MARRIED.

HAMILTON—WHALYEN—In Grace Church, Milton, on Tuesday, Jan. 28rd, by the Rev. A. J. Bell, M. A., Noah Hamilton, of Esquesing, and Alice Whalyen, of Milton.

DIED.

BUCK—In Georgetown, on January 22nd, Sarah Jane Thompson, relict of the late Alfred Buck in her 70th year.

TORRY—At Niagara Falls, on Wednesday, Jan. 29th, Warren Torry, late of Collingwood, and for years a resident of Acton, in his 71th year.

MOLTON—At Hornby, on Thursday, Jan. 30th, John Gordon, only child of Mr. and Mrs. W. J. Mullugh, aged 9 years and 9 days.

The Acton Free Press

THURSDAY, FEBRUARY 6, 1902.

EDITORIAL NOTES.

An extraordinary report from Vienna is published in London, England, to the effect that the United States is about to sell the Philippines to Germany, but it has not been honored with editorial comment.

The nomination to fill the vacancy in the Ontario Legislature for Kingston took place last Thursday and resulted in the return of E. J. B. Pauze, Liberal, of the Kingston *Whig* by acclamation.

The customs revenue for seven months ending to-day was $19,353,870, compared with $15,674,746 for the same time last year, making an increase of $1,679,731. For the month of January alone the increase was nearly $500,000. The figures are $2,489,186, as against $2,061,095 for January last year.

Mr. Henry Holt, the veteran New York publisher, proposes in the *Review of Reviews* for February a new method of dealing with anarchists. He would take the anarchist at his word, and virtually obliterate his relation to the government. The anarchistic assassin he would commit to the asylum. All immigrants of avowed anarchistic sentiments would be excluded, and exiled anarchists returning without permission would be imprisoned for life.

In the British House of Commons last week an amendment to the address in reply to the speech from the throne, moved by Louis Sinclair (Conservative) was defeated. The amendment urged a redistribution of the electoral system, increasing the English and Scotch and reducing Irish representation, and admitting representatives of Canada, Australia, and other colonies. Hon. A. J. Balfour opposed the amendment, on the ground that Parliament must dissolve after a redistribution bill is passed, and that the time is not now ripe to deal with the details of the subject.

Rev. Wm. Patterson, of Philadelphia, said in Cook's Church last Sunday:—It was no argument against the enforcement of prohibition in Canada to point to some other country where, under different conditions, the law had been violated. In Great Britain and her colonies we had reason to be proud of the law-observing character of the people, and there was no reason to suppose that a law prohibiting the sale of intoxicating liquor in Canada would be broken any more than the law against murder and stealing.

At a meeting in Massey Hall last Sunday afternoon, Mr. A. E. Ames, President of the Toronto Board of Trade, commented on the wonderful change in the habits of businessmen and others in this respect in late years. He told of a banquet that he recently attended in Brantford where no liquor had been provided by the caterer, and out of some two hundred guests only six ordered wines. A few days later he had attended a similar gathering in Guelph, where not a single individual at the banquet touched liquor. Education had done great things in spreading the principles and practice of total prohibition.

NEWS.

Lord Kitchener reports 29 Boers killed, 6 wounded, 142 taken prisoners and 48 surrendered last week.

Messrs. F. L. Beique, K. C., of Montreal, E. P. Thompson of Fredericton, Hon. C. E. Church of Chester, N. S., and E. Robertson of Montague, P. E. I., have been appointed Senators.

The supplies of hay, oats, flour, etc., shipped to South Africa by the Department of Agriculture for the War Office amount to $5,500,000 up to date.

Rev. Dr. Andrews, Presbyterian minister at Keene for over 50 years, died suddenly. He was 82 years of age.

Mr. John Clements of Arthur dropped dead in the hospital at Guelph.

Mrs. Gibson of Beamsville, wife of Mr. William Gibson, ex-M. P., is dead.

BOER PRISONER KILLS A GUARD.

Prisoners of War in Bermuda Unpleasant to Their Guards.

