THE BALLOT.

THE BALLOT PAPERS ARE NOT NUMBERED and that IT CANNOT BE FOUND FOR WHOM AN ELECTOR VOTES.

In introducing the Election Amendment Bill of last session, the Hon. Mr Laflamme said in explanation of its provisions that they were intended to do away with the envelope system, to prevent fraud, and "TO AVOID THE POSSIBILITY OF DISCOVERING WHO HAD VOTED." These are Mr Laflamme's own words. In the official report we read as follows:

"Mr Plumb wished to know what was meant by the numbering of the ballot papers.

"Mr Laflamme said THE BALLOT PAPERS WOULD NOT BE NUMBERED, but only the annexes, which would be torn up in the presence of two agents.

"Mr Plumb said that if that was the case the secrecy of the ballot would not be violated."

The clause respecting the manner of voting reads as follows:

"Each elector, being introduced, one at a time for each compartment, into the room where the poll is held, shall declare his name, surname and addition, which shall be entered or recorded in the voters' list to be kept for that purpose by the Poll Clerk; and if the same be found on the list of electors for the polling district of such polling station, he shall receive from the Deputy Returning Officer a ballot paper, on the back of which such Deputy Returning Officer shall have previously put his initials so placed that when the ballot is folded they can be seen without opening it; and ON THE COUNTERFOIL to which he shall have placed a number corresponding to that opposite the voter's name on the voters' list."

Let it be noted particularly that THE NUMBER IS PUT ON THE COUNTERFOIL, NOT ON THE BALLOT PAPER, the object of the number being placed on the counterfoil being to prevent the possibility of the ballot box being "stuffed" by a ballot paper being taken out and used during the day. Further on, section Six of the Act reads thus:

"The elector, on receiving the ballot paper, shall forthwith proceed into one of the compartments of the polling station and there mark his ballot paper, making a cross with a pencil on any part of the ballot paper within the division (or if there be more than one to be elected within the divisions) containing the name (or names) of the candidate (or candidates) for whom he intends to vote, and shall then fold up such ballot paper so that the initials on the back can be seen without opening it and hand it to the Deputy Returning Officer, who shall without unfolding it, ascertain by examining his initials and THE NUMBER UPON THE COUNTERFOIL that it is the same that he furnished to the elector, AND SHALL FIRST DETACH AND DESTROY THE COUNTERFOIL and shall then immediately, and in the presence of the elector, place the same in the ballot box."

This, then, disposes of the false representations made. There is no number placed on the ballot paper, but there is on the counterfoil, *for the purpose of guarding against fraud*; but when the Deputy Returning Officer identifies the ballot as the one given the elector to mark he "SHALL DETACH AND DESTROY THE COUNTERFOIL AND THEN IMMEDIATELY, AND IN THE PRESENCE OF THE ELECTOR," place the ballot in the box. Thus *absolute secrecy* is guaranteed, there being no number on the ballot paper, and the counterfoil being destroyed.

Electors, do not be deceived by the misrepresentations of the agents of the Grit candidate.

Robinson's Phosphorized Emulsion of Cod Liver Oil with Lacto-Phosphate of Lime is prepared with the finest *Cod Liver Oil*,—one of the most esteemed remedies in the catalogue of the "Materia Medica,"—*Lacto-Phosphate of Lime*, which enters so largely into the formation of bone material and other important tissues of the body,—*Phosphorus*, the great nerve and brain tonic and invigorator, in a form and combination most desirable to obtain its fullest effects, together with *other valuable remedial agents*, not the least of which is *iron*, the great blood-producing element. These are all intimately combined in one demulcent fluid of homogeneous appearance and delicate flavour, possessing remarkable power in arresting the decay and supplying the waste constantly going on in those abnormal conditions of the system affected by such diseases as pervert and impair nutrition, vitiate the blood, and *sap the vital forces*. It is highly recommended for Consumption, Chronic Bronchitis, Coughs, Scrofula, Scrofulous and Syphilitic Ulcers, Tumours, Diseases of the Bones, Joints and Spine, General Debility, Emaciation, and all Impurities of the Blood. It is particularly adapted to Delicate Females in those low states of the system that manifest themselves in so many of the ailments peculiar to their sex. To the *aged and infirm* its nourishing and invigorating properties will give renewed strength and buoyancy of spirit; and to *very young children* its continued use will be found of incalculable benefit, as its tonic and nutritive properties supply the blood with strength-giving materials for bone and muscle structure, and thus furnish the foundation for *strong and healthy constitutions*. It is very pleasant to the taste.

Prepared solely by J. H. Robinson, Pharmaceutical Chemist, St. John, N. B., and for sale by Druggists and General Dealers. Price $1.00 per bottle; six bottles for $5.000.

A CARD.

To all who are suffering from the errors and indiscretions of youth, nervous weakness, early decay, loss of manhood, &c., I will send a recipe that will cure you, FREE OF CHARGE. This great remedy was discovered by a missionary in South America. Send a self-addressed envelope to the Rev. Joseph T. Inman, *Station D, Bible House, New York City.*

This is to certify that my wife, having been troubled for a length of time with asthma and general nervous debility, and having been treated by medical men and used many preparations, finally tried a bottle of Victoria Hypophosphites, and realized the most immediate and permanent benefit she ever got from any previous medicine.
