THURSDAY EV'NG, JUNE 17, 1875.

HIGHEST.

Fly away, swallow, fly into the blue,
Under the hawk can follow.
I've been nearer the heaven than you,
Nearer the secret the wise men knew,
Nearer the dawning where dreams come true,
Higher than star or swallow.

Down the waves of a beautiful bay
I drifted into my heaven,
Down through a shoreless, shadowless day,
Under the gates that seemed lifted for aye,
Under low music by winds borne away,
Into the folding even.

All the sailing the watch had been kept
By eyes of a passionate glory,
Till mine could wonder they ever had wept,
Till the nameless tumult stilled and slept,
And out of its travail a new life crept,
Born of that wordless story.

Till the moiseureless joy and the golden peace
And the crimson sunset blended,
And we drifted, drifted into the peace,
Drifted into the sunset fleece
Into the depths where currents cease,
And storm and swell are ended.

What if we fell from the heaven we knew,
Thou and I, O swallow?
Sing—you have caught a roulade new,
Too bed with a rupture fine and true—
Sing, afar in that infinite blue.
Bird nor arrow follow.

I, who fell from a grander flight,
Keep through awful losing
Glimpses of a loftier height,
Reaching up through loss and night,
Reaching never beyond the sight,
Since that wondrous cruising.
—FANNIE R. ROBINSON, in *Harper's Magazine.*

Bears.—Since Messrs. Perry Davis & Son commenced the manufacture of Bearine, the Canada trapper has found a lucrative business in capturing old Bruin. Messrs. Davis & Son pay a good price for the grease, and the skins are always sought after. Messrs Davis & Son have a mode of refining the grease, perfuming it, &c., making it superior to any others we have ever seen.

INGENIOUS RUSE.—A very disagreeable feature is reported to have arisen out of the Moody and Sankey services in London. A House-to-House Committee, as it is called, has been formed for the purpose of going about the streets knocking at people's doors, and putting questions as to the state of one's soul. The thieves, with their usual ingenuity have improved on the idea, and the other day a respectable looking woman called on a lady and asked after her spiritual welfare. The lady declining to be converted her visitor asked for refreshments, and developed a liking for hot brandy and water, winding up the entertainment by asking the lady of the house to fetch some article from the dining room, whilst the guest walked off with all the forks and spoons on the table and other knick-knacks.

A PLAGUE.—The Government of the Province having been informed of the existence and spread of the small-pox in the shore settlements between two and three hundred miles below Quebec, to an extent that the people refuse to receive travellers and the passing mail couriers for fear of contagion, Doctor J. M. Turcot, of this city, has been commissioned by the Minister of Argiculture and Immigration to proceed at once, to Father Point and to visit the affected parishes along the Metapediac Road east of that locality, with power to take all needful steps to check the progress of the disease and to see that travellers are not exposed to the contagion so as to bear it from one parish or stopping place to another.—*Quebec Mercury.*

A NEW THEORY.—An English physician claims to have made the discovery that consumption is an infectious disease, only differing from fevers and small pox in that the period is more extended from the time when the disease germs are received to that when the effects are made visible. This conclusion has been reached by the inoculation of Guinea pigs and other animals with tubercle, the disease product which forms the basis of consumption. These animals were infected with consumption, and gave it in turn to healthy subjects.

ELECTIONS AHEAD.—The writs for the new elections in the ridings of Glengarry and North Perth, the representation of which was rendered vacant by the elevation of Mr. Macdonald to the Lieutenant-Governorship and the unseating of Mr. Monteith for bribery, respectively, were despatched this morning. Nomination in both constituencies will take place on the 30th June inst., and elections on July 7th. The nominations for the general elections in the Province of Quebec will take place on the same day.—*Ottawa Free Press.*

—According to one authority, they had mosquitoes in 1535. From the scientific manner in which some of the mosquitoes of the present day do their little business we are inclined to think that a few of those 1535 fellows are still in the trade, and have had steady practice ever since.

Hemorrhoids (or Piles) are permanently cured by Mathieu's Pile Ointment, or money refunded. Price $1 per Pot, or 6 Pots for $5. Sold wholesale and retail by the Wingate Chemical Company, Montreal, and retail by all druggists, or will be forwarded to any address on receipt of price by Dr. E. Mathieu, 198 Notre Dame Street, Montreal.