LONDON, Feb. 4—The *Military Mail* publishes the following report on the treatment of Boer prisoners in Bermuda: "The prisoners of war at Bermuda have made things unpleasant for their guards. There was a quarrel in camp one day, and one of the Warwickshires interfering to stop it one of the 'poor, harmless Boers' playfully threw half a brick at him, with the result that the soldier was killed. Matters were then becoming serious, so the guard was called out, when they in turn were assaulted and a corporal stunned."

ROCKWOOD.

Mr. Edw. Fitzsimmons was fined $5.00 and costs in the Guelph police court on Saturday for disturbing Rockwood Public School on Wednesday, 22nd January, by quarrelling with Mr. John Hoett, teacher, who had punished Fitzsimmons' nephew for disobedient conduct. The magistrate, in giving his decision, said that he was against the contention of the defendant's lawyer on every point. He ruled that a much less disturbance, even creating a disturbance in the school grounds sufficient to disturb the school session, was enough to warrant a conviction under the statute.

Anniversary services in the Methodist Church next Sunday. Rev. A. Potter, Georgetown, will preach morning and evening. Monday evening he will deliver his popular lecture, "Reminiscences of the American War."

A GOOD NUMBER.

An article on Marconi, a new serial and other note-worthy features, make the February *Canadian Magazine* decidedly attractive. M. O. Hoitt gives some information about Marconi's relations with the Canadian Government not before given to the public. From this it appears that Marconi will shortly return to Ottawa, after a consultation with his London backers. The article also indicates that the ministers are vying with each other to see who will have the credit of controlling the wireless telegraphy of the future. The departments are as interesting as usual.

PROFITABLE FARMING.

Splendid Institute Meetings and Live Topics Discussed Last Thursday.

HALTON INSTITUTE BOOMING.

Two meetings under the auspices of Halton Farmers' Institute were held in the Town Hall last Thursday afternoon and evening. The afternoon session, which was devoted to the more detailed discussion of subject of interest to the farmers was attended by a considerable number of our most enterprising farmers. The evening meeting was of course of a more general and popular character and the hall was crowded to the doors.

Mr. A. Weldie presided at the afternoon meeting. The first address was given by Mr. T. G. Raynor, of Ross Hall in Prince Edward county. Mr. Raynor is one of the most popular and practical delegates attending Farmers' Institutes and he has travelled from the Atlantic to the Pacific in this important work. His address was—"The Value of Food." The foods fed to stock, he said, are valuable from three standpoints, viz: (1) Digestibility; (2) Composition; (3) Manure. The digestibility of a fodder plant depends largely on the way it is handled. Taking the clover plant as an illustration, in order to get the most digestibility it should be cut at the blooming stage and cured in its own sap quite green the coil or windrow as the weather will admit. If cured in its own sap, free from dews or rain, it is very digestible and of highest nutrition. But if clover is left until half or more of the head has turned brown, the clover will lose in many ways, as woody fibre forms. A lot of the heads and leaves will break off and washing with dews or rain. (2) The farmer should know the composition of foods in order to understand how best to combine them to get the best results in feeding. He should understand of what value water, protein, carbonydrates and fatare in foods, and then when he knows how much of each of these nutrients are found in our feeds, he can combine them to the best advantage by securing the proper nutritive ratio. (3) Those foods which are rich in protein, from which we get muscle, blood and milk, are best from the manurial point of view. We want in manure nitrogen, phosphoric acid and potash. From protein we get the nitrogen, when it is broken up in the system, and the nitrogen is voided in the liquid manure, which is worth in cattle twice as much as the solid, in horses three times as much, in sheep about four times, and in pigs nearly as much. Some useful foods for producing rich manure are clover, bran, oats, pea meal, and such concentrated foods as oil meal, cottonseed meal, and gluten meal.

Mr. W. J. Clark, of Onondaga, gave a practical address from the standpoint of experience on "Hog Raising for the Export Trade." He went largely into the matter of desirable breeds, and said the packers preferred the white Yorkshire as superior to all others for export. He cautioned the farmers against finishing their hogs too soon, seven months being the period recommended, and advised also that when hogs are ready to kill and market, not to wait for higher prices. The latter has a tendency to cause them to be overfed, and the extra cost and depreciation in quality will more than balance any hoped for gain in price. Care must be taken in feeding, especially in finishing, to use feed which will give the bacon the desirable solidity and which will avoid the soft and greasy product so objectionable to the export trade.

