EDITORIAL NOTES.

General O'Grady-Haly refers in terms of high praise to the manner in which the militia performed the various duties imposed on them in connection with the royal visit.

A meeting of the Cabinet was held on Tuesday afternoon, at which it is said a good deal of routine business was disposed of. Nothing was settled about the bye-elections. It is not likely that they will take place until winter weather has set in and the roads are in good condition for driving.

The authorities of the Forestry School at Yale University, New Haven, Conn., have requested the Crown Lands Department to give them a portion of the forestry exhibit at the Pan-American. The specimens they are particularly interested in are the sections of trees. The request is under consideration.

The campaign against the cigarette is progressing. The W. C. T. U. has proposed legislation raising the age limit from fourteen to eighteen years of those allowed to purchase cigarettes, and a petition will be circulated in once for this purpose. It is also proposed to charge a license fee to dealers, and to make it a misdemeanor for boys and men to smoke cigarettes in public parks or highways.

At the Methodist Women's Missionary Society Board at Guelph last week the total amount appropriated for the work of the coming year was $46,700, of which Japan gets $23,000 and China $5,040, Chinese work in British Columbia $1,000, the home at Kitamaat, B. C., $1,750, the All People's Mission, Winnipeg, $2,050 and the French work $5,854. This sum was all in hand for distribution.

It is understood that all the colonial Premiers are to be invited to be present at King Edward's coronation next June, the idea being to make the coronation ceremonies as impressive as possible, and at the same time representative of every portion of territory under British rule. The formal invitation to Sir Wilfrid has just been received. He will, it is thought, be accompanied by a contingent of Canadian militia.

Arthur Foley Winnington-Ingram, Lord Bishop of London, contributes an interesting paper to the November *Cosmopolitan* on "The Overcrowding of Great Cities and Remedies for It." Apropos of the discussion of the invasion of England by Americans, Edmund Gosse furnishes in the same number in easy scoring Englishmen for their narrowness of intellect. Incidentally he has a bit at American intellectual life in the twentieth century.

From several sources it is reported that R. White, editor and publisher of the Milton *Reformer*, has good prospects for securing the vacant Milton postmastership. The Toronto *Telegram* last Friday evening said: "Editor White, of the Milton *Reformer*, is likely to be appointed postmaster of that town." The Free Press will be very much pleased to see Mr. White receive the appointment. Certainly no available man in Milton has a better claim to the office. He has been an energetic supporter of the government; is a resident of more than twenty years standing, and has always been a worthy citizen of his adopted town. If favored with the appointment, Mr. White will undoubtedly give the duties of the office most satisfactory attention. His business training and his invariable care in the personal supervision given his own business will be transferred to public affairs and stand him in excellent stead there.

VERY SERIOUS ACCIDENT.

Robert Swackhamer, Thresher, Painfully Mutilated in his Machine.

While threshing on the farm of Mr. Malcolm McPherson, lot 18, con. 5, Esquesing, last Thursday afternoon, Robt. Swackhamer, son of David Swackhamer, the well-known thresher, met with an accident which narrowly escaped being fatal; indeed the young man is still in a precarious condition. Shortly after starting the machine after dinner the belt which runs the beaters slipped off and young Swackhamer ran to replace the belt, with the machine in motion. In some way the shirt-sleeve of the right arm was caught in the pulley and he was thrown with great force against the drive wheel. His head came in contact with the wheel and his skull was fractured and the flesh badly lacerated, requiring a number of stitches. The arm was fractured in two places and the shoulder so much injured that a dozen stitches were necessary. It at was first thought that recovery was impossible but the young man has a splendid constitution and his youthful vigor is much in his favor.

Since the initial dressing of the wounds the doctors have further operated and they now declare that they have good hopes for the patient's recovery. Notwithstanding the awful shock the young man has never lost consciousness, although the skull was crushed open and the brain exposed. The young man is twenty years of age and has worked at threshing with his father for several years. He has many friends and relatives in Acton and vicinity, who all unite in the hope for his ultimate recovery.

The wealthiest man is he who is most economical, the poorest, he who is most miserable.—Clamfort.

STEAM HEATING PLAN.

Adopted by the Public School Board And Endorsed by the Municipal Council.

ELECTRICIAN MALITZ'S SALARY INCREASED.

Meetings were held by the Municipal Council and the Public School Board on Thursday evening last, the principal topic under discussion at both being the adoption of steam heating for the Public School Buildings.

Council met at eight o'clock, all the members being present and Reeve Williams in the chair.

F. Malitz, Electrician, applied for an increase of salary, stating that he has an offer of $750 from another town; Mr. I. Francis, addressed the Council, requesting the privilege of using the exhaust steam from the power-house for heating his residence adjoining.

Moved by John A. Henderson, seconded by H. Jeans, that permission be given the Public School Board of this municipality to connect the pipes of their proposed steam heating system with the boiler at the powerhouse, for the purpose of heating the school building by steam; the cost of supplying the steam to be determined by the extra amount of fuel consumed and additional outlay for the purpose of firing during the day,—the Council reserving the right to cancel this arrangement should it interfere with the efficiency of the electric lighting plant—Carried.

