NOTES AND COMMENTS.

Mayor Pingree, of Detroit, is taking time by the forelock by devising a scheme for raising provisions to aid in supplying the poor of the city with food during the next winter, and the *Free Press* is telling the citizens that "the work should be pushed at top speed." Evidently another dose of hard times is expected for the other side.

Dr Percival, master of Rugby, preached in Westminster Abbey Sunday night. He referred to Lord Rosebury and horse-racing, taking as his text: "Am I my brother's keeper?" and said the whole world appeared to have taken Cain's words as a motto. When an English nobleman patronized the turf, with its weedy growth of dishonesty and degradation, simply to gratify a feeling for excitement, and did not make an effort or stir a finger to reform it, he came under condemnation.

Two prominent representatives of Boston commercial bodies, Hon. Alden Spears and Hon. Jonathan A. Lane, were before the House Committee on Foreign Affairs at Washington, last week, to oppose the Retaliation Bill, which would make it the duty of the President to suspend the transportation of goods across the United States in bond in case of discrimination against American shipping on the Canadian border canals. The route through Canada to Boston, they represented, is a natural one for commerce to and from western and north-western states, and the Canadian transportation companies had generally conducted it fairly. To enforce such a law, inspired by the building of the new Sault canal, would drive much shipping from Boston and other New England ports to Canadian ports.

The Montreal *Star* sizes up the issues to the present campaign in Ontario as follows: "If anybody knows what 'the issue' is in the present Ontario campaign, he ought not to conceal his light under a bushel. In London, the fight rages bitterly about the question; Can a man who has commodious residence in Toronto worthily represent this city? In Ottawa the vortex of discussion appears to have located itself over the dispute as to whether Mr Taylor McVatty was legally nominated by the late Conservative Convention. In Toronto South, it seems to be a question of family importance, and so it goes on from point to point. In North Toronto, two Prohibitionists are in the field, Messrs Tait and Marter. The Hamilton *Templar*, by the way, is not satisfied with the Part that the Prohibition issue is playing in the contest. It had thought that Sir Oliver's pledge to pass all the Prohibition that the constitution would let him, would divide the province on that question, and so it might have, if either party had been in a position to fight on the same side of it in all the constituencies. The Patron issues are well to the front in the ridings where the P. of L. are making a contest, but they are sometimes directed against a Liberal and sometimes against a Conservative. Then, too, the religious issues, while commanding a vast deal of attention, are by no means steadily universal, and cannot be regarded as constituting "the issue" upon which the parties professedly divide in every constituency. The issue" of the campaign is still a thing to be looked for. What great cause will triumph if Mowat is sustained, if he is not, or if anything else in particular happens? The present campaign must go down in history as the election without an issue. How far is the *Star* wrong?"

ANARCHISTS IN WASHINGTON.

A Plot to Blow up the Capital Building Unearthed.

WASHINGTON, June 18. The *Post* to-day published an exposure of a plot which had for its object the destruction of the Capitol, and perhaps other government buildings, which had been slowly developing for several weeks past. The Secret service and police authorities, however, have been kept informed of the movements of the plotters, and would soon have been able to have arrested them, if they approached actual violence. According to the story the plot was formed at the time Coxey's army was marching to the Capitol, and reports of its existence came from various points, Omaha, Chicago, and Pittsburg among them. The prime mover in the Anarchist plot, that is the Washington end of it, was Honore Jaxon. He came from Chicago, and is still in the city. He is a professional Indian. Jaxon is a half breed of unknown tribal origin. He was one of Louis Riel's lieutenants in the Canadian rebellion some years ago. The man has done some little newspaper work and has frequently passed himself off as a reporter for the Chicago *Times*. The *Post* story is that a band of Anarchists under Jaxon's leadership were preparing explosives for the purpose of blowing up the Capitol.

The First Congregational church, London, decided last night to invite Rev. Dr. Wild to become resident pastor. Rev. James Adams will be offered the position of assistant.

The Massey Music Hall, the gift of Mr. H. A. Massey to the people of Toronto, was formally opened Friday night. It is the largest and finest public hall in the Dominion.

THE GENERAL ELECTIONS

Col. Kerns and Ex-Warden Husband, the Candidates in Halton

A VERY QUIET CAMPAIGN.

There seems to be almost an entire absence of enthusiasm in the coming elections as far as this constituency is concerned. A few public meetings have been held at various points in the county, but these have not been attended as largely as in former campaigns. Both candidates are evidently depending more upon personal canvas than by platform utterances.

An interesting meeting was held at Georgetown last Wednesday evening in Mr Husband's interests. The chair was occupied by Mr J. R. Barber, who in a few words recommended Mr Husband to the electors as a man whom they all knew, and in whom they felt sure on the 26th June they would express their confidence and trust by electing as their next member.

