SEND IN YOUR SUBSCRIPTIONS NOW.

There is always a rush of subscriptions during the latter part of this month, and although the greatest care is taken it is almost impossible to avoid mistakes. We strongly advise all our readers whose subscriptions expire with the present month to send in their subscriptions now. By doing this they will not only avoid mistakes, but will confer a favor on the FREE PRESS staff. Before sending in your subscription, see a neighbor who is not a subscriber, and get his subscription to send with your own. As an acknowledgement, we shall be pleased to allow to anyone sending in a new subscription with his own, the two subscriptions for $1.75.

EDITORIAL NOTES.

The rumor is abroad that Hon. Geo. E. Foster is to receive the Conservative nomination in North Ontario, with the view of restoring him to his seat in the front row of the Opposition at Ottawa.

As an educational campaign, the late contest was worth all the time and money that it cost. The barroom was held up to such a powerful searchlight that its death-knell has been sounded.—Orillia Times.

The text of the Bond-Hay treaty, which provides for limited reciprocity between the United States and Newfoundland, has been published. It gives general satisfaction, and is warmly commended by the business community. It is thought in official circles that the treaty will receive the Senate's ratification.

Mr. James J. Hill has been quoted as stating in Chicago that manufacturing industries throughout the country are now in a state of over-production, and that the summit of good times had arrived. If Mr. Hill will come home to Canada his conclusions will be materially changed by the evidences everywhere that business is normal and prosperous.

An estimate of the world's entire crop of wheat this season has been made by the Russian Minister of Agriculture. He states that the figures at his command indicate a total yield of 2,006,153,700 bushels of wheat, or an increase of 88,000,000 bushels over the crop of 1901. The exporting countries have yields just about equal to those of last year, and the importing countries have raised 88,000,000 more than in 1901.

The Milton Champion, which opposes prohibitory legislation, says: "The great need of our present license law is enforcement. At present it is violated persistently nearly everywhere, and this will be the case as long as the officials whose duty it is to see that it is enforced spoke rather to gain political advantage than to do their duty. The first demand should be for improved machinery to carry out the liquor law."

Deputy Minister of Agriculture for Manitoba, McKellar has been figuring and he says that the possibilities of Canada as a producing country have only been barely touched. "Of the 23,000,000 acres of farm lands in Manitoba, for instance, only 3,180,015 acres are under crop this year, and, say, 500,000 acres summer fallowed, making in all 3,680,015 acres broken. "Within the next ten years we may expect at least 10,000,000 acres to be under cultivation," says Mr. McKellar.

A deputation from the Public School section of the Educational Association of Ontario, waited on the Minister of Education on Saturday to present their request for the alterations in the general regulations, which were agreed on at their last annual meeting. They wish, among other things, the Normal School course increased to one year, and that no certificate be issued to persons under 21 years, both which suggestions will practically be met by changes in the Normal School course already made.

An expression of a desire for a peaceful settlement of the difficulties has been received in London from the Venezuelan Government. It has been learned that the proposals now before the British Government are the original proposals forwarded by United States Minister Bowen. There is said to be reason to believe that orders will be or have been sent to the British commander in Venezuelan waters to take no further aggressive action at present, pending a decision being arrived at on the proposal for arbitration.

INCREASED COAL OUTPUT.

The Reading Co's Output Shows a Hopeful Upward Trend.

The output of the Reading Company's 31 collieries on Thursday was 1,305 cars, practically the normal production of these mines. The amount exceeds the output in the past when the company had 37 collieries in operation, and the fact is taken as indicating that the stringency in the anthracite situation is relaxing.

It is the man who snores loudest who always gets to sleep first in a sleeping-car.

CLOSING UP YEAR'S BUSINESS.

The Municipal Council of 1902 Nearing the End of their Stewardship.

ELECTRICIAN MILATZ HAS RESIGNED.

The Municipal Council met on Monday evening in regular session. Members all present: Reeve Williams in the chair.

The Committee on Finance presented their twenty-fifth report and recommended payment of accounts as follows:

Milton Specialty Co., Boiler Compound	$13 00
Canadian General Electric Co., Supplies	4 31
R. D. Graham, Postage	2 35
D. Kopman, Nails	12
R. J. McNabb, Typewriting By-law	2 40
The Reeve, Charities	20 00
Thos Gamble, Chief of Fire Brigade, grant to brigade	60 00
Adam Cook, Gravel	2 81
Alex. McDonald, Wood	32 00
	$131 82

Moved by John A. Henderson, seconded by Geo. Hynds, that the report of the Committee on Finance just read, be adopted.—Carried.

Mr. Fred Milatz, electrician, in charge of the electric lighting plant, tendered his resignation, and requested that it be accepted and that he be relieved as soon as possible, he having purchased a plant at Preston.

