NOTES AND COMMENTS.

The amendments to the Manitoba liquor license act, passed at the last session of the Legislature, went into effect on May 1st. The buyer, as well as the seller, of intoxicating liquors during prohibited hours, is liable to punishment. All persons found in a bar-room, whether drinking or not, are liable to a fine of $10.

New York State's expenses this year will aggregate $9,000,000, but very little, comparatively speaking, of this great sum is at the disposal of the Legislature. Schools claim over $4,000,000; canals, $1,500,000; care of insane, 1,500,000; interest on debt and salaries of officers and other fixed charges consume a good share of the remaining $2,000,000.

Truly the good old times were not like those! Not only are we assured of this by the church grumbler, but others have been lately adding their testimony. The editor of the *Wine and Spirit Gazette* declares that the time was when the saloon keeper was allowed to pursue unmolested his peaceable calling, but that now he can not even depend upon the law to protect him.

The statistics of education of the negro in the South are encouraging. There are upwards of 26,000 schools for colored people in the Southern States proper, and in them at least 2,500,000 negroes have learned to read and generally to write. Last year there were in these schools 239,000 pupils and 20,000 teachers. There are also in the South 150 schools for the advanced education of negroes, and seven colleges with negro presidents and negro faculties.

The statement that grain sent as charity from this continent to Russia during the recent famine was confiscated for overdue taxes is made by the American commissioner who superintended its distribution. He asserts that he saw the bags of grain taken from the people by the tax gatherers. The allegation is so disgraceful to the Russian government that its embassy at Washington cannot afford to ignore it. If it remain undisputed there will be no disposition to send food to starving communities in that part of the world hereafter

Reports from all sections of the maritime provinces indicate that many hundreds of Canadians have returned from the United States during the past eight months and that comparatively few are leaving for the United States during these spring months Their experience abroad has taught them that the maritime provinces offer inducements which are not surpassed elsewhere. While thousands of citizens are out of employment in the neighboring republic our people generally are enjoying a fair measure of prosperity.

It was confidently expected in many quarters that the second reading of the budget would bring about the defeat of the Rosebery Government, but when the division was taken last week the Government was sustained by a majority of fourteen. It is much easier, of course, to carry on a Government with a majority of fourteen than it is when the majority is turned into a minority, but as it is, the Premier has not a large enough majority to come and go on, and is liable at any time to be turned out of office. Members of the Imperial House of Commons do not stick to their leaders as closely as members of the House of Commons of Canada

There are only six States in the Union in which there are more horned cattle than are found in Ontario. These are Texas, Illinois, New York, Iowa, Missouri and Kansas. And, with the exception of Texas and Iowa, mainly grazing States, none of them are very much ahead of us. Kansas leads us by 500,000; Missouri by 300,000; Illinois, which includes the great stock yards of Chicago, by 800,000, and New York, with treble our population by less than 300,000. On the other hand Ohio, which has 80 per cent. more people than this province, and Pennsylvania, which ranks next to New York in population, are from two to three hundred thousand behind.

The Seattle *Post-Intelligencer;* Washington territory, one of the leading papers of the Northern Pacific coast of the United States has the following item in a recent issue:—"During the present season about 200 families have left this section of country for the Saskatchewan in Alberta, Canada. Twenty heads of families will leave this morning for that section to pick out homes. The Canadian Government offers settlers 160 acres for an entrance fee of $10 and the conditions are that he shall live on his claim six months in the year for about three years, build himself a home and plough ten acres each year, when he will receive a patent. There is undoubtedly a pretty wide-spread idea in the North Western States just now that Canada is a good place to move to."

Death of Judge Scott.

BRAMPTON, May 12. Judge Scott, who died this morning, was the eldest son of the late John Scott, one of the earliest settlers in Brampton and the owner of a large portion of the land on which the town now stands. The Judge was born in Brampton and spent all his life there. On the separation of the County of Peel on January 1, 1857, he was appointed County Court Judge, which office he filled till March, 1894, when he retired and was succeeded by Duncan McGibbon, of Milton.

James Wilson, a young man working on a saw-log drive, was drowned at Serpent Rapids, sixteen miles from Parry Sound, on Saturday morning. The body was recovered some hours afterwards.

AFFAIRS AT OTTAWA

The Tariff Bill Nearing Completion—The Insolvency Act Advancing.—Business Generally is Going Forward.

