BORN.

Mcintosh—In Acton, on Thursday, 13th October, to Mr. and Mrs. C. R. McIntosh, a son.

Holmes—At 464 Notre Dame Street, Winnipeg, on Tuesday, 4th October, to Mr. and Mrs. Robert E. Holmes, a son.

MARRIED.

Hunt—Cole—At the Baptist Parsonage, Georgetown, on Monday, October 10th, by Rev. W. E. Hinson, William Edward Hunt, of Burk's Falls, Ont., to Olive Dagmar, daughter of John W. Cole, Esq., of Georgetown.

DIED.

Watson—In Esquesing, on Thursday, October 13th, John Watson, lot 5, con. 5, aged 63 years.

Metcalf—In Georgetown, on Friday, October 7th, John Metcalf, aged 78 years and 11 months.

Marlatt—In Milton, on Tuesday, October 11th, Hannah Anderman, relict of the late Joseph Marlatt, in her 81st year.

Bennett—In Nelson, on Monday, October 10th, Johnson Bennett, father of Rev. G. T. Bennett, of Wiarton, in his 83th year.

Appelbe—In Esquesing, on Wednesday, October 12th, Margaret Wright, beloved wife of Pierce G. Appelbe, in her 76th year.

Crabtree—At 10 Beardmore Crescent, Acton, on Saturday, October 15th, Hannah Catharine, wife of Albert Crabtree, aged 69 years.

Givens—In Esquesing, on Monday, October 10th, Gordon Kirkwood, youngest son of Mr. and Mrs. David Givens, aged 3 years, 5 months and 10 days.

Macdonald—At the residence of his uncle, James McDonald, Melita, Man., on Thursday, October 13th, James Bayne McDonald, Oakville, in his 22nd year.

IN MEMORIAM

Griffith—In loving memory of our dearly beloved Russell, who died on October 24th, 1909.

A precious one from us has gone,
A voice we loved is still,
A place is vacant in our home
That never can be filled.
Do not ask us if we miss him,
Oh! there's such a vacant place,
Oft we think we hear his footsteps,
Or we see his smiling face.
He has gone to higher regions,
Safe from every grief and care,
We shall meet again in Heaven
And never more be parted there.
A golden gate was open,
A gentle voice said come,
And with a heart unspoken,
He gladly entered home.

PARENTS, SISTER and BROTHER.

The Acton Free Press.

THURSDAY, OCTOBER 20th, 1910

EDITORIAL NOTES

The returns handed out by the assessors of Galt show that the assessment has increased $321,455, the largest for many years. The population has increased 265. It does not look as if Local Option was causing the grass to grow in the streets as was predicted last January.

Woodmark, the Smith's Falls wife-murderer, explained in his own defence that he drank three and a half pints of whiskey on the afternoon of the day before the crime was committed. He added that "there would never be any rows until there was whiskey around."—Globe.

At a mass meeting of the labor men of Guelph, it was decided not to place a candidate in the field in the pending bye-election in South Wellington. Lack of funds and the shortness of time for organization were the reasons advanced. It is now practically certain that the Conservative nominee, Mr. J. Ranson Howitt, will be given the seat by acclamation.

The apple crop in Ontario this season is about half a crop. David Cantelon, the apple king, has resumed his apple buying in Prince Edward and other counties. So far he has purchased 10,000 barrels of spies, russets and baldwins. He says he finds the crop about 50 per cent. of its normal in these counties, but owing to the advance in price the growers will realize almost as much as usual.

One of our most successful farmers expresses the opinion that not for fifty-five years has there been a fall when conditions were so satisfactory to the farming community as those of the present year. The recent rain, followed by warm weather, has made the root crop a very heavy one, while the grass in the fields is sufficient to meet the requirements of stock until the snow falls.—Milton Reformer.

At the meeting of Guelph City Council on Monday the Local Option petition bearing 1100 names of electors of the city was presented. The By-Law was introduced and given its first and second readings. In presenting the petition a member of the deputation remarked that the present mayor was elected by only 800 votes, while no alderman in the council had secured within 400 votes of the number of names on the petition, and further, that the People's Railway By-law carried a couple of weeks ago entailing an expenditure of $85,000, had been put through on a petition of about 200 electors.

Just five years ago Canada had eleven clearing house points, of which three only were located west of the Great Lakes, and of these that of Winnipeg was the only one between the Great Lakes and the Rocky Mountains. To-day there are seventeen clearing houses in Canada, of which nine are located west of the lakes, and of these seven are in prairie provinces. During the year 1909, Regina established its clearing house, and in the present year Brandon, Lethbridge and Saskatoon have been added to the list. The new points have so far daily clearing amounts which compare favorably in volume with some of the older clearing points of the East, and the steady progress being made indicates a rate of general business expansion that exceeds expectations.

TWO CLEVER ENTERTAINERS

Pair of Talented Young People Pleased Large Gathering

Friday's Toronto Star says: "The Ladies' Aid of Bond Street Congregational Church held their annual social last night. After partaking of supper in the basement, the audience repaired to the church auditorium for the programme.

The elocutionist was Miss Grace Hutchinson, a young lady who is rapidly making a splendid reputation for herself. She has a charm of manner that puts her in touch with her audience at once. Her rendering of "Ruggleses' Dinner Party" and Drummond's "De Stovepipe Hole," was exceptionally fine. The musical part of the programme was taken by Master Douglas Stanbury, the well known boy singer, whose sentimental and humorous songs brought repeated encores. These two young artists make a happy combination of talent for concert work and are engaged to appear in Acton on the 20th inst."

Town hall to-night.

MILL ST. PAVEMENT CONTRACT

Work to be Done by Contractor Croft, of Guelph, at Once

LAST BUILDINGS BEING MOVED

After a good deal of correspondence the Council succeeded in securing Contractor Croft, of Guelph, who laid the last cement walks in town, and at the meeting on Monday evening contracted with him for the new pavement on the widened portion of Mill Street. The buildings on the Arthurs and Secord properties are being moved back to the widened street line and it is expected that before frost sets in the section of the street which has been considered so objectionably narrow in late years, since Acton began to grow to a town's proportions, will be widened from six to eight feet, a new pavement laid to replace the old worn-out plank walk and the electric light and telephone poles placed in their new position. The changed conditions will add very much to the appearance of this part of the town.

Council met in regular session. Members all present, Reeve Hynds in chair.

The Committee on Finance presented their twentieth report and recommended payment of accounts as follows:

Lake Erie Coal Co., coal	$153 30
Can. Westinghouse Co., metres	77 13
Can. Gen. Elec. Co., supplies	35 00
W. D. Anderson, teaming coal	11 41
J. S. Coleman, work	9 00
School Board, for chairs	7 00
C. H. Taylor, repairs	3 65
W. D. Anderson, walks	2 75
	$299 29

The report was adopted.

Contractor Croft, of Guelph, waited upon the Council at their request with reference to the laying of cement walks on the widened section of Mill Street and from Main Street to Park Avenue on the north side of the same street.

Mr. H. E. Croft submitted a tender of ten cents per square foot for walks and crossings and stated he was prepared to commence work the first of next week.

Moved by R. M. McDonald, seconded by W. Cooper, that the tender of H. E. Croft, of Guelph, of ten cents per foot for such walks as may be constructed in the municipality, be and is hereby accepted.—Carried.

The walks on Willow and Agnes Streets, petitioned for a year ago, will be laid in addition to the above while the contractors are here, if the weather is favorable.

ROCKWOOD

Local Option came in force in Rockwood on May the first of this year. Prior to its coming into operation there were many predictions as to its effect upon our village.

Some said it would destroy business, but this has proved to be a false alarm as business has remained steady and in a number of cases has shown a marked increase.

Some said it would destroy our shipping interests—that our produce men and drovers, etc., would go elsewhere, but these men are as diligent in business here as ever before.

Some said it would usher in an era of "blind pigs". Now I contend that a "blind pig" can never be so harmful as one with its eyes wide open. But the facts are that up to date we have not even a suspicion of a single "blind pig".

