Daily British Whig.
WEDN'SDAY EVEN'G, JULY 3, 1872.

Tranquility.

In the bright balmy month of June,
When all day long, with joyous tune,
Their praise the birds prolong;
When o'er the green fields far away
Carols the lark his merry lay,
When rings the throstle's song;
Fragrant of hay and meadow sweet,
The soft south wind steals forth to greet
Myriads of opening flowers;
Warm o'er the honeysuckle blows,
But stays to kiss the blushing rose,
That queen of summer bours.
Then would I lie at ease reclined,
With listless eye and vacant mind,
Upon some shady bank;
And if upon my charmed ear
Stole Nature's music, sweet and clear,
Ere I to slumber sank,
In that still hour my heart would be
Lapped in such deep tranquillity,
So void of every care,
The prospect all around would seem
But portion of some happier dream
Than mortals ever share.
And as the streamlet glides along,
Harmonious to each warbler's song,
I'll deem my lot is cast
In fairy regions of the blest,
Where weariness finds perfect rest,
Where toil is ever past.
Who hath not known the quiet mood
Of calm contented solitude?
Too brief, alas, its hour!
We feel as if we fain would stay,
And linger out the live long day,
Chained by its magic power;
But either sleep asserts its right,
And shuts the vision from our sight,
As envious of our joy,
Or, worse, some hoarse discordant sound,
Severing the links by which we're bound,
Wakes to this world's annoy.

The Fisheries Fleet.

The British Naval Squadron detailed for the protection of the Canadian Fisheries this season, in the Gulf of St. Lawrence, consists of H. M. G. B. *Cherub*; H. M. S. *Niobe*; and H. M. S. *Eclipse*; which vessels will be reinforced by H. M. S. *Lapwing*. Vice Admiral Fanshawe is again in command. The fleet of Dominion cruisers commissioned for the same service consists of the following armed schooner:

La Canadienne, commanded by N. Lavoie.
S. G. Marshall, commanded by I. A. Nickerson.
New England, commanded by W. T. Frost.
I. N. Dunscomb, commanded by I. A. Tory.
Peter Mitchell, commanded by D. M. Browne, R. N.
Katie, commanded by George Matson.
Stella Maria, commanded by I. H. Lachance.

They are already cruising on their respective stations; but two captures have as yet been made.

Steamer Racing.

The steamers *Maud* and *Norfolk* had a close run here this morning. The *Maud* started a few minutes after her competitor and reached here about 200 yards in advance. There is, it is considered, very little difference in the speed of the boats. The *Maud*, after discharging a few passengers here, proceeded to Trenton.

The *Rochester* and *Picton* tried their speed between Kingston and Bath last night. Both boats claim the palm of superiority. This practice of steamboat racing is becoming dangerously prevalent, and owners of boats ought at once to put a stop to it.—*Belleville Intelligencer.*

The Irish Band.

Great enthusiasm prevailed among Irish Bostonians on Monday on the occasion of the reception of the Irish Band. The day was devoted to Ireland, but the audience was not so large as was expected—only 20,000 or so. The music, however, was quite equal to that of the best previous days of the Jubilee. The "Harp that once through Tara's Halls," sung by chorus and audience, was grand and pathetic, and the patriotic excitement was intense. The Grenadier Guards' Band are to give a concert previous to their departure on Saturday next.

A Temperance Man Dead.

Matthew Davenport Hill, Q.C., and Recorder of Birmingham, died last month aged 86. He was one of the eminent men of whom Lord Brougham was the most prominent, who promoted the diffusion of of liberal principles and useful knowledge nearly half a century ago among the British people, and he has since been active in establishing reformatories and seeking the reformation of young offenders. Almost, as a matter of course, he was an earnest temperance man, and not only aided temperance societies with his means, but with his influence. Some of his charges to grand juries were copied far and wide in temperance and other papers.

