Religious Temperance Meeting at the Sons of Temperence Hall, Princess Street, every Sunday afternoon from 4½ to 5 o'clock.

RELIGIOUS NEWS.

Episcopal.—The new Episcopal Church at Cannington was opened for divine service on Sunday, 17th Dec. In the morning the Venerable Archdeacon Fuller preached. The afternoon sermon was by Rural Dean Hill, and in the evening Rev. William Henry Jones delivered a sermon on the Church of Christ. The attendance was large, and the collections considerable.—The Brantford *Daily News* states that the Rev. J. Carmichael, of Montreal, has accepted the pastorship of Grace Church, Brantford, vice Rev. Canon Usher, resigned, at a salary of $2,000. [This statement we are in a position to correct. The fact is: Mr Carmichael was offered the rectorship some time since, but he felt it his duty to decline. We make the correction for the benefit of Mr Carmichael's numerous friends in this city.—Editor *Witness*.]—It appears that Halifax (N.S.) is to have a Protestant Cathedral shortly. Hon. Justice Bliss (father-in-law of Bishop Binney) has given an eligible site, and another member of the Episcopal Church, whose name does not appear, has promised to give the magnificent contribution of ten thousand pounds towards its construction. The Bishop and his sister have also contributed the sum of $3,000 towards a church endowment scheme, and it is expected that the diocese will raise the remaining $7,000 needed for its completion.

The Melbourne *Argus* says that at a recent Church of England Assembly, held in that city, the bishop, who has before distinguished himself for liberal leanings, recommended the alteration of the laws of the church so as to allow church buildings to be used for other than Church of England purposes. This is supposed to have reference to an exchange of pulpits with the Dissenting ministers.

Presbyterian.—The Rev. R. McDonald, of Puslinch, has received a call from the Presbyterian congregation of Thamesford, Presbytery of London.—Rev. James Boyd, of the Presbyterian Church, Cresshill, Ont., was lately presented by his congregation with a valuable horse, as a mark of their warm esteem for him as their pastor.

The Presbyterians of Glasgow are making a vigorous effort to supply the unevangelized masses of the people in that city with the Gospel. It is stated that there are from 100,000 to 130,000 nominal Protestants, who do not attend worship; and that, if they would come, the churches would not hold them. The Established Church has undertaken to build nine or ten new churches, one of which has been completed; and the Free Church and the United Presbyterians are moving in the same direction, with an equal determination.

Wesleyan Methodist.—The *Guardian* is about to be enlarged to an eight page folio, and is to appear in a new dress with the New Year.—There seems to be a revival among the Wesleyans at Chatham, Ont. [On Sunday (17th) twenty-six persons at once joined the church as recognized members.

The Primitive Methodist congregation of Barrie, Ont., hitherto worshipping in the town hall, occupied the basement of a new church on Sunday, 24th. A social was held the following week.

WIT AND HUMOUR.

All that is necessary for the perfect enjoyment of the fragrant sausage is—confidence.

On a cold day one likes to see the fire getting up, yet one grumbles at a rise in coals.

"Doctor, how can I expand my chest?" "By constantly carrying a large heart in it."

The young lady with speaking eyes has made them quite hoarse by ever-using them.

"Though lost to sight, to memory dear," as the man said when he paid his dinner bill.

A bullman is generally very sensitive of any kindness. He will cry if you give him a shilling.

To cure a smoky chimney—lay the the fire very carefully with paper, wood and coals, but do not light it.

Hercules was a model husband—rather than stay out late at night he invariably carried his club home with him.

"Letter go!" as the boy said when he lamp-posted his letter at the street corner.

The saying that "it is more pleasant to give than to receive," applies only to medicine and advice.

Has a right.—A provision dealer thinks he has a right to keep open shop on Sunday because he keeps a meat-ing house.

The recent magnificent display of the aurora borealis is attributed to an illumination gotten up by the polar bears.

