THE GEORGETOWN HERALD

WEDNESDAY EVE'G, OCT. 24, 1917

IT IS LIKELY that oleomargarine will be placed on the free list, to provide people with a cheap substitute for butter. Analysts tell us that it is just as wholesome, that it is made under clean surroundings, and it is good food. Moreover 'we've knowed folks what's eit the stuff and passed back for a second helpin'. And it will be quite an armful to say "John Henry, will you please pass the oleomargarine."

EXEMPTION TRIBUNALS will begin their work on November 5th and must complete it by December 10th, which is the earliest date any man will be called to the colors. Any person found guilty of attempting to bribe any member of an exemption tribunal, medical board or military representative, will be liable to a term of imprisonment not exceeding five years and not less than one year. In case of an employer using the Act as a bribe to lower wages or an employee willing to work for a smaller wage on condition of the employer claiming exemption, a fine will be imposed not exceeding $1,000 and not less than $100 or imprisonment not to exceed six months.

BEFORE YOU ask a merchant to make a delivery, send goods on approbation, or incur other expense. Is it necessary? Delivery service is expensive, and ultimately YOU must pay for it. If the service is not necessary you are not only wasting your own money, but the resources of Canada as well. Canada is in urgent need of economy. Dame fashion has decreed that we may carry almost anything but a parcel. The result has been heavy delivery expense, which must be paid by the consumer together with the profit on the goods. Because it does not show separately in the bill it is not recognized as an additional cost. To a large extent merchants are to blame for this. If they adopted the cash and carry system, giving a price advantage to those who paid cash and carried their parcels, requests for delivery would soon show a decrease.

ONE OFTEN FEELS tired the way the National Anthem is abused and made the vehicle for the rankest sort of hypocrisy, whereas it should be the sacred anthem of the nation. One sees men whooping up "God Save the King" who wouldn't give a dime to save him tomorrow, and so for sacrificing their own precious carcasses—well, not much. You see people dodging every call for Red Cross or patriotic purposes, but, say, just let them have a crack at the National Anthem and they'll make the rafters ring. Its misuse goes on round about us on every hand. About the only place where "God Save the King" is not produced is at weddings and funerals, and why his majesty is spared timely is one of the mysteries. A lot of kiddies the other day were burying a bird, and not being able to say a suitable prayer they resurrected the National Anthem and sang that. Their action is not to be compared with that of dozens of grown ups, however, who knowing better what a fine sacred thing "God Save the King" is, use it improperly and inappropriately on every conceivable occasion that custom has given them some excuse for. We should be more sparing of our use of the anthem, remembering that it is at least a nation's prayer.

CANADA AND THE United States probably will be able to provide for the Allies' requirements of cereals other than wheat, during the next twelve months. The Allied peoples themselves have been economizing with wheat and wheat flour. As Lord Northcliffe said in Montreal, "There is no such thing as white bread in the old Country, from the King's table downwards." Other cereals are being used but they cannot be used alone for bread. The Allies must add them to wheat flour to make the war bread now in universal use in European countries. Except in Italy, where the people normally consume much corn, there are few corn mills in Europe. Cornmeal, not being a durable commodity, cannot be shipped across the ocean in great quantities. The Allies must have a wheat flour basis for their war loaf. Unless the people of Canada and the United States are willing to substitute other cereals for part of the wheat flour which they normally consume, they will be denying even war bread to many thousands of people. Substitution of at least one pound of other cereals for one pound of wheat flour weekly, per person, would save a very large quantity of wheat for export. It would still be far short of meeting the normal consumption requirements of the Allies but it would save the situation.

CARD OF THANKS

We hereby convey our sincere thanks to our many friends for their kindness and sympathy extended to us in our recent and bereavement caused by the death of our beloved son on the battle field in France.

Mr. and Mrs. Banham.

Methodist Anniversary

Large Gatherings Listen to Splendid Sermons by Rev. S. M. Roadhouse.

Another milestone has been passed in the history of Georgetown Methodist Church and the occasion was fittingly celebrated on Sunday last. Rev. S. M. Roadhouse of Southampton, (a former popular pastor and all-around good citizen of our town) occupied the pulpit at both services. He was greeted with large audiences and his hearers in turn received inspiration from the eloquent sermons they had the pleasure of listening to.

In the evening the speaker chose as his text part of the 6th verse of the Revelations of St. John, viz.: "And hath made us Kings and Priests unto God."

It was a masterly discourse showing how God in his own way was moulding the lives and characters of individuals and preparing each for a kingship; a rulership within one's self, controlling the baser and exalting the best of all that is in us, preparatory to God's ultimate ideal. The spirit of democracy of today demands that all should live up to the standard as set by Jesus Christ."

Rev. R. F. Cameron assisted at the evening service.

The numbers by the choir during the day were enjoyed and appreciated by all.

Prosperity is Promised.

Ottawa Thinks Military Service Act Will Help the National Condition in Future.

