THE PEOPLE'S PRESS.

THURSDAY, JAN. 17th, 1907.

EDITORIAL NOTES.

In accordance with the indications shown in the budget for the next fiscal year of the Government's desire for economic and peaceful development, it is now declared that Japan favors the submission of the question of disarmament to The Hague Peace Conference.

The executive of the Dominion Alliance has decided to suggest to temperance workers throughout the province the desirability of pressing upon the Legislature for a change in the law to get rid of the three-fifths requirement, and make the votes of ratepayers who desire to banish the bar of equal value with the liquor man's votes.

The temperance crusade in the Province of Quebec led by Archbishops Bruchesi and Begin is moving on very successfully. On the first Sunday in this month in the Church of St. Sauveur, Quebec, over twelve hundred married men took the temperance cross, which corresponds to signing the pledge. On a previous Sunday, more than eight hundred young men of the same parish "took the cross."

All citizens who have the best interests of the town at heart will hope that at the nomination to fill the vacancies in the Council, which has been fixed for next Monday, only candidates will be nominated who are prepared to give their time and attention to the transaction of municipal business, and in an economical and judicious manner. It is most desirable also that an election be avoided. Let the vacancies be filled by acclamation.

Canada's revenue and expenditure statement for the six months ended December 31 is one of the most satisfactory ever issued. The total receipts on consolidated fund account were $43,694,710, exceeding the expenditure under the same heading by a little less than $10,000,000 and giving a surplus over all expenditures combined of approximately $13,000,000. The receipts are nearly $6,000,000 ahead of the amount received at the same time a year ago, while the ordinary expenditure is more than $1,000,000 less.

The municipalities of Ontario have done their part in declaring their willingness to support and patronize the the Hydro-electric Power Commission, and it remains for Hon. Mr. Beck and those associated with him to carry out the work so well begun. The next move will be the definite placing of orders with the Commission, and that will follow the vote as soon as the contract forms are prepared. The outlook could not be more hopeful, and the Province has every reason to expect a perpetual supply of white coal at a price that will insure a new era in industrial development.—Globe.

From Ottawa comes the intelligence that four of the existing Senate vacancies have been filled. The new Senatorships are awarded to Hon. G. W. Ross, present leader of the Liberal Opposition in the Ontario Legislature; Mr. Robert Beith, M.P., of Bowmanville; Hon. John Costigan, M.P., and Mr. Daniel Gilmor, of New Brunswick. The two vacancies from Nova Scotia are not yet filled. Hon. George W. Ross is one of the most prominent figures in the public life of the Dominion; and will add materially to the debating and oratorical strength of the Upper House. He has represented West Middlesex in the Dominion and Provincial Parliaments for an unbroken period of 31 years.

At the Trafalgar nominations the resolution below was passed endorsing the county good roads scheme.—Moved by Henry W. Cook, seconded by Alex. Porter, that whereas the local Legislature of the Province of Ontario with a view to encourage the bettering of the condition of the public highways in the province, did in the year 1901 pass an act appropriating one million dollars to be applied as aforesaid, and inasmuch as this county is entitled to share in the benefit so to be derived from said appropriation: Be it therefore resolved that this meeting of ratepayers and electors of the municipality of Trafalgar do hereby endorse the proposition of a county system of roads to be constructed in accordance with the act, and would beg to sincerely impress on those who may have the honor of representing this municipality in the County Council for the incoming term the necessity and importance of giving the matter an active and energetic support.

LOCAL OPTION FIGURES.

Summary of Results in the Recent Contests in Ontario.

Interesting figures in connection with the recent local option campaign were given out yesterday by Mr. F. S. Spence. Contests were held in 100 municipalities, eight of which were repeals. Of the repeals seven were voted down and one carried, the village of Stretton, adjoining Sault Ste. Marie, in the township of Korah, which has been incorporated as a village since last year, when the whole township voted in favor of local option. In the 101 places where new contests were held the local optionists won 43, lost 48 by the three-fifths majority, and 12 by the straight majority, with three yet to hear from. The total is, therefore, 59 won and 56 lost. The aggregate majority against local option in 13 places is 111, while the aggregate majority for local option in 93 places is 16,000.

