IT NEVER FAILS!

PHOSFOZONE has never been known to fail in performing after a fair trial all that is claimed for it. The most sceptical readily acknowledged its surprising curative powers after taking a few doses, as its action is always rapid and certain. One or two or a dozen doses of Phosfozone may not cure them; but if they persevere in taking it favorable result is inevitable. Sold by all druggists and prepared in the Laboratory of the proprietors, Nos. 47 and 49 St. Jean Baptiste St., Montreal.

CATARRH

THE EYE, EAR and THROAT

Successfully Treated with

SANFORD'S RADICAL CURE.

SUCCESS is the test of merit, and success in the treatment of Catarrhal Affections, after so many miserable failures, means undoubted specific curative properties in the remedy used. Does SANFORD'S RADICAL CURE for Catarrh possess such properties? The evidence, in the shape of unsolicited testimonials from the most respectable people in all stations of life, must be conclusive on this point. Never, we believe, in the history of popular medicines has such valuable testimony been offered, freely offered, in favor of any remedy than that in the possession of the proprietors of SANFORD'S RADICAL CURE. And valuable as it is, it does not represent a thousandth part of the recommendations which are to-day offered by friends to friends in its favor. People of wealth and refinement in all parts of the country duly admit its superiority over any method of cure known to the regular medical profession, but shun the publicity incidental to a published statement. Hence the testimonials in our possession represent but a small part of those withheld for the reason mentioned. The following unsolicited testimonial from HENRY WELLS, Esq., of Wells, Fargo & Co's Express, is an outspoken indorsement of which we are justly proud.

INVALUABLE.

MESSRS. WEEKS & POTTER, Wholesale Druggists, Boston, Mass: *Gentlemen,*—I have for some months felt it a duty that I owe to suffering humanity to write you, stating the great benefit that have derived from the use of SANFORD'S RADICAL CURE FOR CATARRH. For more than 20 years I have been afflicted with this very troublesome complaint. I have tried all the remedies that I could find, but without material or permanent benefit. Last fall the disease had arrived at that state that I must have relief or die. The entire membraneous system had become so inflamed, and the stomach so disordered, that it was a doubtful matter whether I could go to the Pacific coast, or if I did go whether I should live to come back or not. I saw an advertisement of this medicine, and although being very incredulous about specifics or nostrums of any kind, yet in sheer desperation I tried this, and was at once benefited by it. The changes of climate, a chronic disease of the liver, and my age—over 70—may prevent my entire restoration, but the benefit I derive from its daily use is one *verboiable*, and I am hoping to be completely cured, and at last arrive at a respectable old age.

If this statement of my case can be of any service to those afflicted as I have been, and enable you to bring this remedy into more general use, especially on the Pacific coast, where it is much needed, my object in writing this note will be obtained.

Very truly yours, HENRY WELLS,

AURORA, N. Y., June 1, '76. of Wells, Fargo & Co.

Each package contains Dr. Sanford's Improved Inhaling Tube, and full directions for use in all cases. Price $1.00. For sale by all Wholesale and Retail Druggists and Dealers throughout the United States and Canadas. WEEKS & POTTER, General Agents and Wholesale Druggists, Boston, Mass.

*Notices of the Press*

The veteran *Magazine* which long ago outgrew its original title of the *New Monthly Magazine*, has not in the least abated the popularity it won at the outset but has added to it in many ways and has kept fairly abreast of the times, thanks to the enterprise of the publishers and the tact and wisdom of the editors. For whatever is best and most readable in the literature of travel discovery and fiction, the average reader of to-day looks to *Harper's Magazine* just as expectantly as did the reader of a quarter of a century ago; there is the same admirable variety of contents and the same freshness and suggestiveness in the editorial departments now as then.—*Boston Journal*

MY GIRL.

I.

A little corner with its crib,
A little mug, a spoon, a bib,
A little tooth so pearly white,
A little rubber rin to bite.

II.

A little plate all lettered round,
A little rattle to resound,
A little creeping—see! she stands!
A little step 'twixt outstretched hands.

III.

A little doll with flaxen hair,
A little willow rocking chair,
A little dress of richest hue,
A little pair of gaiters blue.

IV.

A little school day after day,
A little schoolma'am to obey,
A little study—soon it is past,
A little graduate at last.

V.

A little muff for winter weather,
A little jockey hat and feather,
A little sack with funny pockets,
A little chain, a ring and lockets.

VI.

A little while to dance and bow,
A little escort homeward now,
A little party, somewhat late,
A little lingering at the gate.

VII.

A little walk in leafy June,
A little talk while shines the moon,
A little reference to papa,
A little planning with mamma.

VIII.

A little ceremony grave,
A little struggle to be brave,
A little cottage on the lawn,
A little kiss—my girl was gone!

The Phonograph.

We had hardly got reconciled to the telephone, which would enable us to converse with a friend in Jericho—if we had one there—when we find ourselves confronted with a still more marvellous invention—the phonograph. By means of this instrument, invented by a New Jersey electrician, Mr. Edison, the sound of the human voice can be impressed on paper, and the tones reproduced at any subsequent period. Thousands of years after a man is dead, if his words have been recorded and preserved on phonographic paper, the machine can be set in motion and his voice be heard again. At least, so the papers say, and they are all full of the new invention and the wonders it will perform.

