ODDS AND ENDS OF SPORT.

QUEEN'S HOCKEY CLUB INDIRECTLY RESPONSIBLE

For Exodus of Canadian Players to United States Cities—Toronto Wellingtons Anxious to Secure George McKay.

Pugilist Corbett wants to fight champion Jeffries again.

Up in Toronto, they are still playing rugby. Hogtown has gone crazy.

Entries for the United States bowling tournament at Buffalo will be received until January 4th.

McEachern and Walthour, the winners of the six days' bicycle race at New York each received $750.

Sharkey has commenced training for his bout with Peter Maher, which will be decided in Philadelphia on January 17th.

Winnipeg Victorias have accepted the dates suggested by Toronto Wellingtons for the Canadian hockey championship.

The proposed dates for the England vs. Australian test matches next year are May 29, June 16th, July 3rd, July 24th, and August 11th.

The annual meeting of the Canadian rugby union takes place in Montreal on Saturday evening. The officers to be elected will likely be: President, J. McD. Mowat, Kingston; vice-president, H. Molson, Montreal; secretary, J. D. McMurrich, Toronto.

The dates of the Henley regatta have been named for July 8th, 9th and 10th, and Canadians will be specialy interested in the events occurring at Royal Henley on those days, as the Argonaut eight and Lou Scholes, of Toronto, will be competitors.

Toronto Wellingtons are trying hard to get George McKay, formerly of Kingston, to play centre. Unfortunately the banks require their clerks to play in the bank league, and if George joined the Wellingtons, the cruel bank authorities might turn him adrift.

Shadow Chimes, 2:06¾, is the first high-class pacer that has been purchased for export. In England and Scotland, where he will probably race, no distinction is made between trotters and pacers. Horses of either gait are permitted to start in nearly all harness races.

Improvements have been made in Mutual street rink, Toronto, and none too soon. Platforms, to accommodate 1,500 people, have been erected around the sides. The ice width has been decreased twenty feet, the playing area now being 160x75 feet. Kingston rink ice area is 173x82.

Queen's senior team will be comparatively new this winter. Dalton is not likely to play, and the forward line will consist of three of last season's intermediates with Knight as centre. Merrill may play cover and Mills goal. An effort is being made to get McDowall at point, but if he plays at all, it will likely be with Frontenacs.

Opposition stirred up by the "Young Corbett"-McGovern fight has given boxing a black-eye in Connecticut, but this opposition may be merely temporary. Even if sparring exhibitions are resumed, however, it is not likely that championships contests will again be permitted in the state, so San Francisco seems to have a lien on any battle of the sort fought within the next few months.

Queen's hockey club is indirectly responsible for all this gathering of Canadian players in United States cities to play the game for the Yankees. It was Queen's team that introduced and made hockey popular in the United States some years ago, and the Yankees will always remember kindly the Kingston university icemen whose legs and bodies were upholstered like unto barber poles, as a Pittsburg, Pa., paper said.

Toronto Telegram: Kingston teams seem to be in high favor in Pittsburg for now we have the R.M.C. soldier boys making a tour to the smoky city for a series of matches. Though, it is not surprising that R.M.C. students take well in athletics of all kinds, for, no matter in what they enter, they have always shown themselves to be true young sportsmen, as everyone will admit who has come in contact with them.

RUSH FOR GOLD

Stampede Reported From Dawson to Mayo Creek.

Seattle, Wash., Dec. 19.—Dawson advices of November 26th tell of a great stampede that is going on at Mayo creek, in the Stewart river district. Prospectors wandering in the country late in the summer discovered evidences of several years' development on the Mayo; but no one was around, the operators evidently having gone out for the winter.

Cabins well stocked with provisions and tools were found. The news started the stampede and now the creek is staked from end to end. The original locators having failed to record their claims will return to find that they have no holdings in the district. It is not known in Dawson how rich the pay dirt is, the sole reason for the rush being the mysterious developments.

The Canadian Almanac.

The Canadian Almanac for 1902, the fifty-fifth of the series, as usually valuable and is indispensable to every office and library in the dominion. Many of the lists are not found elsewhere, and in no other volume can so much information about Canada be found in so small a space. The census of Canada, the census of Great Britain, militia information, titled Canadians, principal officers of the British government, and also a complete list of all the countries in the world, with their population, area, reigning sovereign, and form of government, are complete and valuable. The other departments of the Canadian Almanac are up-to-date, including the customs tariff, post office directory, list of banks, clergy, schools, colleges, societies, institutions, barristers, county and municipal officers, division clerks, police magistrates, etc. The Almanac contains 416 pages; price in paper covers, 25c. Published by The Copp, Clark company, limited, Toronto.

