MRS. MAXWELL'S TESTIMONIAL.
New York, Dec. 23, 1862.
Knowing positively that Reeve's Ambrosia produced a beautiful head of hair for Mrs. Lizzie Shepherd, of Brooklyn, N.Y., I was induced, thereby, to use it thoroughly. I needed something for my hair, it being short and thin; had used only one-half dozen bottles when I could plainly notice an increase in its length, strength and beauty. An experience of about two years has proved a complete success. My hair is now, by measurement, four feet ten inches in length; nearly reaching to the floor. I have allowed my photograph to proclaim the merits of Reeves' Ambrosia to the world.

Scriner, Consulting Chemists, Chicago, all of whom have analyzed the Catawba Brandy, and commend it in the highest terms for medicinal use.
ANALYSIS OF THE MASSACHUSETTS STATE ASSAYER, JAN. 20, 1858.
When evaporated through clean linen it is free of oil or offensive matter. In every respect it is a PURE spirituous liquor. The oil which gives to the Brandy its flavor and aroma, is wholly unlike fusel, or grain oil. Its color partakes of both the fruit and oil of grapes. With acids, it produces ethers of a high fragrance. The substitution of this Brandy for Cognac Brandy will do away with the manufacture of fictitious spirits, sold under this name both at home and abroad.
Respectfully,
A. A. HAYES, M. D., Assayer to State Mass., 16 Boylston St.
BY THE SAME, IN 1864.
I have analyzed "L. LYONS' PURE CATAWBA BRANDY" with reference to its composition and character, being the same as that produced in past years. A sample taken from ten casks afforded the same results with regard to purity; a slightly increased amount of the principle on which its flavor depends was determined by comparison with former samples.
The indications of analysis show that this Brandy is produced by the same process as most of the imported Brandy.
Respectfully,
A. A. HAYES, M. D., State Assayer,
Boston, July 2, 1864. 16 Boylston St
