A Diabolical Deed

The most diabolical massacre committed by the Paris Commune last year was that in the Rue Haxo. The trial of those implicated in the murder of forty-seven priests and sergeants de-ville in that street is not yet concluded. The Abbe Reymond says:

When the victims were halted, there was a certain hesitation among the assassins, and a discussion commenced. One of the chiefs mounted on a wall and spoke with extreme violence, brandishing his sword; then a cantiniere with her hair in a white net, advanced, shouting out, "No pity, no pity for the Versaillais who are assassins. No caloting! no gendarmes," and she discharged her pistol. The signal was given, a second shot was fired, then a third, and afterwards there was a general discharge. The women who were in the crowd got up on the wall, and hounding on the murderers with their applause, insulted the victims. Another man, who looked on from a distance, declared that the gendarmes were first shot, and that the others were disposed of as they arrived at the place of execution. "At the end of twenty or twenty-five minutes," added this witness, "when the victims were all on the ground, and their dead bodies formed a heap, several discharges were fired into the inanimate mass. Two of three officers and men then stamped on the bodies. I then saw a gendarme, who was quivering in a pool of blood, and an officer put a pistol to his ear and finished him. Altogether, what with a woman boasting that she had tried to tear the tongue out of a priest, the Rue Haxo affair appears to have been the most diabolical massacre committed when the Commune was at bay.

Caution! In our changeable climate coughs, colds, and diseases of the throat, lungs and chest will always prevail. Cruel consumption will claim its victims. These diseases, if attended to in time, can be arrested and cured. The remedy is Dr. Wistar's Balsam of Wild Cherry.

HALL'S Vegetable Sicilian Hair Renewer

Every year increases the popularity of this valuable Hair Preparation, which is due to merit alone. We can assure our old patrons that it is kept fully up to its high standard, and to those who have never used it we can confidently say, that it is the only reliable and perfected preparation to restore GRAY OR FADED HAIR *to its youthful color, making it soft, lustrous, and silken; the scalp, by its use, becomes white and clean; it removes all eruptions and dandruff, and by its tonic properties prevents the hair from falling out, as it stimulates and nourishes the hair glands. By its use the hair grows thicker and stronger. In baldness it restores the capillary glands to their normal vigor, and will create a new growth except in extreme old age. It is the most economical* HAIR DRESSING *ever used, as it requires fewer applications, and gives the hair that splendid glossy appearance so much admired by all. A. A. Hayes, M.D., State Assayer of Mass., says, "the constituents are pure and carefully selected for excellent quality, and I consider it the* BEST PREPARATION *for its intended purposes." We publish a treatise on the hair, which we send free by mail upon application, which contains commendatory notices from clergymen, physicians, the press, and others. We have made the study of the hair and its diseases a specialty for years, and know that we make the most effective preparation for the restoration and the preservation of the hair, extant, and so acknowledged by the best Medical and Chemical Authority.*