Some said it would destroy our agricultural fair which has always been a great success. Now, sir, the facts are before us. October 6th and 7th were our fair days. Notwithstanding the inclement weather the first day, the second day was in point of attendance, as well as exhibits, a greater success than ever before; and in the matter of sobriety far excelled anything in the history of fairs in this village. At all previous fairs drunken men, debauched men, wild men—made wild by fire-water—were always in evidence, and at very unseemly hours. But this year a more clean, a more sober, a more orderly lot of visitors, and they were estimated at 2500, never were assembled. Everybody who has spoken of the fair has expressed their surprise and delight at the change Local Option has made in this regard.

Some said there would be no accommodation for the travelling public and horses, etc. True, the hotelmen closed up and left our village. The temperance people, however, purchased the better hotel of the two and have it in full operation under the splendid management of Mr. James Watson. The other hotel has since been purchased by Mr. Hirst, of Everton, and up to date no complaints of management have been made.

It has been said that very few of our young men were free from the use of strong drink prior to local option, but now very few go outside, and that very seldom, for drink. The facts are that even our most confirmed drinkers under local option are increasing their bank accounts, some of whom never had a bank account before, for the simple reason they drank all their surplus earnings.

Surely, Mr. Editor, these are sterling proofs of the great value which local option may be and is to any place where it is in operation.

SOCIETY WOMEN'S HAIR

A Simple Treatment That Will Make It Truly Fascinating. A. T. Brown Guarantees It

Nowadays every up-to-date woman has radiant hair.

What a foolish creature a woman would be if she lost the opportunity to add to her attractions.

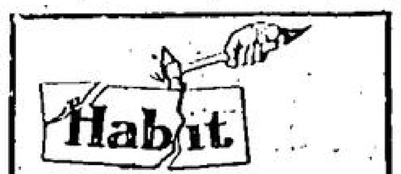
Yet in Canada to-day there are hundreds of thousands of women with harsh, faded, characterless hair who do not make any attempt to improve it.

In Paris most women have beautiful hair, and in Canada all women who use Parisian Sage have lustrous and luxuriant hair.

And any woman reader of the Free Press can have attractive, and lustrous hair in a few days' time by using this great hair rejuvenator, Parisian Sage.

A. T. Brown sells a large bottle for 50 cents and he guarantees it to banish dandruff, stop falling hair and itching scalp in two weeks or money back.

Parisian Sage is an ideal hair tonic, not sticky or greasy.



YOU have probably been intending to try Red Rose Tea for some time but from "force of habit" have just kept on using another tea.

FROM SIERRA LEONE TO CANADA WITHOUT ADDRESS

National Drug Co. Receive an Unusual and Amusing Letter

The National Drug and Chemical Co., of Canada, Limited, have just received a letter from the west coast of Africa which reached its proper destination although addressed in an extremely vague manner. The writer was evidently a native, with an imperfect knowledge of English. The letter was written by a member of the 2nd West India Regiment and is as follows:

Sierra Leone, West Africa,
August 8th, 1910.

Dear Sir—with congratulations, I address you these few lines. May it find you enjoying good time and health at present. Sir, I have receiv your letter. I notice the contents. Please send me one box of your Gin Pills, 2s. 1d. I want to try it and if do me good, I will send back very early. While I am truly same

A. O. Green
B. Company, 2 W. I. R.

The envelope bears only the following inscription:

National Drug & Co. of Canada Ltd.
27-29 Wellington St. West

There is no town, city or province mentioned. Yet this letter was sent from the post office in Sierra Leone to England, as shown by the London postmark, and forwarded to Plymouth, thence to Montreal, reaching Toronto on August 31st, only twenty-one days after being written in West Africa. This is an excellent example of the wide-spread reputation of the National Drug & Chemical Co., of Canada, Limited, and of their excellent preparations which, it may be safely stated, are known in all parts of the world.

You will notice that we are continually talking about our ability to repair watches and clocks. Well, that is because we have the confidence that we can do it and do it better than most watchmakers. Firstly because we served our full term of apprenticeship and afterwards worked under the best watchmakers in Toronto, and forty years' experience gives us such a great advantage over most others that we come to you in full confidence that it will be done carefully and quickly.—Pringle, the Jeweler, Guelph.

THE BOY SCOUTS

Editor Free Press:

Dear Sir—Please allow me a little space in your paper to reply to a letter written by "A Father" in your last issue.

In the first place the Boy Scouts have only been organized about four weeks and does "A Father" expect to see a very high standard of discipline amongst the boys in so short a time? I am sure the parents of the boys, and also all unprejudiced citizens, will agree with me that it is rather too early in the day to criticize the movement.

As for the instructors I can assure you that they have a very hard task and up to the present all their time has been taken up drilling the boys and getting them into shape.

As for smoking, I can say, without fear of contradiction, that we had our smoke, not while the boys were drilling, but while they were taking a rest or standing at ease. I will grant "A Father" this one point; there shall be no more smoking during drill hours.

I want to say that on the Monday night in question, when "A Father" says one of the instructors used profane language, I was not at the armouries.

Now, I want everyone to give the movement and also the instructors a fair chance and I assure you we will do all in our power to further the interests of the boys.

Yours faithfully,
JAMES FOGG, Instructor.

Acton, Oct. 18th, 1910.

CURED OF CONSTIPATON

Mr. Andrews praises Dr. Morse's Indian Root Pills.

Mr. George Andrews of Halifax, N.S., writes:

"For many years I have been troubled with chronic Constipation. This ailment never comes single-handed, and I have been a victim to the many illnesses that constipation brings in its train. Medicine after medicine I have taken in order to find relief, but one and all left me in the same hopeless condition. It seemed that nothing would expel from me the one ailment that caused so much trouble, yet at last I read about these Indian Root Pills.

That was indeed a lucky day for me, for I was so impressed with the statements made that I determined to give them a fair trial.

They have regulated my stomach and bowels. I am cured of constipation, and I claim they have no equal as a medicine."

For over half a century Dr. Morse's Indian Root Pills have been curing constipation and clogged, inactive kidneys, with all the ailments which result from them. They cleanse the whole system and purify the blood. Sold everywhere at 25c. a box. 2

NASSAGAWEYA

It is reported that some interested parties have lately circulated a petition in Nassagaweya praying the Township Council to submit a by-law for the repeal of Local Option. Up to Saturday last only fifteen names had been secured. There is absolutely no hope of securing the requisite twenty-five per cent. of the ratepayers of this township to such a petition.

The entire absence of drunkenness at the fall fair at Campbellville last week confirmed many of the ratepayers that Local Option is a good thing for the township.

A Missionary service will be held in connection with the mission circle in the Eden Mills Methodist Church on Sunday evening, 30th inst. Mr. H. P. Moore, of Acton, will deliver an address.

The members of the Ebenezer and Corwhin Churches gave Rev. A. N. Cooper and his bride a pleasant surprise in the form of a reception and presentation on the evening of their return home on the 6th inst., when a good number gathered at the parsonage with their baskets and spread a table of good things which all enjoyed. After tea Councillor Akins was chosen Chairman and a programme was rendered, comprising an address read by Mr. G. A. Darby to the bride and groom and the presentation of a handsome new buggy by Mr. William Kitching. Rev. Mr. Cooper made a very suitable reply thanking all for their kindness and for their valuable present. Speeches were made by Messrs. D. Barbaree, Jas. Erwin, A. Norrish, J. Y. Norrish, D. J. Gilbertson and others. Music and solos by members of the choirs interspersed the speeches. The delightful evening closed with the national anthem and the benediction, and all left wishing the happy couple many years of happy and prosperous life together.

CREWSONS CORNERS

The beautiful weather of the past week has afforded the farmers an excellent opportunity to harvest their root crops which are of excellent quality and abundant yield in this locality. The farmer has much to be thankful for this year.

Quite a number of our citizens took in Erin Fair last Friday.

The Epworth League meets here on Tuesday evening, the 25th inst., when a report of the convention held in Fergus last week, will be given by Misses Iva Cleave and Margaret M. Donald who were present as delegates from the Leagues here and at Siloam.

