ties in town, superintendent Mason protested he should be recording the amount of time he is required to spend with Hydro fieldmen in connection with conversion. The Commission readily agreed with Mr. Mason.

Provision may have to be made for the installation of light standard bases in the projected sidewalk replacement on Mill Street, Mr. Mason continued. He was informed adequate time will be available to decide on or plan this work.

Reports Trees Planted

Concluding, Mr. Mason said some wires have been changed near Crescent Street where they had been hanging surrounded by heavy tree growth.

Waterworks superintendent Lambert reported trees planted at the disposal plant; sludge beds emptied and sludge piled; sewer flushing started; necessity of replacing a sewer lateral line to a Peel Street residence; need by his department of a sump pump for the new well and a 24-foot extension ladder for general work.

At the close of the meeting he members became involved in a study of sewer line profiles after Mayor Tyler suggested that some new installations for laterals were not being recorded on the proper maps.

Earlier, the Commission passed the following accounts for payment:
