NOTES AND COMMENTS.

The city of New York pays out annually for education as much as four of the less populous southern states altogether. The sum required for the present school year is $4,027,832. In spite of this, however, the public schools of the big city are inferior in excellence to those of small places both east and west.

Another link in the chain of submarine cables round the coast of Central and South America has been established by the completion of the system of the Societe Francaise des Telegraphes Sous-Marins between the West Indies and Brazil. This places the United States and Brazil in closer telegraphic communication than they have been before.—*Electrical Review.*

A proclamation was published on Saturday revoking that published a couple of weeks since, ordering an election upon the repeal of the Scott Act in Drummond county, Que. It appears that the time limit within which an election is impossible will not expire until next year, the Act having only been put into force in that county in June, 1890.

The Yankee rain-makers are evidently convinced of their ability to bring down showers upon thirsty land whenever necessary. Frank Melbourne, one of the experimenters, signed a contract to supply Kansas farmers with rain for 10c. an acre. There is very little a genuine Yankee will not profess to do, whether he can manage it or not, as this instance shows.

Industrious and economical housekeepers in the United States are complaining because they cannot get enough jelly glasses. Grapes are so cheap that a winter's supply of jelly costs very little. The same complaints were heard here a few weeks ago in regard to the small stocks of preserve jars. The glass factories have been working overtime, but they cannot supply the demand in some localities.

A new name has been given to part of the Pacific Ocean. A sort of a basin is formed by the east coast of Australia and Tasmania, New Zealand and the western islands of the Polynesian groups which in the opinion of Australian geographers should have a distinctive name. The Australian Association for the advancement of Science has accordingly given to this basin the name of Tasman Sea and the English Admiralty has ordered that the name be inserted upon the Admiralty charts.

A man who has so much to do that he will work nights and Sundays as well as week days is not likely to do as much in the long run as the man who rests at God's appointed times in order to fit himself for effective work between these times. Many a busy man breaks down a great deal earlier than he needs to because he insists on working when rest is his first duty. And many a man who observes God's law of the night and the Sabbath, written in man's very nature, accomplishes far more in a series of years than he could have wrought with any violation of that law.

The Methodist Ecumenical Conference closed its sessions at Washington last week. The week beginning November 15th next was recommended to be set apart as a week of prayer. The next Ecumenical Conference will be held in 1901. An address was issued to the Methodists throughout the world. It states that the adherents of Methodism number some 25,000,000 and it reiterates the church's adherence to the simple, scriptural and generous theology which God, through the clear intellect and loving heart of John Wesley, restored to his church and declares that every proposal that imperils the sanctity of the home, the purity of women, the innocence of children, that violates the Christian Sabbath, that sanctions and increases wrong, should be impartially and earnestly resisted.

It is nearly thirty years since Livingston emerged from South Africa, having been to all intents and purposes lost to the unknown interior for about seventeen years. But the work that has been done in the way of pioneering in this region during the past two years is amazing both in extent and quality. Two years ago Kimberley was the farthest railway station northerly from Cape Town. Now the railway has been extended to Vryburg, a distance of 124 miles, and is now in good running order. A section ninety-eight miles long is being built from Vryburg to Mafeking, both of them flourishing towns. The third section will be 450 miles long, and will reach Bulawayo, the capital of King Lobenguls, and of the most powerful native kingdom south of the Zambesi. A railroad 300 miles long is to be pushed immediately from Mashonaland to the Indian ocean. Telegraph building has gone northward considerably in advance of the railroad construction, and good waggon roads are being made in all directions. All this is being accomplished in savage countries which white men hardly dared to enter a few years ago. Of course the work is preparatory to developing the immense mineral and agricultural resources of the country, but the method of it reverses all the old traditions of pioneering. In the old time the early and lone pioneer found the country gradually change around him until it was transformed beyond his recognition. In the new time the transformed country comes first and the pioneer afterward.

EAST WELLINGTON.

Two Reformers Nominated for the Vacant Seat in the Assembly.

FERGUS, Nov. 3.—The nomination of a candidate for East Wellington was held in Fergus to-day and was fairly well attended. John Anderson, registrar for North Wellington, acted as returning officer. John Craig, the editor of the Fergus *News Record*, was nominated by Thomas Dryden, reeve of West Garafraxa, and seconded by Alex. Carter, Elora, while James Kirkwood of Erin, was nominated by John McNabb, of West Luther, seconded by Robt. Reed, of Erin. Mr. Kirkwood first addressed the meeting briefly, and declared that he was a farmers' candidate. He had been a temperance man all his days, he had been a supporter of the Mowat Government, and would support good measures from which ever side they came. He told the delegates that he would accept the nomination of the convention if offered to him. Mr. Craig followed in a speech of some length, in which he claimed the votes of the electors on the ground that he was the legitimately selected candidate of the convention. He had always supported the Mowat Government. He spoke against class legislation. Mr. Tuckey spoke in favor of Mr. Kirkwood and was followed by Col. Clarke, the late member, he was prepared to do his utmost to carry out the decision of the convention. Dr. Groves then spoke for some time in favor of Mr. Kirkwood. The election will be an exciting one.

