Yesterday the harbor presented an animating appearance. Steamers, Schooners and barges were in motion, some leaving this port for the head of the lake, and some moving about the harbor, preparing for departure. The mail steamer *Kingston* left during Monday night for Toronto; and for four or five days steamers have gone down and come up the river, while the *Napier* holds daily communication with Cape Vincent. The new propeller *Inkermann*, belonging to Mr Donald McIntosh, made a trial trip yesterday, with a large company on board, a band of music and lots of refreshments to amuse and entertain the company. The weather was as fine as the most fastidious could have desired.

Preventative is better than a cure.—Extraordinary case. Dropsical swellings—Turn of life. Mrs Morgan, of Windsor, Nova Scotia, aged 45, was suddenly thrown on a bed of sickness, her feet, legs, and ankles, began to swell, strongly indicating Dropsy; weeks passed away and she became worse instead of better, medical aid was called in and her life was endangered owing to a wrong treatment being adopted. Mr. Morgan, therefore, dismissed his medical attendant, and resolved to commence the Holloway ian system of medicine; this quickly produced a beneficial effect, and by a continuance with this infallible remedy, the husband had the satisfaction of again seeing his wife restored to the blessings of health.

LYON'S KATHAIRON.—The Ladies have proclaimed this article to be, by far, the cleanest and most delightful preparation ever used; and from their verdict, in such matters, there is no appeal. Their decision is certainly well grounded for its wonderful efficacy in restoring, preserving and beautifying the Hair: cleansing it from dandruff and all other impurities: curing nervous Headache, &c: together with its delightful perfume, and its perfect cleanness and delicacy, (the result of the great care taken in its preparation,) have made it the most universally popular article of the kind, in the world.

TO ARCHITECTS.

PLANS ARE REQUIRED FOR A JAIL proposed to be erected outside the walls of the city of Quebec, upon a suitable site.

The Plans are to comprise a general Plan, showing the insulating walls, position and extent of the Prison Building, with all the indispensable day-rooms, work-shops, and other outbuildings, hospitals and airing yards, sewerage, &c., &c. Also, a Basement Plan, exhibiting the principles of Heating and Ventilating, and a plan of each on the floors; likewise such sections as may be necessary to convey fully the intentions of the Architect. Such Plans are to be accompanied by a detailed Specification, Measurement, and Estimate of the works of the several classes required for the full completion of the buildings &c., and also by a Schedule of Rates, by which any extra work will be governed.

For the set of Plans, &c., which may be deemed by the Commissioners of Public Works most deserving and applicable, and in the designing of which due consideration will appear to have been given, so that they shall combine all the requirements which such an institution should afford, as to the safe-keeping and health of the prisoners, their classification, employment, and reclamation, &c., &c., the sum of Two hundred and Fifty Pounds will be paid—these plans becoming thereby the property of the Commissioners, who will make such arrangements for the superintendence of the erection of the Building as they they think fit.

A Premium of £100 will be awarded to the design considered second in merit. all the Plans will be returned but those connected with the design adopted.

The Estimates are to show, separately, the cost of supplying the premises with Water and Gas.

For information as to the number of prisoners for which the building should be suited; taking into consideration the rapidly increasing population of the country, reference is to be made to W. S. SEWELL, Esq., Sheriff, Quebec.

In coming to a decision on the designs, that one will be selected in which economy will appear to have been considered as far as was practicable with the obtaining all the necessary requirements, and with the substantial construction of the entire, as much as possible, on fire-proof principles, and in a suitable style of architecture.

The Plans &c., are to be sealed, and addressed to the Chief Commissioner of Public Works, Toronto, Canada; and are to be delivered in, on, or before the 15th March next.
