The Georgetown Herald.

WEDNESDAY EVEG., SEPT. 9, 1903

IT is understood that at the Conservative caucus at Ottawa it was stated that Mr. R. L. Borden would not be able to attend the balance of the session. He is afflicted with inflammatory rheumatism.

IF the little ones feel it somewhat hard resuming school again, let them be comforted by the reflection that a great many of their seniors would be delighted to change places with them in every respect. —Globe.

A representative convention of the Ontario Liberal-Conservative Association was held at Toronto on Thursday. After the election of officers, resolutions were passed disapproving of the Grand Trunk Pacific project and approving of the policy of preferential trade within the Empire.

AN extraordinary man is Joseph Chamberlain, British Colonial Secretary. His speeches have been known to influence more votes than, perhaps, any statesman at present in active public life. He is to make a speech at a political meeting in Liverpool in a few weeks, and the demand for tickets is so great that it is proposed to erect a special building to accommodate 20,000 people.

ACCORDING to a statement by the Deputy Minister of Education, there is a great scarcity of school teachers in many parts of the Province, which, he says, is largely due to the general prosperity of the country. It is claimed that the average remuneration offered is not sufficient to prevent young men and women entering other callings where the financial prospects are much better.

J. Israel Tarte has gone clean over to the Conservatives, whence he came. He and Mr. Willison, formerly editor of of the Globe and now of the News, are busily engaged at present in dressing each other down. The Globe under Mr. Willison had never much faith in Tarte, even while he was working his hardest for the Liberals. It is doubtful if a man increases his influence by thus jumping from party to party.

CANADA'S name for being a law-abiding country is being well maintained at the Dominion Exhibition. The Toronto World yesterday makes the rather remarkable observation "that with many thousand strangers in town on Monday and two huge public events in different parts of the city, with an aggregate attendance of nearly 150,000 people, not one arrest for a criminal offence was made, nor was any "occurence" reported. At the Exhibition, where over 100,000 mingled together, all was order and propriety. Never in the experience of the police force has such a record been established, all things considered."

SUCCESS IN TEXAS.

A Former Georgetown Resident Made Money Fast.

The Wheeler County Texan, published in Lela, Texas, gives the following account of the success of Mr. Peter Ried who went from here six years ago:

"A recent visit to the farm of County Commissioner Ried, one and one-half miles west of Mobeetie, was an occasion long to be remembered. A scene pleasant to view can hardly be imagined, than is afforded from the eminence on which Mr. Ried's residence stands. The valley gently sloping westward, covered with yellow stubble and beautiful green alfalfa waving in the breeze, with the fringe of tall cottonwood in the background, by night to charm a saint. Mr. Ried is a Canadian by nativity, coming to Texas from the province of Ontario in '79. He brought with him ten head of registered Hereford cattle, which represented his entire capital. Two years later he bought the farm which he now owns, comprising a quarter section of patented and two sections of school lands, with sixteen head of horses and all the implements belonging to the place for a consideration of about $2,500.

During this time he has sold nine head of registered Herefords and has six head left, among which are two of the most perfect forms we have ever seen, besides one hundred and twenty head of grade stuff.

He has improved the place a great deal in the way of buildings, fences, etc., and had seventy acres sown to alfalfa. Nearly all this is a good stand and furnishes four cuttings to the season without irrigation.

We have been talking alfalfa for this country for some years, and and have argued that it would be profitable here without irrigation. Mr. Ried's success with it proves our position to be well taken. He says the only question of its success is that of getting it started, and through the first year. In order to do this it is best to prepare the ground in summer and sow in the fall, so as to avoid the covering up or washing out of the tender plant by the high winds and heavy rains of the spring season.

Mr. Reid now estimates the value of his farm at something over $3,000, exclusive of stock and implements.

This is a practical demonstration of what may be done in Wheeler county by one who will use energy and business sense.

BURLINGTON MAN MISSING.

Mysterious Disappearance of Mr. Jas. Harrison.

Hamilton, Sept. 8.—James Harrison sash and door manufacturer and lumber dealer, of Burlington, has been missing for ten days, and no trace of him can be found. His financial affairs are in good shape, and no reason can be assigned for his disappearance. Foul play is suspected by his friends, and the authorities are making a thorough search for him.

BAD ACCIDENT.

Roderick Fraser, Son of the Well Known Author, Has His Face Disfigured

Last evening about 6 o'clock, while Roderick Fraser, son of Mr. W. A. Fraser, was playing with some other boys in the yard he met with an accident by which his face will be somewhat disfigured. Some of the boys had found a fog signal which had given it to him. He put it in his pocket but a piece of it got out and he thought he would see what would happen if he struck it with an axe. The result was a severe cut in the chin and two on the cheek, from one of which a piece of flesh is missing.

