News of Local Import

Liberals Drop Out of Peel Contest.

For the first time in many years adherents of the Liberal party of Peel are not taking an active interest in the forthcoming election. Candidates were ready to carry the standard in the Provincial election in June, but no nominations were presented at a convention called for last Saturday.

Cream Separator; Oil Separator

Those who know how a cream separator works will understand at once the design and method of the centrifugal oil separator for purifying used lubricating oil. Everyone knows that after lubricating oil has been used a short time it becomes dirty, but few persons know that dirty oil can be purified. The oil separator is a new implement for doing it.

Save-the-Forest Week

The importance of the forest in the foreign and domestic trade of Canada is, to a very appreciable extent, securing among thoughtful business men greater interest in the need of protecting our remaining timber and pulpwood. To emphasize in a measure this interest the Government, by order-in-council, has proclaimed the week of April 22 a "Save the Forest" week.

New Bell Telephone District Manager

Mr. H. M. Black, late manager of the Bell Telephone Company at Guelph for this district, was in town on Monday, accompanied by Mr. Sanderson, his successor. They called upon a number of their business patrons here. Mr. Sanderson created a very favorable impression. He is determined to continue Mr. Black's initiative in the matter of administration of the system in his district for the best interests of the customers of the company.

200 Halton Choristers Will Sing

Two hundred choristers from the choirs of the Halton deanery, representing Oakville, Burlington, Milton, Acton, Georgetown and some of the rural districts, will take part in a choral festival to be held at St. Jude's Church, Oakville, on Thursday, May 10, under the direction E. deC. Fletcher. Singers will be chosen from the choirs of the Anglican churches, and will give an attractive programme in Oakville. They will hold a rehearsal in the afternoon prior to the evening concert.

A Kindly Act is This

Once a week Mr. George (Pop) Philp, of Kitchener, journeys to Freeport Sanitarium with his moving picture machine and for one hour and a half entertains the patients with some of the latest offerings of the art. The material for the entertainment is supplied by thoughtful ladies of Preston and Hespeler. Mr. Philp's services are given gratis. Out of the goodness of his heart comes this contribution to the brightening of life for the fifty or more patients.—Galt Times.

They Prefer Jail to Work

The number of committals to Milton jail since October 1, the beginning of the jail year, is 72, about 60 per cent. of them for vagrancy. Governor McGibbon says most of the vagrants are husky young men who go to jail rather than work. Many growl about the work they are ordered to do in the jail, which is not heavy. A short time ago four strong young men refused to go into the jail yard to work, saying it was too cold. Their strike ended when told that if they did not obey orders they would be sent to Hut wash for mutiny. The prospect was too much for them.—Champion.

The County and the Highways

The new provincial law that counties pay twenty per cent. of the cost of construction and maintenance on Provincial Highways will relieve the municipalities along the Toronto-Hamilton Highway of that expense. They will now only contribute their share to the county. The inter-city highway maintenance account was received at last meeting of the Oakville Council and shows an item of somewhat over four-teen hundred dollars for the county. This is the first year the law has been in operation. This is only fair, however, as the county will pay twenty per cent. for both construction and maintenance on Dundas Street through Trafalgar and Nelson, and on the Provincial Road through Esquesing, Georgetown and Acton.—Oakville Star.

Jr. I. O. D. E. Shower

The Jr. I. O. D. E. met at the home of Miss Clara Lants, one of the members, last Wednesday evening to spend a social evening with Misses Lizzie and Jean Moffat, who left on Friday with their parents for Richmond Hill. A very pleasant time was spent in games and other amusements. During the course of the evening the Misses Moffat were liberally showered with handkerchiefs, as a parting remembrance from their fellow members of the club. Although completely taken by surprise the girls thanked the donors and said they would ever cherish fond memories of the many pleasant hours spent in Acton. A dainty lunch was served at the close of the evening. The best wishes of the club go with the girls for every happiness in their new home.

Stock Judging at Milton

The stock judging by young farmers, under the auspices of the Department of Agriculture, came off Wednesday of last week. There were 45 boys in the contest. The winners were Jack Featherstone, Milton, Shorthorn heifer, donated by Hon. E. C. Drury; Erwin Gunby, Tansley, medal; Morley Watson, Tansley, Yorkshire sow, donated by J. E. Featherstone & Son; Cecil Patterson, Milton, Oxford ewe, donated by Blanchard Bros.; Arthur Bird, Georgetown, medal; Wallace Lasby, Acton, Ayrshire heifer, credited, donated by C. H. Osmond; Harold Blanchard, Freeman, Holstein heifer, donated by F. R. McCannell. The three contestants who were awarded medals were ineligible to compete for the prize animals, as they had won animals in last year's competition.—Champion.

Obliterating the Grand Trunk Railway

Paint brushes, from Portland and Montreal on the east to Chicago on the west, are starting in with spring to carry out a work which represents much more than adding a new coat of color where the old one has grown a bit dim. They are starting in on the job of painting out the name "Grand Trunk Railway" wherever it appears and putting the name "National Railway System," or such other application of the words as the management direct. This means that a name which became familiar in Canada even prior to confederation, will disappear from hundreds of stations, thousands of cars and millions of weigh bills, folders, etc. The words "Grand Trunk" are indeed closely bound up with the history of this Province. G. T. R. trains ran as far west as Toronto from Portland as early as October, 1856, and in 1859 the main line from Montreal to Sarnia, through Acton, was completed. The company was incorporated in 1852, and among those responsible for the incorporation are names distinctly associated with the most outstanding events in the political and transportation life of Canada.

Glenwilliams Athletic Club

The annual meeting of the Glenwilliams Athletic Club had the largest attendance the club has had at any of its meetings, about forty men and boys being present. The President reviewed the activities of the club during 1922 season, which, on the whole, had been very satisfactory, and the Treasurer presented his report, showing a balance in the treasury of $150.16. It was unanimously agreed to carry on lacrosse again this season and with the experience gained last year it is hoped the team will make a good showing. Considerable discussion took place regarding improvements to the athletic field and the secretary was instructed to secure estimates for the erection of a small building on the grounds for the convenience of players as dressing rooms. The following officers were elected: President, Wm. Mullin; Vice-President, Jas. Allen; Secretary, Arthur Beaumont; Treasurer, George Smith; Committee, P. Graham, George Allen, J. Thompson, H. Garvin and L. Marchmont; Manager, Wm. Allen.

DO YOU WALK IN A STRAIGHT LINE?

How do you walk? Do you proceed in a straight line or zigzag from side to side?

If you watch a number of pedestrians you will find that nine out of ten bear to the right, return to their proper course, and their start swerving to the right again.

This is because our right leg is more fully developed and stronger than our left. A left-handed person usually swerves to the left in walking, for in his case the left side is the more powerful.

If a man is slightly deaf in his left ear he will swerve to the left. If his other ear is affected he will go in the opposite direction. This is because the deaf stoop slightly on the side on which they can hear least.

Short-sighted people will swerve to the side on which they have their worst eye. Even people who are perfectly well physically and whose bodies are evenly developed always in their walk. This is because their thoughts wander and their legs have not sufficient guidance.
