthy action those important organs, the kidneys and liver.

Joseph Rozan, Percy, writes:—"I was induced to try Dr. Thomas' Eclectric Oil for a lameness which troubled me for three or four years, and I found it the best article I ever tried. It has been a great blessing to me."

Victory at Vivian.

"In our family faithful work has been done by Fowler's Extract of Wild Strawberry as a sure and quick cure for diarrhoea, dysentry and all summer complaints. I can recommend it to all as a family friend, always true and faithful."—Mrs W. Bishop Vivian, Ont.

A very thoughtful woman.—A man went home the other night and found his house locked up. After infinite trouble he managed to gain an entrance through a back window, and then discovered on the parlor table a note from his wife, reading: I have gone out. You will find the key on the side of the step."

Dr. T. A. Slocum's

Oxygenized emulsion of pure cod liver oil. If you have Difficulty of Breathing—Use it. For sale by all druggists. 35 cents per bottle.

If you have a cough or cold do not neglect it; many without a trace of that hereditary disease have drifted into a consumptive's grave by neglecting what was only a slight cold. Had they used Bickle's Anti-Consumptive Syrup before it was too late, their lives would have been spared. Mr. A. W. Levy, Mitchell, writes: "I think Bickle's Anti-Consumptive Syrup the best preparation on the market for coughs and severe colds. About six years ago I caught a severe cold which settled on my lungs and for three months I had a cough. I had a physician attending me, but gradually grew worse until I was on the verge of Consumption, and had given up hopes of being cured, when I was induced to try Bickle's Syrup. Before I had taken one bottle I found myself greatly relieved, and by the time I had finished the second bottle I was completely cured. I always recommend it for severe colds and consumption."

Purify Your Blood

The importance of keeping the blood in a pure condition is universally known, and yet there are very few people who have perfectly pure blood. The taint of scrofula, salt rheum, or other foul humor is hereditary and transmitted for generations, causing untold suffering, and we also accumulate poison and germs of disease from the air we breathe, the food we eat, the water we drink. There is nothing more conclusively proven than the positive power of Hood's Sarsaparilla over all diseases of the blood. This medicine, when fairly tried, does expel every trace of scrofula or salt rheum, removes the taint which causes catarrh, neutralizes the acidity and cures rheumatism, drives out the germs of malaria, blood poisoning, etc. It also vitalizes and enriches the blood, thus overcoming that tired feeling, and building up the whole system. Thousands testify to the superiority of Hood's Sarsaparilla as a blood purifier. Full information and statements of cures sent free.
