NOTES AND COMMENTS.

Local municipalities will bear in mind that the plebiscite vote on prohibition to be taken at the next municipal elections is to be taken at the expense of the municipalities. This will doubtless be the means of preventing many elections by acclamation, as there will be little object in doing so, so far as the expense is concerned, as there must be an election in any event.

Young women and girls are strongly advised against making arrangements to go to Chicago as servants or hired help of almost any kind with employment agents just now—be they men or women. Ten chances to one they will lure you to your ruin. Your expenses may be paid to Chicago, but the honest situation at big wages will not be forthcoming when you get there.

In an article on Canadian Affairs, a writer in *Harper's Weekly* says:—"Full reciprocity, commercial union, or continental free trade, whatever may be the designation of the device, will mean nothing more or less than independence or annexation. The Imperial Government will not continue to lend its army and navy and its diplomatic service to a country that discriminates against its commerce and in favor of the commerce of the United States."

Humorous is last week's Canada *Presbyterian*, is very indignant at the laws of Ontario which permit a man being sent to jail for not paying his debts. He also refers to the disgrace and scandal existing in many counties not blessed with a poor house, where poor people, are kept in jail year after year, for no other crime than poverty, that being deemed the best way to get rid of such people who have not sense enough to die before being unable to take care of themselves. The County of Halton is one of that class of constituencies.

A striking indication of the enlightenment, the independence, and, above all, the religious tolerance of the present Emperor of China is furnished by his appointment of the Roman Catholic Missionary, Bishop Anzer, to the rank of a mandarin of the highest class. This nomination tends to confirm the assertion made by the Pekin Government to the effect that it condemns and deplores in the strongest manner the persecution to which both the Catholic and Protestant missionaries and converts are subjected by the populace and inferior officials of certain of the seaport towns and treaty ports.

Although the Masonic Grand Lodge at Ottawa voted down a resolution to prohibit the use of intoxicating liquors in connection with the Order, on the ground that it would be unwise for the Grand Lodge to unnecessarily interfere with the individual lodges, yet Grand Master Gibson stated that in two thirds of the Masonic lodges visited by him last year tea and coffee were the strongest beverages placed upon the refreshment table. This is an evidence not only of the growth of temperance sentiment throughout Ontario but shows also that the great Masonic body, which holds a position in the front rank of the fraternal societies is well in the lead of a good cause.

Recent reports touching the apples export trade show that the total export from Canada and the United States in 1892-93, was 1,202,338, Canada supplying 795,695 barrels and the States 407,643. The shipments from Canadian ports were 545,968 barrels, while those of Canadian apples from American ports were 249,727 barrels. The shipments for the last season were looked upon as very heavy, but they were exceeded in 1880-81, when 1,328,806 barrels were shipped from Canada and the States, 1888-89, when 1,407,302 were shipped, and 1891-92, when 1,450,336 were shipped. The difference in former years, though the shipments were larger, lay in the fact that those from Canada were very much less, in proportion to the whole, than last year.

Mr. George Johnson, dominion statistician just prepared an interesting statement from the census returns, which shows that church goers of the Dominion have 10,480 church edifices throughout the land. Nearly 32 per cent of these belong to the Methodist, 17 per cent. to the Presbyterian, 17 per cent. to the Roman Catholics, 16 per cent. to the Church of England, 12 per cent to the Baptists and 6 per cent. to all other denominations. During ten years the Baptists have increased the number of their churches by 324, the Catholics by 229 the Church of England by 415, the Methodists by 322 and the Presbyterians by 111. During the past ten years the Church of England appears to have been the most active in providing places of worship for the people. The Presbyterians come next, the Baptists third, the Methodists fourth and the Catholics last.