Each address was followed with free and interesting discussion which brought out many valuable points.

At the evening meeting Mr. Raynor gave a very practical address on "Agricultural Education." The drift of his remarks was to encourage the boys to remain on the farm by giving them an opportunity to secure a good practical education such as is so thoroughly given at the Ontario Agricultural College, Guelph.

Mr. Clark's evening address was much enjoyed, especially his dramatic illustrations in the shape of live fowl, and the process of killing and dressing fowl. His subject was "Poultry Raising." He illustrated the desirable points in poultry necessary to secure good layers and at the same time have good birds which when killed and dressed will bring the highest prices. Two birds were shown of the barred Plymouth Rock breed. One was a perfect fowl; the other possessed defects which were to be avoided. The most interesting part of the address was the killing and plucking of a chicken for the British market. All fowl for export should have their necks broken, and not be bled, and the plucking must be done dry. Mr. Clark illustrated the process as he proceeded with his address.

Mr. J. L. Warren, the Secretary, who has won the distinction of working up the Halton Institute to so desirable a point with a membership higher than any other county in the province gave a brief address, showing the advantages to the farmers who unite with the Institute. Mr. Warren's address was practical and pointed and as a result the membership here was considerably swelled.

The programme was interspersed with an instrumental Duett by Mr. J. D. Wallace and Miss Dosland, Piano, Violin and Cornet Trios by Miss Nelson, Mr. Hill and Mr. Mason, and Piano and Cornet Duetts by Misses Lottie and Hazel Mason. Rev. H. A. Macpherson made an ideal chairman and the proceedings throughout were enjoyed by all.

HALTON'S ONLY GROWING TOWN.

Acton is the Only Municipality to Increase in the Past Ten Years.

According to the official census report the following are the populations of the towns and villages in the county of Halton:—Acton, 1,484; Burlington, 1,119; Georgetown, 1,313; Oakville, 1,643; Milton, 1,378.

During the past ten years Acton has distanced both Milton and Georgetown and now stands second in point of population in the county. A further fact which gives Acton unusual distinction and a very singular prominence is that of all the nine municipalities of Halton, civic or rural, we are the only one to increase in population during the ten years, 1891 to 1901, and our increase was the very respectable number 250, over 19 per cent. Acton is a growing town and has within her border the elements which go to increase business and attract population.

I am a friend of subordination as most conducive to the happiness of society. There is a reciprocal pleasure in governing and being governed.

A Card.

We, the undersigned, do hereby agree to refund the money on a 50 cent bottle of Greene's Warranted Syrup of Tar, if it fails to cure your cough or cold. We also guarantee a 25 cent bottle to prove satisfactory or money refunded.—A. T. Brown, Acton.

H. H. COOK, ESQ., WARDEN.

The County Council Initial Meeting for 1902.

The members of the County Council met last week in Milton for their first meeting of the year, and as is very unusual, occupied two days to complete the business before them.

Mr. H. H. Cook was elected by acclamation to the Warden's chair.

The standing committees for the current year were elected as follows:

Finance—Webster, Andrew, Smith.

Roads and Bridges—Wrigglesworth, Hutcheson, Wilson.

County Buildings—Peacock, Hutcheson, Smith.

Education—Wilson, Andrew, Webster.

Special Communications—Smith, Webster, Wrigglesworth.

Railways and Legislation—Hutcheson, Wrigglesworth, Peacock.

Mr. W. A. Chisholm was appointed High School Trustee for Oakville and C. McKinley for Georgetown.

