THE WEATHER.—Cold weather prevails with bright days and no thaw. The winter so far has been a good one for travelling, inasmuch as sleighing set in about the middle of December, and has continued good ever since. Should the snow last until April, and there is much likelihood that it will, the growing crops of Wheat and Rye will be abundant.

SHIP OWNERS.

Some few days ago the British Whig published at length the proceedings of a Meeting of Ship Owners, setting forth certain disadvantages under which the Trade labored. Since then a more important Meeting has been held at Detroit. The following correspondence will explain:

Detroit, Jan. 30, 1865.

MR. JOHN D. NOBLE,
Kingston.

Dear Sir,—Your favor of the 27th inst. is received and noted. Enclosed I hand you the proceedings of our people on the 23rd inst. and the time the Convention will be held at this place, and also extending an invitation to all to come and join us. The necessities of this Convention are so urgent that I think we must do something to protect ourselves or give up the business. Please let your delegates bring the names of the vessels and their tonnage that they will represent at the Convention.

Yours truly,
E. TROWBRIDGE.

(ENCLOSED.)

CONVENTION OF VESSEL OWNERS.

An adjourned meeting of the vessel owners of this city was held on Saturday afternoon, at the Board of Trade Rooms, to further the object of holding a general convention of vessel owners to discuss matters of vital importance to their interests.

The meeting was called to order by the Chairman, Mr. E. G. Merick, whereupon the Committee appointed at a previous meeting to send circulars to the different vessel owners around the Lakes reported that they had one thousand circulars printed, and sent to all those interested in the Lake Board of Underwriters. In reply to those Circulars the Committee have received numerous letters from individuals on the subject of holding a general convention. They also reported the action of the different meetings of vessel owners held at Chicago, Buffalo, Oswego, Milwaukie and Cleveland, all taking strong grounds in favor of such a convention. These letters and reports were read to the meeting by the Secretary.

Mr. Trowbridge moved that the convention be called to meet in this city on the second Wednesday in February, the 8th proximo.- Carried unanimously. Also that a Committee of twelve be appointed to draft resolutions and present them to the General Convention; also to make such arrangements as may be necessary to secure the Board of Trade Rooms of this city, in which to hold the convention, and to make all necessary arrangements for the meeting.

A Committee of three persons was appointed to communicate to vessel owners the date of holding the Convention, and other necessary information.

A Finance Committee was also appointed to raise funds for carrying out the purposes of the Convention, and the Chairman of such Committee was appointed General Treasurer.

The meeting then adjourned.

In compliance with the above resolution we hereby extend to you a cordial invitation to be present at the above Convention on the day named. A cordial invitation is also extended to all steamboat and propeller owners.

G. KANTER,
JOHN HOMMER,
P. J. RALPH, } Committee.

Detroit, Jan. 23, 1865.

Messrs. Henderson and Noble therefore left Kingston on Monday to attend the Convention. The Stock they will represent is comprised in the following list of Vessels and Tonnage:—

A company has been formed for the purpose of working certain lead mines in the township of Marmora, under the name of the Rip Van Winkle Mining Company.—The specimen shown us of the ore, says the Peterboro' Review, are very rich, containing 65 per cent. of pure lead.

INTERCOLONIAL RAILWAY—The Halifax Express of the 25th ult., states that the survey and plan of the Intercolonial Railway has been completed, and will be submitted to the Canadian Legislature without delay.

ANOTHER SHIP CANAL.—The bill to construct a ship canal around the falls of Niagara has passed the Federal House of Representatives on a vote of 85 to 51. The House now proposes to pass another bill authorising the construction of the Illinois and Michigan Canal so as to connect the Mississippi with the Lakes and pass gunboats through.

USES OF PETROLEUM.—Hitherto this mineral oil has been almost exclusively spoken of as an illuminating substance, and as such it has at least as many adversaries as it has friends. But it possesses also other qualities, the value of which is less open to dispute. Besides the property it possesses of destroying the parasites that prey upon the human body, and we will now add that it may become one of the most important auxiliaries in the art of dyeing, in which it is calculated to produce quite a revolution, it having just been discovered that it contains the principles of aniline, the well-known vegetable base derived from indigo, and which is now so commonly used for producing splendid rose-coloured stuffs. Aniline has hitherto been obtained by treating indigo with a concentrated solution of potash, whereby a brownish oily substance is formed, which by distillation yields pure aniline, a clear colourless liquid, having the smell of wine, but a pervasive and poisonous taste. The salts of aniline are also colourless, but rapidly assume a mellow rose colour by exposure to the air. White wood dipped into a solution of a salt of aniline takes a deep yellow colour. Hydrochloric acid turns these salts green, blue, or black, according to the concentrated state of the solutions. For the present, experiments are still in progress for extracting aniline from petroleum at a cheap cost, and there is every reason to suppose that these efforts will be crowned with success. Certain oboriferous schists may also be extracted from petroleum, and there is even a talk of substituting petroleum for coal or coke for steam purposes.—London Times.

