EDITORIAL NOTES.

The Provincial License Department is sending out a circular to the license holders notifying them of the privilege accorded to all under the recent act, of paying their fees in two instalments, instead of the whole amount in advance on the 1st May as formerly.

By the passage of the bill making Sunday shaving in barber shops on illegal act, the Legislature has put an end to the practice. No opposing voice was raised against the measure in the House, which would seem to indicate that the sentiment along that line was decidedly strong and unmistakable.

Among the amendments to the Lord's Day Act, passed at last session of the Legislature, was one prohibiting Sunday excursions. This the christian people of the province, and those who believe in preserving a day of rest to the workingmen regard with much gratification and importance.

The question of whether the gates of the Pan-American grounds are to be open on Sunday was finally settled to-day by the Board of Directors. Their decision is a compromise. The gates are to be open from 1 p. m. until 11 p. m., but the Midway and all amusement features will be closed during the twenty-four hours from Saturday night until Monday morning.

In the *Review of Reviews* for May appears an important illustrated article entitled "The Steel Trust on the Great Lakes," by W. Frank McClure. This article sets forth the nature of the ore-mining and carrying operations in which it is expected that great economies will be effected by the combination. The remarkable development of lake transportation in recent years is well described in text and pictures.

The Orangemen are taking strong grounds against having liquor on sale on or near the grounds where they hold their annual demonstrations. There will be no liquor allowed on the exhibition grounds Toronto at the 12th of July Orange celebration this year. This was the decision arrived at in the quarterly meeting of the County Orange Lodge, when a resolution was passed instructing the secretary to notify the secretaries of the primary lodges that no liquor of any description will be allowed on the grounds.

The liquor business in Maine has run up against a new snag, according to the *Maine Farmer*. All methods of punishing the rum-sellers have so far proved ineffective, or at least inadequate, in most cases. The profits arising from the nefarious traffic enables them to snap their fingers at fines, unless unusually heavy and frequent; and political pulls, love of popularity, lack of backbone have conspired to prevent the judges from imposing the sentence of imprisonment. But the latest scheme, that of getting an injunction against the owner of the building in which the liquor is sold, ignores the cellar entirely, and cuts the ground from under his feet in a way which he is powerless to prevent.

On the opening of the House on Monday Sir Wilfrid Laurier announced that it was the intention of the Government that the 24th of May should be observed as a public holiday. He said:—"I stated some time ago that I would made the announcement this day upon the celebration of the 24th of May. The Government, I think, is right in assuming that it is the general, if not the unanimous, wish of the people of Canada that the 24th of May, which has long been celebrated as a national holiday, should continue to be so observed as in the days of Queen Victoria. I therefore move that the order, 'House in committee on bill respecting Victoria Day,' be transferred from public orders to general orders." This means that Dr. Horsey's bill is adopted by the Government.

A proposition has been made for the adoption of uniformity in the size, color and design of postage stamps by all countries included in the Postal Union. Aside from its effect on stamp collectors, the idea opens a pleasing view of the coming civilization. Already there is an international code of signals for use of ships at sea. In cable telegraphy there is also a similar code system which is of great convenience in saving time, labor and expense. From the universal postage stamp there is only another step to uniformity of coinage, and from that to the adoption of an international system of weights and measures. Then there will have to be a universal language, but that will come not by agreement but by natural evolution and the English language will then predominate.

The Government has decided to grant an inquiry into the charge preferred by the Canadian Press Association, that a combination exists among the paper manufacturers of the Dominion to unduly enhance the price of paper. This act is taken under a clause in the customs act of 1897, giving the Government power to deal with trusts or combinations, and the present is the first case of the kind which has yet been instituted in Canada. A deputation went to Ottawa and interviewed Hon. Mr. Fielding and the Minister of Customs, when the charge that a paper trust existed and was squeezing the newspaper publishers was made in the most direct manner and supported by evidence. The Minister of Finance, after a careful consideration of the matter, has taken the view that the statement by the Press Association contains sufficient grounds to call for an inquiry under the terms of the statute, and accordingly one has been ordered. The investigation will be made by Mr. Justice Henri Taschereau of Montreal.

MONUMENT FUND CLOSED

Our Citizens and a Few Outside Friends Contribute $200 to Raise a Memorial To Our Soldier-Hero.

THE LOCATION AND STYLE OF THE MONUMENT.

The subscriptions for the fund to erect a monument to the memory of our soldier hero, Gunner W. J. Moore, who died of enteric fever at Pretoria, South Africa on the eighth Nov. last, have been received at this office since early in the year. The generous response on the part of the citizens, especially the working people, to the popular fund, has been a great pleasure to the committee incharge. Outside friends have also been generous in contributions, and the fund, which closed last Saturday evening, has reached a very satisfactory total of $261.65, nearly all of which has been paid and is on deposit in the bank. A few subscriptions remain unpaid but these no doubt will be handed in within a few days.