Freak of an Apple Tree.—A young apple tree, bearing, the Fameuse variety, in a garden in Burlington, Vt., has indulged in a very remarkable feat this spring. A couple of weeks ago it blossomed as usual, and it is now covered with apples as big as a hickory nut. On Monday the owner was surprised to observe upon the tree a large white blossom. The flower is entirely different from the regular apple tree blossoms, which have but five petals. This has many rows of petals, and at the heart, instead of a bunch of yellow stamens like the apple blossoms, it has a knot of petals still unfolding resembling the petunia. It has three times the size of an ordinary apple blossom, and resembles a large "double" white rose. It is the only blossom upon the tree, and presents a very showy appearance.

Reporting Extraordinary.—In noticing the reportorial rivalry of the Camp the St. Catharines *Journal* says: There are two daily newspapers in Toronto, whose proprietors are as jealous of each other as a couple of handsome and well-dressed women. For instance, the *Globe* thought it would be a big thing to beast of, and secured the services of Capt. Wyles, late of the 13th Hussars, as its reporter at the Niagara Camp. The *Mail*, determined not to be outdone in such a race, secured the services of Col. Maude, who is also a C. B. and B. C. and Victoria Cross man, having been in the Crimea and India. We suppose that if the *Globe* had secured a Colonel, the *Mail* would have tried very hard to get a General. Both gentlemen are discharging their duties well.

Pouring Molten Iron Over A Man.

Albany has the latest horror—one of the most frightful we ever read. The *Express* tells the story:

Yesterday afternoon two workmen employed in Ransom's foundry, named Thomas Sheehey and Nicholas Shilford, had an altercation while the work of casting was going on, which had a fearful result. Sheehey, accidentally or otherwise, dropped from his ladle a little hot iron on Shilford's foot and burned it. Shilford ran to a tub of water and plunged foot into it and somewhat eased the pain. He then returned and taking a position in the passage way between the moulds, as Sheehey came along with a laddle full of molten iron knocked Sheehey down. According to the allegations which Sheehey makes, Shilford, after knocking him down, picked up the ladle containing molten iron and poured its contents upon Sheehey's body from the chin down, and then struck him with the ladle. Sheehey was rendered frantic by the terrible agony which he experienced, and ran to the door, where he was seized and his burning garments torn from him by other persons present. The whole forepart of the body was burned in a terrible manner, so that the flesh peeled off. His recovery is doubtful.

Somebody has said that the consumption of sulphur and sulphuric acid by a nation is a sure indication of the progress of that nation in the arts and sciences, and consequently in civilization.

Do you want the best shoe ever made, one that will not rip or come apart? Then buy the Celebr. Screw Wire Boots and Shoes—all have the patent.

Few People unacquainted with physiological chemistry are aware of the quantity of iron in the blood, but all should know the importance of keeping up the supply for debility, disease and death are sure to follow when the quantity becomes too reduced. The Peruvian Syrup (a protoxide of iron) supplies this vital element, and has cured many chronic diseases.

The crown of womanly beauty is an elegant *coiffure*. As this cannot be obtained without the use of some Hair Gloss or fixateur, even by the most skilful *artiste*, how much should the ladies feel themselves indebted to the inventor of the Great Hair Dressing of the age, *Coco-Glycerine*, which nourishes and beautifies the Hair, is delightfully perfumed, *and leaves no stain on the gentlemen's waistcoats*. Ask for *Coco-Glycerine*. 14

Tooth ache proceeds from ague in the face, operating upon the exposed nerve of a decayed tooth. Rub the gum thoroughly with the finger, wet with Johnson's Anodyne Liniment, heat the face well, and lap a flannel wet with the liniment on the face, also put a little of the liniment into the cavity of the tooth on cotton.

The system frequently gets out of order and should be at once regulated, else other troubles will ensue; when physic is needed take Parsons' Purgative Pills, they are a safe, wholesome, and natural medicine.

