

Public invited to vote for PhotoArt's People's Choice

Halton Hills Camera Club reports 465 entries were received for the PhotoArt 2011 competition—a 15% increase over last year.

Once judging is completed, 100-125 images will be exhibited between February 8-28 at the Marjorie Nazer Gallery in the Halton Hills Library and Cultural Centre, 9 Church St., Georgetown.

The public is invited to come view the images. New this year, everyone will be able to vote for the People's Choice Award by viewing the images

at the Gallery and then send an e-mail to photoart@hhcc.ca.

Put the photographer's name and image title (from the edge of the print) in subject line.

Entries will be received between Feb 8-20. Only one entry per e-mail address, any duplicates will cancel your choice.

People may also vote between 7-8 p.m. on the Awards Night, Thursday, February 24. The ceremony starts at 8 p.m. and the People's Choice winner will receive a prize at the end of the event.

A SMILE FOR YOU!

Smiling is infectious,
you catch it like the flu,
When someone smiles at me today,
I started smiling too.
I passed around the corner and
someone saw my grin
And when he smiled,
I realized I'd passed it onto him.
I thought about that smile then I
realized its worth,
A single smile, just like mine,
could travel round the earth.
So if you feel a smile begin,
don't leave it undetected,
Let's start an epidemic and
get the world infected.
Not smiling like you should?
Give us a call!

Creating confident smiles since 1982.

... Lend Me Your Ears

You have probably heard recently, there is legislation being passed that will target drivers using cell phones while operating a motor vehicle. We all know that distractions are a dangerous combination and common part of driving on today's congested roadways. Any way to lessen the number of distractions faced daily would greatly help one to focus on the task at hand, and get on with their day. At the Georgetown Hearing Clinic, we do not condone the use of cell phones while driving, but when absolutely necessary, a hands free device, such as a speaker phone, line Onstar™ or a bluetooth connected earpiece can be very useful and help reduce distraction - not to mention allow the driver the use of both hands.

At The Georgetown Hearing Clinic, we provide a wide variety of custom fit and non custom fit bluetooth hands free devices.