Mrs Moore, of Indiana, thrashed her husband for getting drunk, and the Louisville *Ledger* calls her "the bride of Lam-a-Moor."

A wag observing on the door of a house the names of two physicians, remarked that it put him in mind of a double-barrelled gun; if one missed, the other would be sure to kill.

If you want to find out a man's real disposition, take him when he is wet and hungry. If he is amiable then, dry him and fill him up, and you have got an angel.

Wife—"Well, to tell the truth, I didn't think much of the close of the sermon." Husband—"Probably, you were thinking more of the clothes of the congregation."

An old lady from one of our rural districts astonished a clerk in one of the stores a few days ago by inquiring if he had any "yallar development sich as they did up letters in."

"Loss of a China packet ship," exclaimed a simple-minded old lady as she laid down a newspaper. "I should think so when not even one ones are always safe."

An impertinent minx asking Judy, the other day why she had left off her corset, the old lady instantly replied "that she did so because she had no time to waste in stays."

ÆTNA INSURANCE COMPANY.

Incorporated 1819. Charter Perpetual.

Cash Capital, $3,000,000.00.

LOSSES PAID IN 52 YEARS ... $23,000,000 00

Assets—July 1, 1871 (at market value).

Cash on hand and in Bank	893,815 43
Real Estate	253,319 14
Mortgage Bonds	989,000 00
Bank Stock	1,486,171 00
United States, State and City Stock and other Public Securities	2,425,072 50
Total	$6,047,378 07
LIABILITIES.—Claims not due, and unadjusted	242,435 87

This Company has been doing business in Canada for nearly 50 years, and during that time has secured the public confidence by prompt and liberal settlement of every fair claim. It has fully complied with the laws of Canada by deposit with the Government of Stocks to the extent of $100,000, and is prepared to issue Policies on terms as low as the safety of the Assured will permit.

JAMES SWIFT, Agent, St. Lawrence Wharf.

Kingston, July 20, 1871.

THE ISOLATED RISK
Fire Insurance Company of Canada.

HEAD OFFICE, King Street, corner of Church, Toronto.

CAPITAL $500,000.

ALEX. McKENZIE, President; JOHN MAUGHON, Jr., Secretary.

DIRECTORS IN KINGSTON:

HON. A. CAMPBELL, P.M.G.; ALEXANDER GUNN, of J. Carruthers & Co.

TO THE PUBLIC.

THE DIRECTORS of the above-named Company would respectfully direct the attention of insurers to the following advantages offered by this Company:—1st. It has a large Cash Capital, giving undoubted security to all holding its policies. 2nd. It will devote special attention to the Insurance of Farm Property and of Detached Residences (with contents) in Cities, Towns and Villages. 3rd. It will accept risks at the very lowest rates compatible with absolute safety of policy holders. 4th. It will not impose on those whose properties are not hazardous the burden of making up the losses on hazardous properties. 5th. It will adjust all losses without delay, and pay in *Cash at once*. 6th. The Stockholders, Directors and Agents being all residents of Canada, and its headquarters, assets and operations confined exclusively to Canada, those who insure in it will have knowledge of all its transactions.

J. C. CLARK, Banker,
General Agent,
Ontario, Street, Kingston.

Aug. 24, 1871.

Young gent—"Might I ask you miss—ah." Miss—"Very sorry, sir; but I'm engaged for the next three dances." Young gent—"It is not dancing—ah—it is—it's beg your pardon, miss; you are sitting on my hat."

The heavy dew on the Ohio river having ceased to fall, congress will be required, this winter, to vote an appropriation into the atmosphere, or pass a statute to tilt up the Gulf of Mexico. How can they expect navigation in the Ohio when they use it for drinking water in at least three cities, and at Cincinnati run a fountain with it?

