INDIGESTION.

Chronic Indigestion almost invariably affects the kidneys and bladder, producing acidity in the urine which, on being analyzed, is found to be loaded with oxalate of lime. Individuals in this unhappy condition stand in great and urgent need of the Phosfozone. One or two or a dozen doses of Phosfozone may not cure them; but if they persevere in taken it a favorable result is inevitable. Sold by all Druggists and prepared in the Laboratory of the Proprietors, Nos. 41 and 43 St. Jean Baptiste Street, Montreal.

What did the Man Say.

A scene in court with a stupid witness. A man has been caught in the act of theft, and pleaded in extenuation that he was drunk.

Court (to the policeman who was witness) —'What did the man say when you arrested him?'

Witness —'He said he was drunk.'

Court —'I want his precise words, just as he uttered them; he didn't use the pronoun, did he? He didn't say 'he was drunk.'

Witness —'Oh, yes, he did—he said he was drunk; he acknowledged the corn.'

Court (getting impatient at the witnesses' stupidity) —'You don't understand me at all; I want the words as he uttered them; didn't he say 'I was drunk?'

Witness (deprecatingly) —'Oh, no, your honor. He didn't say you were drunk; I wouldn't allow any man to charge that upon you in my presence.'

Prosecutor —'Pshaw! you don't comprehend at all. His honor means, did not the prisoner say to you 'I was drunk?'

Witness (reflectively) —'Well, he might have said you were drunk, but I didn't hear him.'

Attorney for prisoner —'What the court desires is to have you state the prisoner's own words, preserving the precise form of pronoun that he made use of in reply. Was it the first person, I, second person, thou, or the third person, he, she or it? Now then, sir (with severity), upon your oath, didn't my client say, 'I was drunk?'

Witness (getting mad) —'No, he didn't say you was drunk either, but if he had I reckon he wouldn't a lied any. Do you suppose the poor fellow charged the whole court with being drunk?'

PRESENTATION.—The pupils of the Collegiate Institute who matriculated at Queen's College this session have presented Mr. Thos. Gordon, Mathematical Master of the Institute, with a handsomely bound and richly illustrated copy of Dr. Russell's account of the visit of the Prince of Wales to India as a mark of their appreciation of the trouble he took with them in preparing them for matriculation in mathematics. The gift was accompanied by kind words from the young men, and was feelingly responded to by the donor.—*News.*

A Good Horse.—There is much pleasure and profit in the service of a good horse, and but very little of either in a bad one; no person from choice will retain a bad horse; many, however, are in possession of such who need not be. We think there are few horses so bad but that their condition can be improved and rendered more valuable and useful for their owners, to effect which, there is nothing equal to Darkee's Condition Powders and Arabian Heave Remedy, it has effected astonishing results in thousands of cases. Remember the name and see that the signature of Hurd & Co. is on each package. Sold by all medicine dealers.

An Infallible Remedy for all Diseases of the Eye (acute or chronic), Granulation of the Lids, Ulceration of the Lachrymal Gland, Film and Weakness of the Vision from any Cause

THE AMERICAN EYE SALVE is presented to the public with the assurance of its efficiency as a curative of most diseases of the eye, acute or chronic inflammation, whether induced by scrofulous or gin or otherwise, weakness or defect of vision, diminished force of the optic nerve or a diseased state of the tissues constituting that organ. Also for all persons whose vocation requires an incessant action of the eyes, the Salve will act as a charm in restoring a uniform healthy action, where weakness, pain and misery may have long threatened a fatal termination. It is the most simple safe and efficacious remedy ever discovered, the materials of which it is made are pure, perfect and carefully compounded, with elaborate care and exactness, safe in its application being used exclusively and of course avoiding the pain and danger which necessarily attends the introduction of caustic minerals and eye washes. Ring worm and Old Chronic Sores, of scrofulous origin, or resulting from whatever cause, yield to the AMERICAN EYE SALVE. IT IS USED SUCCESSFULLY FOR PILES. Its soothing effect is immediate and a permanent cure required but a few applications. The proprietors of DR. J PETITT'S AMERICAN EYE SALVE, while making new and improved machinery for making a perfect box for the Eye Salve, have changed the Trade Mark on the cover so as to correspond with the Cut on the wrapper, circulars, advertisements, etc. We call attention to this, as it might otherwise be regarded as counterfeiting.

Mitchell's Belladona Improved India Rubber Porous Plaster.

There never has been a time when the healing of so many different diseases has been extant, by outward applications as the present. It is an undisputed fact that over half the entire population of the globe resort to the use of ordinary plasters.

The principal ingredients used in making these Plasters are Gum Oilbanum—or better known as the Frankincense of the Bible—Rubber, and Burgundy Pitch, which when scientifically compounded, is full of electricity, and when combined with the pure medical gums, is found to be one of the greatest healing mediums ever brought before the human race.

They are acknowledged by all who have used them to act quicker than any other Plasters they have ever before tried, and that one of these Plasters will do more real service than a hundred of the ordinary kind. All other Plasters are slow of action, and require to be worn continually to effect a cure; but with these it is entirely different; the instant one is applied the patient will feel its effect

They possess all the soothing, warming, supporting and strengthening qualities of all other Plasters. Many who have been relieved of Rheumatism, Tiedoloreux, and various other pains in the Kidneys, Breast or Side, and believe it is solely done by the electrical qualities which the Porous Plasters contain, and which is imparted to the system, thus restoring them to a healthy condition

They are very soft and pliable, still very adhesive, and a sure cure for weak backs, pains in the side and breast, and are invaluable to those who have a cold, of long standing and often prevents consumption. Some even tell us they believe they were entirely cured by the use of them of a long seated consumption.