REEVE AND TWO COUNCILLORS.

Acton's Three-fifths of a Council Inaugurate the Year's Business.

MR. HURST DOES NOT QUALIFY.

At eleven o'clock on Monday forenoon the members-elect of Acton Municipal Council assembled in the Council Chamber for organization, as required by statute.

Municipal Clerk T. T. Moore presented the usual declarations of qualification and of office. These were promptly signed by Reeve Swackhamer, Dr. Gray, and Councillor Alex. Bell.

Then Mr. Newton W. Hurst, who was elected by acclamation at the recent nomination, and who occupied a seat at the Council Board, said, without rising. "Well, gentlemen, I can't sign this declaration of office. There is a technical point of law which affects my position as assistant engineer on the Fire Brigade, and as you will have to call for another nomination for one Councillor anyway, you might as well receive nominations for two. The expense will be no greater. I cannot sign the declaration. If I see fit I may resign my office and accept nomination next Monday. This course will settle all disputes."

Mr. Hurst then remarked that he must get back to work and left the Council Chamber.

Reeve Swackhamer then stated that it is usually the first business of the Council to strike the Standing Committees for the year, "But," he said, "We haven't the men to appoint until the two new Councillors are elected. We will therefore defer the matter until after their election."

Dr. Gray was appointed Chairman of the Committee on Finance until the Standing Committees are appointed.

The by-law for the appointment of auditors for the municipality for the current year was passed the appointees being:—A. E. Nicklin, nominated by the Reeve, and W. Stark, by the Council.

Council adjourned to meet at eight o'clock in the evening.

At eight p. m. the Council re-assembled.

The only business of the evening was the passing of two by-laws, one arranging for a nomination to be held next Monday, 21st inst. to nominate Councillors to fill the vacancies in the Council; the other to authorize the Reeve and Treasurer to borrow money for current expenses of the corporation.

Council adjourned to meet on Monday evening, 28th inst., when it is expected the new Councillors will take their seats.

ELECTION ECHOES.

W. J. Armstrong, formerly of Milton, was elected to the town council of Toronto Junction by acclamation.

Through his election as Reeve of Trafalgar last week, Dr. Buck entered his fortieth year in the council of that township. He has given it good service, which has been appreciated by the electors.

In the contest last week in Esquesing Councillor Thos. Cook headed the poll with a vote of 333, instead of T. Bingham as was reported. The vote was as follows: Cook 333, Bingham 326, Mullin 308, Wrigglesworth 295, Snow 275, May 109.

In Georgetown the contest was an exceedingly lively one. Our old friend Joe Moore came within one of heading the poll. The vote was as follows: Harley 290, Moore 199, Buck 190, Barber 108.

In the local option contest in Eramosa the vote last week turned the minority of 36 of two years ago into a majority of 131. Nine more votes would have given local option to the township.

JUSTICE WANTED.

We extend both sympathy and congratulations to the workers in a score of municipalities who rightly judged the temper of the people, who courageously fought for the right in the face of odds, who earned victories by decisive majorities, and yet are deprived of the fruits of their labors by a law that forces upon them the worst kind of minority rule.

It will not always be so. The leaven of justice is working in the hearts and minds of our people. The contests of Monday will make more clear than ever the injustice of buttressing the liquor traffic by special enactment, and protecting it against public opinion and the desire of the people for safer and better conditions. That sentiment will find expression in the Legislature, and will influence the Government. The people will demand a change, and the change will come.—Pioneer.

CHEAPER ELECTRIC LIGHT.

New Lamp Expected to Cut Two-Thirds Off Present Cost.