A little boy who loves to pass his evenings in the stores, and listen to the improving conversation of the elders while helping himself to sugar, was told the other night that hereafter he must stay at home. "I wish I was a man," he said. "And what would you do if you were a man? asked his mother. "I would get married and then I could go to the stores every evening." A very observant boy.

The Conservative section of the Liberals, led by the Duke of Somerset and Viscount Halifax, are seeking to form a coalition with the Tories for the purpose of electing the Right Hon. Mr Bouverie as Speaker of the House of Commons, instead of the Right Hon. Mr Brand, and to compel the retirement of Mr Gladstone.

Correction.—It appears we were in error in attributing political motives to Mr Blake's visit to Ottawa. He merely went to see that the lumbermen's axes were properly ground. The unfortunate settler will have to turn the grindstone.

Says the Ogdensburg *Journal*:—On Saturday a fight which had been going on for a couple of days, at short intervals, on the farm of H. E. Axtell, between his thorough-bred two year old Ayreshire bull and a yearling ram, culminated in a complete victory for the ram, and the death of the enemy. The bull was knocked completely out of time and fell dead in the last round, having succumbed to the fearful butting of his small and lighter assailant. The fight terminated in the presence of Mr Axtell's hired man, who had no idea that the buck could kill the bull.

A Challenge.—A Welsh vicar has, through the *Western Mail*, offered a challenge to Mr H. Richard, M.P., in these terms:—"You have spoken scorn of the Welsh clergy on many occasions. As a Welsh clergyman I now challenge you to meet me on the platform of a public meeting in any town you may choose in Wales, that we may, under equal circumstances, discuss before our countrymen the merits of our educational policy. I also give you the option of carrying on the discussion in English or in Welsh, as may be the more agreeable to you. If you accept this challenge I trust our meeting may tend to the enlightment of our countrymen, whose welfare you doubtless seek."

An Article of True Merit.—"Brown's Bronchial Troches" are the most popular article in this country or Europe for Throat Diseases and Coughs, and this popularity is based upon real merit.—*Adv.*

There is, probably, no way in which we can benefit our readers more than by recommending to them for general use Johnson's Anodyne Liniment. It is adapted to almost all the purposes of a Family Medicine; and as a specific for coughs, colds, whooping cough, soreness of the chest, lame stomach, rheumatism, spitting of blood, and all lung difficulties, it has no equal that ever we saw or heard of.—*Adv.*

I can safely and consistently recommend Fellows' Compound Syrup of Hypophosites in a variety of cases, especially for Chest diseases, having successfully prescribed it in Bronchitis, Asthma, Debility, from Liver Complaint, Debility from Fevers, and Debility from impoverished Blood

James Salmon,
Practising Physician and Surgeon.

When the energies have been overtaxed and sleep disturbed Helmbold's Buchû works wonders. It contains no opium or morphine, yet it governs the interior economy of the human system. It is administered for diseases of the bladder, kidneys, weakness, female irregularities, strangury, and complaints incidental to the urinary organs of either sex.—*Adv.*

The propriety of giving condition medicine to horses, cattle, and sheep, was discussed and admitted by many of the Agricultural Societies throughout the State last Fall, and we believe that in every case but one they decided in favour of Sheridan's Cavalry Condition Powders. Good judgement.—*Adv.*

A single trial will convince the most skeptical of efficacy of Helmbold's Grape Pills in Sick or Nervous Headache, Jaundice, Indigestion, Constipation, Dyspepsia, Billiousness, Liver complaints, General Debility, &c. No nausea, no griping pains, but mild, pleasant and safe in operation. Children take them with impunity. These are the best and most reliable. Helmbold's Extract Sarsaparilla creates new, fresh and healthy blood, beautifies the Complexion, and imparts a youthful appearance, dispelling Pimples, Blotches, Moth Patches and all eruptions of the skin.—*Adv.*

FELLOWS'
Compound Syrup of Hypophosphites.

