SIR JAMES CLARKE'S

Celebrated Female Pills,

From the wide basis on which the Colonial Life Assurance company has been established, from the extensive field of business which it is cultivating, and from the success which has attended its operations, the Directors do not think they over-estimate the advantages of the Company, in stating that no office affords so many facilities, and at the same time holds out the prospect of so many advantages to assurers.

The first investigation and division of profits took place as at 25th May 1854, and the addition to policies was at the rate of £2 per cent. per annum of Reversionary Bonus, as shown in the following Table—the examples being olicies of £1000:—

Policy before.	Opened	Original sum assured.	Bonus additions.	Total.
25th May	1847	£1000	£160	£1160
"	1848	1000	140	11400
"	1849	1000	120	1120
"	1850	1000	100	1100
"	1851	1000	80	1080
"	1852	1000	60	1060
"	1853	1000	40	1040
"	1854	1000	20	1020

The additions to Policies of larger or smaller amount are in the same proportion.

Future investigations and Divisions of Profit will be made every five years. The next will take place at 25th May, 1859.