The following sums were paid during the week:

Amount acknowledged in last issue	$240 15
H. E. Holmes, Acton	1 00
E. Statham, Acton	25
Beardmore & Co., (second subscription)	10 00
Col. Goodvillie, Georgetown	5 00
A Friend, Acton	1 00
Wm. Brown, Acton	1 00
John Matthews, Toronto	50
T. H. Rolston, Acton	50
Sergt. Chas. Gamble	25
Total subscriptions	$261 65

In order to decide upon the character of the monument to be ordered, and to unite upon a location a meeting of all interested will be called next week when it is hoped the matter will be finally and satisfactorily settled.

DISASTROUS FIRE AT BURLINGTON.

The Baxter-Galloway Mills and Baxter's Bank Destroyed.

BURLINGTON, April 27.—Baxter and Galloway's flourmill and granary and Baxter's Bank adjoining the mill, were destroyed by fire yesterday.

The loss of the Baxter-Galloway Milling Company is estimated at $35,000

CARNEGIE AT PALMERSTON.

Is Willing to give That Town $20,000 For a Public Library.

PALMERSTON, April 25.—Palmerston is at present very much excited over the Mayor having received word from Andrew Carnegie that he is willing to donate $20,000 for building a public library, providing the town supplies the site for building and a certain amount for maintenance. The town fathers have been very busy locating a site, and will call a special meeting at once to pass the necessary by-law.

MORE KLONDIKE GOLD.

Present Season's Output is Estimated to Reach $30,000,000.

VICTORIA, B. C., April 29.—According to news received by the steamer *Amur*, the work of "cleaning up" the Klondike commenced on April 19, and the hills and creeks were alive with men about to commence sluicing, a thaw having given the miners a full head of water. Those who have made investigations on the various creeks and gulches report that this season will excel the past ones, and the output will not be less than $25,000,000. Some place the estimate as high as $30,000,000, these estimates of course including the gold that will be acquired by summer workings.

SMALLPOX IN WATERLOO.

A Christian Science Case—Berlin and Waterloo Excited.

BERLIN, Ont., April 29.—There is a case of smallpox in Waterloo. The patient is Mrs. Master, who lives in Waterloo township. For the past nine days she has been treated by Christian Science healers, Mrs. Adams of Berlin, and Mrs Winkler of Waterloo. This morning Mrs. Master's condition became so serious that Dr. Bauman was called. He pronounced the illness a severe case of smallpox. He sent for the Waterloo Medical Health Officer, Dr. Webb. They held a consultation and sustained Dr. Bauman's decision. Prompt action was then taken; the house of the patient and neighbors were quarantined, as were also the homes of Mrs. Winkler in Waterloo and Mrs Adams in Berlin. A special meeting of the Board of Health will be held to-morrow morning, when a resolution for compulsory vaccination may be passed.

LIMEHOUSE.

Mr. Andrew Dobbie has been appointed commissioner for Limehouse by the township Council. Now for satisfactory repairs to our roads and walks.

Mrs. C. S. Smith, of Acton, was the guest of Mrs. John Moore, last Friday.

Rev. Dr. Ross of Guelph, preached in the Methodist Church last Sunday afternoon. His discourse was much enjoyed.

The fishermen, who have permits, will be out bright and early this morning.

CHEWSONS CORNERS.

Owing to the Quarterly Communion services being held in Eden Mills Methodist Church next Sunday there will be no service in the church here.

A large number from here attended the funeral of the late David W. Smith, of the fourth line of Erin. Mr. Smith was well known and highly esteemed by all who knew him in these parts.

Mr. Wm. Y. Gray is enlarging and improving his residence.

Misses Mary Crawson and Miss Thomas, of Nassagaweya, spent Sunday at Mr. M. Crawson's.

Mr. and Mrs. Wm. Frick and children, of Acton, spent Sunday at Mr. Robt Gibbon's.

Misses Bertha Hayward, Ella Gamble and Nellie Brown, of Acton, spent Sunday at Mr. James Gamble's.

Rev. J. K. Unsworth, B. A., of the First Congregational Church, Hamilton, and who is well known by Free Press readers is taking radical ground in his public utterances on the liquor question. In his pulpit last Sunday while discussing the liquor problem, he advocated government ownership and control on the dispensary system which prevails in South Carolina. This system removes the evils of treating, and those incident to the avarice and greed of the barkeepers, also the enticements of elaborate and attractive furnishings. The opponents of prohibition, as well as those who favor it, can unite in advocacy of this reform.

The government, owning many Irishclads, has many hardships.

A Card.

We, the undersigned, do hereby agree to refund the money on a 50-cent bottle of Green's Warranted Syrup of Tar, if it fails to cure your cough or cold. We also guarantee a 25-cent bottle to prove satisfactory or money refunded. A. T. BROWN

CHURCHILL.

