Paine's Celery Compound Woman's Home Friend.

It Has Saved Precious Lives After Physicians Failed to Restore Health.

No Other Medicine Can So Well Cope With The Ills Peculiar To Women.

What a blessing it would be to people, more especially to wives and mothers, if they could fully realize just what Paine's Celery Compound is able to do for them in times of sickness. The work that cannot be done for the sick after weeks and months of experimenting with the ordinary medicines of our times, is at all time successfully accomplished by Paine's Celery Compound.

If you are cast down and despondent over failures with medicines in the past, it will be wisdom on your part to make trial of the remedy that has succored thousands in times of peril. Mrs. F. M. Huff, Salmon Point, Ont., says:

After receiving so much benefit from Paine's Celery Compound I think it my duty to inform sufferers what this great medicine can do for all who wish to regain health and strength. I have been a great sufferer for years from nervousness and weakness, and have had the advice and attendance of doctors with but little benefit. I was induced to use your Paine's Celery Compound some time ago. It is the best medicine I have ever used; it has done wonders for me as far as health building is concerned. I cannot speak strongly enough in favor of Paine's Celery Compound, and you may be assured I will always recommend it."

WAS PUBLICLY HUMILIATED.

A DRAMATIC SCENE IN ROMAN CATHOLIC CHURCH.

Father Crowley, an Excommunicated Priest, Was Discovered in the Cathedral — Lights Put Out And High Mass Abandoned.

Chicago, Nov. 3.—There was an interesting dramatic scene in His Holy Name cathedral to-day, when in the presence of 1,000 parishioners, Jeremiah Crowley, the excommunicated Roman Catholic priest was publicly humiliated by order of the authorities of the church.

Father Crowley had entered the church unobserved, passing up the centre aisle and had taken a seat almost under the pulpit. Solemn high mass was being celebrated at the time. When the presence of Fr. Crowley became known, Rev. Francis J. Barry, chancellor of the archdiocese of Chicago, was hurriedly sent for. Upon entering the cathedral he went straight to the seat where the excommunicated clergyman was kneeling and ordered him to leave the church. Father Crowley refused to go saying:

"Put me out if you dare."

The strain was intense, and one woman in the congregation fainted. There was no resort to force, however. Chancellor Barry signalled to a man in the choir loft and the sound of the organ ceased and the singing of the choir was hushed. The priests on the altar stopped the solemn service at the end of the Gloria, and walked to the benches and laid aside their golden vestments. The altar boys marched out of the sanctuary through a side door and the priests clad in their cassocks followed. The next moment the hundreds of incandescent lights in the vaulted arches were extinguished and the candle lights on the altar were put out. The strain was broken when chancellor Barry appeared in the pulpit and said:

"Owing to the presence in this sacred edifice of an excommunicated priest the solemn high mass has been suspended. We will proceed with a low mass."

No sermon was delivered, however, and the mass was at an end before the congregation was calm again. The parishioners lingered around the cathedral and watched the deposed priest as he hurried away. None spoke to him.

In a statement issued to-night Fr. Crowley insisted that it had been his desire to avoid involving any of his brother priests in contesting the order depriving him of the privilege of worshipping in Catholic churches and that accordingly he had attended the church of archbishop Feehan's own parish which is the cathedral. He announced that he should continue to attend the services of the Roman Catholic church.

Don't Give In.

If you have tried various so-called remedies and obtained no relief, don't say that there is no cure for rheumatism. The trouble is, you have not taken right medicine. What Dr. Hall's Rheumatic Cure has accomplished for thousands of sufferers it can do for you. S. O. Taylor, Charlecotte, Ont., suffered with rheumatism in the back (lumbago) for four years; five bottles of Dr. Hall's Rheumatic Cure completely cured him. He has been free from pain ever since. As a blood purifier it has no equal. This preparation is put up in bottles containing ten days' treatment. Price 50, at Wade's drug store.

Farmer's Backache.

There is scarcely a farmer in this country but knows what backache is. The hard work and heavy lifts, the constant grind of toil from early morning till late at night, frequently bring the stabbing pain in the back or the dull grinding ache that knows no let up. Then too there are often urinary troubles, swelling of the feet and ankles, puffiness under the eyes, rheumatic pains in the joints and muscles.

Dr. Pitcher ought to be held in high esteem by every farmer in the land on account of his Backache Kidney Tablets, which are doing such a grand and noble work in banishing backache, kidney and urinary troubles, which are such universal complaints on the farm.

HEAVY WORK.

Mr. C. E. Lane, King Street East, Ingersoll, Ont.: "I have been subject to attacks of backache and kidney trouble for some years, owing to heavy work on the farm in my early days. Every attack of cold aggravated it. I have tried other remedies in the past but with little effect, and decided to try a bottle of Dr. Pitcher's Backache Kidney Tablets. I got a bottle from A. E. Gayfer, druggist, using at first three and then two at a dose, as they proved a little too laxative. With the two tablet dose the pain and other trouble disappeared, and since then there has been no return, consequently I am sure they are a good medicine."

Dr. Pitcher's Backache Kidney Tablets are 50c. a Box, at all druggists or by mail, THE DR. ZINA PITCHER CO., Toronto, Ont.

BATTLE OF INKERMAN.

James Wooten a Veteran of the Conflict.

This is the anniversary of the battle of Inkerman—bloody Inkerman, as the survivors call it. The battle was fought in a dense fog, and the smoke from the guns and rifles of both armies only served to further veil the battlefield and one army from another. Regiments in moving about from one place to another walked into the arms, so to speak, of other regiments of their own army, and were either shot down or bayoneted by their own comrades. The Russians and British thus came together and the bayonet was of necessity employed. The British succeeded in driving the Russians from their stronghold, but not before both armies had suffered great loss. There are only a few survivors now of that terrible engagement in 1854, but on the anniversary of the fight nobody can blame them for burnishing up their medals and proudly displaying them. James Wooten, Bagot street, is one of the few left of the heroes of that fight. He received both bullet and bayonet wounds.