Mr. Waldie, of Burlington, was the first speaker. He spoke for about half an hour, upholding almost every act of the Mowat Administration upon which he touched. He thought the actions of Sir Oliver Mowat were beyond reproach. Mr. Waldie was followed by Mr Johnson, of Toronto, who very ably and cleverly defended the Government. He touched on the surplus left by the Sandfield Macdonald Administration, showing how that money had been utilized by the Government. He denied that the Government was in debt, but claimed that a million and a half remained in the strong box. He repudiated the attack made by the Opposition to the effect that money was yearly lavished on Government house, and stated that the Provincial Government had not the power to dispose of that institution. He cited many results of the Mowat Administration which he considered were most beneficial to the province, and after having spoken for one hour concluded by requesting the electors to give Mr. Husband their united support.

Mr. Husband, on rising, was received with cheers. Owing to the lateness of the hour, he spoke for a very minutes, soliciting the support of the electors in a jovial, yet earnest, speech. The meeting broke up about midnight with cheers for the Queen, Sir Oliver and Mr. Husband.

The nomination, on Tuesday, was largely attended. Col. Campbell, the returning officer, presided, and the nominations were made as follows:

Geo. W. Kerns—Nominated by Owen Robertson, seconded by A. W. Peart.

John Husband—Nominated by Dr. Robertson, seconded by William Caldwell.

At the expiration of the hour the meeting was opened for the speeches of the candidates and their friends.

Mr. Husband was the first speaker and made a very brief address. He was followed in the following order: Col. Kerns, Dr Robertson, D. Henderson, M.P., A. Pirie, of the Dundas *Banner*, and J. A. Fullarton, of Toronto.

The addresses were not of the most friendly and good-humoured character in some respects. Several unbecoming personal references were introduced which displayed an animus most undesirable.

The speech of the afternoon was admirably that of Mr. Pirie. It was highly interesting and the audience was kept in the best of humor throughout its delivery.

Last evening as we went to press a meeting was in progress in the town hall in the interest of Col. Kerns. The speakers were not previously announced. Mr Husband was expected to be present.

A TRAVELLER TALKS

THE LIFE OF A COMMERCIAL MAN NOT ALL SUNSHINE.

Constant Travel and Roughing it on Trains Weakens the Most Robust. The Experience of a Halifax Merchant While on the Road.

Acadian Advocate, St. Hilaire, N.S.

Mr Percy J. A. Lear, junior partner of the firm of Blackadar & Lear, general brokers, 60 Belford Row, Halifax, N.S., comes from a family of commercial travellers. His father, James Lear, was on the road in Lower Canada with dry goods for twenty three years, and few men were more widely known and esteemed, and the genial Percy himself has passed through the ranks of the drummer after a varied experience as knight of the grip, which extended over seventeen years and embraced almost every town and village in Canada from the Atlantic to the Pacific. He is an extremely popular young man, a leading member of the Oddfellows' fraternity, an officer in the 63rd regiment of militia, and a young merchant.

"How comes it that you are so fat and ruddy after such a term of hustling railroad life and varied diet, Mr. Lear?" queried the reporter.

"Well, 'twas the answer, 'it is a long story, but one worth telling. I weigh 190 pounds to-day, and am in better health than I ever before enjoyed in my life. Two years ago I got down to 155 pounds. Constant travelling, roughing it on trains and country hotels broke me all up and left me with a nasty case of kidney complaint and indigestion. My head was all wrong, my stomach bad. I was suffering continual pains and dizziness, and urine was extremely thick and gravelly. I began to get scared. I consulted several physicians in Montreal, Winnipeg and other cities, but their treatment did not give me a particle of relief. One day I bought a box of Dr. Williams' Pink Pills, and I made up my mind to give them a good trial. They seemed to help me. And I became so good, third and fourth box, and they cured me. My stomach was all right, the dizziness left my head, my urine became natural, and all traces of my kidney disease disappeared. I was a new man and gained flesh immediately, and have never been troubled since. I consider my case astonishing, because kidney complaint, especially gall stones, is hereditary in our family. It helped to hurry my father to an early grave, and an uncle on my mother's side, Dr. Whittle, of Sydney, Australia, had been a chronic sufferer from gall stones from boyhood. I was so impressed with the virtues of Dr. Williams' Pink Pills that I took the trouble to send Dr. Whittle, who knows all the ways to Australia. Since my discovery of the benefits of these wonderful little pink pills I have recommended the remedy far and wide, and I could enumerate dozens of cases where they have been efficacious.'

An analysis shows that Dr. Williams' Pink Pills contain in a condensed form all the elements necessary to give new life to the blood and restore shattered nerves. They are an unfailing specific for all diseases arising from an impoverished condition of the blood, or from an impairment of the nervous system, such as loss of appetite, depression of spirits, anæmia, chlorosis or green sickness, general muscular weakness, dizziness, loss of memory, locomotor ataxia, paralysis, sciatica, rheumatism, St. Vitus' dance, kidney and liver troubles, the after effects of la grippe, and all diseases depending upon a vitiated condition of the blood, such as scrofula, chronic erysipelas, etc. They are also a specific for the troubles peculiar to the female system, building anew the blood and restoring the glow of health to sallow cheeks. In the case of men they effect a radical cure in all cases arising from mental worry or overwork. Sold by all dealers or sent by mail, post paid, at fifty cents a box, or six boxes for $2.50, by addressing the Dr. Williams' Medicine Company, Brockville, Ont., or Schenectady, N.Y. Beware of imitations and substitutes offered to be just as good.
