May 28, 1872.

Dr. WHEELER'S Compound Elixir of Phosphates and Calisaya.

THERE is no diseased condition of the body in which Dr. Wheeler's Compound Elixir of Phosphates and Calisaya, may not be used with positive benefit. Being a Chemical Food and Nutritive Tonic, it acts physiologically in the same manner as our diet. It perfects Digestion, Assimilation, and the formation of healthy blood. It sustains the vital force by supplying the waste constantly going on, of nerve and muscle, as the result of mental and physical exertion, enabling mind and body to undergo great labour without fatigue. Its action in building up constitutions broken down with Wasting Chronic Diseases, by fast living and bad habits, is truly extraordinary, its effect being immediate in energizing all the organs of the body. Phosphates being absolutely essential to cell formation and the growth of tissues, must for all time be Nature's great restorative and vitalizer.

Sold by all druggists at $1.

March 12, 1872.

To the Public of Canada.

OFFICE OF THE
JOSEPH HALL MANUFACTURING COMPANY,
OSHAWA, ONT., MARCH 8, 1872.

Being desirous of testing the merits of the different water-wheels now offered for sale in Canada; as to their economical use of water, we as manufacturers of the GENUINE JAMES LEFFEL DOUBLE TURBINE, make the following challenge to the manufacturers of ANY WHEEL now made in Canada, whether it be IMITATIONS of the JAMES LEFFEL DOUBLE TURBINE or any other pattern, the wheels in all cases to be wholly manufactured by the competing parties:

We will place in the hands of any responsible party six thousand dollars ($6,000), the party accepting the challenge to do the same, the money to be held subject to the award of the judges. The wheels to be tested in a flour mill, driving the same runs of stone, grinding the same wheat, and having the same number of square inches of opening to receive the water, the amount of water discharged to be the measure of the amount used by each wheel.

The judges to be non-residents of Canada, and to be thoroughly well informed in the mode of testing the power of turbine wheels—each party to choose one judge, and the two to chose the third.

The owners of the winning wheel to have their money refunded them, and the loser's money to go towards establishing a mechanical free library in any town in Canada named by the owner of the successful wheel.

The wheel to be tested at ¼, ⅜, ½, ¾, and full gate.

Each party to give good and sufficient bonds, to the amount of $4,000, that the loser shall pay the entire expenses of the test.

There are some wheels that give very good results with full head and full gateage which entirely fail under partial head and partial gateage. Such wheels in our climate, where the water-powers are affected by both cold and drouth, are of no practical value.

We claim that we are the only makers of the GENUINE JAMES LEFFEL DOUBLE TURBINE WHEEL in Canada, and that it is without a RIVAL in the WORLD IN PRACTICAL RESULTS.

More than 6,000 of these wheels are now in operation in Canada and the United States. The sales of no other wheel ever yet introduced on this continent exceed one-sixth this number.

Our wheel has been thoroughly tested in GREAT BRITAIN, and has fully maintained the reputation it has gained in Canada and the United States, as the most economical water-wheel in practical operation ever yet introduced.

We are now publishing a new descriptive water-wheel pamphlet containing 150 pages of valuable matter, which will be sent free to all applicants.

For further information address,

F. W. GLEN,
Oshawa, Ont.

N. B.—We desire to call attention to the following certificate:—

SPRINGFIELD, Ohio, Dec. 25, 1868.

We take pleasure in informing the public of Canada, that we have sold and furnished Mr F. W. Glen, of Oshawa, Ontario, Patterns, Formers, Drawings, Gauges, and all other necessary information to build our celebrated Double Turbine Water-wheel, invented by James Leffel, and known as the "Leffel Wheel." We have also obligated ourselves to furnish the same facilities for manufacturing to no other parties in Canada. Without the information we have given to Mr Glen, no one can successfully build our wheels, and we advise parties in Canada to purchase our wheels of no other manufacturer. Mr Glen's facilities are unsurpassed, and we feel sure that he will build a wheel that will give perfect satisfaction. We therefore commend him to the public of Canada with entire confidence, feeling sure he will manufacture a wheel in all respects equal to our own.

[Signed,
JAMES LEFFEL & CO.

SIR JOHN A. MACDONALD.