KILLED INSTANTLY.

A Distressing Accident to a Respected Farmer of Grey

OWEN SOUND, Nov. 3.—A very distressing accident took place in Holland township this morning at 11 o'clock, by which Daniel C. Taylor, son of Mr. Hugh Taylor a well-known resident of Owen Sound, was instantly killed. Mr. Taylor was drawing in turnips from a field, and while passing through a "gap" with a full load in some manner fell from the waggon, and the hind wheel passing over his chest killed him outright. He never once breathed after the accident. His two boys, Harvey and Willie, and another boy were also hauling turnips, and saw the accident. They at once gave the alarm, but nothing could be done except remove the lifeless body to the house. The deceased was about 37 years of age, and leaves a wife and six children. He resided on lot 6, concession 6, Holland, and was respected by all who knew him. Mr. J. N. Perdue, who lives across the road from Mr. Taylor's farm, brought in word of the accident, and the deceased's father and brother, Mr. W. H. Taylor, of the Palace drug store, at once left for the scene of the event which has so severely bereaved them. Deceased was a brother of Mrs. (Rev.) Joseph Edge, Acton. It is needless to say that they and the widow and children have the sympathy of hosts of friends.

A sad Interruption to a Wedding.

VICTORIA, B. C., Nov. 1.—A wedding to have taken place yesterday was indefinitely postponed owing to the receipt of a telegram from Glasgow, Scotland, announcing the death of the father, mother, brother and sister-in-law of the prospective groom, John Ritchie. The marriage feast had all been provided, the guests invited and all the arrangements made for a happy time. On receipt of the cablegram Mr. Ritchie fainted, and on being restored remained consciousness only a few minutes. He is now delirious and may not recover. The guests had not been notified of the facts of the case and as they arrived were turned away.

SUNDAY SCHOOL PROGRESS.

A Most Successful Provincial Conference of Workers at Ottawa.

OTTAWA, Oct. 30.—The twenty-sixth annual convention of the Sabbath School Association of Ontario closed here last night with the singing of the hymn, "God be with you till we meet again." Judged by the enthusiasm and interest in the work which it has aroused, the convention was one of the most successful in the history of the Association. So much of the credit for this was due to Mr. B. F. Jacobs, of Chicago, that the fact was duly accorded by resolutions.

The special committee, to whom was referred the report of the executive, reported in favor of the formation of normal classes and primary unions, and that the province be divided into fourteen districts, each group of counties to hold conventions consecutively. The report also recorded the fact that the progress of Sunday School work equalled the records of any previous five years put together. Mr. L. C. Peake, of Toronto, presented the call for contributions from counties and cities, and in half an hour $1,500 was subscribed.

Upon the suggestion of Mr. Jacobs, it was agreed to petition against the proposal to keep the Chicago World's Fair open on Sundays.

The invitation to hold the Convention at Guelph next year, was read and accepted. The following officers were elected for the present year:—

PRESIDENT—A. Mutchmor, Ottawa.

MINUTE SECRETARY—H. P. Moore, Acton.

Mr. Score was elected chairman of executive and the Toronto members a sub-committee to carry out the business of the Association as instructed by the general executive. It was announced that Toronto contributed $1,100 out of the $3,500 received by the Association last year.

SUICIDE AT ORANGEVILLE.

A Georgetown Man Ends his Life in a Mill Pond.

An Orangeville despatch says:—One of the employees at Morrison's shingle mill in John street found a hat, an overcoat and two undercoats on the bank of the pond above the mill about 9 o'clock Sunday morning. Through the thin coating of ice that covered the water near by, was discernible the form of a man lying on his face. The water at this place is about six feet deep. A few minutes' grappling brought the body to the surface when it was recognized as that of Jimmy Jones, a well known character around town. The face looked as natural as life although the body must have been in the water for at least five or six hours. Jones was about 55 or 60 years of age, and was an Englishman by birth. He spent ten years with the British army in India and came to Georgetown about 20 years ago. He formerly worked as mason's laborer, but lately has been employed as hostler and porter around various hotels in Orangeville and vicinity.

