NEWS OF LOCAL IMPORT.

Money in Horse Flesh.

W. A. Lawrence has sold to Dr. Peters, of Toronto, a fine hunter at a round figure, and J. D. McGibbon his span of roadsters to Dr. Cayen, of Toronto, for $700. Who says there isn't money in good horse flesh?—Milton Reformer.

The King's Birthday.

The Dominion Government will shortly issue a proclamation calling for the observance of the King's birthday on Victoria Day. As the 24th of May this year falls on Sunday, the celebration will no doubt be held on the 25th.

Splendid Bread From the New Oven.

The new coal firing oven at Statham's bakery was completed on Saturday morning and the first batch of bread and cakes was turned out a few hours later. The oven is a great success; it bakes beautifully and will be much more economical from a fuel standpoint than the old wood ovens.

Nearly a Centenarian.

The remains of Mrs. Catharine McGuire, of Toronto, were brought to Acton on Tuesday and interred in St. Joseph's Cemetery. Deceased was 98 years of age. Her husband and her son James, who was drowned in Fairy Lake, near the dam, twenty-eight years ago, while bathing with companions, were buried there.

Oddfellowship's 86th Anniversary.

Next Sunday marks the Eighty-sixth anniversary of the Institution of the Independent Order of Oddfellows in America. The event will be fittingly commemorated by the members of Acton Lodge I. O. O. F. in their lodge room this evening. An "At Home" will be held with addresses by prominent Oddfellows and a programme of general character suitable to the occasion.

Rev. Mr. Dick at Knox Church.

Rev. D. Dick, of the Disciples' Church, occupied the pulpit of Knox Church morning and evening last Sunday. His sermons were thoroughly enjoyed by the congregation. Rev. H. A. Macpherson preached in Chalmers' Church, Toronto. The pulpit of the Disciples' Church was occupied by Mr. Hugh Black, Postmaster, Rockwood, for whom there is always a cordial welcome here.

Boarding Cars in Motion.

Four boys were arrested by Constable Borthwick on Saturday for attempting to board railway cars while in motion, and also for riding on the cars. They came before the magistrate this morning. The Magistrate gave them a severe lecture, and said that, if any other boys were brought before him for the same offence he would inflict the maximum penalty of $50.—Guelph Mercury. The penalty for this is the same in Acton as in Guelph.

Royal Broom Works' Products.

Mr. W. Pearson, of the Royal Broom Works, is now putting brooms of his manufacture on the market. He left a sample of one of the first lot manufactured in Acton on Tuesday at the FREE PRESS office, and it is a very creditable specimen of the splendid article he is manufacturing. Mr. Pearson already has a number of local orders. It will be the proper thing for all citizens when purchasing brooms to ask for those manufactured in Acton. Now that this industry is established here let us give it all reasonable encouragement.

To Prevent Smut in Oats.

Mr. J. L. Warren, Secretary Halton Farmers' Institute, sends the FREE PRESS the following recipe to prevent smut and says it has been used successfully on his farm the past two years, and has been found a more simple method than dipping, as recommended in the article published in last issue: Spread oats on the barn floor and sprinkle with a watering can, with the following solution: 1 oz. formaline to 2 gallons water. This quantity will be sufficient for about 5 or 6 bushels. Mix the oats well after sprinkling so that the lot will be thoroughly dampened. By treating in the evening they will be ready to sow next morning.

Real Estate Changes Owners.

Mr. Graham Lawson has sold his farm, lot 23, con. I, Esquesing, to Mr. William Robertson, of the Scotch Block.... David A. Henderson, of Nassagaweya, has purchased from his father, James Henderson, J. P., the homestead, lot 20, con. 6.... Mr. John Leavens has purchased from Mr. Thos. Cameron, lot 32, con. I, Esquesing. Mr. Leavens has been a tenant on this farm for several years.... Mr. Christopher J. Russell has purchased from Mr. J. H. Denny part of lot 32, con. 5, Esquesing, and part of lot 1, con. 5, Erin, 120 acres in all.... Mr. James McLam recently purchased the orchard, and Mr. N. Forbes the furniture and undertaking shops belonging to the estate of the late J. A. Speight.

Base Ball Club Organized.

A very enthusiastic meeting was held in the Council Chamber Tuesday evening for the purpose of organizing a base ball club for the season of 1903. Mr. A. J. Mackinnon was moved to the chair, and after a suitable address the following officers were elected:

Hon. President—A. O. Beardmore.
President—A. H. Devitt.
1st Vice. Pres.—J. A. McGrail.
2nd Vice-Pres.—W. A. Storey.
Secretary—W. J. Gould.
Treasurer—C. R. McIntosh.
Managing Com.—Messrs. H. Jeans, H. Hauer, I. Francis, N. Patterson, and R. J. McNabb.

It is the intention of the club to try to form a league with clubs like Berlin, Waterloo, Preston, Hespeler, and Guelph.

Don't Spoil Our Street Lights.