At the meeting of the Council on Monday evening the rate for the present year was struck at the very satisfactory figure of fifteen mills. Repairs and improvements have been kept well up to what they should be throughout the town thus far during the year, with considerable work still to be effected. In addition to the usual expenditures the town hall has been renovated and improved at a cost of about $250, and the amount due for sinking fund on each of the debentures of the municipality has been levied for—a proceeding never before taken, except in the case of the Town Hall debenture, a payment to reduce them having been made annually as they matured. The rate levied anticipates the payment of all indebtedness of the municipality for the year, and a good working balance to be carried forward for next year's business. That credit is due the Council for this we think all ratepayers will admit. We believe they have endeavored to faithfully perform the duties entrusted to them, and the accomplishment of their undertakings with a reasonably low rate of taxation will meet the approbation of taxpayers generally.

William Beatty's saw mill at Parry Sound was totally destroyed by fire early on Sunday morning. The lumber docks, tramways and houses in connection were all saved. Loss, about $10,000, partly covered by insurance. The water works proved of service in preventing the spread of the fire.

FIFTEEN MILLS ON THE $

Our Municipal Council Keep the Rate Down to last Year's Figure.

CIVIC HOLIDAY—11th AUGUST.

An important meeting of the Council was held on Monday evening when the rate for the current year was struck.

Council met at 7.30. Reeve Pearson in the chair; Councillors Havill, Anderson, Williams and Corry in their places.

The minute of last meeting were read and approved.

The Committee on Finance presented their twelfth report recommending the payment of accounts as follows:

Greenless Bros., lumber	$ [illegible]
H. P. Moore, Printing Voters List, etc.	21 30
David Mills, Work on Streets	16 20
Jos. Meredith, Work on Streets	[illegible]
	$110 60

Moved by John Williams, seconded by J. E. Corry, that the above report be adopted. Carried.

Messrs I. Francis and John Cameron waited upon the Council and presented a requisition signed by sixty ratepayers asking that Friday, 11th August, be set apart for a Civic Holiday for the Municipality.

The Reeve accepted the petition and stated that he would issue his proclamation setting apart the day named, in this week's issue of the FREE PRESS.

Messrs. H. Jeans and James Wilson requested the use of the Park for Friday evening for the annual picnic of Acton Temperance Union.

The use of the Park was granted, upon the payment of the nominal rental of $1.00, to comply with terms of Park By-law.

The receipts and Expenditures for the current year were finally considered and the estimates were brought down as follows:

Moved by Geo Havill, seconded by John Williams, that the sum of $20 be granted the Reeve for Charitable purposes. Carried.

Council then adjourned.

THE GREAT C. E. CONVENTION.

The Impressions of Halton County Union's Representative.

In a letter to the President of Halton Christian Endeavor Union, respecting the recent convention at Montreal, Rev. S. S. Craig, of Oakville, who was the County representative tersely states his impressions as follows: I told you before leaving for the convention that I would let you know how things went. Allow me to say that everything passed off pleasantly, profitably and gloriously. Our sail down the St. Lawrence, to begin with, was simply delightful; the green islands adorned with picturesque cottages were magnificent and the run through the rapids produced an indefinable, but never to be forgotten, exhilaration. The companionship of the Endeavorers while on the boat was most congenial and afforded a foretaste of the great treat awaiting us in Montreal.

And now about the convention. I can only deal in generalities. For me it was a big convention. I never before withstood such audiences. It was a harmonious convention, for not once did I see or hear anything among the endeavorers in the slightest degree suggestive of friction or discord. It was an enthusiastic convention. It was exceedingly difficult to hear the speaker if you were consigned to a seat back of the middle of the drill shed yet for hour after hour thousands of people sat back of that point and joined heartily in the applause and in the waving of handkerchiefs. Why did they stay there when they could not hear? Simply because of the cohesive power of a boundless enthusiasm. A man would have to have a heart of stone to resist the contagious moral and spiritual effect of such a gathering of the people of the Lord. It was a practical convention. Experienced Endeavorers declared it to be the most practical International Convention ever yet held. The response of every heart to the call of the spirit of God, whose presence was profoundly felt in every meeting, was, to all appearances, "Here am I, send me."

But there is no use trying to describe. Words fail me. Let it suffice to say that in connection with religious assemblies it was the grandest experience of my life and I never expect to have the privilege of repeating it unless it be at another international convention. The Montreal people were exceedingly kind and obliging towards the Endeavorers.

