

Barbecuing in garage causes deadly gas to seep into home

A lit charcoal barbecue left unattended in the garage of a Milfoil St. attached garage Sunday afternoon (Dec. 19) generated carbon monoxide that seeped into the home causing the carbon monoxide detector to activate.

Fire crews responded and determined the barbecue was the source of the gas. They removed the barbecue from the garage and ventilated the home.

A correction from Paul Mattina of Mattina's Cucina

Due to an unfortunate miscommunication between Wagjag and Mattina's Cucina the offer that recently was available online through the website www.wagjag.com, as advertised in the Independent & Free Press has been removed from the site prior to the closing date. Any vouchers pending will not be charged to the credit card and they will not appear in your account under new vouchers.

In no way was there any intention to upset anyone as our restaurant has been in the business of making customers happy for 11 years now and we will continue to do so.
