NOTES AND COMMENTS

It is understood that the negotiations between the Newfoundland delegates and the Dominion Cabinet Committee looking to confederation will result in an early agreement on the main points submitted.

The *Canadian Gazette* says that Lord Rosebery intends to signalize his return to Parliament after his illness by the introduction of a bill to enable colonial premiers to sit with the Judicial Committee of the Privy Council.

The trade and navigation returns will show that during the last three months of 1894 after the Wilson bill came into effect the exports of Ontario and Quebec to the United States amounted to $934,000 more than for the same period in 1893.

It is expected that the election of the House of Commons will be moved by W H Bennett the minister for East Simcoe and that the speaker will Mr Lesslie M P., for Terrebonne. Mr Arsenault of Prince Edward Island will move the address in the Senate and probably Mr Primrose, of Pictou will be the seconder.

An Order in Council has been passed amending the regulations respecting the compulsory attendance of Indian children at the Industrial or boarding schools. Any child absenting himself or herself from such school may be arrested under warrant issued by an Indian agent or Justice of the Peace, and brought back to the school.

At the session of Ontario Leg. closing last Wednesday on the motion that the House go into Committee of Supply, Mr Whitney moved that greater attention than is given at present be bestowed on the Public schools of the province which he contended did not receive as much money in proportion to their importance as was given for higher education.

The fight has waged hot indeed in the bye election in Haldimand the past week. The contest has been between Hon. W. H. Montague, and Mr Jeffrey McCarthy of Barrie, as representing the McCarthy party. The riding has had perhaps more public meetings and prominent speakers than was ever before known in any seven days. The result is of course problematical, but it is generally conceded that Dr Montague will be re elected. His majority at last election was however, only 78.

There has been a rapid advance in cattle in the live stock markets in Toronto during the past two or three weeks. Yesterday at the Western cattle yards shipping cattle were quoted as high as 5 to 5½c per pound, and butchers' cattle of good quality sold easily at 4 to 4½c per pound for choice cattle. This is an advance in the best grades of nearly two cents per pound within a month. Hogs are much higher, having advanced to about four weeks from $4.40 to $5.25 per cwt for the best hogs.

By an amendment to the Agriculture and Arts Act proposed by Hon Mr Dryden, and assented to by the Legislature, directors of agricultural societies will be required hereafter to prohibit all kinds of gambling and games of chance within 500 yards of the fair grounds during exhibitions. Fakirs will now be less troublesome and the pea and thimble rigger at shows will become a thing of the past. The questionable introduction of horse racing at fall fairs was also the subject of a provision in the Bill. Directors of agricultural societies will not be allowed to have horse racing, but may have "trials of speed", the old game under a new name that's all.

A telegram from Mitchel Bay at Lisbon, Japan has been received at Washington confirming the press despatches that a peace treaty had been signed by Japan and China. The statement that Japan has agreed to accept an indemnity of only $100,000,000 is regarded here as erroneous. Her demand at the beginning of the peace conference was 400,000,000 yen, equal to $200,000,000 American gold. According to advices previously received Japan reduced this amount by 100,000,000 yen, thus leaving the indemnity at 300,000,000 yen, or $150,000,000 in gold. "Japan," says the London *News*, "has emerged from the conflict a great power. There is no precise parallel in the history of the world to her marvellous adaptability and imitative genius."

EMBEZZLED $40,000

Police are after Alex Wilkie Defalcating Confidential Clerk

TORONTO, April 15. Alex Wilkie confidential clerk for the commission firm of W D. Matthews & Co., has disappeared, and is being hunted by the police. He acted as bookkeeper and cashier, and had absolute control of the funds. The examination of his books have not been completed, but the police have received a statement to the effect that the embezzlements will exceed $40,000. Of late Wilkie had been living high, spending at the rate of $7000 or $8000 a year, and became so dissipated that Mr. Matthews discharged him. It was after he gave up charge of the books that the embezzlements were discovered. He has been traced to Chicago. Wilkie had a pleasant home, a wife and six children.

INDISPUTABLE EVIDENCE

A YOUNG LADY RAISED FROM A SICK BED.

Hope For Those Suffering from Nervous Prostration, Weakness and Low Spirits. How Relief Can be Found.

From the St Marys Argus.

The accumulation of evidence to that convinces. A man bringing a case before a jury without evidence to convince them of the justice of his plea has a poor chance but when witness after witness is produced to back up his plea then the jury easily find a verdict in his favor. This is the case with one of the greatest life preservers known to the world at present. The evidence of hundreds and thousands of well known men has been published to the world as to its priceless value, and the jury, the public are being convinced. St Marys has many witnesses who could tear golden testimonials. The following is recently a remarkable case in the cure of Mr. Gideon Elliott. Again we present another. Miss Mary Scott, daughter of Mr. John Scott, had become completely prostrated, was pale and nervous, low spirited and in such a condition as to alarm her parents and friends. She had not been able to leave her bed for over six weeks. Doctor's medicines were not helping her. Mrs. Scott had heard reports of the wonderful cures effected by Dr. Williams' Pink Pills for Pale People and some acquaintances recommended them. She purchased three boxes and before the first box was finished an improvement was noticed and continuing the use of the pills Miss Scott was soon able to perform work about the house and is now enjoying better health than for years. Mrs. Scott also testified as to the great benefit she herself had derived from the use of three boxes of Pink Pills and declares that they would not be without them in the house.

An impoverished condition of the blood or a disordered condition of the nerves are the fruitful sources of most ills that afflict mankind, and to any thus afflicted Dr Williams' Pink Pills offer speedy and certain cure. No other remedy has ever met with such great and continued success, which is one of the strongest proofs that Dr Williams' Pink Pills accomplish all that is claimed for them. They are an unfailing cure for locomotor ataxia, partial paralysis, St. Vitus' dance, sciatica, neuralgia, rheumatism, nervous headache, the after effects of la grippe, palpitation of the heart, nervous prostration, diseases depending upon vitiated blood, such as scrofula, chronic erysipelas, etc. They are also a specific for troubles peculiar to females, curing all forms of weakness. In men they effect a radical cure in all cases arising from mental worry or overwork of any nature.

Dr Williams' Pink Pills are sold only in boxes bearing the firm's trade mark. They are never sold in bulk, and any dealer who offers substitutes in this form should be avoided. These pills are manufactured by the Dr Williams Medicine Company, Brockville, Ont., and Schenectady, N.Y., and can be had of all druggists or direct by mail at either address, at 50 cents or six boxes for $2.50.

Its excellence is due to its presenting in the form most acceptable and pleasant to the taste, the refreshing and truly beneficial properties of a perfect laxative; effectually cleansing the system, dispelling colds, headaches and fevers and permanently curing constipation.
