HALL'S
Vegetable Sicilian Hair Renewer
Every year increases the popularity of this valuable Hair Preparation, which is due to merit alone. We can assure our old patrons that it is kept fully up to its high standard, and to those who have never used it we can confidently say, that it is the only reliable and perfected preparation to restore **GRAY OR FADED HAIR** *to its youthful color, making it soft, lustrous, and silken; the scalp, by its use, becomes white and clean; it removes all eruptions and dandruff, and by its tonic properties prevents the hair from falling out, as it stimulates and nourishes the hair glands. By its use the hair grows thicker and stronger. In baldness it restores the capillary glands to their normal vigor, and will create a new growth except in extreme old age. It is the most economical* **HAIR DRESSING** *ever used, as it requires fewer applications, and gives the hair that splendid glossy appearance so much admired by all. A. A. Hayes, M.D., State Assayer of Mass., says, "the constituents are pure and carefully selected for excellent quality, and I consider it the* **BEST PREPARATION** *for its intended purposes." We publish a treatise on the hair, which we send free by mail upon application, which contains commendatory notices from clergymen, physicians, the press, and others. We have made the study of the hair and its diseases a specialty for years, and know that we make the most effective preparation for the restoration and the preservation of the hair, extant, and so acknowledged by the best* **Medical and Chemical Authority.**

Stop That Waste of Fuel!
BY USING
COMSTOCK'S
Patent Revolving Flue
RADIATOR.
THIS RADIATOR is constructed on an entirely different principle from any of the so-called Heating Drums, most of which have proved worse than useless, the Revolving of this keeps it clear of soot. The heat and draft can be regulated at will. It is adapted for use on all Heating and Cooking Stoves, burning either wood or coal, and in any place where Stoves are required; it may be used as an upper room heater, taking the place of the old unsightly Dumb Stove. It consumes gas and smoke, and will save one-third the fuel ordinarily consumed. At the same time
Increases Heat 30 per Cent
When the Radiator is in a proper position, it is impossible for sparks to pass through to endanger the building. For this alone it is worth more than the price asked for it.

"For purposes of social exhilaration amongst classes who are not out-door laborers, beer is too coarse. Man, as a social animal, requires something which, he can sip as he sits and talks, and which pleases his palate, while it gives some aliment to the stomach, and stimulates the flow of genial thoughts in the brain. No one who has ever made the experiment will fail to give the preference to wine over spirits, or can refuse to give a helping hand to any 'movement' that will banish spirits to their proper place, as medicines for the sick and aged, and not as beverages for the healthy. Civilized man must drink, will drink, and ought to drink; but, it should be wine."—*From Dr. Druitt's Report on Cheap Wines.*
The late unhappy calamitous war in France, and subsequent disturbances, have affected our importations less than might have been anticipated, owing to the remoteness of the great wine districts of the south from the seat of hostilities. In some cases the disorganization of the lines of railway has prevented or delayed the transport of wines from the interior, and more especially from Burgundy and Champagne, but on the other hand, the scarcity of money and the depression of business have enabled us to make some extensive purchases much below the usual rates, and to give our customers corresponding advantages.—*St. George & Co's Circular.*