NOTES ABOUT THE LOBBIES.

OTTAWA, May 16. Members are beginning to speak of the close of the session. Two weeks ago no one could be found who would venture an opinion that did not place the date of prorogation as far on as August, but this week both in No. 6 and also in 16 there are many who expect to get home before the end of June.

The consideration of the new tariff is nearing completion. With the exception of about a dozen clauses left for consideration, and some few items on the free list, the committee has finished its labors on the bill, which will, in all probability, be reported to the House before the close of next week.

DINED WITH THE SPEAKER.

The following members of Parliament, members of the press gallery, and officers of the House dined with Mr. Speaker on Saturday evening:—Messrs. Bowers, Adams, Brown, Bryson, Bennett, Chesley, Grieve, Haslam, Lister, McMillan, McDougald, McKeen, Henderson, Macdonald, (Huron), McLean, Martin, Madill, Miller, Hodgins, Robilliard, Rider, Sanborn, Semple, Stevenson, Temple, White, (Cardwell), White, (Shelburne), Welsh, Wood, (Westmoreland), Yeo, and Sir Richard Cartwright, members of Parliament; Messrs. M. J. Griffin, A. Decelles, librarians; Mr. McCord, law clerk; Mr. A. J. Maguire, president press gallery; and Mr. W. J. Healy, secretary press gallery.

A GOOD APPOINTMENT.

Mr. William L. Magee, chief clerk of the Marine and Fisheries Department, has been appointed an examiner of certificates for masters and mates of freight steamships of 100 tons register tonnage and under, and for tug boats of whatsoever tonnage, engaged in the coasting trade and plying in land waters. Mr. Magee is a thoroughly competent official, and his appointment is a most satisfactory one.

THE BRITISH HAY MARKET.

The Department of Agriculture has received from the Canadian Government agent in Bristol, England, the following quotations of the price of hay on the 26th ult.; "Best clover, £6·10s. to £6 10s. 6d.; meadow hay, £6 10s. to £6 12s. 6d." He states that owing to the recent rainfall there is now every prospect of a large hay crop in England, which may affect the prices, and holders of hay are beginning to sell at any price. Since the above quotations were in print, a Bristol dealer received an invoice of 10 tons of good Canadian hay, free on the wharf, at £4 12s. 6d., and another lot slightly damaged was offered for £4 per ton, said to be Canadian, but which he strongly suspects to be South American grass, sold as Canadian.

SOUND FOR A BETTER LAND.

Mr. P. F. Daly, one of the agents of the Interior Department, now employed in Idaho, reports that over 100 families will drive from that State to Alberta, during the coming summer. These people are so situated that it would cost them at least $300 per carload of effects, and they find that they can march across country, driving their cattle and carting their other effect to Calgary, in about 30 days, with good feed for the cattle all along the way.

TALK OF THE CORRIDORS.

The duties on stereotype plates for printers has been reduced by one half.

Hon. A. J. Marjoribanks has been gazetted an extra aide de camp to the Governor General.

Hon. Mr. Bowell announces that the report of the Prohibition Commission will be brought down shortly

The Senate has passed bills to amend the Indian Act, and for the preservation of game in the North west territories. Several private bills were advanced a stage.

A return presented to Parliament today by Mr. Daly shows that there have been manufactured at the winter dairy station at Woodstock, Ont., 35,360 pounds of butter, and at Mount Elgin station 38,243 pounds.

It is understood Her Excellency the Countess of Aberdeen will not leave for England until the 25th inst., as she is desirous of meeting the members of the Royal Society and delegates, who attend here 22nd to 25th May.

Mr. Code, immigration agent for the Interior Department, reports that all of the party of 104 settlers recently taken by him from the state of Michigan to Alberta are very much pleased with the country. They are locating as quickly as possible.

THE MUNICIPAL COUNCIL.

The Docket of Business Transacted at Monday's Meeting.

Council met in regular fortnightly session on Monday evening.

The members were all present, Reeve Pearson in the chair.

The minutes of last meeting were read and confirmed.

