Resolution of Esteem and Sympathy.

At the last meeting of the Rural Deanery of Lincoln and Welland the following resolution was passed and a copy forwarded to Mrs. Cooke:

Resolved, That the clergy of the Rural Deanery of Lincoln and Welland in Chapter assembled, desire to send our sense of the great loss sustained by the Diocese of Niagara and the parish of Acton in Blackwood in the decease of Rev. G. B. Cooke. Through his death, at a comparatively early age the Diocese has parted with a faithful laborer whose period of service in the Master's vineyard it had hoped to see lengthened to the extent of many years to come. We wish to express our deep and heartfelt sympathy with his widow in her sad bereavement, and we pray that through God's grace she may be enabled to bear her trial with holy resignation. We further desire to record our earnest hope that the blessing of the Holy Comforter may be upon her and her fatherless children, [illegible] the Father one may [illegible] children as they [illegible] years accumulate, a store of [illegible] and comfort.

The Smallpox in Guelph

The young man, Swartz, who was taken with smallpox last week in Guelph, is making gratifying progress and is now pronounced almost out of danger. Another case has developed, however. Tuesday's Guelph dailies report that Miss Green, one of the inmates of the house where Swartz boarded near the O.A.C., was reported as suffering from smallpox. Miss Green had not been vaccinated since she was a child until the Swartz case was discovered. She is a sister of the head of the household, and is about twenty two years of age. The *Herald* says: "The health authorities are not surprised at this second case. It was too much to expect the inmates of the house where Swartz lived to escape the disease. So far as can be learned all the students and the other people in quarantine are in good health, and it will not be difficult by a vigorous quarantine to keep the disease confined to the Green household."

The Winter's Biggest Storm.

The storm which commenced on Friday night and continued until Monday was the most severe we have experienced here for years. A very large quantity of snow fell and the heavy winds drifted and packed it in such a way as to render the roads impassible in many places. The main line of the G.T.R. kept its train service in good order until Saturday evening when a snow plow became lodged in the cut at Limehouse and with it three engines which went to its assistance. The 6.00 train going east was delayed until about mid night, when the blockade was broken. The pathmasters on many of the concession lines had men out several days opening the roads. Reports from all over Ontario, the Western and Northwest States, indicate that the storm was the severest for years. From four inches to two feet of snow fell, and business and traffic were generally impeded. Trains were delayed and all fell of a severe struggle.

Removal of Snow from Sidewalks.

Our citizens generally are prompt in clearing the snow from the sidewalks after each storm. A few neglect to comply with the by law respecting the matter and this irregularity gives an unkempt appearance to the streets and sometimes renders walking dangerous. The by law requires that every occupant, and, in case there is no occupant, the owner of any house, shop, building, lot or parcel of land, and every person having charge or care of any church, chapel or public building, fronting or abutting on any public street or sidewalk, shall by ten o'clock a.m., after every fall of snow, cause the same to be entirely removed off the sidewalks as aforesaid. The penalty for non compliance is a fine of not less than $1.00 and costs and not more than $50 and costs, except in the case of non-resident lots in which it is the duty of the constable to remove the snow, cost of same to be assessed against the property. No provision is made for clearing the crossings, and they are only done through the good nature of the residents adjacent to them.

—Misses Statham, Mason, Beesoby, Forbes and Bowers secured prizes at the Georgetown Carnival last Thursday evening.

The annual meeting of the shareholders of the Milton Cheese and Butter Association will be held on Saturday.

The annual meeting of the fire brigade was held last week. It is likely to be reorganized on a more satisfactory basis.

LIMEHOUSE.

Tuesday, Jan. 29. About 6 o'clock on Saturday evening a snowplough, engine and van got wedged into a drift in the "cut". An engine was sent for but it failed to dislodge the plow, and to make matters worse, the engine sent to the aid of the plow was soon unable to move. Two more engines were sent for and they arrived at 9.30, and with the entire strength of the four engines the "cut" was cleared about 11 o'clock. This has been the worst blockade in Limehouse for about 22 years.

Owing to the storm there was no service in the Methodist Church on Sunday.

Several of Acton's venturesome youths walked down the track Saturday night to see the train blockade.

Tuesday, Jan. 29th. Mr. James Moore and family, of Toronto, are visiting friends here.

A few from here went to Guelph last Thursday to hear and see Gen Booth.

The late snow storm blocked the roads up so badly that it was almost impossible for people in the country to get out for a day or two. It has been the worst storm in years.

BURLINGTON.

Tuesday, Jan 29. The storm of Friday night and Saturday completely choked the roads around here and many have not been broken yet.

Mr. G. L. Tizard, Q.C. of Oakville, revising officer for the county of Halton, held court to-day for the revision of the Dominion Notels List. Many changes were made.

The first meeting of the new council was held in the council chamber on Monday evening last. Members all present. A communication was read requesting the council to endorse a petition asking for a grant of $3,200 per mile to be given to the T.H. & B. Railway for the construction of the village of Burlington by the Dominion Government. A by law was passed limiting the number of tavern licences to three. The following committees and officers were appointed: Finance, Councillors Cleaver and Allan; sidewalks, Councillors Emmerson and Campbell; town property, Councillors Cleaver and Campbell; charity, Councillors Allan and Campbell; fire and water, Councillors Allan and Campbell; Board of Health, Dr A H Spiers, M D health officer and Messrs James Water worth, Geo Renton, A McMillan, Jas Allan and Dr Richardson; assessor, John H Campbell; auditors, Matt and Young and Geo A. Watson; constable and truant officer, Jas Anderson; fire engine engineer, H Lowe.

ROCKWOOD.

Tuesday, Jan 29. Quite a few from this place attended Gen Booth's lecture in Guelph last week.

The late storm made the roads impassible around this place. In most places it drifted on a level with the fences.

The death of Mr. A. E. Commer of Alvinston, occurred a few days ago from cancer of the stomach. Deceased had been turnkey of Milton jail and prior to that, an employee of Harris & Co., in their mills here for many years. He was much respected as a citizen of Rockwood and his death will be lamented by a large number of friends.

Messrs. Geo and Alex Stewart are ill, but not seriously, with congestion of the lungs.

Mr J. S. Wood is spending a few weeks with friends in New Hamburg.

Miss Lizzie Burns, Guelph, spent Sunday in Rockwood.

Mr F. Lee, Guelph, visited his Rockwood friends last Sunday.

The patrons of Rockwood Cheese Factory held a meeting in the town hall last Thursday afternoon for the purpose of appointing officers for managing the factory, and for transacting other important business. The interest manifested in the undertaking was evidenced by the large number of farmers and their wives who were present. Unfortunately, particularly for the ladies, Prof Dean of the O.A.C., Guelph, was unable to be present on account of being quarantined. This was regretted as his lecture would be of great service in dairy work. However, Prof Dean has intimated his willingness to deliver the lecture in the near future, before the cheese factory is opened. The following officers were appointed: Pres., John Taylor; Secretary, Hugh Black; Board of Directors, J. Burns, J. Grey, R. Dredge, R. Scott, J. McCullough and T. Copeland. We are sure that, under the able management of these officers, the success of the factory will be assured. Already, the milk of about 600 cows has been promised, and, while the capacity of the factory is 1000 cows' milk, at least 800 is expected this season. Several car loads of good milch cows, brought from near Belleville, have been distributed among the farming community here, these stock being considered superior to the thoroughbreds for dairying. An effort will be made to start the factory about the middle of April.