To Sell The Old Mint.

Philadelphia, Pa., Dec. 19.—A large sign that for weeks past has adorned the front of the old United States mint building and made known to the passing crowds that the building and grounds were for sale was taken down this morning and shortly after an auctioneer's stand was erected in front of the old portico and other preparations made for the public sale. The government has recently completed a new mint in Philadelphia and vacated the old building at Chestnut and Jupiter streets, where the first United States coins were minted, and which has otherwise played an important part in the country's history. The old building stands in the very heart of the business district and the site will probably be purchased for the erection of a bank or other financial institution. The terms of the sale are to be cash and no bid of less than $2,000,000 will be considered.

New Bishop For Philippines.

Boston, Mass., Dec. 19.—The consecration of the Rev. C. H. Brent, as bishop of the new diocese of the Philippines, took place in St. Stephen's Episcopal church here to-day, with imposing ecclesiastical ceremonial. The edifice was crowded to the doors. Bishops Lawrence of Massachusetts and Brewster, of Connecticut, together with a number of other prominent churchmen took part. The services were marked by a solemn dignity that was very impressive. It included the examination of the candidate, the promise of conformity to the church canons, the assumption of the episcopal vestments, the laying on of the consecrator's hands, and the final announcement of the completed consecration. Later in the day a breakfast was given to bishop Brent and the visiting bishops and clergy.

Woolley Coming Home.

London, Dec. 19.—John G. Woolley, the Chicago temperance lecturer and candidate for president on the prohibition ticket at the last election, was among the passengers sailing for New York to-day. The trip across the Atlantic is the last stage of a temperance tour that has extended around the world. Mr. Woolley having departed from the United States by way of San Francisco nearly a year ago. He declares that he has noticed a gratifying tendency to temperance in all the civilized countries he has visited, with the possible exception of England and Scotland, where the drink evil is apparently on the increase.

Eczema's Itch Is Torture.

The Most Exasperating of all Skin Diseases—The Most Difficult to Cure—Dr. Chase's Ointment Proven to be an Effective Treatment.

Eczema's itch is torture, the skin seems on fire with the burning, stinging humour; at times it becomes almost unbearable, and in desperation you could tear the skin to pieces. You dare not exercise for fear of aggravating the itching, neither can you sleep, for no sooner does the body become warm than the trouble begins, and instead of restful, refreshing sleep, it is scratch, scratch, scratch all night long. There is scarcely a moment's respite from this maddening malady at any time. Of course you have tried nearly all the washes, salves, lotions and medicated soaps, but like thousands of others have been disappointed and disgusted.

Mrs. Ann McDonald, Kingsville, Ont., states: "For about three years I was a dreadful sufferer from Eczema. At times the patches of raw, flaming flesh would extend from my waist to my neck, and from the knees to the ankles. The intense itching almost drove me crazy, and though I tried all the local physicians, they could not even relieve the suffering. The flesh would crack open, and I don't believe anyone ever suffered more than I did.

"I was told of Dr. Chase's Ointment, but did not believe that it could help me. After the fifth application of this preparation I began to feel the benefit of its soothing, healing effects, and now attribute a cure to the persistent use of this wonderful remedy. It is truly worth its weight in gold, and I never tire of recommending it to other sufferers."

You may be skeptical regarding the ability of Dr. Chase's Ointment to cure you. Most people are, after trying in vain to get relief from a host of remedies, but Dr. Chase's Ointment will not disappoint you. You will be surprised at the marvellous control which it has over all itching, burning inflammation of the skin, and the wonderful healing powers which it possesses. It takes time to thoroughly cure Eczema, but Dr. Chase's Ointment will do it. You will find relief after a few applications, and gradually and naturally the cure will follow. Besides being a positive cure for eczema, Dr. Chase's Ointment comes useful in a hundred ways in every home for every form of skin irritation and eruption, chapped skin and chilblains. 60 cents a box, at all dealers, or Edmanson, Bates & Co., Toronto.