New York, Jan. 15.—Prof. Herschel, Clifford Parker and Walter G. Clark explained yesterday the workings of the incandescent lamp which they have invented. With their helion filament they expect to shave electric lighting down to one-third its present cost. The helion filament is composed largely of silicon. The other elements are deposited from gas on a thread of carbon. At present the helion lamp would cost 10 cents more than the other, but it is hoped to reduce the cost, and meanwhile the lamp is expected to last twice as long as the other, besides operating with so much less current.

NEWS OF THE DAY.

A re-count of the ballots cast in the local option contest at Collingwood has been granted.

MR. A. J. MURRAY ELECTED

A Member of Wellington County Council

The first report of the elections in Erin Township gave Mr. McKechnie a majority of four over Mr. A. J. Murray for the Deputy Reeveship. The official returns, however, declare Mr. Murray elected by a majority of 26; the figures being Murray 327, McKechnie 301.

This vote gives Mr. Murray a seat at the Township Council as Deputy Reeve, and also membership in the County Council of Wellington. His many friends congratulate him upon his success in this very keen contest.

METRE SYSTEM SATISFACTORY.

The following letter from Mr. Fred Second, of St. Louis, who is a large property owner here, shows that in his investigations of the flat and metre systems of disposing of electric current, the metre system is altogether the most satisfactory:

EDITOR FREE PRESS:

As I have travelled over the country I have investigated from time to time at different places the respective merits of the flat and metre systems, and, have concluded that the metre system is the only correct method of operating an electric plant. With it the consumer pays for the current he uses, while with the flat rate system the careful consumer is paying largely for the extravagant, wasteful and careless consumer. I remember distinctly one of my last visits to Acton, on my arrival from Chicago by the 6:18 a.m. train. As I walked down town there was a grand illumination. The stores and shops were nearly all ablaze with electric light, while their owners and most of the citizens were in bed and fast asleep. The thought then occurred to me and has often since been reflected upon that if all of Acton consumers had their current measured by metre, there would be less of this wasteful illumination, and there would be much less power necessary and less fuel consumed.

About a week ago I visited my uncle, Dr. R. H. Biggar, and his son-in-law Mr. F. M. Monaghagh, at Carrollton, Ills., a town of 2500 population. They own the electric and power plant of the town. Two years ago it was found that the plant could not be continued on the flat rate without increasing the capacity. The metre system was adopted and the result has been highly satisfactory. Notwithstanding that many additional lights were installed, the plant under the metre system was operated for 13 per cent. less of load last year than under the flat rate, and the plant yielded 6½ per cent. more revenue.

Sincerely,

FRED SECOND.

[When Mr. Second next visits Acton he will not find electric current going to waste in the stores and residences. The metre system has materially changed the aspect of things here.—Ed.]

There is a wonderful blending of eastern and western Canada, not omitting the central portions, in the stories appearing in the January number of "Rod and Gun and motor Sports in Canada," published by W. J. Taylor at Woodstock, Ontario. Nova Scotia and Quebec have some of their attractions told about in pleasant stories, while the wonderful charms of the Muskoka and Temagami districts of Ontario continue to be described in a manner that is ever fresh, owing to the fact that their multifarious attractions are seen from different standpoints by their numerous devotees. There are numerous other stories, including an account of Lord Grey's western home, while the departments are all up to date, and such as to render the best of service to sportsmen consulting them.

AUCTION SALE REGISTER.

THURSDAY, Jan. 31st—Farm stock and implements, the property of Fred W. Plank, lot 28, con 1, Esquesing. Sale at one o'clock. Terms 10 months. Thos. Ingram auctioneer.

KINGSTON, JAMAICA, DESTROYED

By an Earthquake Shock on Monday Afternoon.

New York, Jan. 15—The city of Kingston, Jamaica, founded a little over two centuries ago because an earthquake and tidal wave had destroyed Port Royal, the old capital, was on Monday ruined by an earthquake shock.

