### THE LONELY CITY!

Ellen was very excited when she left to work in the nearby city. But she soon discovered a big city can be a lonesome place sometimes. The one thing that kept her at her job was the fact that she could go home twice a week by telephone. Night rates made the cost trifling and these voice visits with her family and friends were Ellen's greatest pleasure.

### A NEW CANADIAN ILNDUSTRY

**Dunbrik and Duntex Works Now Being Erected at Cheltenham, Ont.**

A group of Georgetown and Cheltenham gentlemen have interested themselves in the manufacture of cement bricks and cement glazed roofing tiles.

They have purchased the rights of the W. E. Dunn Manufacturing Co. of Holland, Michigan, U.S.A., for the manufacture of these articles for the province of Ontario and have just installed the first unit at Cheltenham on the Credit River, where there is an abundant supply of sand and water which is required for the company's operations.

The manufacture of these brick and tile is now being extensively carried on in U.S.A., where there are over 400 plants in operation.

The product of these plants have been used for a number of years in some of the largest buildings in U.S.A. and have been proved satisfactory and are being specified on government contracts, railway buildings, hospitals, etc. The brick made is stronger than the ordinary clay product and is much cheaper.

A cordial invitation is given to residents of the district to visit the works at Cheltenham.

The Dunn Manufacturing Co. at Holland, Michigan, was established 25 years ago by Dunn Bros. who were Canadians, being born at Woodstock, Ontario.