Six stitches were required. Young Fraser lost quite a lot of blood and was dazed while the wounds were being dressed. He is doing well to-day and although his face will be somewhat disfigured, it is hoped that it will not be serious.

AROUND THE CHURCHES

In consequence of the resignation of Rev. A. B. Gregory of Mansewood, that congregation has been cited to appear before the next meeting of the Toronto Presbytery. Permission has been granted for the transfer of Mr. R. S. Robinson, licentiate, to the Presbytery of Orangeville, where he had accepted the call to the pastorate of the Caledon congregation. A call to Rev. J. C. Wilson of Markham, signed by 270 out of 300 members of the congregation of Acton, has been presented on behalf of Guelph Presbytery and sustained. The induction will take place about middle of September.

The financial district meeting of Milton District Methodist church, will be held at Appleby on Thursday, Sept. 17th.

The service in St. George's church on Sunday morning was conducted by Rev. Canon Bull and in the evening by Mr. Ten Eyck. Both sermons were much enjoyed.

The re-opening of St. David's Presbyterian church, Campbellville, on Sunday was a great success. The church has just undergone extensive repairs.

Rev. Mr. Bridgman from Manitoba preached an able sermon in the Methodist church, Sunday evening. Mr. Bridgman went from Ontario to the west some years ago, and has had marked success in his work. He is a brother of Mrs. R. E. Harrison of Georgetown.

Rev. D. W. Merrill of Guelph, has had a call to Ottawa.

The re-opening sermons in connection with the Presbyterian church, Norval, will be preached next Sunday by Rev. J. McD. Duncan of Toronto. The church has been very handsomely decorated and re-fitted. A graded floor has been put in, and the audience room has been re-seated in the most modern manner and carpeted throughout. Large crowds are expected at the services on Sunday next.

Rev. K. J. McDonald of Toronto will preach in the Presbyterian church next Sunday.

Rev. Dr. Warriner, Registrar and Professor of Greek in the Congregational College, Montreal, preached in the Congregational church on Sunday. In the morning his sermon was from the text in II Timothy: "And the things that thou hast heard of me among many witnesses, the same commit thou to faithful men, who should be able to teach others also." It dealt with the educational work of the denomination. In the evening Dr. Warriner preached from John 3, 16, "For God so loved the world, &c," and the sermon was a model of simplicity yet full of eloquence and power.

Their home will be in Acton where Mr. Jonathan holds a good situation. The ceremony was performed by Rev. E. A. McPherson.

DICK—YOUNG.

A pretty wedding took place on Saturday morning, when Mr. W. J. Dick, barrister of Milton, and Miss Margaret Young, daughter of Mr. Sidney Young of Georgetown, were married at St. George's church. There were very few guests, those invited being the immediate relatives only, but there were quite a large number of spectators from town who were interested in the ceremony, in which two of the most popular and respected young people of the county were the contracting parties. Miss Young was a member of St. George's choir and, with their accustomed enterprise, the members got together and beautifully decorated the audience room with evergreens and flowers. As this is the third marriage among the members of St. George's choir during the past eight months, it has been stated that the choir finds little difficulty in keeping its ranks well filled. Mrs. W. J. MacFadden played the wedding march and Rev. T. G. Wallace performed the marriage ceremony. The bridesmaid was Miss Georgie Young, sister of the bride, and the groom was accompanied by his brother, Mr. Jas. G. Dick of Michigan. As part of the ceremony the choir sang two selections, "O! Perfect Love," and "The Dawn." The bride was gowned with exceeding good taste in blue cloth flaked with white and wore a white camel's hair hat. After the ceremony Mr. and Mrs. Dick were warmly congratulated and by the noon train went to Toronto, thence to Muskoka for two weeks or more. Their home will be in Milton.

CANADA TO THE FORE.

The buggy recently shipped by J. N. O'Neill to a customer in Jamaica comes in for the following favorable comment in a "write up" of the Fair held there in August. It appears in the Kingston (Jamaica) Telegraph:

"A very pretty buggy with rubber tires and ball bearings made (I found by looking in the plate at the back) by Mr. O'Neill, Georgetown, Ontario, Canada, attracted a good deal of attention, being the first of its kind seen in Lucea. If Canadians can make such buggies, a very little differentiation in the tariff ought to drive the Yankee article out of the Jamaica market."

The silver medal for best turnout was taken by an outfit of which this buggy was a part.

An Ancient Foe

To health and happiness is Scrofula—as ugly as ever since time immemorial.

It causes bunches in the neck, disfigures the skin, inflames the mucous membrane, wastes the muscles, weakens the bones, reduces the power of resistance to disease and the capacity for recovery, and develops into consumption.

This is an ancient and specific disease which has existed for ages, and has been more prevalent than any other disease, and it has been giving their Hood's Sarsaparilla. This medicine passed the test to heal, and the children have grown up sound and well. Mrs. J. W. McCuaig, Woodstock, Ont.
