THE CHILDREN'S AID SOCIETY

The Annual Meeting of the Halton-Peel Board and Members in MILTON

The annual meeting of the Children's Aid Society of Halton was held in the school room of the Presbyterian Church, Milton, on Thursday evening, November 4.

The attendance was large and representative, showing the keen interest the public is taking in this important work.

The opening exercises were conducted by Rev. W. M. Mackay.

The president, J. M. Denyes, B. A., after a few well-chosen words, called upon C. D. Gordon, of the Dominion Bank, Toronto, after whom the Gordon Home was named, and Messrs. Patterson and Applegath, of the Rotary Club, Toronto, for short addresses.

The speaker of the evening was Judge Mott, of the Juvenile Court, Toronto, who in a very interesting manner outlined his methods of dealing with juvenile delinquents.

On motion of Judge Elliott, seconded by Mayor Earl, a hearty vote of thanks was tendered the Toronto visitors for their presence and helpfulness.

Satisfactory reports were given by the treasurer, C. H. Stuart, Mrs. Gorham, president of the house committee, and the inspector, W. H. Stewart.

The treasurer's report showed among other things the splendid work done by the Women's Institutes, other ladies' organizations, and single individuals in the way of donations. The president spoke very appreciatively of this work.

The Inspector's report showed a busy year, with two hundred visits made, and nearly five thousand miles travelled.

The Gordon Home was found to be in excellent condition, under the able management of Miss Holloway, whose good work was warmly commented upon.

Rev. A. E. Marshall expressed words of appreciation regarding the efficient, gratuitous services of the ladies.

All the officers of the past year were re-elected with the addition of Mr. Hutcheson and Mrs. Jos. Marshall to fill vacancies due to death and removal:

President—J. M. Denyes, B. A.
Treasurer—C. H. Stuart.
Secretary—Mrs. T. J. Brown.

Sportsmen's "Moist" Clay Pigeons

Police Magistrate Jelfs, of Hamilton, the other day authorized the confiscation of the Brantford gun club's "clay targets" recently seized by License Inspector Sturdy. "The targets" happened to be a big shipment of liquor and the Brantford gun club has been cut of business for ten years. Another case of trading on another's good name.

WISDOM

If you think you can achieve anything great or small by doing it only by fits and starts, put that erroneous idea out of your head at once.—Charles Dickens.

A man must have a backbone, or how is he to hold his head up? But that backbone must bend or he will knock his brow against the beam.—C. H. Spurgeon.

An infirmity of temper is popularly accounted a mere peccadillo, but not by those who suffer through it. A crabbed or peppery saint is immensely discounted although otherwise he is a walking decalogue. A big pot of ointment is spoiled by a very small fly.—W. L. Watkinson, D. D

Mr. Gilbert McAllister, of Lomond, Alberta, is visiting with relatives here. He expects Mrs. McAllister and family to arrive here soon and they will spend the winter in Ontario.

Quite a few are wondering what they will do for fuel this winter as the supply of coal and also wood is very limited. If it comes to the worst perhaps some of the rail fences that cause so many drifted roads, would help solve the problem.

Mr. Peter Sinclair happened with a very painful accident on Saturday. He got off the threshing engine and went back to the tank for wood, and when returning with it, slipped in the mud and a wheel of the separator passed over his left foot, crushing it badly.—Advocate.

CREWSONS CORNERS

The cold snap coming last week caught many farmers with turnips still in the ground, and in a few cases with potatoes and apples not picked. Every one hopes for more mild weather this fall.

A very pretty but quiet wedding was solemnized at the home of Mr. and Mrs. Wm. Dennis last Wednesday, when their eldest daughter, Margaret May was united in the bonds of holy matrimony to Mr. Melvin Burns, son of the late Alexander and Mrs. Burns, Eramosa. This popular young couple have resided in this neighborhood all their lives, and the best wishes of a host of friends are bestowed on them in their new relationship.

Mrs. George Graham, who was very ill some weeks ago, is not recovering as rapidly as her many friends would like to see. Her son, Rev. Wm. Graham, and little son arrived last week from Vancouver, B.C., to visit his parents, and other friends here.

Misses Mattie and Emma Toupkins, Georgetown, spent Sunday with Mr. and Mrs. Linham.

Fire Chief Tost and a number of his men visited the high and public schools on Monday and rang in the fire alarm. Campbellville people have petitioned the District Passenger Agent of the C. P. R. at Toronto, to have the passenger train going east at 9.15 a.m., and going west at 4.50 p. m., stop at Campbellville station for the accommodation of pupils of the Milton High School living there. This would save them a walk to Guelph Junction each morning and a walk back each evening.

The anniversary services at Ebenezer Church last Sunday were of a very interesting character. The sermons by Rev. A. Lloyd Smith, M. A., B. D., were able and impressive. This talented young preacher is wielding a wonderful influence for good.

The banquet on Monday evening was fully up to the standard of its predecessors. The menu was excellent; the concert full of merit and the attendance large.

Farms in Three Counties of Ontario Prove Value of Fertilizers

Tests of 1920 carried out under scientific supervision convince farmers of Ontario of the value of fertilizers in hastening maturity and obtaining larger yields and bigger ears.

The demonstrators report:

1. "The greatest difference of all between the plots was in the maturity of the corn and the yield of ears."
2. "These two plots of corn (1st-fertilized, 2nd-fertilized and manured) were eight to ten days earlier in ripening."
3. "The differences in maturity of the ears for silage purposes were distinctly in favor of the fertilized plot."