SILVER COINAGE IN INDIA.

Lord Randolph Churchill Thinks India's Scheme Should be Well Tried.

LONDON, July 26.—Lord Randolph Churchill, assistant leader of the Unionists in the House of Commons, has written a letter to the *Mail* concerning the closing of India's mints to the free coinage of silver. He says that he fears that Bertram Currie, whose influence is paramount in finance of the India office, is averse to any expedients which he would consider artificial for raising and maintaining the value of the rupee. On this account, Lord Randolph thinks, Indian plan may not have such a fair trial as it otherwise would receive. Lord Randolph believe that the plan of the Indian Government ought to be tried for a considerable time, and with much patience and hope.

A committee has been formed in Rome to make preliminary arrangements for an international exhibition in Turin in 1896.

SUNDAY SCHOOL WORK.

A Meeting of the Provincial Representatives at Milton.

At the semi-annual meeting of the Executive of the Provincial Sabbath School Association of Ontario, held in Toronto in May, on recommendation of the General Secretary, it was decided to divide the Province into districts with a sub-committee of the executive in each district, to oversee and advise in reference to the Sunday School work and organization of such district, and to bring the local organizations more into touch with the Provincial Executive. In furtherance of this scheme there met at Knox church, Milton, at 2.30 p. m. Monday the following representatives: Alfred Day, General Secretary, Toronto; H. P. Moore, Minute Secretary, Acton. From Peel—Rev. R. J. M. Glassford (Guelph), R. McClure, Streetsville. From Halton—Rev. J. W. Rae, Acton. From Wentworth—J. H. Horning, Hamilton. From Waterloo—Rev. Geo. Richardson, Berlin. From Guelph—A. J. Little, F. W. Galbraith. A letter was read from Rev. L. W. Thom, Arthur, Secretary for Wellington county, cordially approving of the plan, and offering help.

Rev. J. W. Rae was chosen chairman pro tem.

It was resolved that Central district No. 1 should consist of the counties of Peel, Halton, Dufferin, Wellington and Waterloo, with North Wentworth and the city of Guelph.

Rev. R. J. M. Glassford was elected chairman of the district, and F. W. Galbraith secretary.

In order to secure the services of the General Secretary, Mr. Day, at the annual county conventions, with the least expenditure of time and money, it was resolved to recommend to the county associations that their annual meetings be held in February as follows: Wellington, Tuesday and Wednesday, 6th and 7th; Dufferin, Wednesday and Thursday, 7th and 8th; Waterloo, Tuesday and Wednesday, 13th and 14th; Peel, Thursday and Friday, 15th and 16th; Wentworth, Tuesday and Wednesday, 20th and 21st; Halton, Thursday and Friday, 22nd and 23rd; Guelph, Tuesday, 27th.

A general talk ensued over the efficiency of township and county organizations in the district, the holding of an annual convention being taken as the measure of life in such organizations; suggestions were also thrown out as to means for bringing the township organizations more into relation with the county associations.

The Normal work was brought up, its necessity urged, and on motion of Messrs. Glassford and Richardson, the district affirmed the position of the Provincial Executive in regard to the extension of Normal work in the Province, and recommended to the counties of the district that a Normal superintendent be appointed by each County Association at its next annual meeting, said officer to co-operate with the Provincial instructor, and to further this important work in every possible way.

The General Secretary spoke of the importance the Home Department of the Sunday School was attaining in New York state, two paid officers being detailed by the State Association for this work. Its aim is to bring into relation with the S. S. and the study of the S. S. lesson, those who, for good reason, cannot attend the school.

Some minor matters of organization were talked over, and the committee adjourned at 4.30 to meet in Guelph in January, at the call of the chairman.

This new movement bids fair to be of great benefit to the Sunday School work of the Province. The district committee has no legislative powers and is not a distinct organization, but is rather a breaking up of the Provincial Executive into sub-committees for this special work of more fully aiding and inspiring the county and township organizations to greater efficiency and unified effort.

