And his true heart ceased to beat,
How we miss his well known footsteps,
And the smile we loved to greet.

Norval

Miss M. Gollop who has been residing at Vancouver and Seattle is at the home of her uncle and aunt Dr. and Mrs. Webster.

On Friday, March 10th, the many friends of Mr. and Mrs. Wm. Fendley and family of Norval, gathered at their home, "Spruce Lawn Farm," to say good-bye. Mr. Fendley has purchased a farm at Erin and will be moving in a few days. It was a real community gathering and though a hundred or more people were present all had a thoroughly enjoyable time. Families were not only represented, they were all there, from the oldest people to the children. This was especially true of the near neighbors who were present in a body. Mr. D. A. McLaughlin made an excellent chairman. Early in the evening Mr. Will Thompson read the following address:—Mr. and Mrs. Fendley and family—We, your friends and neighbors of this vicinity, have learned with regret of your departure from our midst, and we take this opportunity of expressing to you our appreciation of your kindness while amongst us, and we assure you that the hinges of friendship will not grow rusty in the future. You have always been good neighbors, ready and willing to help in any emergency, and to do your share as citizens of the community. We ask you to accept this slight token of our esteem in the spirit in which it is offered.

May God's blessing be yours, and as you find new friends we are assured that the associations of the years spent in this community will be to both you and us, an ever pleasant memory.

Signed on behalf of your friends, D. A. McLaughlin, Thomas Carey. Norval, Ont., March 10, 1922.

Mr. and Mrs. Fendley were then presented with two fumed oak chairs. Mr. Fendley, though taken by surprise, replied feelingly on behalf of Mrs. Fendley and himself, thanking those present and expressing his regret at leaving the neighborhood.

The Chairman then called on several of those present to speak, and all responded expressing their appreciation of the neighborly kindness of the family, and their best wishes for their success in the future. Among those who spoke were, Messrs. William Thompson, Harry Hunter, R. S. Murray, T. Carey, C. Day and J. Fiddler. Refreshments were served and dancing and cards filled up the remainder of the evening. The Fendleys will be very much missed from the Town Line and vicinity, and from the Club at Huttonville, of which Mr. Fendley was an energetic member.

Local Council of Women

The regular meeting of the Local Council of Women will be held in the Merchants' Bank Rest Rooms on Tuesday evening, March 21st at 8 o'clock. Mrs. Tweed of Kitchener will speak on the Executive of the National Council at Ottawa.

Georgetown ladies were well represented on Thursday at Mrs. Becker's lecture on the Movies, the Library hall being filled to its seating capacity. Miss Dayfoot, President of the Local Council, occupied the chair and after a few appropriate remarks introduced Mrs. Becker.

Mrs. Becker first spoke on the work of the National and Local Councils of Canada. She said that no other organization of women had branched out as widely and carried on as extensively, work for the interest of the human race, as had the National Council of Women. Woman's work, the work for which she is especially adapted by nature, is conserving life and fostering the race, and no woman—mother, wife, or maiden can evade the responsibility of that work. It has been said of women that they cannot view a subject from the same angle as a man can, they cannot think nationally and they cannot think internationally. Man may think nationally and internationally but he cannot compass the whole programme for the development of the race. His chief work is getting a living for himself and his family and conserving whatever property he is fortunate enough to have accumulated. The woman's work is caring for the young life around her in the capacity of mother, foster-mother or teacher. Man's and woman's work are not opposed to each other but are complementary and that is why God placed a man and a woman in a home.

We believe that we are very particular about our children's education. We see that none but persons of the best character are teaching our children in day school and in Sunday School, but beyond that we have been asleep and while we have slept the enemy has sown for our reaping, tares of the worst possible kind in the form of foolish, vulgar and degrading films. Many of those films have been suppressed in the United States and sent on into Canada, and our children are feasting upon them with no other result than to undermine our social system and fill our prisons. Mrs. Becker is an ardent advocate of the use of the proper kind of film, saying the invention of the Moving picture is the work of a genius and the Moving Picture ought to have a place in the schools of our country as a means of visualising historical events. Experiments in chemistry could be made much easier by being shown upon the screen before the pupil is asked to perform them. She named a long list of good films that can be procured for use in schools at reasonable cost.

Continuing about the schools Mrs. Becker said that at the present time it is not fashionable to like school. This she considered a dangerous state of affairs and urged the ladies to be alive and devote their energy to making school a popular place, by making it more attractive and educating the parents on the subject. She recommended forming a Home and School Club by which means parents and teachers could meet and get each others view point.

Mrs. Becker is a speaker of most pleasing personality. By her versatility, humor and continuity she held her audience intensely interested to the last word. At the close of the address, Miss Josephine Willson sang "Happy Song" and the audience sang O Canada. A hearty vote of thanks was moved and seconded by Mesdames Matthew and Creelman after which a dainty lunch was served.—Com.

To Improve light Horses

For the purpose of improving the breed of light horses in Ontario, seven high class stallions have been imported from England and will be distributed at different parts of the province for service about the first of May.

These stallions are now at Woodbine park in Toronto, and before the 1st of May will be joined by 8 more—Rancher, Springside and one other. They will be assembled and kept in Toronto, free of expense, from about the first of September to the first of April or May each year, when they will be handed over to a suitable man for service in the country during the summer months. The places where the horses will be stationed will be suggested by the Dominion government, through the militia department. Service fees will be nominal.

The stallions which were purchased in England by Mr. W. P. Fraser for the Canadian Racing Associations, will form a nucleus of a breeding stud which it is intended to develop from year to year.

The horses which Mr. Fraser has secured are: Alasnam, winner of the Derby Gold Cup; Cattegat, a winner on the turf; General Probyn, bred by the King and a winner of King's premiums in England; Spring Wheat, also bred by the King and a winner of King's premiums and super-premiums; McNeil, a good turf winner; Quartz Rock, fashionably bred and a winner on the turf.