An official despatch by Mr. Hamar Greenwood, M.P., the young Canadian Parliamentary Under Secretary for the Colonies, who was in Kingston at the Imperial Cotton Conference, states that no British, Canadian or American visitors, save the distinguished statesman, Sir James Ferguson, are among the dead.

The fatalities so far known, include some forty soldiers killed in the collapse of the military hospital; a number of the leading men of Kingston and many of the colored population. The known dead are about one hundred, but as fire followed the earthquake and is still raging, a full list of the dead will not be available for some time.

DAILY FADING AWAY.

The Story of a Woman Made Well by Dr. Williams' Pink Pills.

Bad blood means bad health. That is why Dr. Williams' Pink Pills mean good health. They actually make new, rich blood which strengthens every nerve and every organ in the body. That is why people who use Dr. Williams' Pink Pills feel bright, active and strong. Mrs. Arthur Hanligan, Marshville, Ont., is a witness to the truth of these statements. Mrs. Hanligan says:—"For nearly three years I suffered from anæmia (bloodlessness) and during that time consulted and took medicine from several doctors, without beneficial results. My complexion was of a waxy appearance, my lips and gums seemed bloodless. I suffered from headaches, dizziness and palpitation of the heart.... My appetite was so poor that I did not care whether I ate or not and I grew so weak, and was so much reduced in flesh that my friends thought I was in consumption. As I have said I doctored without benefit, until the last doctor whom I consulted advised me to try Dr. Williams' Pink Pills. I followed his advice, and less than a dozen boxes have made me the well woman I am to-day. All the symptoms of my trouble have vanished and I enjoy the very best of health. I know there are hundreds of women who are drifting into the same condition I was, and to all such I would strongly urge the immediate use of Dr. Williams' Pink Pills."

Dr. Williams' Pink Pills do not act upon the bowels; they do not tinker with mere symptoms; they go right to the root of the trouble in the blood. That is why they cure all common ailments like rheumatism, neuralgia, kidney trouble, headaches and backaches. St. Vitus dance, and the special ailments that afflict so many women and growing girls. Sold by all medicine dealers or by mail at 50c a box or six boxes for $2.50 from The Dr. Williams' Medicine Co., Brockville, Ont.

Your Doctor

Can cure your Cough or Cold, no question about that, but—why go to all the trouble and inconvenience of looking him up, and then of having his prescription filled, when you can step into any drug store in Canada and obtain a bottle of SHILOH'S CURE for a quarter.

Why pay two to five dollars when a twenty-five cent bottle of SHILOH will cure you as quickly?

Why not do as hundreds of thousands of Canadians have done for the past thirty-four years: let SHILOH be your doctor whenever a Cough or Cold appears.

SHILOH will cure you, and all druggists back up this statement with a positive guarantee.

The next time you have a Cough or Cold cure it with

SYNOPSIS OF CANADIAN NORTH-WEST HOMESTEAD REGULATIONS.

ANY even numbered section of Dominion Lands in Manitoba, Saskatchewan and Alberta, excepting 8 and 26, not reserved, may be homesteaded by any person who is the sole head of a family, or any male over 18 years of age, to the extent of one quarter section of 160 acres, more or less.

Entry must be made personally at the local land office for the district in which the land is situated.

The homesteader is required to perform the conditions connected therewith under one of the following plans:—

(1) At least six months' residence upon and cultivation of the land in each year for three years.

(2) If the father (or mother, if the father is deceased) of the homesteader resides upon a farm in the vicinity of the land entered for, the requirements as to residence may be satisfied by such person residing with the father or mother.

(3) If the settler has his permanent residence upon farming land owned by him in the vicinity of his homestead, the requirements as to residence may be satisfied by residence upon the said land.

Six months' notice in writing should be given to the Commissioner of Dominion Lands at Ottawa of intention to apply for patent.

W. W. CORY,

Deputy of the Minister of the Interior.
