SCROFULA.—Unprecedented instances of the cure of this Complaint.—This is, perhaps, the greatest scourge to which the human family are subject, and at the same time the most difficult of cure, inasmuch as it is dependant on the power of the medicine prescribed, and its instantaneous effects upon the parts affected. The only infallible remedy for the cure of this most distressing of maladies with which we are acquainted, is Holloway's Ointment and Pills. They quickly eradicate all cutaneous diseases, and there is perhaps no class of disorders which so readily yields to the treatment of these mighty medicines. They act like a charm, and not only astonish the patient, but the faculty themselves rendering them unparalleled in the history of medical science.

LYON'S KATHAIRON.—The Ladies have proclaimed this article to be, by far, the cleanest and most delightful preparation ever used; and from their verdict, in such matters, there is no appeal. Their decision is certainly well grounded for its wonderful efficacy in restoring, preserving and beautifying the Hair: cleansing it from dandruff and all other impurities: curing nervous Headache, &c: together with its delightful perfume, and its perfect cleanness and delicacy, (the result of the great care taken in its preparation,) have made it the most universally popular article of the kind, in the world.

Sold every where in large bottles, for only 25 cents.

TO ARCHITECTS.

PUBLIC WORKS,
Toronto, 29th Dec. 1855.

PLANS ARE REQUIRED FOR A CUSTOM HOUSE, proposed to be Erected in the City of Quebec.

From the nature of the site on which it is decided the Building shall stand, as well as to be enabled to form a judgment upon the character of the materials to be used, and on the facility, or otherwise of procuring them, it will be necessary that the gentleman who may see fit to engage in the preparing of Plans and Estimates, should visit the locality; and it is wished that the Estimates should show separately the additional cost, if any, should Granite, such as is to be had on the Montreal and Portland Road, be adopted for the principal fronts.

For full information, as to the amount nature and extent of the accommodation which the Building must afford, reference is to be made to the Collector of the Port of Quebec, J. W. DUNSCOMBE, Esquire.

The Plans are to comprise one of the Basements, showing the sewerage, principle of heating, &c., and one of each of the floors, with such sections also as may be necessary to convey fully the intentions of the Architect.

The plans are to be accompanied by a detailed Specification, measurement, and Estimate of the Works of the several classes required to complete the Building ready for business, and also by a Schedule of Rates by which any extra Work will be governed.

For the set of Plans, &c., which may be considered by the Commissioners of Public Works, most deserving and applicable, the sum of Two Hundred and Fifty Pounds will be paid, these Plans becoming thereby the Property of the Commissioners, who will make such arrangements for the Superintendance of the erection of the Building as they think fit.

A premium of £100 will be awarded to the design considered second in merit. All the Plans will be returned but those connected with the design adopted.

The Estimates are to show the cost of the necessary filling and forming and protecting the approaches distinct from the cost of the Building.

It is desired that the Building should present a respectable Architectural Facade to the River and also one to the Street. The Plank elevations to be plain but in character.

The entire, in appearance and construction, to be commensurate with the importance of the Port

In coming to a decision on the designs, that one will be selected in which economy will appear to have been considered as far as was practicable with the obtaining the above requirements, and the necessary accommodation.

The Plans, &c., are to be Sealed and Addressed to the Chief Commissioner of Public Works, Toronto, Canada, and are to be delivered in, on, or before the 15th MARCH next.

By order,

The Plans are to comprise a general Plan, showing the insulating walls, position and extent of the Prison Building, with all the indispensable day-rooms, work-shops, and other outbuildings, hospitals and airing yards, sewerage, &c., &c. Also, a Basement Plan, exhibiting the principles of Heating and Ventilating, and a plan of each on the floors; likewise such sections as may be necessary to convey fully the intentions of the Architect. Such Plans are to be accompanied by a detailed Specification, Measurement, and Estimate of the works of the several classes required for the full completion of the buildings &c, and also by a Schedule of Rates, by which any extra work will be governed.

For the set of Plans, &c, which may be deemed by the Commissioners of Public Works most deserving and applicable, and in the designing of which due consideration will appear to have been given, so that they shall combine all the requirements which such an institution should afford, as to the safe keeping and health of the prisoners, their classification, employment, and reclamation, &c., &c., the sum of Two hundred and Fifty Pounds will be paid—these plans becoming thereby the property of the Commissioners, who will make such arrangements for the superintendence of the erection of the Building as they they think fit.

A Premium of £100 will be awarded to the design considered second in merit. all the Plans will be returned but those connected with the design adopted.

For information as to the number of prisoners for which the building should be suited, taking into consideration the rapidly increasing population of the country, reference is to be made to W. S. SEWELL, Esq., Sheriff, Quebec.

In coming to a decision on the designs, that one will be selected in which economy will appear to have been considered as far as was practicable with the obtaining all the necessary requirements, and with the substantial construction of the entire, as much as possible, on fire-proof principles, and in a suitable style of architecture.