Before Dr. Robison.

Alfred Morin was fined $1 for getting drunk.

Ann Hamilton and Eliza Reese were charged with drunkenness and vagrancy, and were discharged on promise to leave the city immediately.

A man named Innis, living under the National Hotel, was charged with selling liquor without license, but there being no evidence to sustain the charge, the case was dismissed.

Robert Miller was arrested yesterday by the city police, charged with obtaining money under false pretences. He is the proprietor of a small lottery, and was arrested in Smith's Falls by a constable, for having exacted money from persons who had paid for their chance and were successful, but ran away from the constable and was followed to Kingston and arrested here. The constable arrived too late to take him back to Smith's Falls, and he was bailed out. A satisfactory arrangement was made to-day, whereby Miller will appear for trial when wanted.

We did not believe in "cure-alls" until we tried AYER'S inimitable PILLS, and now we think the whole secret lies in the fact, that purgatives are the natural remedy for disease, and Dr. Ayer has made the best of purgatives. They cure all our complaints.—Logan (O.) Press.

Through a trial of many years, and through every nation of civilized men, AYER'S CHERRY PECTORAL has been found to afford more relief and to cure more cases of pulmonary disease than any other remedy known to mankind. Cases of apparently settled Consumption have been cured by it, and thousands of sufferers who were deemed beyond the reach of human aid have been restored to their friends and usefulness, to sound health and the enjoyments of life, by this all-powerful antidote to diseases of the lungs and throat. Here a cold had settled on the lungs. The dry, hacking cough, the glassy, and the pale, thin features of him who was lately lusty and strong whispers to all but him, CONSUMPTION. He tries everything; but the disease is knawing at his vitals, and shows its fatal symptoms more and more all over his frame. He is taking the CHERRY PECTORAL now: it has stopped his cough and made his breathing easy; his sleep is sound at night: his appetite returns, and with it his strength. The dart which pierced his side is broken. Scarcely any neighborhood can be found which has not some living trophy like this to shadow forth the virtues which have won for the CHERRY PECTORAL an imperishable renown. But its usefulness does not end here. Nay, it causes more by prevention than cure. The countless colds and coughs which it cures are the seed which would have ripened into a dreadful harvest of incurable diseases. Influenza, Croup, Bronchitis, Hoarseness, Pleurisy, Whooping-Cough, and all irritations of the throat and lungs are easy cured by the CHERRY PECTORAL if taken in season. Every family should have it by them, and they will find it an invaluable protection from the insidious prowler which carries off the parent sheep from many a flock, the darling lamb from many a home.

The New York Tribune says, "the reason why Drake's Plantation Bitters are so universally used and have such an immense sale, is that they are always made up to the original standard, of highly invigorating material and of pure quality, although the prices have so largely advanced," &c.

The Tribune just hits the nail on the head. The Plantation Bitters are not only made of pure material, but the people are told what it is. The Recipe is published around each Bottle, and the bottles are not reduced in size.—At least twenty imitations and counterfeits have sprung up. They impose upon the people once and that's the last of them.

The Plantation Bitters are now used in all the Government Hospitals, are recommended by the best physicians, and are warranted to produce an immediate beneficial effect. Facts are stubborn things.

" " " I owe much to you, for I verily believe the Plantation Bitters have saved my life.

REV. W. H. WAGGONER,
Madrid, N. Y."

" " " Thou wilt send me two bottles more of thy Plantation Bitters. My wife has been greatly benefitted by their use.

Thy Friend, ASA CURRIN,
Philadelphia, Pa."

" " " I have been a great sufferer from Dyspepsia, and had to abandon preaching. " " " The Plantation Bitters have cured me.

REV. J. S. CATHORN,
Rochester, N. Y."

" " " Send us twenty-four dozen more of your Plantation Bitters, the popularity of which are daily increasing with the guests of our house.

SYKES, CHADWICK & Co.,
Proprietors Willard's Hotel,
Washington, D. C."