In the evening a public meeting was held and stirring addresses delivered by J. A. McCrea, President, Alfred Day, General Secretary of the Provincial Association, and others. Guelph *Mercury*.

JOURNALISTIC ENTERPRISE.

The Montreal *Witness* did grand work in reporting the different meetings of the recent Christian Endeavor Convention, which shows that the office is one of the best equipped in Canada. In referring to its winding up edition, it says: This is the last number of the special morning edition of the *Witness* prepared with the object of furnishing to those Endeavorers left at home a full and perfect account of the great religious festival with which Montreal has been honored. It is ever the ambition of the *Witness* to furnish a paper worth of offence, and Endeavorers can, we think, have confidence in sending its report to their friends that they are not sending the Lord's message and the devil's message in the same wrapper. This special number has cost a great deal of extra effort which has been carefully and untiringly put forth by the *Witness* workers with a large measure of that sympathy with the occasion which has been so general throughout our community. What will interest friends who know something of printing is the fact that the whole of this matter in both the morning and afternoon papers has been set by seven hands in the daytime and five at night. A triumph of machinery, and not a line was set or any work done except, of course, reporting, on any part of Sunday.

CURRENT LITERATURE.

The Methodist Magazine for August, 1893. Price $2 a year, $1 for six months, 20 cents per number. Toronto: William Briggs. The finest literary article in this number is one, copiously illustrated, on "The High Alps as a Health Resort," by the late John Addington Symons, one of the most accomplished writers and critics in the English language, whose long fight for life recently terminated at Rome. Dividing the honors with this is President Quayle's brilliant character study on "William III., Prince of Orange." "British India," by Hon. W. R. Grame, M. P., is finely illustrated. Other papers are A life sketch of the late J. G. Wood, author of "Homes without Hands," etc., and a clever sketch of "Our Gilmore," the Robinson Crusoe of missionaries and Daniel Defoe of missionary writers, by Miss Sanderson. Professor A. Coleman, Ph. D., of the Toronto School of Science, gives an inside view of German university life and the German mode of examination, so different from the method obtaining in Canada. The Editor describes a visit to a Greek monastery, and to the Greek and Armenian patriarchs of Jerusalem, with illustrations. Memorial articles on the Rev. David Savage and the sweet poetess, Lucy Larcom, and of Dr. McAll, founder of the famous McAll Missions in Paris, give pathetic interest to the volume. The serial stories increase in interest as they approach their close.

Lightning struck a heap of rubbish in rear of a store in New Orleans and started a fire which caused $250,000 damage and resulted in the death of one fireman.

KILLED AT BRAMPTON.

BRAMPTON, July 24.—A sad accident occurred at Brampton last night about 7 o'clock, at the Queen street crossing of the G. T. R. Mr. and Mrs. Joseph Featherston were on their way to church and noticed the fast Chicago express approaching. Mr. Featherston thought there was plenty of time to cross, but Mrs. Featherston took him by the arm and asked him to wait. He attempted to cross, and just reached the centre of the track when he was struck and instantly killed, the train throwing him about 25 feet. Deceased was a retired farmer, 70 years of age, and uncle to Mr. Joseph Featherston, M. P.

VILLAGE OF ACTON.

VOTERS' LIST, 1893.

Notice of the First Posting.

Notice is hereby given, that I have transmitted or delivered to the persons mentioned in the third and fourth sections of the "Voters' List Act," the copies required by said section to be so transmitted or delivered of the list made pursuant to said Act, of all persons appearing by the last revised Assessment Roll of the said Municipality to be entitled to vote in the said Municipality at Elections for Members of the Legislative Assembly and at Municipal elections and that said list was first posted up at my office at Acton on the twenty-second day of July, 1893, and remains for inspection.

Electors are called upon to examine the said list, and if any omissions or any other errors are found therein, to take immediate proceedings to have the said errors corrected according to law.

Dated this 24th day of July, 1893.

THOS. T. MOORE,
Clerk of the said Municipality.
