GREAT EXCITEMENT IN ICE.

Opposition is the Life of Trade

THE UNDERSIGNED, in returning his sincere thanks for the liberal support he has received from the inhabitants of the City of Kingston for the last twenty years, begs to state that he is still able, willing and ready to commence to supply House Keepers, Hotel Keepers, Steamboats, Schooners, &c., &c., &c., on the most reasonable scale. He begs to state at the same time, that he has a good clean supply of Ice. It has not been taken out of the vicinity of Bell's Island, nor yet is it taken from the vicinity of Morton's Hog Pens, Cattle Stalls and Brewery Suckage, nor that of the Provincial Penitentiary, where the inhabitants of the city can best judge what quality of Ice can be procured in that quarter. His Ice is taken out of a good locality, in the neighborhood of Barrifield, near the landing of the late Major Cradler. Hoping to still merit a continuance of that liberal support he has received heretofore,

Respectfully,
ROBT. SPENCER.

N. B.—Ice delivered throughout the whole summer, SUNDAYS NOT EXCEPTED, from 5 o'clock A.M., till 10 P.M., and in cases of emergency can be had at all hours at his dwelling house, head of Princess Street, opposite to Mr. Denis Branigan's New Brick Block.

DR. LA'MERT
ON
Self-Preservation.

Price with Engravings and Cases 25c., by Post, 50c.

SELF-PRESERVATION: a popular Essay on Nervous and Physical Debility, resulting from injurious habits contracted in youth or excesses in maturity, which by prematurely exhausting the functions of manhood, destroy the happiness of Married Life, or prevent the fulfilment of engagements that constitute the most cherished objects of existence.

By DR. LA'MERT, 37 Bedford Square, London, Licentiate of the Royal College of Physicians of Edinburgh; Member of the Royal College of Surgeons, England, &c.

The above work contains most useful and interesting information on the physiological changes which occur in the Reproductive System during the periods of youth, puberty, and manhood; and on the due attainment of that degree of functional vigor upon which the hopes of posterity depend. It also points out how all the attributes of manhood can be preserved to an advanced period of life, how they are lost, and how they can be recovered. It is free from the gross exaggerations, alarming descriptions, and dangerous remedies so generally resorted to by persons, who, practising with false medical qualifications, inflict most serious injuries, and render judicious treatment frequently abortive.

The author is the only legally qualified practitioner, whose name stands on the 'Medical Register,' (the sole test of medical qualification,) who has been exclusively engaged for a series of years in the treatment of the various functional disorders of the nervous and reproductive system, which, owing to the great discoveries of modern science, are rendered subservient to a rational, simple and easy mode of treatment.

At home for consultation daily from ten till two, and from six till eight, either personally or by letter—37 Bedford Square, London, England.

Patients residing in the Colonies can be successfully treated by correspondence, and remedies can be forwarded in secrecy and safety and to any address.

FIRE DEPARTMENT.

The Company commenced business in October, 1861, as a Fire Office, and was called into existence to modify the excessive rates demanded by the combined Offices after the Great Fire in Tooley Street, London. The success which has attended the Company's operations has been such as fully to realize the most sanguine expectations of the Directors, and has induced them to extend their operations to Canada, where the General Agents are prepared to take proposals for Insurance against Loss by Fire of Property of every description.

LIFE DEPARTMENT.

The marked preference shown for an Office which studies the interests of the Public as well as of its Proprietary, induced the Directors to transact Life Business with the intention not to favor one class of Policy-holders at the expense of another, but, resolved that the same liberal views which have gained for the Office the confidence of the Public in its Fire Branch, shall guide them in the management of the Life Department, they extend to the Assured every benefit which science warrants or experience suggests.

Among the benefits of this Company may be enumerated—Moderate Rates of Premium—Eighty per cent of the Profits divided among the Assured—Very liberal surrender value given after three years—Thirty days allowed for payment of Premiums, and further extension of time on easy terms—Unchallengeable Policies—Credit System—Service permitted in Volunteer Corps—Convenient and liberal terms, whereby no Policy need lapse, through any temporary difficulty, in the payment of a Premium.

Further and fuller information may be obtained by calling at the Office, Nos. 221 and 223 St. Paul Street.

discovered in the Third Concession of the Township of Marmora.