Mr. Charles Declute applied for refund of $1.00 dog tax, his dog having died shortly after being assessed, and notice being given to the Assessor to that effect.

Moved by George Hynds, seconded by John A. Henderson, that the resignation of Mr. Fred Milatz, electrician, be received and accepted, and that Mr. Milatz be relieved from his position at the power house, at the expiration of thirty days, or as soon as the Council can secure the services of a competent electrician to take charge.—Carried.

Moved by H. Swackhamer, seconded by John Agnew, that this Council refund to Charles Declute $1.00 for amount paid as dog tax, the dog having died shortly after being assessed.—Carried.

Moved by John A. Henderson, seconded by George Hynds, that the Fire and Light Committee be authorized to advertize at once in the daily Mail and Globe for a capable electrician.—Carried.

The Council then adjourned.

FUTURE LIQUOR LEGISLATION.

Premier Ross in a Manifesto on Tuesday Says the Referendum Must Be Gratifying to Temperance People.

WILL EFFECT LIQUOR LAWS IN FUTURE.

In a manifesto to the people of Ontario touching issues in the pending bye-elections, the Hon. G. W. Ross said in Tuesday's papers, respecting the vote on the 4th inst:

"On the 4th December the liquor act passed last summer was referred to the electors of the province for their approval. Full returns have not been received from a few of the northern districts, but so far as heard the vote stands:—

For the Liquor Act	106 059
Against	88 022
Majority in favor	78 038

The total vote required to put the Liquor Act in force was 212,723, so that the vote falls short of this by over 46,000.

But while the vote polled was not sufficient to put the Liquor Act into operation it is an expression of opinion on the question of prohibition which must be exceedingly gratifying to all concerned in the temperance movement, and it will be the duty of the Legislature to consider the significance of this vote in future legislation. What that legislation should be can only be settled by a careful interchange of opinion between the members of the Legislature and those who have given time and study to the operation of the liquor laws of Canada and other countries.

ANOTHER GREAT PRESBYTERIAN DIVINE GONE.

Rev. Principal MacVicar, of Montreal Died Suddenly on Monday in his Office.

This year of grace will be remembered by the Presbyterian Church because of the death of a number of its great men—leaders in their respective departments. The lamented death of Rev. Dr. Robertson, head of the Missionary department of the church, followed by the death of Rev. Principal Grant, that great and good head of Queen's College, were keenly felt throughout the Dominion. On Tuesday morning the sad news of the sudden death from heart disease, of Rev. Principal MacVicar, of the Presbyterian College, Montreal, came as a stunning blow. The Presbyterian Church of Canada and the whole Presbyterian body throughout the world have lost one of the Church's pillars by the death of Rev. Dr. MacVicar, a man of orthodox views, he was inflexible in his principles, but behind an apparently stern demeanor he possessed a most kind and lovable disposition, and he was revered and beloved by all, and especially by his students.

CREWSONS CORNERS

At present the roads are in a very slippery condition; it is the harvest for the blacksmith.

Mr. J. Walker has rented his farm to Mr. John Graham, who takes possession in the spring.

Mr. Jas. Moore, one of our highest esteemed young men, was united in marriage to Miss O. Abbot, of Everton, on Wednesday, Dec. 17th. We extend to Mr. Moore and his estimable bride our hearty congratulations for a long and happy future together.

We wish the FREE PRESS, the editor and staff and all its many readers a merry Christmas and a happy New Year.

REFERENDUM RETURNS.

For	175,776
Against	92,881
Majority for	82,770

The official figures for the two Lambton ridings show a majority of over 5,000 in that county for the Liquor Act. The total majority is now increased to 82,770.

ABOLISH THE BAR-ROOM.

Leading Workers of the Province Decided on Tuesday to so Request the Government.

A DEPUTATION TO WAIT UPON THE MINISTRY.

TORONTO, Dec. 17.—At a special meeting of temperance workers yesterday afternoon the following resolution, moved by Rev. Dr. Carman and seconded by Rev. Principal Cavin, was unanimously adopted:—

"That in view of the recent expression by the electors of the Province of Ontario in favor of the liquor act, 1902, we deem it advisable to appoint a deputation to wait upon the Government and request that effect be given to said vote by the abolition of the public bar, the treating system and drinking in clubs, and the imposition of such other restrictions on the liquor traffic as shall most effectively curtail its operation and remedy its evil."

An amendment was moved to the effect that a deputation ask the Government to pass the second part of the liquor act, but it was not put to a vote. The object of the resolution is to secure the best legislation possible without being tied to the liquor act.

The meeting was called by the Executive of the Dominion Alliance, and Mr. G. E. Marter was in the chair. Those present included many of the chief officers of the various temperance societies, church bodies and prohibition associations in all the electoral districts of the Province, the Standing Committee on Moral Reform of the General Conference of the Methodist Church, the Committee on Church Life and Work of the General Assembly of the Presbyterian Church, the Standing Committee on Temperance of the Congregational Union and representative workers in other religious denominations.