" " " I have given the Plantation Bitters to hundreds of our disabled soldiers with the most astonishing effect.

G. W. D. ANDREWS,
Superintendent Soldiers' Home,
Cincinnati, O."

" " " The Plantation Bitters have cured me of liver complaint, with which I was laid up prostrate and had to abandon my business.

H. B. KINGSLEY,
Cleveland, O."

" " " The Plantation Bitters have cured me of a derangement of the kidneys and the urinary organs that has distressed me for years. It acts like a charm.

C. C. MOORE,
254 Broadway."

New Bedford, Mass., Nov. 24, 1863.

DEAR SIR:—I have been afflicted many years with severe prostrating cramps in my limbs, cold feet and hands, and a general disordered system. Physicians and medicine failed to relieve me. Some friends in New York, who were using Plantation Bitters, prevailed upon me to try them. I commenced with a small wine-glassful after dinner.—Feeling better by degrees, in a few days I was astonished to find the coldness and cramps had entirely left me, and I could sleep the night through, which I had not done for years. I feel like another being. My appetite and strength have also greatly improved by the use of the Plantation Bitters.

Respectfully,
JUDITH RUSSEL."

If the ladies but knew what thousands of them are constantly relating to us, we candidly believe one half of the weakness, prostration and distress experienced by them would vanish. James Marsh, Esq., of 159 West 14th St. N. Y., says, "he has three children, the first two are weak and puny, his wife having been unable to nurse or attend them, but that she has taken Plantation Bitters for the last two years, and has a child now eighteen months old which she has nursed and reared herself and both are hearty, saucy and well. The article is invaluable to mothers," &c.

Such evidence might be continued for a volume. The best evidence is to try them.—They speak for themselves. Persons of sedentary habits troubled with weakness, lassitude, palpitation of the heart, lack of appetite, distress after eating, torpid liver, constipation, diabetes, &c., will find speedy relief through these Bitters.

Every bottle for exportation and sale out of the United States has a metal cap and green label around the neck.

Beware of refilled bottles. See that the cap has not been mutilated. Any person pretending to sell Plantation Bitters in bulk or by the gallon is an imposter. We sell it only in bottles.

Sold by principal dealers throughout the habitable globe.

HEALTH AND PURE BLOOD ARE INSEPARABLE.—Recollect that all sickness arises from impurity of the blood, and that Judson's Mountain Herb Pills will as surely find out and cleanse these impurities from the system, that disease cannot exist. So simple are the herbs and plants that compose them, that it is not necessary to have them sugar coated in order that the stomach can bear them. In most cases pills are sugar coated because the materials of which they are composed are so griping and malignant, that otherwise a delicate stomach could not bear them.

These Pills deal with the disease as it is, and will not only cure by removing the cause, but will build up and restore the broken constitution. There are many who have so trifled with their constitutions that they think medicine will not help them; let not even these despair; incredulity and skepticism is overthrown by a host of testimony which is truly irresistable. At first the virtues ascribed to the Mountain Pills were deemed fabulous. The public had been so often deceived that they could not believe the simple truths put forward by their discovery. Yet facts undeniable, attested by witnesses of the highest character and respectability have proved, and are proving each day, the virtues of this mighty healer. They mark, by their miraculous efficacy and power a new era in medicine.

Sold by all Medicine Dealers.

Mariner, Consulting Chemists, Chicago, all of whom have analyzed the Catawba Brandy, and commend it in the highest terms for medicinal use.

ANALYSIS OF THE MASSACHUSETTS STATE ASSAYER, JAN. 23, 1858.

When evaporated through clean linen it is free of oil or offensive matter. In every respect it is a PURE spirituous liquor. The oil which gives to this Brandy its flavor and aroma, is wholly unlike fusil, or grain oil. Its odor partakes of both the fruit and oil of grapes. With acids, it produces ethers of a high fragrance. The substitution of this Brandy for Cognac Brandy will do away with the manufacture of fictitious spirits, sold under this name both at home and abroad.

Respectfully,
A. A. HAYES, M. D., Assayer to State Mass.,
16 Boylston St

BY THE SAME, IN 1864.

I have analyzed "L. LYONS' PURE CATAWBA BRANDY," with reference to its composition and character, being the same as that produced in past years. A sample taken from ten casks afforded the same results with regard to purity; a slightly increased amount of the principle on which its flavor depends was determined by comparison with former samples.

The indications of analysis show that this Brandy is produced by the same process as most of the imported Brandy.

Respectfully,
A. A. HAYES, M. D., State Assayer,
