The Lancashire Fire and Life Insurance Company was established by a numerous and influential body of Merchants and Manufacturers, resident chiefly in Manchester, London, Liverpool, and Glasgow, and a large business having been secured at Home, the Directors have resolved on extending the operations of the Company to Foreign countries.

The Directors have, ever since the establishment of the Company, published their Annual Balance Sheets, duly examined and certified by two Public Accountants, so that the public might be able to judge for themselves as to the sound financial condition of the Company.

The high position which the Lancashire has attained is mainly owing to the well established fact, that all claims are met with promptitude and liberality, and that every facility is given for the transaction of all classes of Fire and Life business.

OPINION OF THE CHANCELLOR OF THE EXCHEQUER

The Directors of the Lancashire have always been content to let the figures in their annual balance sheets prove the sound financial position of the Company, but they think it due to their numerous Insurers to draw attention to the complimentary remarks of the Chancellor of the Exchequer, made in the House of Commons on 7th March, 1864, (See Times of 8th March.)

The Chancellor of the Exchequer, in moving the adoption of the "Government Annuities Bill," said,—

"I wish to show the manner in which business is transacted by offices of the highest class, and the reserve they think it necessary to hold in order to give themselves a secure position. I am only going to state two or three cases. Hon. members will bear me out when I say that you know a good deal about the position of an insurance society when you get three things—first of all its date; secondly, its income from premiums; and thirdly, its accumulations. (Hear, hear.) From the relation of these three to one another you know pretty clearly the state of any office."

One of the four Offices naped by the Chancellor as of the "highest class" was the Lancashire, which is the only one of the four doing business in Canada.

FIRE DEPARTMENT.

The Company commenced business in October, 1861, as a Fire Office, and was called into existence to modify the excessive rates demanded by the combined Offices after the Great Fire in Tooley Street, London. The success which has attended the Company's operations has been such as fully to realize the most sanguine expectations of the Directors, and has induced them to extend their operations to Canada, where the General Agents are prepared to take proposals for Insurance against Loss by Fire of Property of every description.

LIFE DEPARTMENT.

The marked preference shown for an Office which studies the interests of the Public as well as of its Proprietary, induced the Directors to transact Life Business with the intention not to favor one class of Policy-holders at the expense of another, but, resolved that the same liberal views which have gained for the Office the confidence of the Public in its Fire Branch, shall guide them in the management of the Life Department, they extend to the Assured every benefit which science warrants or experience suggests.

Among the benefits of this Company may be enumerated—Moderate Rates o Premium—Eighty per cent of the Profits divided among the Assured—Very liberal surrender value given after three years—Thirty days allowed for payment of Premiums, and further extension of time on easy terms—Unchallengeable Policies—Credit System—Service permitted in Volunteer Corps—Convenient and liberal terms, whereby no Policy need lapse, through any temporary difficulty, in the payment of a Premium.

Further and fuller information may be obtained by calling at the Office, Nos. 221 and 223 St. Paul Street.

Self-Preservation.

Price with Engravings and Cases 25c., by Post, 50c.

SELF-PRESERVATION: a popular Essay on Nervous and Physical Debility, resulting from injurious habits contracted in youth or excesses in maturity, which by prematurely exhausting the functions of manhood, destroy the happiness of Married Life, or prevent the fulfilment of engagements that constitute the most cherished objects of existence.

By DR. LA'MERT, 37 Bedford Square, London, Licentiate of the Royal College of Physicians of Edinburgh; Member of the Royal College of Surgeons, England, &c.

The above work contains most useful and interesting information on the physiological changes which occur in the Reproductive System during the periods of youth, puberty, and manhood; and on the due attainment of that degree of functional vigor upon which the hopes of posterity depend. It also points out how all the attributes of manhood can be preserved to an advanced period of life, how they are lost, and how they can be recovered. It is free from the gross exaggerations, alarming descriptions, and dangerous remedies so generally resorted to by persons, who, practising with false medical qualifications, inflict most serious injuries, and render judicious treatment frequently abortive.

The author is the only legally qualified practitioner, whose name stands on the 'Medical Register,' (the sole test of medical qualification,) who has been exclusively engaged for a series of years in the treatment of the various functional disorders of the nervous and reproductive system, which, owing to the great discoveries of modern science, are rendered subservient to a rational, simple and easy mode of treatment.

At home for consultation daily from ten till two, and from six till eight, either personally or by letter—37 Bedford Square, London, England.

Patients residing in the Colonies can be successfully treated by correspondence, and remedies can be forwarded in secrecy and safety and to any address.

Persons suffering from either of the above named complaints, should not hesitate a moment to apply the Ready Relief, as directed. *It will surely cure.*

The Rubbing should be continued until a sense of heat and irritation or burning is experienced. If you succeed in securing this action on the skin and back, you may feel perfectly satisfied of a cure—it is a sure sign.

Also bathe the stomach and bowels with the RELIEF, and lay a piece of flannel soaked in RELIEF across the bowels. This will be found an effectual and speedy cure.
