The boy died on Sunday very suddenly after returning from Sunday School. The cause of death was pronounced hemorrhage of the brain, the result of the blow from the chestnut.

Very Low Prices for Pork.

Two months ago to-day $5.75 per 100 was paid on Acton market for hogs. This week the ruling price is down to $3.75. A farmer who sold a number of his pigs in September sold the balance on Monday and the reduction in price made a difference of $3.00 per hog lower on those disposed of on Monday.

Parlor Social To-morrow Evening.

The fine residence of Councillor and Mrs. Francis on Willow street will be the rendezvous to-morrow evening of all citizens who desire to spend an enjoyable social evening. A parlor social embracing numerous attractive features will be given by the Ladies' Aid Society of the Methodist Church. There will be a programme of music and literary selections and refreshments will also be in evidence. A cordial invitation has been extended to citizens generally.

Preached Anniversary Sermons.

Rev. H. A. Macpherson preached anniversary sermons at Mayfield for Rev. Mr. Farquharson on Sunday. He also delivered an address at the annual tea-meeting on Monday evening. Knox Church pulpit was ably filled by Mr. Stephen, a student from Knox College. Mr. Stephen was a missionary among the miners at Roseland last summer and his sermons were rendered interesting and impressive with illustrations from experiences gleaned during his work there.

The Band Concert.

The concert in the interests of Acton Cornet Band, to be held on Friday evening, 4th November, will have a galaxy of talent. James Fax and W. E. Ramsay, both comic vocalists, of Toronto, and in much favor with Acton audiences will be present. E. B. Jackson, baritone, who is one of Canada's best vocalists, is on the programme, and Mrs. Dr. Dryden, Guelph, one of our most talented pianists, will play the accompaniments. Demise of a Well-known Esquesing Man

After a painful illness extending over a number of months Mr. William Harding, of lot 26, con. 6, Esquesing, crossed the bar last Wednesday. For many years he has been an esteemed resident of this township, to which he came from the vicinity of Palermo on Dundas street. Mr. Harding was of a quiet, retiring disposition, but a friend to all with whom he came in contact. He was a member of St. George's church, Georgetown, where the funeral service was held on Saturday afternoon at 2 o'clock. Mrs. Harding died several years ago. Of the family Thomas H., of Acton, John, who lives with his family on the homestead, and Mrs. Robert Price, the only daughter, survive. Mr. Harding was in his 79th year.

What a Watt is.

Ever since the meeting of ratepayers to consider the question of electric lighting for Acton a number of those who were present have been puzzled to know what the electric watt, referred to in the deputation's report read by Reeve Pearson, really is. Some have been mean enough to insinuate that even the Reeve did not understand the term. They are totally astray in this, however, as he had fully informed himself before preparing the report. For the benefit of those citizens who do not know what a watt is, the FREE PRESS explains, quoting from volume 31 S. "Electricity for Everybody," in the Free Library, that it is one-seven-hundred-and-forty-sixth part of a horse-power. That is, there are 746 watts in a horse-power. If a practical demonstration is desired vote for the Electric Lighting By-law on the 4th November, and then go to the power house of Acton's Municipal Electric Light Plant some day between Christmas and New Years, and the electrical engineer will give you full explanation.

Death of John Husband.

Throughout the county of Halton John Husband was known everywhere as "Honest John Husband," and his death at his home in Oakville last Friday will be generally regretted. Mr. Husband had been in poor health for some time. Deceased was a native of this county, having been born in the township of Nassagaweya, in the year 1831. His father, the late John Husband, was a native of Tullamore, Ireland, and was for many years in the British navy. He settled in Nassagaweya in 1826. John was an energetic young man and early in life was impressed with the advantages of an education. To this end, after securing a good elementary training in the common school at home, he hired out, carefully saved his earnings, and then went to Baldwin College, Ohio, and took a course there. Subsequently he returned home and spent a number of years in teaching school in Nassagaweya and Nelson. He then bought a farm in Trafalgar, near Oakville, where the later years of his life were spent. He was an active christian worker in the church of his choice—the Methodist—in which he continued an honored and consistent member until his death. Mr. Husband took an active interest in the community, and for a number of years represented Trafalgar township in both the local and county councils. In June, 1894, he was chosen as the standard bearer for the Liberal party in the general election for the Legislative Assembly. He opposed Col. Kerns in a hard contest, made an excellent run, but was defeated by 121 votes. Mr. Husband was a brother of Mr. Henry Husband, who has for the past thirty years been the principal of Oakville public school.