Mr. Campbell, Highway Commissioner, who was present according to appointment, was then invited to address the Council in reference to the appropriation set aside by the Legislature for counties, who may wish to take advantage of the Act in respect thereto, and to point out to the council, as far as he might be able, the best system to adopt, the county or township system. The *Reformer* says: "Mr. Campbell said he was not wedded to either system. It was a difficult matter, not knowing the situation in the county, to lay down a system that would be acceptable to the council. It appeared to be almost impossible to lay down a rule and say which system should be adopted. Some county councils think the county system is the best, while others prefer the township system. In Halton, he said, you have almost a square county, with a community of interests, having a number of business centres, and he thought that here a county system would probably be the best. In order to take advantage of the Act, the county council would have to lay down a regular system of county road. It would rest with the county council to say which of the roads in the different townships should be considered leading roads for the purposes of the Act. When these roads have been designated by by-law, it is then submitted to the council who proceed to raise the money necessary to carry on the work. The Act provides that when these roads have been designated, a plan of them is to be sent to the Department having charge of this work. A commissioner would then be appointed who would make an inspection of these roads and note where the improvements were to be made and where the most money should be expended in order to put the roads in a first class condition. The commissioner would afterwards make up his report of expenditure incurred, whether weekly or monthly, and the council would be entitled to draw on the Government for one third of the amount required to meet said expenditure. Halton's share of the appropriation set apart by the Government, is 12,000 and if the county does not take the matter up within a certain time then the township would have the privilege of doing so on the same terms.

Mr. Peacock moved, seconded by Mr. Smith, that this council draft out a system of roads that they think would be the best adapted for a county system of roads, the said draft to be submitted to the council for their approval or otherwise, and that the representatives from the different divisions be a deputation to visit the councils in their divisions.—Lost.

Mr. Hutcheson moved an amendment, seconded by Dr. Webster, that the several members of this council confer with the various councils in their respective districts as to the advisability of taking advantage of the Act for the improvement of public highways and report.—Carried.

The Council adjourned to meet on Tuesday, 11th March.

THE PROVINCIAL AUCTION SALES

The Big Sale at Guelph Will Take Place on the 26th February.

The Provincial Auction Sales which were held at Guelph and Ottawa last year in February and March more than realized the expectations of all interested. The sales this year will take place during the month of February. A change, however, has been made in the order of the sales. That at Ottawa will take place first, February 12th, and the Guelph one, February 26th.

As only a limited number of animals will be sold at each place, and as entries have been made for far more than the number required, an opportunity will be given to select only the very best. Animals will be selected that are in the pink of condition, and good individuals of the breed they represent. No unworthy animals will be accepted.

Persons wishing to purchase can depend upon being able to choose from a lot of stock of individual merit and good breeding. The names of a large number of prominent breeders is a good guarantee of the quality of the stock offered.

BREEDS REPRESENTED.

The animals to be sold at Ottawa include shorthorns, Ayrshires, Yorkshires and Tamworths. At Guelph there will be only representatives of the beef breeds and swine. Naturally shorthorns predominate in numbers and of these there are a great many excellent representatives. Such breeders as Hon. Jno. Dryden, Capt. T. E. Robson, Ilderton, A. W. Smith, Maple Lodge, R. Gibson, Delaware, A. Johnston, Greenwood, J. T. Gibson, Denfield, R. & S. Nicholson, Hylvan, W. G. Sanders, St. Thomas, A. & W. Whitlaw, Guelph, W. Smith, Columbus E. Jeffs & Son, Bond Head, Jno. Bright Myrtle, H. K. Fairbairn, Thedford, W. G. Ormiston, Columbus, F. O. Hibbard, Hutton West, A. Moore, J. E. Meyer, Kossuth; and fully seventy-five other breeders of shorthorns, have stock entered. Among other breeds J. G. Clark, Ottawa, and Hon. W. Owens, Montebello, have entered Ayrshires; D. McCrae, Guelph, Holloways and swine; R. Reid & Co. Tamworths, Berkshires and Ayrshires; Jno. A. Richardson, South Marsh, Holsteins.

It will thus be seen that there will be not only a large number of animals to be disposed of but that they will be all good representatives of the breeds, so every precaution will be taken to secure this end. Buyers can attend the sales, with every confidence that they can there purchase what they require, and they can look over the stock in the building before the sale begins, at any time until its close.