The committee on Finance presented their eighth report recommending payment of the following accounts:

John Chisholm, work on Streets	$ 1 87
Wm. Bell, work on streets	1 87
L. G. Matthews, lamp chimneys	3 15
David Mills, teaming	3 00
Abram Stauffer, work on streets	4 37
John Chisholm, work at cemetery	7 50
Wm. Bell, work at cemetery	8 75
H. P. Moore, advertising, &c.	8 40
	$ 39 36

Moved by Joseph Anderson, seconded by Geo. Havill, that the eighth report of the committee on Finance just read be adopted.—Carried.

A general conversation took place respecting the planting of additional trees in the park.

A number of nursery spruce will be put in, and miniature groves of cedar will be planted at various points in the park.

Tethering animals on the streets was referred to and the Council instructed the constable to have it discontinued.

The painting of the exterior of the town hall was considered and it will likely be done shortly.

Council adjourned at nine o'clock.

HE HANGED HIMSELF.

David Ramshaw, of Scarboro', Suicides in an Esquesing Farmer's Barn.

David Ramshaw a farm hand living with Mr. Alex. McDonald on lot 13, concession 5, Esquesing, was heard to arise about 4.30 o'clock last Thursday morning, and leave the house for the barn to do the usual feeding. Mr. McDonald's son Malcolm at 7 o'clock went to the barn to inform Ramshaw that breakfast was ready. Opening the barn door young McDonald was horrified to find his dead body hanging by a rope from one of the barn timbers. Coroner Rutherland, of Georgetown, was notified, and with County Crown Attorney Matheson drove to McDonald's in the evening. Ramshaw was about fifty years of age, and unmarried. He came from Scarboro' and had been working for Mr. McDonald for some time.

TUESDAY, 26th JUNE.

The Date for the Ontario Elections.—A Six Week's Campaign.

The Ontario elections will be held on Tuesday, June 26. Nominations Tuesday, June 19.

This date was finally decided upon at the meeting of the Council on Tuesday.

The campaign will thus be limited to six weeks.

Candidates have been selected in almost every constituency. Sir Oliver Mowat's tour of the province will commence the first week in June and he will be accompanied by Messrs. Harcourt, Hardy, Gibson, Ross and Dryden. His route has not as yet been mapped out, but it is understood that he will visit at least a dozen constituencies.

The last Ontario elections were held on Tuesday, June 5, 1890.

MILTON YOUNG LIBERALS.

Their Annual Banquet Last Week Very Successful.

The first annual banquet of the Young Men's Liberal Club, of Milton, was held last Thursday evening at the Wallace House, when the large dining room was filled to doors. As the President of the club said, in replying to the toast of Our Club, this club was organized in the latter part of February and now has a membership of 150. During the coming election campaign the Young Liberals expect to play no small part in this county.

Among those gathered around the table were President Johnson, Dr. McCrimmon (President of the Reform Association), Dr. Robinson, Mayor McCollum, John White, ex-M. P., Dr. Platt, Rev. Mr. Haddow, Dr. McColl, J. W. Elliott, W. M. Clements and the nominee of the Reform convention, John Husband.

The following is a list of the toasts:—The Queen, Canada, proposed by Dr. McColl and responded to by Col. Campbell and M. Beattie; The Liberal Party, by Dr. Platt and Dr. Corbettson, The Local Legislature, by D. A. Robson and A. Henderson; Our Candidate, by J. S. Deacon and John Husband; The Young Liberals, by Dr. Robertson and President W. M. Johnson; Halton Reform Association, by A. C. Bally and Dr. McCrimmon; Our Guests, by Charles Jones, responded to by George Hume, J. W. Elliott and W. Clements, President of the Conservative Association.

Letters of regret at their inability to be present were received from Judge Snyder, Judge McGibbon, Rev. Mr. Mignot and John Waldie.

The banquet was a most decided success. The speeches were good and bright. During the evening a reading, delivered by Rev. R. Haddow, was received with much applause, as also were a couple of quartettes by members of the club, Messrs. Dick, Yates, Lawrence and Bews.

NEW BRUNSWICK STORY

THE REMARKABLE EXPERIENCE OF A HUSBAND AND WIFE.

The One Suffering From General Debility and the Other From the After Effects of Typhoid Fever Were Gradually Growing Weaker When a Cure Came Both Now Restored to Perfect Health.

From the Newcastle, N. B., Union Advocate.

