Large Gain Shown By Merchants Bank

Total Assets Rose in Past Year to $121,130,558, an Increase of $24,760,105.

As a result of the twelve months operations terminating with the close of its fiscal year, which ended on the 30th April, the directors of the Merchants Bank of Canada are enabled to present to the shareholders and to the public an eminently satisfactory statement, showing that the bank is notably moving forward along progressive and conservative lines.

The assets have now reached a total of $121,130,558, as against $96,361,363 at 30th April last year—a truly remarkable increase of $24,769,105 during the year. Of these assets the liquid portion total $52,041,624, being 49.87 per cent. of the liabilities to the public. Actual cash holdings, including deposit in the Central Gold Reserve, amount to $15,017,228, or 15 per cent. of liabilities to the public—a strong and satisfactory position.

Notwithstanding withdrawals for investment in the Dominion War Loan and War Certificates, deposits have increased from $72,177,029 to $92,102,074, a gain of $19,925,045, about equally divided between interest-bearing and non-interest bearing.

Current loans and discounts have increased from $48,835,565 to $62,737,068, indicating that, while the strength and liquidity of its position have been amply conserved, the bank has kept well abreast of the country's commercial development and has taken good care of the business requirements of its clients.

Profits have been kept pace and must be regarded as equally satisfactory. After making due provision for doubtful debts, they amount to $1,120,508, against $950,713 in 1916. As will be observed, with the addition of $250,984 carried forward from last year, dividend requirements at the rate of 10 per cent. have been met, and after writing off of bank premises $100,000, contributed $50,000 to officers' pension fund, paying Government war tax on note circulation of $70,000, and donating to Canadian Patriotic and Red Cross funds $30,000, the substantial sum of $421,203 has been carried forward to the credit of profit and loss account.

General manager D. C. Macarow pointed out that out of a total of 874 male employees at the beginning of the war, 520 had enlisted and were now overseas. Of this total 98 had been killed in action, while a large number were now in hospital.

Georgetown branch under the supervision of C W. Grandy the courteous and obliging manager, is doing a large and thriving business, and its many customers in town and country speak highly of the accommodation and service rendered them in their business relations with the Merchants Bank of Canada.