The idea of thus bottling up oratory for future use is certainly startling. To think of having a sermon by a popular preacher, a speech by a noted politician, or a song by some sweet singer stored in our libraries or cellars—we hardly know which place would be most appropriate—and then bringing them out whenever we felt disposed in the privacy of our own homes, turning the crank like an organ-grinder, and taking as large or as small portion as we pleased, in the very voice of the original, is—well, as Artemus Ward said when thirty-five widows of a defunct Mormon wanted him to marry them "It is too "much."—*Tiser.*

A BAD REPORT.—The coming winter promises to be the most fearful known in England for many years. Everybody is cutting down expenses, and in London alone there are 42,000 fewer male servants on the tax list than two years ago. The coal trade is paralyzed, many of the great iron mills have closed, and strikes are frequent and general. Crime has already largely increased, and much apprehension is felt in all parts of the kingdom. And yet they have a Tory government in England. Can such things be! Will John A. rise and explain?

—The consumption of cotton fabrics in Canada is greatly augmenting, while her exports in this line have increased from $3,000,000 in the fiscal year ending June 30, 1875, to $10,180,000 in the year ending June last.

*Very Sensible.*—Horse dealers who are supposed to know what affects their own interests purchase Darley's Condition Powders and Arabian Heave Remedy by the dozen and feed it to their horses for the purpose of improving their condition, which it always does—others should profit by their example. Remember and see that the signature of Hard & Co is on each package. Sold by all medicine dealers.

Thousands of people are now carelessly allowing themselves to drift through the preliminary symptoms of consumption, under the fatal delusion that they are troubled with nothing but a slight cold. How necessary is it then, that a cold should be cared for from its inception and every exertion used to get rid of it. Bryan's Pulmonic Wafers will stop the hacking cough in a few minutes, and by their influence on the bronchial and pulmonary organs all fears of dangerous results will soon be dissipated—but they must be taken in time. Sold by all medicine dealers a 25c per box.

PETITT'S EYE SALVE.

An Infallible Remedy for all Diseases of the Eye (acute or chronic), Granulation of the Lids, Ulceration of the Lachrymal Glands, Film, and Weakness of the Vision from any Cause

THE AMERICAN EYE SALVE is presented to the public with the assurance of its efficiency as a curative of most diseases of the eye, acute or chronic inflammation, whether induced by scrofulous origin or otherwise, weakness or defect of vision, diminished force of the optic nerve, or a diseased state of the tissues constituting that organ. Also for all persons whose vocation requires an incessant action of the eyes, the Salve will act as a charm in restoring a uniform healthy action where weakness, pain and misery may have long threatened a fatal termination. It is the most simple, safe and effectual remedy ever discovered; the materials of which it is made are pure, perfect and exactly compounded with elaborate care and exactness, safe in its application being used externally and of course, avoiding the pain and danger which necessarily attends the introduction of caustic minerals and eye washes. Ring worm and Old Chronic Sores of scrofulous origin, or resulting from whatever cause, yield to the AMERICAN EYE SALVE. IT IS USED SUCCESSFULLY FOR PILES. Its soothing effect is immediate and a permanent cure requires but a few applications. The proprietors of DR. J PETITT'S AMERICAN EYE SALVE, while making new and improved machinery for making a perfect box for the Eye Salve, have changed the Trade Mark on the cover so as to correspond with the Outside wrapper, circulars advertisements, etc. We call attention to this, as it might otherwise be regarded as counterfeiting.

Mitchell's Belladona Improved and a Rubber Porous Plaster.

There never has been a time when the healing of so many different diseases has been caused by outward applications as the present. It is an undisputed fact that over half the entire population of the globe resort to the use of ordinary plasters.

The principal ingredients used in making these Plasters are Gum Olibanum—or better known as the Frankincense of the Bible—Rubber, and Burgundy Pitch; which when scientifically compounded is full of electricity, and when combined with the pure medicinal gums, is found to be one of the greatest healing mediums ever brought before the human race.

They are acknowledged by all who have used them to act quicker than any other Plasters they have ever before tried, and that one of these Plasters will do more real service than a hundred of the ordinary kind. All other Plasters are slow of action, and require to be worn continually to effect a cure; but with these it is entirely different; the instant one is applied the patient will feel its effect.

They possess all the soothing, warming, supporting and strengthening qualities of all other Plasters. Many who have been relieved of Rheumatism, Tiedoloreux, and various other pains in the Kidneys, Breast or Side, and believe it is solely done by the electrical qualities which the Porous Plasters contain, and which is imparted to the system, thus restoring them to a healthy condition.

They are very soft and pliable, still very adhesive, and a sure cure for weak backs, pains in the side and breast, and are invaluable to those who have a cold, of long standing, and often prevents consumption. Some even tell us they believe they were entirely cured by the use of them of a long seated consumption.

Prepared by GEO E MITCHELL, Lowell, Mass. Sold by all druggists.
