Iron in the Blood

MAKES THE WEAK STRONG.

The Peruvian Syrup, a Protected Solution of the Protoxide of Iron, is so combined as to have the character of an aliment, as easily digested and assimilated with the blood as the simplest food. It increases the quantity of Nature's Own Vitalizing Agent, Iron in the blood, and cures "a thousand ills," simply by Toning up, Invigorating and Vitalizing the System. The enriched and vitalized blood permeates every part of the body, repairing damages and waste, searching out morbid secretions, and leaving nothing for disease to feed upon.
This is the secret of the wonderful success of this remedy in curing Dyspepsia, Liver Complaint, Dropsy, Chronic Diarrhœa, Boils, Nervous Affections, Chills and Fevers, Humors, Loss of Constitutional Vigor, Diseases of the Kidneys and Bladder, Female Complaints, *and all diseases originating in a bad state of the blood, or accompanied by debility or a low state of the system. Being free from Alcohol, in any form, its energizing effects are not followed by corresponding reaction, but are permanent, infusing strength, vigor, and new life into all parts of the system, and building up an Iron Constitution.*
Thousands have been changed by the use of this remedy, from weak, sickly, suffering creatures, to strong, healthy, and happy men and women; and invalids cannot reasonably hesitate to give it a trial.
See that each bottle has PERUVIAN SYRUP *blown in the glass.*

Fire Proof Roofing.
THE BEST FIRE PROOF ROOFING ever introduced is said to be that of Mica, Sonpstone and Plumbago, combined with other ingredients, which has been patented by the Brockville Mica and Plumbago Company, and which is now introduced into almost every city and town in this Province.
It is warranted to be perfectly proof against fire and also against frost as far as it has been tested during the last two years.
All parties wishing to get a good Fire Proof Roof are invited to my Foundry, corner of Union and Ontario Streets, in this city, where they can see for themselves the ravages made by fire close to my Moulding Shop, while strange to say, it came off comparatively unhurt from the flames,

WELLAND CANAL
ENLARGEMENT.

NOTICE TO CONTRACTORS.

SEALED TENDERS addressed to the undersigned, and endorsed "Tender for Welland Canal," will be received at this office until the arrival of the Eastern and Western mails on TUESDAY, the first day of June next, for the construction of a Tunnel, a number of Locks, Regulating Weirs, Bridge Abutments and Pier; Excavation, Dredging, &c., connected with several miles of the enlargement, also the extension and deepening of Port Dalhousie and Port Colborne Harbors.
The Works will be let in sections, some of which are situated on the new line between Port Dalhousie and Thorold, and others, about one mile in length each, consist principally of deepening and widening the present Canal at places between Thorold and Port Colborne.
Maps of the several localities, together with Plans and Specifications of the Works, can be seen at this office on and after THURSDAY, the 20th day of May next, where printed forms of Tender can be obtained. A like class of information relative to the Works north of Allanburg will be furnished at the Resident Engineer's Office, Thorold; and for Works south of Port Robinson, Plans, &c., may be seen at the Resident Engineer's Office, Welland.
Contractors are requested to bear in mind that Tenders will not be considered unless made strictly in accordance with the printed forms, and—in the case of firms—except there are attached the actual signatures, the nature of the occupation and place of residence of each member of the same; and further, an accepted bank cheque or other available security for the sum of from one to three thousand dollars, according to the extent of work on the section, must accompany each Tender, which sum shall be forfeited if the party tendering declines entering into contract for the works at the rates stated in the offer submitted.
The amount required in each case will be stated on the form of Tender.
The cheque or money thus sent in will be returned to the respective contractors whose Tenders are not accepted.
For the due fulfilment of the contract, satisfactory security will be required on real estate or by deposit of money, public or municipal securities or bank stocks to an amount of five per cent on the bulk sum of the Contract, of which the sum sent in with the Tender will be considered a part.
Ninety per cent. only of the progress estimates will be paid until the completion of the work.
To each Tender must be attached the actual signatures of two responsible and solvent persons, residents of the Dominion, willing to become sureties for the carrying out of these conditions, as well as the due performance of the works embraced in the contract.
This Department does not, however, bind itself to accept the lowest or any tender.
By order,
F. BRAUN,
Secretary
Department of Public Works,
Ottawa, 26th April, 1875.