Mrs. H. McGorman and Miss McGorman, who have been spending several months with friends here and in Acton, left on Monday last for Burks Falls, where they will spend a week before returning to their home in Neepawa, Manitoba.

Miss Annetta B. Wansbrough visited friends in Fergus last week and also attended the Epworth League Convention.

Mr. Wm. Graham, who has been doing mission work in Alberta in connection with Knox College, Toronto, for the past few months, spent a few days last week at his home here before returning to his studies in Toronto University.

Mr. and Mrs. Hiltz, of Meaford, have been spending the past week with their son, Mr. P. Hiltz.

THE PANAMA CANAL.

A Look at the Big Ditch From the Brink of the Culebra Cut.

I shall never forget my own first real look at the canal. It was at the end of a day, about 5 in the afternoon, and I had set out to walk from Empire to Culebra along the brink of the great Culebra cut. This section is perhaps the most dramatic in the whole work. When ships sail through here the passengers on the decks will look up almost 500 precipitous feet along the sliced red side of Gold hill to the crest of the continental divide.

The workmen were all out of the ditch now, and it was time to fire the big blasts. I waited in some trepidation, for the notion of an amount of dynamite that can be stated in tons being shot off at one time and in one place was rather appalling. And what happened was appalling, though not in just the way I expected. My eardrums have been more seriously assaulted on the Fourth of July by a four-inch cannon-cracker. The quality of the noise made by that blast is rather indescribable. It was immense—y vast, a sort of titanic grunt. The great rocky ridges which formed the bottom of the trench heaved up bodily under a sudden cloud of brownish smoke. When it had blown away those defiant rocky ridges were gone, and in their place was chaos.

Figures don't mean much—millions of cubic yards, and so on. But the great trench I was looking at did not look man made at all. The men who were straggling back into it looked like ants. The steam shovels, arrayed in echelon, seemed hardly bigger than big black beetles. And a belated dirt train crawling up the incline out of the cut might have been a caterpillar. It seemed impossible that their puny nibblings could have made that gap in the backbone of a continent. It looked rather like the doing of nature in one of her paroxysms. No, not quite like that. It looked like a crease from the finger nail of Almighty God.—Henry Kitchell Webster in Everybody's.

A Great Railroad Project.

The greatest railroad project now on foot in this part of the world is that of a line to Hudson bay as a cheaper outlet for the wheat region of western Canada. The line will be about 500 miles long and largely through an unbroken wilderness. The surveys are now made, and it is definitely announced that the road will be built by the Canadian government. It will not be available through the whole year on account of conditions in Hudson bay. Although this great body of water is commonly regarded as a polar sea, no portion of it reaches the polar circle, and neither the bay nor the strait ever freezes completely over. Nevertheless the great ice floes, the fog, the storms, the intense cold and the magnetic conditions make navigation exceedingly difficult and dangerous through more than half of the year. The line will shorten by a thousand miles the distance between England and the Canadian wheatfields and reduces by two days the distance between England and Japan.—Youth's Companion.

Shiloh's Cure

quickly stops coughs, cures colds, heals the throat and lungs. 25 cents.

An Important Subject

When considering the question of clothing requirements for the fall and winter months, living as we do here in Canada in a rigorous climate, without a doubt the item which deserves the first and most careful attention is

UNDERWEAR

GOOD UNDERWEAR is one of the most important factors to comfort and good health.

As in every other line of goods there are lines of Underwear on the market with very little merit, except perhaps that they are cheap, but, fortunately, we have in Canada, in this same line, makers who have made it their life study and whose products now represent the results of their efforts.

IN MEN'S AND BOY'S GOODS

we strongly recommend the following, among other lines:

Penman's Underwear	Stanfield's Underwear	Ellis' Underwear
Hewson's Underwear	Turnbull's Underwear	Kingston Underwear

We stock largely all the above makers' goods, and will be pleased to show you the lines and quote prices, which we guarantee to be the lowest in the trade on the several lines.

WOMEN'S AND CHILDREN'S UNDERWEAR

Our great special in these lines is **TURNBULL'S UNDERWEAR**, which we stock very fully and recommend very strongly for MERIT and REAL VALUE.