FRIGHTENED A GIRL.

Of Course He "Didn't Know It Was Loaded."

Another fellow, "who didn't know it was loaded," came near being the innocent cause of a perhaps fatal accident a few days ago. This time it was a student of Queen's college, who lodges at a Princess street boarding house not many blocks from the Y.M.C.A. While fooling with a revolver which he thought was empty, one of the chambers was discharged. The bullet narrowly escaped his thigh, penetrated the floor and lodged in a pan of ashes which a girl was removing from the kitchen stove, scattering dust all over her. The leaden missiles passed close to the girl's head, and made quite a commotion in the pan of ashes which she held in her hand. Needless to say, the girl was nearly frightened out of her wits. It was a narrow escape for her. People who want to practice the use of firearms should go out to South Africa; there's plenty of room there.

Nervous Headache.

Irritability, Sleeplessness, Feelings of Lassitude and Depression, Weakness and Irregularity of the Bodily Organs

These are the symptoms which point to a depleted nervous system. They tell of thin, weak, watery blood, of wasting vitality and lack of energy and ambition. They warn you that nervous prostration, locomotor ataxia, paralysis and even insanity are possibilities of the future.

It is folly to neglect nervous diseases, folly to suppose that they will disappear of their own accord, and still greater folly to deaden and destroy the nerves by the use of poisonous narcotics. It is a serious matter to trifle with the nerves. It is a question of life and death.

Mrs. Henry Clarke, Port Hope, Ontario, states:—"I have used seven boxes of Dr. Chase's Nerve Food for nervousness and a completely run down system, and can heartily recommend it as a wonderfully effective treatment. Before using this remedy I had been in very poor health for some months. I seemed to have no energy or ambition, felt tired and listless most of the time, and could scarcely drag myself about the house. I was weak, irritable and nervous, could not sleep well, and felt discouraged about my health. Dr. Chase's Nerve Food has taken away these symptoms and given back my usual health and vigor, consequently I endorse it fully."

Dr. Chase's Nerve Food

Fills the shrivelled arteries with new rich blood, strengthens and revitalizes the nerves by forming new nerve force and gradually and thoroughly overcomes disease and weakness. It forms new healthy tissues and gives a well rounded form and clear, healthy complexion to all who use it. 50 cts. a box, 6 boxes for $2.50. At all dealers, or Edmanson, Bates & Co., Toronto.

A PLEASANT OUTING.

A Trip Through the Wilbur Iron Mines.

Saturday afternoon a number of young ladies and gentlemen, under the chaperonage of Mrs. S. Donaldson, visited the Wilbur iron mines. The day was fine, and though they decided to make the short journey by rail, it is the inevitable custom with outing parties to be never on time, and this one was no exception. On approaching the station they heard the shrill whistle of the K. & P. train as it rumbled by on its north bound route. They were doomed to disappointment and slowly wended their way over the sloping hills. On their arrival at the mines they were gladly received by Mr. Barker, the engineer, who conducted them through the various passages of this wonderful underground labyrinth. After the torch lights were prepared the dismal appearance of the pit necessitated some prolonged persuasions to induce some of the more timid of the young ladies to remove their hats and to brave the descent. They all slowly journeyed through the winded vaults roofed by massive, unmoved metal. After refreshing themselves in one secluded alcove, at a rich mineral spring that gurgled from its ice cold fountain, they prepared for the ascent. Finally merging from the cave, they joyfully welcomed the daylight once more. Armed with valuable samples of ore from Caldwell's mines, they began the homeward journey and found a delightful repast awaiting them at Mrs. Donaldson's.

Won't You Write A Postal To Get Well?

Send me no money, but simply write me a postal if you are not well. Pay when you get well.

I will send you a book that tells how a lifetime of study has enabled me to strengthen the inside nerves. Those are the nerves that operate the stomach, kidneys, heart, womanly organism, etc. Weakness of these organs means weakness of those nerves. Nerve strength alone makes any organ do its duty.

I will send you, too, an order on your nearest druggist for six bottles of Dr. Shoop's Restorative. Use it for a month, and if it succeeds pay him $5.50 for it. If not, I will pay him myself.

No matter how difficult your case; no matter what you have tried. If my book shows you that your trouble is nerve weakness—and most sickness is—I will warrant my restorative to cure you.

I fail sometimes, but not often. My records show that 39 out of 40 who get those six bottles pay, and pay gladly. I have learned that most people are honest with a physician who cures them. That is all I ask. If I fail I don't expect a penny from you.

Mine is the only way to restore vital nerve power. Other treatments bring but fleeting results at best. If you want to be well, let me send you an order for the medicine. If it cures pay $5.50. I leave the decision to you.

Simply state which book you want and name of your dealer, and address DR. SHOOP, Box 40, Racine, Wis.

New York Stock Market.

Henry Clews' Report.

The future of the market seems confused. It is bright in spots and clouded in others, and likely to continue irregular, until the leaders in the various deals who have stocks to sell get ready to give prices another lift. There will be plenty of money to invest this winter, and good securities are exceedingly scarce, recent offerings being promptly taken. An encouraging feature is the satisfactory condition of general business. There are no signs yet of reaction, and the principal lines of trade are enjoying another season of unexampled prosperity, except in the drouth district, where corn and cotton were badly injured. The agricultural interests as a whole are prosperous. Iron has always been considered a good barometer of trade, and the great iron mills are running to fullest capacity, with orders three and six months ahead at high prices. Railroad earnings are excellent.