Quite recently there came to the knowledge of the proprietor of the *Union Advocate*, two cases of residents of Newcastle having been greatly benefitted by the use of Dr. Williams' Pink Pills, and these were thought to be of sufficient interest to warrant their being published in the interests of humanity, if the parties interested had no objection to the facts being published. Consequently a reporter of this paper called upon the parties and obtained from them cheerfully all the particulars. Mr. and Mrs. Hammill removed from Fort Fairfield, Maine, to Newcastle, N. B., about fourteen months ago. For two years previous Mrs. Hammill had been in a very poor state of health and was steadily growing weaker and running down, until she was unable to do the necessary work about the house, and the little she did used her up completely. Pains in the back and limbs, weakness, dizziness and other disagreeable symptoms troubled her. For some time she was under treatment of several doctors at Fort Fairfield, and also since she moved here. But they effected no improvement to her run down system and she was gradually growing worse and had given up all hope of regaining her health. Having read accounts of the cures effected by the use of Dr. Williams' Pink Pills she decided last July to try them and see if she could be benefitted thereby. She purchased some from Mr. H. H. Johnstone, druggist, and commenced to take them and has since continued to take them with, to her, wonderful results. She had taken but a few boxes when a gradual improvement seemed to be taking place. The pains in her back and limbs left her as did the other unpleasant symptoms, and at the present time she is as well as ever she was and without feeling the tiredness and exhaustion of her former state.

At her recommendation her husband also began the use of Pink Pills. About a year before coming to Newcastle he had suffered from an attack of typhoid fever, from the effects of which he did not recover his former health. His blood seemed to be thin and watery, and he was weak and easily worn out. Through all this he kept steadily at work, although he says that when night came he was thoroughly wearied and depressed, not knowing how to obtain relief. When his wife began to feel the beneficial effects of Pink Pills she urged him to try them and he did so. After taking three boxes he began to feel a wonderful change. The tired feeling left him and he had a better appetite and enjoyed his food with a relish he had not before. He continued taking the Pills for some time and is to-day fully restored to his old time health and strength. Mr. Hammill was very willing to tell of the benefits both he and his wife had derived from the use of Dr. Williams' Pink Pills, with the hope that their experience might lead others to test the benefits to be derived from this wonderful remedy.

The gratifying results following the use of Pink Pills in the case of Mrs. Hammill prove their unequalled powers as a blood builder and nerve tonic. There are many throughout the land suffering in silence as did Mrs. Hammill, who can readily find relief in a course of Dr Williams' Pink Pills. They are a specific for the troubles peculiar to women, such as irregularities and all forms of weakness. They build up the blood, restore the glow of health to pale and sallow cheeks driving out pains in the back and limbs, weakness and other disagreeable symptoms which make life a burden. They also cure such diseases as rheumatism, neuralgia, partial paralysis, locomotor ataxia, St. Vitus' dance, nervous headache, nervous prostration, the after effects of la grippe, influenza, and severe colds, diseases depending on humors in the blood, such as scrofula, chronic erysipelas, etc., and in all cases arising from mental worry, or overwork of any nature.

Dr. Williams' Pink Pills are sold only in boxes bearing the firm's trade mark. They are never sold in bulk, or by the dozen or hundred, and any dealer who offers substitutes in this form is trying to defraud you and should be avoided. The public are also cautioned against all other so called blood builders and nerve tonics, put up in similar form intended to deceive. Ask your dealer for Dr Williams' Pink Pills for Pale People and refuse all imitations and substitutes.

These Pills are manufactured by the Dr Williams' Medicine Co., Brockville, Ont., and Schenectady, N. Y., and may be had of all druggists or direct by mail from Dr Williams' Medicine Co. from either address at 50 cents a box, or six boxes for $2 50. The price at which these pills are sold makes a course of treatment comparatively inexpensive as compared with other remedies or medical treatment.

After the Grip

No Strength, No Ambition

Hood's Sarsaparilla Gave Perfect Health.

The following letter is from a well known merchant of Georgetown, C. B. I. Hood & Co., Lowell, Mass.

Gentlemen—I am glad to say that Hood's Sarsaparilla and Hood's Pills have done me a great deal of good. I had a severe attack of the grip in the winter, and after getting up from it I did not seem to gather strength, and had no ambition. Hood's Sarsaparilla proved just what I needed. The results were satisfactory, and I recommend this medicine to all who are afflicted with rheumatism or any blood disease.