NORTHERN BUSINESS COLLEGE.

"Ten goin' on eleven" is the age of that prosperous institution, the advertisement of which appears in another column. This famous institution has had ten years of continued growth and though small at the beginning the thorough practical work of the past decade has placed it far in advance of any other similar institution in Canada.

Judge Creasor in his address to the Grand Jury, in giving directions to them to visit the various public institutions, referred to this institution as follows; "there is another important educational institute in this town, though conducted by private enterprise, is of sufficient public importance to merit a visit. I refer to the Northern Business College of which Mr. C. A. Fleming is principal."

The Minister of Education in a recent address said "It pleases me very much to see the educational enterprise of Mr. Fleming who by energy and preseverance has built up an institution which gives promise of being one of the first schools of the day." We congratulate Principal Fleming on the high reputation obtained by his worthy institution, and we do not know of any better advice to give a young man or young woman who wishes to be self reliant and successful than to take a course at the Northern.

Col. O'Brien Safely Seated.

BRACEBRIDGE, Ont., Oct. 31.—The petition against the election of Col. O'Brien, M.P. for Muskoka and Parry Sound, was to-day dismissed with costs to the petitioner, no evidence being submitted. The session opened at 11 a.m., and lasted five minutes, Justices Street and Falconbridge presiding.

CONSUMPTION.

I have a positive remedy for the above disease; by its use thousands of cases of the worst kind and of long standing have been cured. Indeed so strong is my faith in its efficacy, that I will send TWO BOTTLES FREE, with a VALUABLE TREATISE on this disease to any sufferer who will send me their EXPRESS and P.O. address. A. SLOCUM, M. C., 186 ADELAIDE ST., WEST, TORONTO, ONT.

THE LADIES INTERESTED

In the Distribution of $1,500.—A Spirit of Friendly Rivalry Stirred up.

The Ladies Alive to the Importance of the Great Undertaking.

The ladies of Canada are delighted; husbands note with pleasure the smiling faces of wives and daughters; indeed, the whole country is stirred up with a pleasurable excitement.

It simply amounts to this—that the manufacturers of the celebrated and universally used Diamond Dyes have inaugurated a grand competition scheme known as the "Diamond Dye Competition," which is freely thrown open to every mother, wife and daughter of our broad Dominion.

No less a sum than $1,500.00 will be distributed to the mothers, wives and daughters of Canada, in first, second and third prizes. This sum is really being returned to the consumers of Diamond Dyes. Every lady in Canada can afford to become a competitor, and has sufficient intelligence and ability to make up some of the articles mentioned in the long and varied list. Ample time is afforded to all for experimenting and becoming perfect as competitors for the large cash prizes offered.

It is an unprecedent act of liberality on the part of the wealthy manufacturers of Diamond Dyes and never before attempted by any similar institution in the world; and the public have the most ample proof that every promise will be faithfully carried out.

During the season the manufacturers of Diamond Dyes have contributed liberally to country fairs, in order to encourage Household Economy and Art. Small and a most unknown concerns have tried to stimulate this character of work, by the offer of insignificant sums of from one to three dollars, that would not in any instance defray cost of dyeing and the making up of goods called for. We fear these small imitators have not yet discovered the fact that the ladies value too highly their time and materials, to be lured by such trifling and miserly prizes.

The fairs of our country having closed for the season the manufacturers of Diamond Dyes mean to keep the ladies busy during the long autumn and winter evenings, by offering large and substantial prizes in keeping with the character of work asked for.

The production of every competitor will form an exhibit in the large and well-equipped Diamond Dye establishment in Montreal, and three of the largest and best known Dry Goods firms in Canada have promised experts to award the prizes. These well-known houses are: Henry Morgan & Co., Henry & N. E. Hamilton, and John Murphy & Co.

Graham & Co., proprietors of the Montreal "*Daily Star*" and "*Family Herald and Weekly Star*," have signified their willingness to act as judges on the various Essays sent forward for the competition.

Young and old, rich and poor, have an equal chance in this magnificent and novel competition scheme; therefore all should willingly enter. If you have not yet received a book giving full particulars of the scheme, write at once to the Wells & Richardson Co., Montreal, who will send it post free.

We are asked to remind our readers of the fact that all intending competitors should at once signify their intentions of becoming competitors, by sending in the form, properly filled up, which is found on page 15 of the book referred to. We wish to impress upon our people the fact that this contest is absolutely free to all. There is no cost for books, no entrance fee, and no money to be sent forward; it is as free to all as the air we breathe. We trust our people will do what they can in this competition, and thus sustain the reputation of our women and girls as adepts in household work and art.

