ST. JACOBS OIL
TRADE MARK
REMEDY FOR PAIN
SPRAINS, STRAINS, INJURIES

It has been erroneous ideas to suppose that great force is required to produce strain or sprain. There are so many delicate muscles and tendons which bind together the ankle and foot, and direct the vehicle of locomotion, that a very slight thing often causes not only a very painful, but a very serious sprain, which St. Jacobs Oil will cure.

SURELY AND PERFECTLY.

Weak Spots.—A large number of cases reported to Santogen to the public or box, more than to all the rest of the body. The knee is also a very tender region of action, and injuries to it very frequently result in acute pains, enlargements, stiffness, and sometimes permanent stiffness, unless St. Jacobs Oil prevents, and its

BEST CURES ARE CHRONIC CASES.

Definition.—Sprain or strain is to weaken, as a joint or muscle, by sudden and violent exertion; to stretch muscles or ligaments without dislocation, and St. Jacobs Oil cures

EASILY AND WITHOUT RECURRENCE.

Treatment.—Rub with St. Jacobs Oil freely and the slightly the parts affected. Protect the body from cold and draft.

Topic—Neglected opportunities. The loss to others (Esther iv. 14; Heb. ii. 1-3).

Neglected opportunities. All who have reached any advanced stage of life know from experience what neglected opportunities are. All along the pathway of the past are strewn the wrecks of possibilities to do good, to receive good and to impart good—possibilities which were ours once, but which now have gone forever. In our topical references we have two phases of neglected opportunities placed before us—the loss resulting to others and the loss resulting to ourselves from this neglect to utilize the possibilities for good that have been before us.

1. The loss to others (Est. iv. 14).—It is false to suppose that the result of our actions, be they of omission or commission, end with ourselves. The enemies of the Jews have perfected a plot by which they are to be destroyed. Esther as queen is possibly the only one who can save them. But to do so she must risk her own life. The opportunity of great good is before her, but if she neglect the opportunity, what then? Disaster to herself, and not only to herself, but to her loved ones, for Mordecai truthfully said, "If thou altogether holdest thy peace at this time, thou and thy father's house shall be destroyed." By her neglect ruin would also come to the loved ones of her home. This is the universal rule of action or neglect. No one lives to himself. Consciously or unconsciously our every action affects some one else. So it is with our neglects. The neglect of the parent to accept Christ may cause the child to neglect him. The neglect of the Christian to live consistently may cause those who make no profession to ignore Christianity. Whatever the opportunity may be, to neglect it means disastrous effects not only to ourselves, but to others. Influenced by this fact, let us, like Esther, not neglect golden opportunities, but rise to every emergency and make the best of every possibility we meet.

2. The loss to ourselves (Heb. ii, 1-3). Neglected opportunities also bring loss to ourselves. The writer of Hebrews here warns his readers against neglect of obedience to Christ on the ground that if they neglected it they could not escape the result. His argument is that the neglect to obey angels has always been punished, and that since Christ is greater than angels, as shown in the preceding chapter, "how shall we escape if we neglect so great salvation?" He does not answer his question because there can be but one answer. If we neglect, we cannot escape. Those who neglected angels' words found no escape. Those who neglect Christ's way of salvation will find no escape.—The foolish virgins found none. The door was shut, and though they clamored for admittance it never opened again. It is a sad and awful thought that by mere neglect the soul may be lost, yet it is true. May such a thought lead us to the firm resolve that as for us we will not neglect our salvation!

What Christian Endeavor Is.

What is Christian Endeavor for? It is to bring glory to God in the highest and on earth peace, good will to men—that earliest definition of the gospel that sounded over this earth of ours the morning the star shone over the fields of Bethlehem. That is what Christian Endeavor is for—in the home, in the family, in the church, in the city, in the state, in the nation, in the world, until it shall lift up its voice in every quarter of this entire world of ours, singing praises to God and good will to men everywhere.—Rev. George H. Wells, D. D.

Christian Endeavor Notes.

It was at Meriden, N. H., that Dr. Clark, founder of the first Christian Endeavor society, prepared for college, graduating at Kimball Union academy in 1869. Dartmouth college, his alma mater, conferred upon him the honorary degree of doctor of divinity in 1889. He graduated from Dartmouth in 1873 and from Andover Theological seminary in 1876.

At the famous meeting of the New York Christian Endeavor conference it was resolved to recommend to the societies the adoption of the suggestion of the domestic board that our societies endeavor to donate each year to the church building fund an amount sufficient to build at least one church edifice in some needy home mission field.

The work is growing in Oklahoma. New societies are constantly being organized, and good meetings are being held. A worker writes, "We have not the good speakers nor the fine places of worship that others have, but God is here just the same."

It is expected that a solid Christian Endeavor special train will be run from the Pacific coast to the Montreal convention. Three cars will probably go from California and one each from Oregon and Washington. The east must look to her laurels or the west will outstrip her in Endeavor enterprise.

Influenza, coughs, and colds.—In diseases of the throat and chest, so prevalent in our changeable climate, nothing so speedily relieves, or so certainly cures, as these inestimable remedies. These disorders are too often neglected at their commencement, or are injudiciously treated, resulting in either case in disastrous consequences. Whatever the condition of the patient, Holloway's remedies will restore, if recovery be possible; they will retard the alarming symptoms till the blood is purified and nature consummates the cure, gradually restoring strength and vital nervous power. By persevering in the use of Holloway's preparations, tone is conferred on the stomach and frame generally. Thousands of persons have testified that by the use of these remedies alone they have been restored to health after every other means had failed.