AS ALL LIFE-ENDOWED BODIES, whether they be beasts, birds, reptiles, insects, or even zoophytes and subjects of the vegetable kingdom, are governed by vital force, which binds all the springs of existence; and as nothing can save them from destruction when this principle leaves them, the discovery of means whereby vitality may be sustained in the living body is indeed a boon to the world.

Modern chemistry has ventilated the question and discovered the ingredients constituting the brain, muscles and nerves, and finds that by introducing these ingredients in proper proportions the brain and nervous system are strengthened.

This, then, is substantially the basis on which Fellows' Hypophosphites is built; its direct action is upon the blood, the brain and nervous system, and the muscles. Strengthening the nerves, it causes the rapid distribution of vitalized blood in the muscular organs of the body.

Rousing the sluggish heart and liver, strengthening the action of the stomach and bowels, and enabling the lungs to be fully inflated with oxygen.

It is adapted for all cases of weakness and emaciation, whether arising from a sedentary life, a tropical climate, from fever or debility, from any cause, and is efficacious in pulmonary consumption, many confirmed cases having been cured, and all benefited, where its use has been continued over a fortnight.

In bronchitis it is a specific, and in asthma it gives relief where every other remedy fails.

For nervous debility it stands unrivalled and may be used with confidence in all cases.

As this is entirely distinct and different from every other preparation of Hypophosphites, be careful to ask for Fellows' Syrup, and take no other.

Sold by Apothecaries. Price $1 50; six for $7 50.

JAMES I. FELLOWS, Chemist,
St. John, N.B.

Notice

IS HEREBY GIVEN that application will be made at the next Session of the Legislature of Ontario, for an Act confirming and legalizing the several Municipal By-Laws granting Bonuses to the Kingston and Pembroke Railway Company, made by the City of Kingston, the County of Frontenac, the County of Renfrew and the Village of Pembroke, respectively.

Kingston, Nov. 9, 1871

IS PUBLISHED every lawful evening. Five Dollars per annum, payable in advance. Subscribers who receive their paper by mail are charged Five Dollars.

The Chronicle and News

IS PUBLISHED every Friday morning, and contains the news of the week. It embraces a large amount of reading, and is furnished at Two Dollars per annum, paid in advance. Address orders to the publisher.

JAMES SHANNON.

CAUTION.

THE gross frauds which continue to be practised by obscure manufacturers, more particularly in Germany by imitating the labels attached to JOHN GOSNELL & Co.'s PERFUMERY, render imperative upon the Proprietors to CAUTION the public against such nefarious proceedings, and to request their friends and patrons to purchase only of respectable dealers, who import direct from John Gosnell & Co.; and invite special attention to the address—

RED BULL WHARF, 93 Upper Thames Street.

John Gosnell & Co's Select Perfumes: Eau Bouquet, Royal Yacht Club Bouquet, Jockey Club Perfume, Essence of Wood Violet, Victoria Bouquet, Frangipanni, Military Bouquet, the Bride's Bouquet.

For Prospectus and particulars, apply to the Patentees and Sole Manufacturers, JOHN GOSNELL & Co., Perfumers—by Appointment to Her Majesty, the Princess of Wales, &c., RED BULL WHARF, 93 Upper Thames Street, late of 12 Three King Court, Lombard Street.

"THE" SAUCE. Prepared by Alexander Southwood Stocker, from a recipe by his Cousin, the late Dr Southwood Smith, thirty-five years Physician to the London Fever Hospital; Father of Sanitary Reform; Medical Member of the first General Board of Health; Author of the first work on Fever in any age or country, the Philosophy of Health, &c.

Delicious with every known dish. Its habitual use increases the appetite and promotes digestion. It is much esteemed for its digestive properties.

As an assurance of its purity and salutary properties, it is only necessary to point out the name of the celebrated and philanthropic Physician from whose prescription it is compounded. The entire life of that distinguished man was spent in promoting the health of his fellow-creatures, and his death, to December, 1861, was mourned as a national loss.