An old and highly esteemed resident of this vicinity died very suddenly last Friday afternoon, in the person of David W. Smith, lot 9, con. 5, Erin. Mr. Smith had not been feeling well and shortly after noon, left his work in taking turnips out of a pit, and went into the house to lie down a little while. Mrs. Smith ministered to his comfort and then went out to make preparations for going to Acton with Mr. Smith to market. She returned within five minutes and found him apparently sleeping. As she approached she thought he looked strange and investigation proved that the spark of life had fled. This sad and sudden affliction was a heavy blow to Mrs. Smith, who had just recovered from a period of severe illness. Mr. Smith was the son of the late John Smith, was born on the farm where he died and lived there all his life. He was a man of quiet disposition, a good neighbor, beloved by his family and a friend to all. He was a regular attendant of the Congregational Church here, and was to have been received into full connection at the coming communion. Deceased was married 48 years ago, and his partner in life and four children, Messrs. Albert and John on adjoining farms, and Mrs. Thomas Ryder, and Mrs. Thomas Burt, survive him. The remains were interred in the cemetery here on Monday, Rev. Dr. Hindley and Rev. H. A. Macpherson officiating.

Deafness Cannot Be Cured.

By local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube gets inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of deafness (caused by catarrh) that can not be cured by Hall's Catarrh Cure. Send for circulars, free.

A LAME BACK.

CAUSES MR. C. H. WILCOX YEARS OF GREAT SUFFERING.

Injured His Spine While Lifting, and the Doctors Told Him He Would Never Fully Recover—But He is Once More Free From the Trouble.

From the Brockville Recorder.

In the western section of Leeds county there is no man better known than Mr. Chas H. Wilcox. He has resided in the vicinity of McIntosh Mills for years, and during much of the time has conducted a very successful saw-milling business. All of Mr. Wilcox's neighbors know that he was a great sufferer for years from a lame back, and most of them know that this affliction has now happily passed away. Mr. Wilcox says he owes this happy release from pain to Dr. Williams' Pink Pills, and those who know him will not for a moment question the sincerity of his statement. He gives the story of his suffering and subsequent cure in the following statement:—"One day while working in the mill, and engaged in lifting lumber I had the misfortune to severely wrench my back. I was so badly injured that I had to be carried home, and for six months I was practically unable to move, and suffered great torture. The doctor told me that I had injured my spine and that I would never fully recover from its effects. At last I was able to go about again, but was far from being the man I was before. For years I suffered almost continually from pains in the back, and was unable to lift any weight. At times the pain was so bad that I was unable to work at all, and I was often confined to the house for days at a time. During this time I was treated by four different doctors but their treatment did not seem to do me any good. They told me that owing to the injury to my spine my back would always be weak. Seeing that the doctors were unable to help me, and having heard of the many cures resulting from the use of Dr. Williams' Pink Pills, I decided to give them a trial, and procured a supply. Very soon I could see that they were relieving me a little and this encouraged me to continue their use. In all I took about ten boxes and when they were finished my back was as strong as ever. The pains that had racked my body for so many years had entirely disappeared, my back felt as strong as before the injury. It is now two years since I discontinued the use of the pills and in all that time I have not had an ache or pain, so that I may safely say that my cure is permanent. I would advise all similar sufferers to try Dr. Williams' Pink Pills, for knowing what they have done for me, I am confident that they cannot be less successful in other cases."

These pills are sold by all dealers in medicine or may be had by mail at 50 cents a box or six boxes for $2.50, by addressing the Dr. Williams' Medicine Co., Brockville, Ont. Do not take any substitute or any other remedy alleged to be "just as good."

NOTICE.

MR. Frank Garett, of the Commercial Hotel, Acton, has made application to me for leave to transfer his tavern license to J. J. Holland, of the city of Hamilton.

THOS. A. REYNOLDS,
License Inspector.

DESIRABLE RESIDENCE FOR SALE.

THAT well-known propert on Fairview Avenue, recently occupied by Wm. Tripps, is now offered for sale. The house is well-built, has eight rooms, with hall and pantry, large cellar and wood house connected. Hard and soft water. Stable and fowl house on the premises. There is an acre of land, well stocked with choice fruit. The property is within the corporation of the thriving manufacturing town of Acton. Owing to the proximity of Fairview Cemetery this property would make a splendid site for greenhouses and gardens. Will be sold on easy terms. For particulars apply at

THE PUBLIC HEALTH.

CITIZENS ARE REQUESTED TO COMPLY WITH THE PUBLIC HEALTH ACT.

NOTICE is hereby given that all residents of Acton are required forthwith to clean their cellars, drains, yards, pig styes, water closets, and outbuildings and premises, and remove therefrom all dirt, manure, or other substance which may endanger the public health, and to have the same completed by the 10th day of May next, on which day the Sanitary Inspector will commence a general inspection, and further take notice that the section of the Public Health Act prohibiting the keeping of hogs between the 15th of May and the 1st November, except in pens at least 70 feet from any dwelling house and fifty feet from any street or lane, with the floors kept free from any standing water and regularly cleansed, will be strictly enforced.

All citizens are earnestly requested to keep their premises constantly clean and thoroughly disinfected.
