Correspondence

To the Editor Georgetown Herald,
Georgetown.

Dear sir: Allow me space in your valuable paper for the following:

Whilst still resident in Scotland I was the recipient of a cutting taken from The Georgetown Herald, showing the progress the village had made in the way of erecting factories and workshops, it also mentioned the splendid water supply and unexcelled educational facilities.

It was with interest I read the contents, because at that time I was contemplating emigration to Georgetown.

I arrived here in the early days of April of the present year, and was convinced that all that was said concerning the town was correct.

But on taking a walk round I was disappointed to find that it lacked one great essential, and that is a cottage hospital. I was equally surprised to find that on taking a walk, I came across a house with a card hanging on the veranda, proclaiming that a person resident there had diphtheria, which seemed to me was a warning to others not to go too near.

This to me seems very quaint and should be abolished as soon as possible, and the only way to do this is to erect as I have already referred to a cottage hospital, where such cases as I have mentioned could be treated, and at the same time, it would not put the rest of the household to either stay indoors or out of doors for about six weeks, according to doctor's orders. Of course, there are people always ready to say that such a scheme is impossible.

But I beg to differ from such a person by stating that it is just as possible to start the movement with a big effort in the way of a public subscription, as was the case when we were desirous of recognizing our brave fellows by presenting them with watches on the 1st day of July. We all know what was the result of that effort. Therefore it is up to our town council to make that start and in such a manner as to ensure of its success.

My suggestion is that a big movement in the way of a public subscription be started followed by extra taxation on the householders, a fixed donation from every worker either in factory, workshop or store, to be deducted from their wages each pay day. Also a special collection in each church, say twice a year, called Hospital Sunday.

I have also made careful enquiries into the financial situation in Georgetown and I am fully convinced that if some, if not all, of our business men in town were approached on the subject, they would give it the support it deserves.

By the erection of a cottage hospital with a resident physician and surgeon and a matron and two nurses, it would enable those who on doctors' orders have to be removed to hospital, to go to our own cottage hospital, instead of being removed to Guelph Hospital, 22 miles distant, thus entailing grave danger to the sufferer.

It would also be a fitting memorial to the brave fellows who sacrificed their life in the too recent great war.

Trusting to hear more on the subject, and thanking you in anticipation, I am,

Yours faithfully,
ARTHUR C. ROBINSON.

Notes and Comments

Tons of fruit are reported going to waste in the Niagara district because of inability to get it to the consumers before it is too ripe. Perhaps if the fruit growers would make the matter known, and not be so selfish that they fear to give the public bargains in spoiling fruit, the consumers would flock to the Niagara in their autos and help save the waste. There are too many producers who would rather let the stuff spoil than let the consumer have the benefit of reduced prices.

People who complain because they cannot get some of the little luxuries they used to enjoy in the pre-war days might do well to remember that their forefathers lived without sugar until the thirteenth century, without coal till the fourteenth, without butter on their bread till the fifteenth, without tobacco and potatoes till the sixteenth, without tea till the seventeenth, without umbrellas and lamps till the eighteenth and without trains, telephones, gas and matches till the nineteenth.

An increase in freight and passenger rates went into effect on Monday, Sept. 13th. Freight rates advanced 40 per cent. and passengers pay 20 per cent. more. A reduction of 5 per cent. on new rates at the start of next year is ordered by the Federal Board of Railway Commissioners. Ten to twenty cents on a ton of coal shipments is also allowed. After December 31st passenger rates are to be only ten per cent. higher, while after July 1st they are to return to figures at present charged.

Simultaneously with the income tax collection active steps are being taken to see that proper returns are made from the sales taxes. This week 30 expert auditors are being appointed and distributed over the country, to check up the returns made, and, if necessary, to go into the books of firms or individuals. An increase of 120 millions in excise revenues is indicated on the strength of the showing up to Sept. 1st, but with the measures which are being taken it is believed that this will be considerably bettered.

Premier Drury refuses to call a special session of the Legislature to deal with the prevailing abuses in the administration of the Ontario Temperance Act. We don't know but what he is right. If the existing law is properly enforced it ought to remove most of the abuses complained of. It is largely because evasions of the law have been winked at that the scandal has reached its present proportions. Prompt and swift application of the law soon puts the blind piggers out of business, and they are the root of the whole trouble.

The Hydro Radial Association which met at Hamilton last week passed a resolution insinuating that the Drury Government was identified with the interests seeking to oust Sir Adam Beck from the chairmanship of the Hydro Commission. The resolution was to the effect that whereas certain interests were striving to effect the withdrawal of Sir Adam Beck, the association went on record as affirming that any move by the Government towards ousting Sir Adam Beck would be a calamity and an outrage on the people of the Province, irrespective of party. The resolution was moved by W. B. Burgoyne, St. Catherines, and seconded by Dr. Oaks of Preston.

A great deal has been written and said about reckless automobile driving, yet it seems the reckless driver never learns how criminal he is until he has killed someone. However, if they cannot be made to realize their folly, laws should be made and enforced which will protect innocent people. If it were only the reckless driver who suffered as a result of his own recklessness, all would be well and good, but usually in an accident the driver escapes unhurt. If you want to take your own life, Mr. Reckless Driver, that matter lies between you and your Maker, but when you go tearing along the roads endangering the lives of others, people certainly have the right to demand that you be placed where you cannot continue your mad practice. The Government ought to build an "Insane Speedway" and send people to such a place the same as they are sent to an insane asylum. This speed mania is just as much a form of insanity as dozens of others you will find in the asylum, and in many cases it is a great deal more dangerous.

Those who bought Victory Bonds are in some cases vexed about the reduction of the official transfer price. There is no occasion for complaint. Every bond bought is in each case good for its face value, as stated. It is only in the case of those who wish to sell their bonds before they mature that a discount has to be met. The best of property, real estate or any other security is subject to fluctuation under forced sale. As for those who do not want to sell their bonds, they may even be pleased at the reduction and the opportunity it affords of buying more. Government bonds offering 6 to 6¼ per cent. are a valuable investment, and if there is any better security known to financiers they are not telling about it. In a few years these bonds will appreciate in value, and the high rate of interest they offer to present investors must tempt everyone with a bank account. Since the close of the last loan, it is stated $135,000,000 worth of bonds have changed hands. If some people found it necessary to sell, there were as many anxious to buy. There will be a lot of loose money in Canada after this year's harvest. He will be a wise man who takes no chances with speculative stocks, but quietly invests in as many Victory Bonds as his surplus will permit. They will never worry him.

IN THE SURROGATE COURT OF THE COUNTY OF HALTON

In the Matter of the Estate of RICHARD GRAHAM, Late of the Township of Esquesing, in the County of Halton, Farmer, Deceased.

NOTICE is hereby given, pursuant to the Revised Statutes of Ontario, Chapter 181, Section 56, that all persons having claims against the estate of the said Richard Graham, who died on or about the twenty-first day of August, 1920, at the said Township of Esquesing, are required to send by post or to deliver to the undersigned, solicitor for the Executors of the estate of the said Richard Graham, on or before the eleventh day of October, 1920, their names, addresses, full particulars of their claims and the nature of the security, if any, held by them, all duly verified by statutory declaration. After the said date the Executors will proceed to distribute the assets of the deceased among the parties entitled thereto, having regard only to the claims of which they shall then have notice, and they shall not be liable for the assets or any part of them to any person of whose claim notice shall not have been received by them at the time of such distribution.

Dated at Milton, this sixteenth day of September, 1920.

W. L. DICK, Milton, Ont.
Solicitor for the Executors.