Wholesale and for exportation by the Proprietor, 69, Lombs Conduit Street; Barclay and Sons, Farringdon Street; Batty and Co., Finsbury Pavement.

Retail by Chemists, Grocers, Italian Warehousemen, and others throughout the Kingdom, and every part of the world.

Ask for the "The" Sauce.—Special export Agents—Burgoyne, Burbridges, and Squire, 16, Colman Street, London.

LAMPLOUGH'S PYRETIC SALINE—A Medicine that cures Sea Sickness or the worst form of Billious Headache in a few minutes; effervescing and tasteless, its constant use is especially calculated to maintain health. When mixed with water and taken during the effervescence, it immediately blends with the food, and is rapidly absorbed into the system. It vitalizes and supplies the blood with those saline principles that are lost, altered, or destroyed during the hot weather. In Jungle, Scarlet, Yellow, Typhus, Eruptive Fevers (or Cholera), also in several other conditions, where the vital current is poisoned by infection, and and thereby rendered unfit to support health and prolong human life, it has been found eminently beneficial; and its sustaining and purifying influence acts as a preventive to disease, as the numerous unsolicited testimonials accompanying each bottle will prove. Its portability renders it admirably adapted to the traveller, tourist, emigrant, or private family, more especially when distant from medical advice or assistance.

Sold in patent stoppered glass bottles, price 2s 6d, 4s 6d, 11s, and 21s each. Special agents required and appointed in all parts of the world

SIR WILLIAM BURNETT'S DISINFECTING FLUID, for the purification of sick rooms, hospitals, workhouses, factories, prisons, crowded places, between decks of ships, fever wards, clothes and linen of sick, night-chairs, cesspools, drains, water closets, stables, dairies, larders, musty casks, tubs, &c.; bilge-water, and the holds of ships; apartments for searchers, undertakers, and jurymen, and for post-mortem examinations; for the prevention of infectious disease, canker and fungus in trees; for the disinfection of dead bodies, and for the preservation of subjects for dissection; for the extermination of bugs and other vermin.

Sir W. Burnett's Disinfecting Fluid was the only Disinfectant used at the Agricultural Hall during the Smithfield Club Cattle Show in 1866, by order of Her Majesty's Privy Council.

The value of the fluid is shown by the following letter from the Secretary and Manager:

"Agricultural Hall, Islington, Jan. 1868.

"Dear Sir,—Please to send eight gallons more of your Disinfecting Fluid, as per order enclosed. Having used various Disinfecting Fluids at our many shows, I can say with confidence that none have had the instantaneous and complete effect of Sir William Burnett's, and this too without producing any nuisance like the smell of chloride of lime or carbolic acid.—I am yours faithfully, "S. Sidney, Sec. and Manager.

"Capt. Jackson, R.N., 90, Cannon street."

This fluid acts on the essential cause of disease by destroying the local conditions of the atmosphere under which cholera is more frequently developed and propagated. For instance: "In a house in St. Andrew's street Plymouth, occupied by fifty-two persons, it was sprinkled in every room except four; in these the occupants would not permit it to be applied; the result of which was, that in those parts of the house where it had been used, not a single case of cholera subsequently occurred; while in the four rooms above alluded to, the disease still exists and some deaths have taken place. Two houses immediately opposite were supplied with a quantity, in neither of which has there been a single case, although the disease is raging in the neighbourhood."

Sold by all Chemists, and at 20, Canon street, London. Quarts, 16s; pints, 8s; half-pints, 4s; glass-stoppered Imperial pints, extra strength, 16s per dozen; and in bulk at 4s per gallon: bottles included. Each gallon making 200 gallons, when diluted with water. See directions on every bottle.

Recommended and used by Professor Simonds at the Royal Veterinary College, during the last twenty years.

N.B.—This fluid is a certain cure for reaage in horses and the scab and rot in sheep.