Ottawa, Oct. 23rd—The prospect opened up for Canada by the Military Service Act is one of prosperity insured and safeguarded. The object of the Act is to reinforce our men at the front while keeping in Canada those whose presence here is required in order that necessary business may be carried on as well as those whose going overseas would lay a heavy burden on the country through the needs of dependents.

No heavy tax on the manpower of the country will be made. The Act calls for but 100,000 men, and authorities estimate that there are in the country 400,000 of the first class alone, unmarried men and widowers without children between the ages of 20 and 34. This class may well supply most of those needed.

Men in the first class called will be withdrawn for military service only as they are required by the military situation. The process will be gradual, thus leaving a portion of the men to follow their regular vocations until such time as they are required.

The cost of the war must be reduced to the minimum by the system which sends out of the country only those who can best be spared, from the standpoint of the nation as a whole. General prosperity must also be encouraged by the safeguarding of essential industries and the retention at their work of men whom the highest interests of the country require at home.

CONSERVE THE LIVE STOCK

The Grand Trunk Railway has issued a circular containing the following to employees of the company:—

We are realized that thousands of horses, cattle, hogs and sheep are killed annually by railway trains, and that this economic waste approximating many millions of dollars can be reduced. The thousands of horses that are killed every year would fill the artillery requirements of many regiments, and the thousands of cattle, hogs and sheep that are killed every year would provide meat for thousands of soldiers. Anyone who aids in preventing the loss of even one animal serves his country patriotically and effectually.

This economic waste can be reduced by:—owners of stock keeping animals in fenced enclosures and not permitting their stock to roam at large on railroad right-of-way. Town officers passing ordinances prohibiting the practice of permitting stock to roam at large; Superintendents Supervisors of Track and Section Foremen making a personal appeal to the owners of stock to keep their animals in fenced enclosures; Engineers taking every precaution within their power to avoid striking stock and never failing to report stock seen on right-of-way. Section men driving stock off right-of-way, keeping farm gates closed, and fences and cattle guards in good repair; giving preference to location where liability of stock getting on right-of-way is greatest. Everyone making a persistent, personal effort to bring about desired results. The co-operation of all concerned will be thoroughly appreciated.

Military Notes

Last week's military orders state that Captain Hindson formerly of Georgetown who was placed on the reserve list, has been appointed to District Military Representative, Military Service Act with headquarters at London, his appointment dating from October 1.

Sgt. John Long was home from Valcartier during the week.

James Clark has joined the Royal Flying Corps.

Quite a number of young men of military age have been examined by the Medical Board in Toronto during the past week.

Stewarttown

The meeting of the Esquesing Women's Institute was postponed on Friday of last week on account of the wet weather and was held at Mrs. Johnstone's home on Tuesday of this week. A parcel of winter comforts for Christmas for each of the local soldiers overseas was packed.

Boxes of Christmas cheer will be packed at Mrs. John Wilson's home on Friday, Oct. 26th. Will all members and friends who are helping please leave their contributions at Mrs Wilson's by Thursday, Oct 25th.

Also quart sealers of fruit or pickles will be gratefully received to be sent to the returned soldiers in hospitals. The treasurer reported that the proceeds from the refreshment booth at the Fall Fair in Georgetown cleared $56.17 for soldiers comforts and Red Cross supplies. The Esquesing W.I. wish to thank all the friends who helped in anyway, either with donations of baking, etc, or assisting with the work.

The Branch sent this month to Red Cross, 8 suits pyjamas, 2 comfort bags, 1 knee cap, 2 ambulance caps, 4 pillow slips, 1 pneumonia jacket, 1 surgical shirt. To soldiers comforts, 5 pr. hand knit socks, 1 vermin shirt.

A Memorial Service was held in the Methodist Church last Sunday afternoon for Pte. Kastner who was killed in action on Sept. 20th, 1917. The service was conducted by Rev Mr Trueblood, who in his remarks spoke of the high esteem in which Pte Kastner was held in this community. Prior to his removal to Toronto, Pte. Kastner was a resident of this town, and during his stay here made many friends. It was a great shock to the village when word reached here that he had made the supreme sacrifice. Greater honor can no man have than to lay down his life for his friends. Among those from a distance who attended the service were Mr and Mrs Harry Hargraves, Mr and Mrs W Salth, Mr Samuel Schofield and daughters, Misses O and M Marchment, Mr Andrew Wheeler, all of Toronto; also the parents of Pte Kastner, Mr and Mrs Joseph Banham of Toronto.

Master R. J Hynds, jr, who had the misfortune to breaking his arm is doing nicely.

It looks as though a number of our citizens are getting in shape to enlist in the Forestry Battalion.

We noticed that the surrounding bushes are getting quite empty.

Both our mills are working overtime in order to meet the large demand.

Mrs. Jas. Wilson, of Stewarttown, is spending a few days with friends here.
