AMERICAN WATCHES.
THE AMERICAN WATCH Co.
OF WALTHAM, MASS.,
Having recently increased their facilities for manufacturing Watches, by large additions to their buildings and to their force of workmen, are desious of introducing their products into Canada, a market which they have hitherto been unable to supply, owing to the large demand for their Watches in the United States.
The reputation which these Watches have acquired in the States, may be judged of by the fact that since the Company began their business, nearly 150,000 Watches of their manufacture have passed into use among the people, and have given, with rare exceptions, the utmost satisfaction to all who have tried them. They have superseded in this market all other Watches coming within the range of their prices.—The Company have attained this result solely by making
GOOD WATCHES,
AND SELLING THEM AT MODERATE PRICES.
At the present rate of Exchange between the two countries, American Watches can be sold for Canada currency at about one half of the currency prices in the States; and as we have not advanced the prices of our Watches since the war commenced in proportion to the rise of gold, this state of exchange renders them cheaper, in reality, than they were before the war.
The Company do not solicit orders for single Watches, but will be happy to furnish every one with full information respecting them, and to fill such orders from the Watch Trade as they may be favored with.

$10 A DAY TO AGENTS.
Lloyd's Great Topographical Railway and County Map of England, Ireland, Scotland and Wales.
SIX Feet Large, mounted and varnished; cost $100,000 and four years' time; was finished July 28, and is the best map ever made since the world was formed; shows 200,000 cities, towns, villages, market places, post offices, castles, country seats, and 38,000 railways and railway stations, with the distance between each station marked plainly, and the official name and total length of each railway in actual operation up to June, 1865 is given. The railway stations are all numerically and alphabetically arranged. The lakes, rivers, hills, and mountains are exhibited, with the altitude of each in feet, made from trigonometrical surveys by our own engineers, draughtsmen and photographers, sent to England expressly to make a superior map of that country; the whole engraved on steel, colored superbly in counties, mounted and varnished. Price 8 shillings sterling ($2). No map at $20 can compare to this. Canvassers throughout the world wanted. Also men with a small capital to go to Canada, Chicago, Cincinnati, Nova Scotia, New Brunswick, East and West Indies, Australia and California, to open offices. Can make a fortune wholesaling this and other maps to sub-agents. Eighty thousand copies of this map were subscribed for in England before going to press, as can be shown by our agents' letters to us.—Ten new maps now under way.

YOUNG LADIES' ACADEMY
OF THE GREY SISTERS,
OTTAWA CONVENT.
Under the Patronage of His Lordship the Right Reverend Dr. Guigues.
THIS INSTITUTION, established some Twenty years ago, is well calculated by its position between Upper and Lower Canada, to afford the greatest facilities to French and English Young Ladies, for acquiring a complete education in their mother tongue and at the same time, in another tongue that is foreign.
Nothing has been neglected that could contribute to attain this double end; and the ample and honorable testimony constantly rendered proves the effort to have been successful.
Among many means employed to develope the intellect and cultivate a literary taste, are a well regulated Post Office and a Weekly Newspaper, edited exclusively by the young Ladies.
In the Commercial course a practical emulation is excited by a Bank and Commercial Rooms, in which business is transacted in both languages.
It is a particular point of the rule that some of the recreations of the day are, each alternate week, strictly French, or entirely English, for those who are capable of speaking both languages.
Those who study Music will find everything that could secure them rapid and brilliant success; for this, it suffices to say that no fewer than Six Teachers are devoted to this Department, which embraces the Harp, Piano, Guitar, Melodeon, Organ, &c.
A similar number of Mistresses preside over the different kinds of Painting in Oil, Pastille, Poonah Painting, and the different kinds of Drawings, Embroidery, Wax Work, Artificial Flowers, &c. The Ornamental is not permitted to supersede the useful; for all the pupils are obliged to learn the theory and practice of Domestic Economy.
No distinction of Religion is made in the admission of pupils. Children of different denominations, though obliged to conform strictly to the order of the House, are not required to assist at the Religious exercises of the community.
☞ Circulars containing particulars can be obtained by addressing the Lady Superior.
The Classes will re-open on the First of September.