Running Comments.

Our theme to-day is a varied one. We've so much to talk about. Here a line of Novelities, there a job purchase at a Bargain, yonder a department which we are clearing out altogether.

This latter remark applies especially to Carpets. We are closing them out entirely and you can strike a "snap" if you buy our Carpets.

TAPESTRY CURTAINS and Portierres are included in the line of "Clearing Out." There are about 80 pairs. Worth money to you to see them.

FURS. Have you felt the rushing of the winds. Cold weather is here. Note this. We have just opened the best value in Beaver Capes, Storm Collars, Muffs, and Caps that we have ever shown. They are 25 per cent. under present prices.

BLACK DRESS GOODS. Never sold one half so many Black Dress Goods as this season. Fresh Import of Henry Serge, Polka Spots, Bedford Cords, and French Henriettas, just opened.

TWEED DRESS GOODS. What a run we've had on these Goods. Just put into stock, Novelties and style and coloring, and values to please the buyer.

SEALETTES. Taking the lead for Winter Mantlings. We show them in 5 different prices; fully 25 per cent. cheaper than ever. Our mantle-makers know how to make up a nice Sealette. Try them.

WHITE SPREADS. Here's a bargain, American Goods, in low prices beat them all. Can't get them anywhere so good for the money. Three special grades on the counter very cheap.

Fancy Printed Flannels.—So much sought after for housewear, showing lovely patterns at 50, 60 and 70c. Warranted all wool. Not the shoddy goods that drug the market.

Terms Cash. No Credit.

Piles of new Fall and Winter goods tumbling in. They are beautiful to behold and comfort-to look at, and they are withal cheap. This is espicially true of our dress goods which we have in plain and fancy cheviots, plain and fancy tweed effects, blue and black serge diagonals, camel's hair cloths, black and colored Estamenes, fancy plaids and checks, black and colored silks, satin Merves, Pougees, Pongis, and Bengalines, fancy black goods black and colored Henriettas, an extensive variety of fancy dress goods beginning at 5c. per yard and upwards. Our staple goods are purchased right and selling cheap flannels, blankets and quilts are at the right price for the customers, grey flannels from 10c. per yd. upwards. Our gloves, hosiery and ladies' underwear are at the top of the heap for variety and lowness of price, we have ladies' jackets, cloaks, ulsters, children's reefers in profusion, and the very latest styles, mantle goods and ulsterings of all kinds including sealettes and plushes.

Our Millinery is in first class working order replete with the latest fall novelties. Our millinery opening will be on Thursday, 24th of September and the following days of the week. Our dressmaker has got back from her holidays, fresh with new ideas to match the dress goods. We must not forget to mention our Tailoring department, it is A1, we get customers from all parts of Canada to patronize this department, the reason why, the price, fit and workmanship of the garments are right, our ready-made clothing, overcoats in boys and mens are in complete assortment, prices low. Ladies' and Gents' footwear are right in price variety and quality. Our carpets rugs, curtains, oilcloth, linoleums were never in better shape, nice tapeetry carpet for 25c. per yd. for 30c. per yard you will get one worth 45c. and excellent Brussels carpet for 90c. per yd. we may just add that we tried to surpass our previous efforts, and we have piled up and immense variety of goods at extremely low prices inspection and patronage respetfully solicted.

FURS

BLANKETS

Do you want Furs? If so, are you aware we deal largely in that line? If your ideas run in the direction of a Storm Collar and Muff, a Boa, Cape or Jacket we can save you money on them. We don't claim to be smarter than anybody else but in this line we have "the pull" and can buy cheaper than most people. It goods are not bought right they cannot be sold right. In the finer furs we always select the skins and have them made up to our order, so patrons can rely on getting whole skins, pieced goods are dear at any money. We are giving great bargains in Men's Persian Lamb and Beaver Caps. Examine our Hindoo Buffalo robe. No robe looks so well for the money, no robe wears and the price places it within the reach of all.

These cool nights suggest Blankets. Our Blanket stock was never more complete. We show a fine line in 5, 6, 7 & 8 lbs at 57 cents per lb; other stores get 65 for no better, and comfortables, too, we have in great variety, from the $1 a piece kind to the fine Eider Down—beautiful colors. We don't have tall prices for the goods, we would rather sell a lot at a small profit than a few at a large profit. We would not say one word about Flannels if we couldn't prove to your liking that our prices are the lowest. We start at 12½c. imagine the fineness of a 30 cent Grey. That pile of English Flannelettes at 7 cents is going down fast.