GOOSE WHEAT BRINGS HIGHEST PRICES.

Until lately goose wheat has been regarded as an inferior grade and has been quoted at the lowest figures in all market quotations. It is now, however, bringing most satisfactory prices. The Hamilton *Herald* says that last week goose wheat was the highest priced wheat on the Hamilton market, 70c. a bushel being paid for it. Red and white wheat, which were up a cent in price, were 68c. to 69c. a bushel. The cause of the upward tendency of goose wheat is to be found in the old country demand for it. Goose wheat is being used extensively in Italy in the manufacture of macaroni, and this explains the advance in the price largely.

Street Car Accident.—Mr. Thomas Sabin, says: "My eleven-year-old boy had his foot badly injured by being run over by a car on the Street Railway. We always keep a bottle in the house ready for any emergency.

Fagged Out.—None but those who have become fagged out, know what a depressed miserable feeling it is. All strength has gone, and despondency has taken hold of the sufferer. They feel as though there is nothing to live for. There, however, is a cure—one box of Parmelee's Vegetable Pills will do wonders in restoring health and strength. Mandrake and Dandelion are two of the articles entering into the composition of Parmelee's Pills.

All are enjoying the mild fall. The winter is long enough always, even if it is sent in late.

Some persons have periodical attacks of Canadian cholera, dysentery, or diarrhoea, and have to use great precautions to avoid the disease. Change of water, cooking, and green fruit, is sure to bring on the attacks. To such persons we would recommend Dr. J. D. Kellogg's Dysentery Cordial as being the best medicine in the market for all summer complaints. A few drops are taken in water when the symptoms are noticed no further trouble will be experienced.

The People's Faith

Firmly Grounded Upon Real Merit—They Know Hood's Sarsaparilla Absolutely and Permanently Cures When All Others Fail.

Hood's Sarsaparilla is not merely a simple preparation of Sarsaparilla, Dock, Stillingia and a little Iodide of Potassium. Besides these excellent alteratives, it also contains those great anti-bilious and liver remedies, Mandrake and Dandelion. It also contains those great kidney remedies, Uva Ursi, Juniper Berries, and Pipsissewa.

Nor are these all. Other very valuable curative agents are harmoniously combined in Hood's Sarsaparilla and it is carefully prepared under the personal supervision of a regularly educated pharmacist.

Knowing these facts, is the abiding faith the people have in Hood's Sarsaparilla a matter of surprise? You can see why Hood's Sarsaparilla cures, when other medicines totally, absolutely fail.

It Pays to Buy at Bollerts. It Pays to Buy at Bollert

Don't Get the Idea

For a moment that because prices here are so much lower than you have ever seen them, that the standard of quality which characterizes every part of this business is lowered. You are as assured as ever that you get the "best at Bollert's," though prices rule lower than ever before. Our store never presented such an array of beautiful goods as you see piled up on every hand. If our buyer has erred in anything, he has perhaps been over sanguine. He seems to have had an exceptionally good time on his European trip. We have heard reports from buyers that sounded "very much like a wail"—(or whale, whichever you prefer) from the sea. Our buyer had a most happy experience Good health and good weather made his ocean trip one of the most pleasant of the many he has made. He ate his soup daily and never once "got into it." While in Europe everybody and everything conspired to make his business operations of the most pleasant and profitable character. Manufacturers and dealers everywhere were ready to respond to his demand for prices and quotations not secured lower by the largest buyers of this western world. And yet there was perhaps nothing to stimulate a robust and sanguine buyer into large operations more than the excellent prospects for increasing business in our own midst. As a result our store has never been so crowded and to make sure that our prognostics will come out right we have cut our margin of profits keener and closer than we have ever done. And the best goods obtainable are not necessarily high priced. We solicit your inspection and comparison with others.

Artistic Photography A Thing of Beauty.

What is more pleasing to the eye than a photograph well taken? The making of a good negative is a difficult task unless the conditions are right. First, the operator should understand posing and be thoroughly familiar with the art of photography; Second, his lenses, background and appurtenances should be "up-to-date" and first-class.

Under these conditions a good negative and a clear print is bound to result.