Reduced rates will be granted to parties who attend these sales, over the C. P. R. from local stations west of Fort William and from all points on the Northern and North Western Division of the G. T. R., L. E. & D. R. R., Erie and Huron Ry., Central Ontario Ry., Kingston & Pembroke Ry., Bay of Quinte Ry., & Navigation Co. H. O. R. in Canada, C. A. Ry. and the Ottawa and N. Y. Ry.

Those attending the sales must pay the full first-class full-rate, one way tickets to Ottawa or Guelph, and obtain certificate to that effect on standard certificate form. Ticket agents are supplied with standard certificates, and are instructed to issue them on application. Where persons have to travel over more than one railway to reach the place of sale they will require to purchase tickets and obtain certificates as above from each railway, except from stations on lines mentioned above.

Buyers of car lots, coming from West of Fort Arthur, will be given the same rate as is allowed on settlers effects. One free pass will be allowed with each car of pure bred stock. All purchasers who buy a carload for use in Canada, and who have paid full passenger fare from a starting point in Canada to either of the sales, will be refunded one half their first class fare or if such purchaser has travelled second class, a reduction will be made to one cent per mile. A claim for the refund must be accompanied by a receipt for the fair paid and also by the freight bill covering the the shipment of live stock. The arrangements have been completed with the G. P. R. and G. T. R.

F. W. HODSON,
LIVE STOCK COMMISSIONER.

RHEUMATIC PAINS.

CAUSED BY AN IMPURE CONDITION OF THE BLOOD.

Liniments and Other Old Fashioned Remedies Will Not Cure—The Rheumatic Taint Must be Removed From The Blood.

The lingering tortures of rheumatism are too well known to need description, but it is not so well known that medical science now recognizes that the primary cause of rheumatism is impure or impoverished blood. The result is that hundreds of sufferers apply external remedies which cannot possibly cure the trouble. The only thing that will really cure rheumatism is an internal remedy that will enrich the blood and free it from rheumatic taint. The surest, quickest and most effective way to do this is to take Dr. Williams' Pink Pills, which are proved to have cured thousands of cases of rheumatism, many of them after other medicines had failed. The case of Mr. Philip Ferris, one of the pioneers of South Essex, Ont., is proof of this. Although Mr. Ferris is 76 years of age he is as smart as many men of fifty. But he has not always enjoyed such good health. Mr. Ferris has the following to say about his illness and cure:—"For fifteen years I suffered greatly from rheumatism. At times I would have severe pains in the knees, while at others the pain would spread to my hips and shoulders. I tried several remedies which were of no avail until I began using Dr. Williams' Pink Pills. I took eight or ten boxes and they completely cured the trouble and I am now as smart as many men much younger. I have a great deal of faith in the pills for I know of other cases where they have been equally as successful as in mine."

Dr. Williams' Pink Pills make new, rich, red blood and strengthen the nerves with every dose. It is in this way that they cure such troubles as rheumatism, sciatica, neuralgia, kidney and liver trouble, partial paralysis, St. Vitus' dance, and erysipelas. Through their action on the blood they restore the blood to pale and sallow cheeks and cure the ailments that make the lives of so many women miserable. The genuine always have the full name, "Dr. Williams' Pink Pills for Pale People" on every box. Sold by all dealers or sent postpaid at 50 cents a box, or six boxes for $2.50 by addressing the Dr. Williams' Medicine Co., Brockville, Ont.

Nothing will ruin a man as quickly as conceit.

ASTHMA CURE FREE!
Asthmalene Brings Instant Relief and Permanent Cure in All Cases.
SENT ABSOLUTELY FREE ON RECEIPT OF POSTAL.
WRITE YOUR NAME AND ADDRESS PLAINLY.

There is nothing like Asthmalene. It brings instant relief, even in the worst cases. It cures when all else fails.

The Rev. G. F. WELLS, of Villa Ridge, Ill., says: "Your trial bottle of Asthmalene received in good condition. I cannot tell you how thankful I feel for the good derived from it. I was a slave, chained with painful sore throat and Asthma for ten years. I despaired of ever being cured. I saw your advertisement for the cure of this dreadful and tormenting disease, Asthma, and thought you had overspoken yourselves, but resolved to give it a trial. To my astonishment, the trial acted like a charm. Send me a full-sized bottle."