Thousands of people are now carelessly allowing themselves to drift through the preliminary symptoms of consumption under the fatal delusion that they are troubled with nothing but a "slight cold." How necessary is it, then, that a cold should be cared for from its incipiency, and every exertion used to get rid of it. "Bryan's Pulmonic Wafers" will stop the hacking cough in a few minutes, and by their influence on the bronchial and pulmonary organs all fears of dangerous results will soon be dissipated—but they must be taken in time. Sold by all Druggists and country dealers. Price 25 cents per box.

Office of Evans, Mercer & Co., Wholesale Druggists, Montreal November, 1871.—Mr. James I. Fellows. Dear Sir: We have a large and increasing demand for your Compound Syrup of Hypophosphites and there is no doubt as its valuable properties become more generally known, its sale will still further increase. The best proof of the efficiency and high character of the preparation is that medical men are largely prescribing it; and we hear from Dispensing Chemists that prescriptions for Syr. Hypo. C. Fellows are daily on the increase. We are respectfully, EVANS, MERCER & CO.

Everybody Says So.—That is all who have either used by others; all such, and they are only fit to judge, are unanimous in the opinion that "Darley's Condition Powders and Arabian Heave Remedy" is superior to anything of the kind heretofore or at present in use for coughs, colds, Thick Wind, and all diseases which affect the wind of horses. As a condition medicine it has no equal; there is nothing in it which can injure a horse whether sick or well—nor need the horse be kept from working while using it; it is just the article which all who own horses require, and which they should have constantly on hand. Remember the name, and see that the signature of Hurd & Co. is on each package. Northrop & Lyman, Newcastle, Ont., proprietors for Canada. Sold by all medicine dealers.

A Chemical Food & Nutritive Tonic.

THE GREAT POPULARITY OF DR. WHEELER'S COMPOUND ELIXIR OF PHOSPHATES AND CALISAYA is owing to its perfect reliability in building up constitutions run down with diseases of the Stomach, Liver and Kidneys which arise from Dyspepsia or Feeble Digestion, and result in poor blood and breaking down of the general health. It effectually relieves pain or a sense of fullness in the Stomach after eating, Heart-burn, Flatulence, Constipation from torpid liver, Billious Headaches, Irritation of the Kidneys and Bladder from the red deposit in the Urine, irritability and restlessness followed by nervous prostration and general debility which inevitably arise from the one common cause—Dyspepsia or feeble Digestion. All those delicate constitutions that lack energy and vitality, and are unable to arouse themselves to any exertion or undergo any fatigue, will be astonished at the rapidity with which the whole system is raised out of this prostrate condition and energized and vitalized under the use of this preparation. It is harmless, delicious, does not lose its effect, and is not followed by a relapse. Sold at $1.00.
June 22, 1872.

MARAVILLA COCOA—Opinion of the Press.—"Those who have not yet tried Maravilla will do well to do so."—*Morning Post.* "It may justly be called the perfection of pure Cocoa."—*British Medical Journal.*

MARAVILLA COCOA—The *Globe* says, "Taylor Brothers' Maravilla Cocoa has achieved a thorough success, and supersedes every other Cocoa in the market. Entire solubility, a delicate aroma, and a rare concentration of the purest elements of nutrition, distinguished the Maravilla Cocoa above all others. For Invalids and Dyspeptics, we could not recommend a more agreeable or valuable beverage."

HOMŒOPATHIC COCOA.—This original preparation, which has attained such a world-wide reputation, is manufactured by TAYLOR BROTHERS under the ablest homœopathic advice aided by the skill and experience of the inventors, and will be found to combine in an eminent degree the purity, fine aroma, and nutritious property of the fruit, nut.

SOLUBLE CHOCOLATE, made in one minute without boiling. The above articles are prepared exclusively by Taylor Bros., the largest manufacturers in Europe, and sold in tin-lined packets only, by Storekeepers and others all over the world. Steam Mills, Brick Lane, London. Export Chicory Mills, Bruges, Belgium.
