*Bond Owners Must Pay*

The impression has gone abroad that subscribers to the Canadian Victory Loan, who made their original payments through certain financial houses, need give no further attention to this business

The banks have no authority to draw any [illegible] money to complete payment from the funds of any depositor. Therefore, bondholders are warned to give this matter attention when the next payment falls due.

*Sugar More Plentiful*

The following comment on the market situation as regards foodstuffs appeared in Canadian Grocer this week: Among the interesting price changes in grocery commodities during the week have been advances in laundry soaps, olives and olive oil, baking powders mince meat, cotton twine, certain lines of tobaccos and pickles. One of the Canadian refiners has also announced a decline of 20c per hundred in the price of sugar. New-crop Cuban raw sugars have commenced to arrive in New York market and will in all probability increase in supply from this time forward. There is an embargo on the shipment of corn from the United States for all points east of Chicago This will effect the manufacture of corn products such as cornmeal, hominy, farina, cornstarch and corn syrup It is presumed that this embargo will not be permanent, but that supplies will eventually be allowed to come forward under the license system. Until the licenses are issued there will be light supplies of corn in this market