Rev. Dr. Morris Wechsler,
Rabbi of the Cong. Bnai Israel.
New York, Jan. 3, 1901.

DR. TAFT BROS. MEDICINE CO.
GENTLEMEN: Your Asthmalene is an excellent remedy for Asthma and Hay Fever, and its composition alleviates all troubles which combine with Asthma. Its success is astonishing and wonderful. After having it carefully analyzed, we can state that Asthmalene contains no opium, morphine, chloroform or ether.
Very truly yours,
REV. DR. MORRIS WECHSLER.

DR. TAFT BROS. MEDICINE CO.
GENTLEMEN: I write this Testimonial from a sense of duty, having tested the wonderful effect of your Asthmalene for the cure of Asthma. My wife has been afflicted with spasmodic asthma for the past 12 years. Having exhausted my own skill as well as many others, I chanced to see your sign upon your windows on 130th street, New York. I at once obtained a bottle of Asthmalene. My wife commenced taking it about the first of November. I very soon noticed a radical improvement. After using one bottle her Asthma has disappeared and she is entirely free from all symptoms. I feel that I can consistently recommend the medicine to all who are afflicted with this distressing disease.
Yours respectfully
O. D. PHELPS, M.D.

DR. TAFT BROS. MEDICINE CO. Feb. 5, 1901
GENTLEMEN: I was troubled with Asthma for 22 years. I have tried numerous remedies, but they have all failed. I ran across your advertisement and started with a trial bottle. I found relief at once. I have since purchased your full-size bottle, and am ever grateful. I have a family of four children, and for six years was unable to work. I am now in the best of health and am doing business every day. This testimony you can make such use of as you see fit.

Brick Store and Dwelling
FOR SALE.
THAT fine two-story solid brick store and residence at the corner of Mill and Frederick Streets. Well built seven years ago. Good cellar under the entire building, with brick partitions. One-fifth acre. Good cistern. Free from all encumbrance. Further particulars upon application on the premises to
MRS. ANNA MORISON.

FINE BRICK RESIDENCE
FOR SALE.
THAT fine two-story brick residence on Bower Avenue, which was built for a parsonage and has always been used since its erection, by the Methodist ministers. It has nine rooms—five bedrooms—with halls, sin, a good cellar, new sisterns, and is splendidly situated on one of the most popular residential streets in Acton. No encumbrance. Possession given 1st July next. For terms and particulars apply to Wm. Hunstreet or H. V. Moore, Acton, or to
MRS. ELIZABETH GRAY,
E Cunningham Ave., TORONTO.

THE WELLINGTON MUTUAL FIRE INSURANCE COMPANY.

to receive the Directors' report with the Financial Statement for the year, the election of Directors for the ensuing year, and other business relevant to the meeting.
By order,
JOHN DAVIDSON,
Secretary.

Notice To Creditors.
In the Matter of the Estate of Frederick Glebe, deceased.
NOTICE is hereby given pursuant to the Revised Statutes of Ontario, 1897, Chap 129, and amending Acts, that all persons having claims against the estate of Frederick Glebe, late of the village of Acton in the County of Halton, Miller, deceased, who died on or about the fifth day of October A. D. 1901, are required to send by post prepaid, or deliver to either the undersigned Administrator or the undersigned Administratrix, (Hanover Post Office), on or before the first day of February 1902, their names, addresses and descriptions and a full statement of particulars of their claims, properly verified and the nature of the security (if any) held by them, and that immediately after the first day of February, 1902 the said Administrator and Administratrix will proceed to distribute the assets of the said deceased among the parties entitled thereto, having regard only to the claims of which they shall then have notice, and that they will not be liable for the assets so distributed, or any part thereof, to any person or persons of whose claim or claims they shall not then have notice.
CHARLES DIEHL,
Administrator.
SARAH GLEBE,
Administratrix.
Dated at Hanover this first day of January A. D. 1902.