It was decided that those present should form the deputation to wait upon the Government. A date will be arranged as early as possible.

A resolution was passed expressing high appreciation of the services of the Secretary, Mr. F. S. Spence, during the recent campaign, and commending his untiring energy and zeal, his wise generalship and his splendid devotion to the cause.

TEACHERS IN DEMAND.

Northwest Territories are Looking to Ontario For Large Numbers.

A northwest correspondent calls attention to the increasing demand for school teachers in the Northwest Territories. It is estimated that 250 new teachers will be required for 1903, and last year 150 Ontario teachers went west. The average salary paid is $45 a month. To partially relieve the situation the Territorial Government has arranged for an additional session of the Territorial Normal School, to be held at Regina, commencing January 5th next. Persons holding Ontario junior and senior leaving standing are entitled to admission. The west must look to Ontario and eastern provinces to supply the increasing demand for teachers, and, as there are good opportunities for energetic and ambitious young men and women, doubtless many Ontario teachers will find their way to the Golden West.

INDIANS ON THE WARPATH.

Reports Say That Red Men Looted and Burned Stores and Killed White Men.

SEATTLE, Wash., Dec. 15.—A special from Dawson says:—Much excitement and apprehension prevails at White Horse and various points along the line of the new Government trail over the report that a band of Hinako Indians have taken the warpath in the region between the Little Salmon and Petty Rivers. A store is reported to have been looted and burned, with the storekeeper killed and another man fatally injured. It is stated that 150 to 200 Indians are in the hostile party. A motive for the outbreak is furnished by the hanging of three of their number at the Dawson barracks in 1899 for the murder of a prospector on the Little Salmon.

CALIFORNIA-OREGON EXCURSIONS.

Every day in the year the Chicago, Union Pacific and North-Western line runs through first class Pullman and tourist sleeping cars to points in California and Oregon. Three through trains daily. The route of the famous "Overland Limited", personally conducted excursions from Chicago to San Francisco, Los Angles, Portland and other Pacific coast points leaving Chicago on Tuesdays, Wednesdays, Thursdays and Fridays. Lowest rates, choice of routes, finest scenery. Maps, illustrated folders, &c., furnished free. Rates quoted. Address R. H. Bennett, general agent, 2 East King Street, Toronto, Ont.

NEW LITERATURE.

"Dorothy South," by George Cary Eggleston, is a charming love story of the years just preceding the Civil War in Virginia, and is meeting with a large sale. The 37th thousand has already been issued. It has colored illustrations by C. O. Williams and is a very dainty volume.

"Dorothy South" is a charming and instructive book. The heroine is different in type from those heroines of fiction. It is a novel that will adequately repay perusal."—Brooklyn Eagle.

"The volume is so sweet in its tone and the atmosphere so fresh-aired, bracing and wholly American that one wishes more of it."—Philadelphia Times."

Musson Book Co., Toronto, publishers, 8vo. cloth, $1.50.

FOUND DEAD IN BED.

Wife's Startling Discovery at Mono Early Monday Morning.

ORANGEVILLE, Dec. 15.—At three o'clock this morning Alex Bagnell, lot 10, con. 6, Mono, was found dead in bed. The startling discovery was made by his wife, who woke up to find her husband stiff and lifeless beside her. The family reside on the Hockley road, about eight miles from Orangeville. Mr. Bagnell was between 40 and 50 years of age, and leaves a widow and two sons and five daughters. He was considered a man of vigorous constitution, and the cause of his sudden death is not known, but it was probably due to heart failure or paralysis.

Warren Blk Mill St., ACTON.

Christmas Goods AT THE Dowler Co.

The novelty and newness of stocks are bringing many customers. And trade takes on a decided holiday tone. The fancy knitted things, chenille and silk neck shawls and fascinators are very attractive and very suitable for presents to those at a distance.

Wool and Silk Waist Materials of which we have a decidedly fine assortment, as well as Silk Waists, in most dainty designs at unusually low prices.

Dress Skirts and Dress Lengths, are also on sale, and Underskirts at 85c., worth at least $1.25. There is nothing to compare with them. They are made in the building.

Marcel Skirts for $2.75.

Any one of the above is a most suitable, and sensible present.

Furs For Christmas

Our stock was never in better shape. Every article in it is this year's make-up, bought at the right time for both quality and value, that is, before they were made up away early in the summer, when we could get the very best choice of the pelts. They were bought for spot cash, every discount between the manufacturer and you being saved; and our reputation we think is a sufficient guarantee of good faith in fur dealing, as in other lines. However, we give the public credit or judgement and discrimination, and should you come here and see our stock before buying, we have no doubt of being able to convince you that our goods and prices are the best.