If the Fire and Light Committee permit the removal of the hoods over the incandescent street lights, as has been proposed, a serious mistake will be made. As the contractor, who was an electrician of long and critical experience, remarked when Acton's excellent street system was being installed: "You put up your electric lights to illuminate the earth, not the heavens, and that is our reason for improving on the arc system by utilizing hoods to prevent upward rays, preferring to cast all the light downward for the benefit of those who walk or ride below them." A good coat of white lead or illuminum paint would at present improve them, but their removal would lead to unsatisfactory results.

A Painful Accident

Last Friday morning Mr. W. H. Speight, who operates the splitting machines at the works of the Acton Tanning Co., had been engaged in fixing a boxing over one of his machines, when, as he descended from the ladder he stepped upon a sharp wire nail in an upturned cleat on the floor. It pierced the sole of his boot and went almost through the right foot. The wound was very painful for several days, but Mr. Speight is now able to be about again.

The Spafford Entertainment.

A heavy downpour of rain prevailed last Wednesday night and as a consequence the audience attending the entertainment given by Spafford, the cartoonist, under the auspices of the Epworth League, in the town hall, was rather limited. The programme was carried out as announced, and brought out repeated applause from the audience. The cartoonist failed, however, in some respects to come up to the reputation claimed for him. His humor was for the most part mossgrown.

CHEWHONS CORNERS.

Considerable building will be done here this summer. Messrs. Wm. Anderson, W. Y. Gray, and John Bennett, all intend building large additions to their farms.

Rev. Mr. Flagg, of Nassagaweya, preached educational sermons on this circuit on Sunday. The attendance here in the morning was very large.

Mrs. Wm. Leichman, of Acton, and Mrs. J. Sinclair, of Sarnia, visited friends here on Thursday last.

Messrs. J. Pletch, Wm. Leichman, and Thos. Harding, of Acton, spent Sunday at Mr. Wm. Dennis'.

Miss A. M. Stone, of Guelph, is visiting at Mr. Jas. Gamble's.

BRITISH PRAISE FOR CANADA'S BUDGET.

The London Times says it is "A Practical Mean Between Free Trade and Protection."

LONDON, April 16.—The newspapers to-day are full of news from Canada, and comments upon the budget. All the editorials emphasize and commend the surtax upon German imports into the Dominion.

The Times has a column cable despatch summarizing Mr. Fielding's speech, and a column and a half laudatory editorial. The latter congratulates Mr. Fielding upon keeping a practical mean between free trade and protection, and considers that English statesmen might learn a lesson from Canada's practicability.

—Mr. Murray Crawford, of the Milton Fish Club, Campbellville, was in town on Monday inspecting the Fish Hatchery and Nursery Ponds here. He was much pleased with the splendid trout and fry to be seen there.

—Johnston & Co. have increased their stock of furniture to such an extent lately that additional premises have been found necessary. Sideboards and bed-room suites are now shown in C. C. Speight's store on Main street.

—Auctioneer Hemstreet will sell by auction next Wednesday evening, 29th inst., the whole of the household goods of Mrs. Jas. Ford, Mill street, opposite Grindell's Machine Shop. Mrs. Ford will leave next week to join her husband in the West.

—LOST—On Monday morning, between Speight's hardware store and the cemetery, a red leather purse containing 2 two dollar bills and 65 cents in silver, and a number of R. H. Scott's coupon tickets. Finder will be rewarded by leaving at the FREE PRESS Office.

SAVE THE BABY.

"I can truly say that had it not been for Baby's Own Tablets, I do not believe my baby would have been alive to-day." So writes Mrs. Albert Luddington, of St. Mary's River, N. S., and she adds:—"He is now growing nicely; is good natured and is getting fat." It is gratifying to know that in all parts of Canada, Baby's Own Tablets are proving a real blessing to children and a boon to mothers. These Tablets are a speedy relief and prompt cure for constipation, sour stomach, wind colic, diarrhoea, worms, and simple fevers. STOPS THE COUGH AND WORKS OFF THE COLD.

Laxative Bromo-Quinine Tablets cure a cold in day. No cure, no pay. Price 25c.

Just the Thing That's Wanted.—A pill that sets upon the stomach and yet is so compounded that certain ingredients of it preserve their power to act upon the intestinal canals, so as to clear them of excreta, the retention of which cannot but be hurtful, was long looked for by the medical profession. It was found in Parmelee's Vegetable Pills, which are the result of much expert study, and are scientifically prepared as a laxative and an alterative in one.

A rash conclusion is not much better than indecision.

A Soothing Oil.—To throw oil upon the troubled waters means to subdue to calmness the most boisterous sea. To apply Dr. Thomas' Eclectric Oil to the troubled body when it is racked with pain means speedy subjugation of the most refractory elements. It cures pain, heals bruises, takes the fire from wounds, and as a general household medicine is useful in many ailments. It is worth much.

When a man is displeased with himself he knows who is to blame.