Have you a cough, cold, pain in the chest, or bronchitis? In fact have you the premonitory symptoms of the "insatiate archer," consumption? If so, know that relief is within your reach in the shape of Dr. Wistar's Balsam of Wild Cherry, which, in many cases where hope had fled, has snatched the victim from the yawning grave.

Burnett's Cocoaine.—A perfect dressing for the hair.—The Cocoaine holds in a liquid form, a large proportion of deodorized Cocoa nut Oil, prepared expressly for this purpose. No other compound possesses the peculiar properties which so exactly suit the various conditions of the human hair. A single application renders the hair (no matter how stiff and dry,) soft and glossy for several days. It is conceded by all who have used it, to be the best and cheapest Hair Dressing in the world.

Life is the fribration received by all animated beings from the Creator's breath—a taper whose luminous or flickering light may be extinguished by a gentle wind or firmly brave the fiercest blast. Life is caloric, electricity and phosphorous acting upon a mass of bones and sober solids, diffusing warmth, motion and animation, activity of muscle, of nerve and of intellect. As caloric, electricity and phosphorous are induced and supplied by Fellow's Compound Syrup of Hypophosphites, it only requires the administration of this successful invention to fortify the feeble, gives sprightliness of motion to the torpid, and bring about a condition which not only secures tenaciousness of life but makes life really enjoyable.

The Horse.—"Of the great number of animals under the control of man, the horse is undoubtedly the most serviceable; but it is not strange that so many who own horses, and who are dependent on their labor for a living should neglect to give them that care and attention which their own interest no less than the safety and comfort of the horse demands. The best remedy for horses is "Darley's Condition Powders and Arabian Heave Remedy." of this there can be no doubt—it is safe and easily given. Remember the name and see that the signature of Hurd & Co. is on each package. Northrop & Lyman, Toronto, Ont., proprietors for Canada. Sold by all medicine dealers.

☞ The efficacy of Bryan's Pulmonic Wafers in curing coughs, colds and all bronchial affections, and checking the afflicted, has passed into a proverb. In the United States, where the marvellous Wafers are known, they bear down all opposition and eclipse all rivalry; the demand for them has steadily increased for the last twenty years, until now the sales average over one hundred thousand boxes a year. Eminent members of the medical profession without number admit that they know of no preparation producing such beneficial results as these Wafers. When taken in season they effect a permanent cure. Sold by all druggists and country dealers. Price 25 cents per box.

WHAT THEY SAY OF IT! A FEW FACTS FOR THE PEOPLE.—There are but few preparations of medicines which have withstood the impartial judgment of the people for any great length of time. One of these Dr. Thomas' Eclectric Oil. Read the following and be convinced.—Thos. Robinson, Farnham Centre, P.Q., writes, "I have been afflicted with rheumatism for the last ten years, and have tried many remedies without any relief, until I tried Dr. Thomas' Eclectric Oil, and since then have had no attack of it. I would recommend it to all." —J. H. Earl, Hotel Keeper, West Shefford, P.Q., writes, "I have been troubled with liver complaint for several years, and have tried different medicines with little or no benefit, until I tried Dr. Thomas' Eclectric Oil, which gave me immediate relief, and I would say that I have used it since with the best effect. No one should be without it." I have tried it on my horses in cases of cuts, wounds, etc., and think it is equally as good for horse as for man."—A. Maybee, merchant, Warkworth, writes "I have sold some hundreds of bottles of Eclectric Oil, and it is pronounced by the public, one of the best medicines they have never used; it has done wonders in healing and relieving pain, sore throats, etc., and is worthy of the greatest confidence."—Joseph Rusan, Township Percy, writes, "I was persuaded to try Thomas' Eclectric Oil for a lame knee which troubled me for three or four years, and I never found anything like it for curing lameness. It is a great public benefit."—A. M. Hamilton, Warkworth, writes, "For weeks I was troubled with a swelled ankle, which annoyed me very much. Mr. Maybee of this place induced me to try Eclectric Oil, and before one bottle was used I was cured. It is a most remarkable medicine."

☞ Sold by all medicine dealers. Price 25 cents.