Moved by Jno. A. Henderson, seconded by George Hynds, that Fred Malitz be granted an increase of salary of fifty dollars per annum, making his salary Six Hundred Dollars per annum, the advanced salary to date from 1st November, of this year. It is understood that extra work in firing for Public School heating be included in his duties, and that the sum of $600 be in full for all duties he may be required to perform—Carried.

The Council decided they could not entertain Mr. Francis' proposal for steam heating.

Council adjourned at ten o'clock.

The board of Trustees of Acton Public School met at eight o'clock. All members were present, Chairman Holmes presiding.

The Secretary reported the result of his interview with steam fitters and experts in Toronto relative to the use of exhaust steam. At such a distance and elevation they declared was impracticable, and would not give satisfactory results.

Dr. McKeague and Mr. Grindell stated that having heard the above from the Secretary, they went to Guelph on Monday and interviewed R. W. Phillips, steam fitting contractor, and that he had satisfied them that the school could be satisfactorily heated with live steam from the power-house boiler, and was prepared to guarantee satisfactory heating with an extra consumption of only twenty tons of coal.

After mature consideration of the question it moved by John Agnew, seconded by W. H. Kenney, that the Municipal Council having very generously signified by resolution their willingness to grant the use of steam from the Power House boiler for heating the school buildings, that in case the right of way for the putting in the pipes can be secured from the owners of the properties through which they must necessarily pass, that the Committee on steam heating be and are hereby instructed to proceed at once to enter into an agreement with R. W. Phillips, contractor, Guelph, with guarantee clause, for the putting in of the steam heating apparatus and all connections,—except the excavation for pipes and lumber and work in covering same, for the sum of $475.00, and that upon completion of agreement he be required to proceed at once with the work, under their supervision—Carried.

The Board adjourned at ten o'clock.

KING EDWARD HAS CANCER.

Three Operations Have Already Been Performed to Relieve Him.

LONDON, Oct. 28.—*Reynolds' Weekly Newspaper* is the first British paper to assert that King Edward is suffering from cancer of the throat. In to-day's issue it declares that since his Majesty's accession three operations have been performed for the removal of papilloma on the left vocal chord, and that one was removed from the right vocal chord last week.

"Assistance was hastily summoned," says this journal, "as his Majesty was breathing with difficulty, and an immediate operation was preformed. But it was regarded as only a temporary relief, the injured epithelium now having become a cancerous growth, and serious developments are expected."

THE PRESIDENTS ASSASSIN PAYS THE PENALTY.

Czolgosz was Electuted at Auburn Prison at 7.15 Tuesday Morning.

AUBURN, Oct. 29.—At 7.12.30 o'clock this morning Leon F. Czolgosz, murderer of President William McKinley, paid the extreme penalty exacted by the law for his crime. He was shocked to death by 1,700 volts of electricity. He went to the chair showing no particular sign of fear, but, in fact, doing what few have done, talking to the witnesses while he was being strapped in the chair.

"I killed the President because he was an enemy of the good people—of the good working people. I am not sorry for my crime."

These were his words as the guards hurried him into the chair.

GET THE BEST.

Certainly the most lifelike portraits of the King and Queen are those offered this year by the *Family Herald and Weekly Star*, of Montreal, to their subscribers, and what is the use having anything but the best. The *Family Herald's* portraits have also the distinguished merit of being the very first taken after the King's accession to the throne, and have, therefore, an historical value that no other portraits will possess. When one gets the best at the same price as an inferior article, there should be no time lost in choosing, and certainly the *Family Herald's* pictures of the King and Queen are beyond comparison with any others before the public.

In addition to these two portraits, each subscriber receives, we understand, a perfect copy of the renowned Gainsborough picture, the Duchess of Devonshire, 22x28 inches, in ten beautiful colors. It is pronounced a perfect gem. All three pictures and a subscription to the *Family Herald* and *Weekly Star* for one year is the dollar's worth of the season.

There is light enough for those whose sincere wish to see, and darkness enough to confound those of an opposite disposition.—Pascal.

Mr. James Simpson, of Toronto, will preach anniversary sermons in the Methodist Church on Sunday at 11 a. m. and 7. p. m. Mr. Simpson is a well known Epworth League worker and a fluent and interesting speaker. On Monday evening Rev. Austin Potter will lecture on "Reminiscences of the American War." Mr. Potter's lecture is said to be exceedingly interesting. Music will be given by a ladies' quartette from Georgetown. Miss Olive Huffman and others.

ROCKWOOD.

A big fire occurred in Harvey's lime kiln wood yard last Wednesday. Through the heroic efforts of the people the fire was confined to the wood, although it was feared several times during the afternoon that Mr. Richardson's residence, stable and shingle mill would go. They were on fire several times, but there was always plenty of water on hand to quench the flames. Mr. Hector Munro's residence was also in great danger for a couple of hours. Mr. Harvey estimates his loss at $500, upon which there is no insurance. The worst feature of the loss is that it may cripple the lime business as Mr. Harvey fears that he may not have enough to last until he can get a fresh supply.