The following extract from the London *Times*, of the 14th ult., will show how our Minister of Justice is estimated in his capacity of Joint Commissioner:—

"We greatly doubt whether any one of those, even including the surrender of her exclusive Fishery rights, will make any individual Canadian the poorer, however much they may benefit Individual Americans, thereby bringing more traffic from the West through Canadian Canals, and more American capital into Canadian enterprises. It is impossible not to admire the spirit of our Canadian fellow subjects, face to face as they are with a far more powerful community suspected of meditating their annexation. It may be assumed that if they could have negotiated with the United States directly, they would have stickled for Reciprocity, and been willing to run every risk of collision on the fishery-grounds rather than abandon it. We held, nevertheless, that, on the whole, the British Commissioners, with the aid of Sir J. A. Macdonald, procurred better terms for Canada; and that she would act very unwisely in rejecting them. The only act of which she could fairly complain, as a neglect of her interests, was the withdrawal of the Fenian claims. The effect of this act has been more than compensated by the promise of an Imperial guarantee for two millions and a-half, ostensibly to be spent on the Pacific Railway—a scheme to which Canada is understood to be pledged by her deed of union with British Columbia."

MR D. GALBRAITH, NORTH LANARK.

Mr Code M. P. P., for South Lanark in the Legislature of Ontario thus uses the scalpel on this gentleman in a letter to the Carleton Place *Herald*,

"Mr Galbraith denies that he ever told me he would support Mr Rosamond. The circumstances are as follows, and I leave it to the public to judge of their correctness:

During the last Session in Toronto Mr Galbraith and myself had frequent conversations about politics in North Lanark, and I was always under the impression from him that he intended to support Mr Rosamond. On the morning of February 12th, we were again talking over the position, and I mentioned that I had received a letter from Mr R., asking me to support him. I showed him my answer, explaining that my political opinions were decidedly opposed to Mr Rosamond, and stating that I did not see how any one opposing the present Dominion Government could expect the votes of the Conservative party. During that conversation Mr Galbraith said most positively that he and his friends intended to support Mr Rosamond if not forced to run himself. At the same time he hoped that his friends would leave him in the position he was as a local member, as he had not the least desire for a change. As to the privacy of friendly conversation Mr Galbraith knows that he is pulling that wire for sympathy. There was not the least suggestion from him that he wished to disguise his views, and I might remark that it is a very unusual thing for a man to hide his ideas and make everything private when talking of election matters, and the affairs of the country generally. Mr Galbraith has changed his mind about far more important matters than the mere fact whether he or Mr Rosamond will represent North Lanark. His private feelings must have been fearfully harrowed over the Blake—Scott Coalition, when he expressed himself as disgusted at the action of his leaders in that matter; but now we find him preaching purity and all the cardinal virtues for the same men he expressed himself as completely disgusted with."

THE BAND OF THE GRENADIER GUARDS.

This band which carries off the honours of the Boston Jubilee numbers fifty-eight pieces, and its leader is "Dan Godfrey," the celebrated composer. He belongs to a musical family. His father led the band in the famous Coldstream Guards nearly fifty years. One of his sons succeeded him in that band, and another is the leader of the Horse Guards' band. Sixteen years ago when Prince Albert was Colonel of the Grenadier Guards, he appointed Dan, as band leader of the regiment. As a composer Godfrey is widely known. His "Guard Waltz," as arranged for the piano, has reached the sale of 200,000 copies in London alone. He is a professor of the Royal Academy of Music, and his pupils are spread throughout the world. The great cornet player, Levy, to whom the late Col. Fish paid a yearly salary of $10,000, got his first instruction in music from Godfrey, to whom he had hired as errand boy. The Grenadier Guards' band is composed of enlisted men, but they are not under restrictions as private soldiers are. They are not compelled to live in barracks. Their duty consists in attending the guard mountings, parades, and an occasional serenade in the Queen's gardens. They wear no uniform when off duty, and are free to make any engagements not interfering with the requirements of the service. All of them perform either in operas, concerts, or theatres, thereby adding to their incomes. Godfrey's engagements pay him $7,000 a year. According to the rules of the service, a commissioned officer accompanies them, Captain Fluyder being appointed to discharge this duty. If this gentleman's instructions be such as they are reported, we fear there is but a poor prospect of them visiting Canada. Captain Fluyder, it is stated, says his instructions from the Government are such, that the band cannot play anywhere but in Boston, and that if a reception is offered them they cannot accept it without authority from the British Minister or orders from home. They are ordered to return in the Antwerp on the 4th of July.

Daniel O'Connell, son of the late John O'Connell, and grandson of the Irish political leader, was recently drowned by the sinking of his yacht while sailing near Kingstown.