Miss Mary Hill has been elected secretary of the county W. C. T. U.

The *Mercury* correspondent says: "Honors are being showered on Gunner J. W. James lately. Week before last he was presented with a South African medal by H. R. H., the Duke of Cornwall, and last week he was presented by his wife with a young daughter. Joe should be a happy man.

Trooper Mulloy, the blind soldier hero, of South Africa, will give an entertainment in the town hall this evening.

PALE YOUNG GIRLS.

HOW THEY MAY GAIN BRIGHT EYES AND ROSY CHEEKS.

The Story of a Young Girl Who Suffered from Headaches, Dizziness and Fainting Spells—Her Health Became so Bad That She Was Forced to Give up School.

Miss Catherin McLellan is a young lady well known in Charlottetown, P. E. I. and greatly esteemed among her acquaintances. Like so many other young ladies throughout the land, Miss McLellan fell a victim to anaemia, or poorness of blood, and although several medicines were tried, she found nothing to help her until she began using Dr. Williams' Pink Pills for Pale People. Miss McLellan tells the story of her illness, as follows: "I am now eighteen years of age, and for a considerable time suffered from anaemia. My blood had almost turned to water, and I was very weak and pale; in fact could not undergo the least exertion. My appetite failed me; I suffered from headaches; if I stopped I would become dizzy, and frequently I suffered from fainting spells. I tried several kinds of medicine and doctors prescribed for me, but instead of getting better I was gradually growing weaker, and eventually had to discontinue going to school. About this time I read the testimonial of a girl whose condition was similar to mine, who had been cured by Dr. Williams' Pink Pills. I then decided to try these pills, and have every reason to be gratified that I did so, as they have completely restored my health. Every one of the symptoms that had made my life so miserable have disappeared, and I am now enjoying as good health as any girl of my age could wish, and I should always have a good word to say for Dr. Williams' Pink Pills."

Miss McLellan further stated that while she was not desirous of publicity in matters of this kind, she nevertheless felt that her experience, if known might be the means of bringing health to some other sufferer, and this is the very praiseworthy motive that has induced her to give the above statement for publication.

Dr. Williams' Pink Pills make rich, red, blood, and give tone to the nerves. It is because of this that they bring bright eyes, rosy cheeks and light footsteps to girls who have been weary, pale and listless and had begun to feel that life was a burden. Pale and anaemic girls everywhere should give these pills a fair trial, as they are certain to restore health and strength. See that the full name "Dr. Williams' Pink Pills for Pale People," is on the Wrapper around every box. Sold by all dealers or sent postpaid at 50c. a box, or six boxes for $2.50, by addressing the Dr. Williams' Medicine Co., Brockville, Ont.

ASTHMA CURE FREE!

Asthmalene Brings Instant Relief and Permanent Cure in All Cases.

SENT ABSOLUTELY FREE ON RECIPT OF POSTAL.
WRITE YOUR NAME AND ADDRESS PLAINLY.

There is nothing like Asthmalene. It brings instant relief, even in the worst cases. It cures when all else fails.

The Rev. C. P. WELLS, of Villa Ridge, Ill., says: "Your trial bottle of Asthmalene received in good condition. I cannot tell you how thankful I feel for the good derived from it. I was a slave, chained with putrid sore throat and Asthma for ten years. I despaired of ever being cured. I saw your advertisement for the cure of this dreadful and tormenting disease, Asthma, and thought you had overspoken yourselves, but resolved to give it a trial. To my astonishment, the trial acted like a charm. Send me a full-sized bottle."

Rev. Dr. Morris Wechsler,
Rabbi of the Congregation Bnai Israel,
New York, Jan. 3, 1901.

DR. TAFT BROS.' MEDICINE CO.:

GENTLEMEN: Your Asthmalene is an excellent remedy for Asthma and Hay Fever, and its composition alleviates all troubles which combine with Asthma. Its success is astonishing and wonderful. After having it carefully analyzed, we can state that Asthmalene contains no opium, morphine, cloroform or ether.

Very truly yours,
REV. DR. MORRIS WECHSLER.

DR. TAFT BROS. MEDICINE CO.

GENTLEMEN: I write this Testimonial from a sense of duty, having tested the wonderful effect of your Asthmalene for the cure of Asthma. My wife has been afflicted with spasmodic asthma for the past 12 years. Having exhausted my own skill as well as many others, I chanced to see your sign upon your windows on 130th street, New York. I at once obtained a bottle of Asthmalene. My wife commenced taking it about the first of November. I very soon noticed a radical improvement. After using one bottle her Asthma has disappeared and she is entirely free from all symptoms. I feel that I can consistently recommend the medicine to all who are afflicted with this distressing disease.

Yours respectfully
O. D. PHELPS, M. D.

DR. TAFT BROS. MEDICINE CO.

GENTLEMEN: I was troubled with Asthma for 22 years. I have tried numerous remedies, but they have all failed. I ran across your advertisement and started with a trial bottle. I found relief at once. I have since purchased your full-size bottle, and am ever grateful. I have a family of four children, and for six years was unable to work. I am now in the best of health and am doing business every day. This testimony you can make such use of as you see fit.
