SPREADING SUNSHINE AND JOY.

PEOPLE WHO ARE DOING GOOD WORK.

Rescuing From the Valley of the Shadow of Death — Men And Women Thoroughly Interested — Great Hope For the Future.

There are many joyous lives, but few that are so pure, so grand, and so satisfying as the joy of doing good to others. He or she who, when they have the opportunity and power, refuses to do good, will afterwards suffer distress when the opportunity is lost.

We have in our midst, in all sections of Canada, many men and women who are doing a vast amount of good amongst a class who suffer both mental and bodily agonies. These men and women are willingly spreading the joyful news that they have been rescued from the valley of the shadow of death, and brought to the glorious heaven of security and happiness.

MRS. HENRY LEWIS.

The wonderful stories of some sufferings, terrible agonies, wretchedness, misery and woe, having been banished by simple and effective means, have contributed more to real happiness than any other scheme ever devised for the alleviation of human distress.

Would to heaven that we had a still greater number of such earnest and active missionaries; there is ample room for them in our land; the harvest is indeed great, but the laborers are few; still we are thankful for the earnest workers already in the field who are attesting no feeble or uncertain sound.

The great majority of these willing workers are rescued ones, who can sympathize and feel for the suffering, weak and distressed. They have felt and carried the cross of disease, and have had a glimpse of that dreadful, dark and repulsive road that leads to the grave. With honest purpose, these saved ones are pointing out to unfortunate brothers and sisters the true way to life, and with commendable zeal are endeavoring to induce those in need to take hold of the great agent which leads to health, strength and long years.

To-day, it is our privilege to give all interested readers a brief account of the rescue of a Montreal lady. Mrs. Henry Lewis. This aged woman for two years suffered from sleeplessness, headache, biliousness, kidney trouble and sore back; her life was made miserable and wretched, and she despaired of being in health again.

Mrs. Lewis, like thousands of other people, had worried and fretted over continual failings with physicians and common advertised remedies. Her condition was daily becoming more alarming and critical, and her hold on life was getting weaker. In this state she had many advisers and counsellors; all were heard with interest and anxiety, because a decision at this time meant life or death.

Thank God, right influences prevailed and Mrs. Lewis was directed to that unfailing remedy, nature, Paine's Celery Compound. In the extremity of suffering and weakness she decided to give the great Compound a fair trial; it cured others who were far advanced in disease and pain, and she had faith that its powers were sufficient to meet her case.

The wonderful medicine was used with regularity; a grand cure was wrought; the blood was coursed through its proper channels with regularity and freshness; the whole body is re-built and fortified; mental activity is increased and many long years added to life.

To-day Mrs. Lewis is doing her best to extend the fame of Paine's Celery Compound. She is using her influence and experience for the benefit of those who need the great renewer of life. She has been saved and her object is to let others know the medium of her salvation.

No other remedy ever given to the world can boast of such an army of advocates. Men and women of all ranks of society, and even children, unite in its praise and recommendation, because of its honesty, wonders and grand results.

Mrs. Lewis' letter of testimony reads as follows:

1897 Notre Dame St. West,
Montreal, October 3rd, 1892.

Wells & Richardson Co., Montreal, P.Q.

DEAR SIRS:—I am now an old woman, being in my seventy-third year, and can most truthfully confess that no action of my life has ever given me greater pleasure than the present one of testifying with my whole heart and soul in favor of your Paine's Celery Compound. From my experience with other advertised remedies, I may say, that they are not to be compared with your grand medicine for a moment. Paine's Celery Compound to me was new health and increased strength. All other medicines I found worthless, and my money spent in vain.

Two years ago, I became weak, sleepless and restless, and my appetite was almost gone. Severe headaches, biliousness, kidney trouble and sore back, made life a misery to me, and I despaired of ever being in health again.

These distressing troubles often confined me to bed for a week or ten days at a time; and it is almost impossible to describe the agonies and wretchedness I endured during these severe attacks. A friend advised me to give Paine's Celery Compound a trial; others insisted that I required careful nourishment and dieting. I had heard, however, of such wonderful results from the use of Paine's Celery Compound that I determined to honestly and carefully test its value in my case, and I bless God that I had sufficient courage and will power to do so, and it has made me a new woman. I used your Compound simply as directed, and found, after commencing the second bottle, that the virtues of the great medicine were instilling a new vitality and giving me a new existence.

Up to date I have used about twelve bottles, and I am now completely and permanently restored; I do all my own housework; I am cheerful and happy, and do not experience any of the fatigue and weakness that troubled me some months ago.

I live and enjoy life to-day and thank God for the great agent of life that cured me.

I trust thousands of women will have a chance to read this testimony and profit by my experience. I strongly appeal to every woman to give up other medicines that they are now vainly using and commence at once with Paine's Celery Compound, which alone can bring back her health. I wish I could personally want every woman in Canada who is suffering as I once suffered; I am sure my words of testimony would soon convince all that there is only one honest, worthy and meritorious medicine that can meet their trouble, and that medicine is Paine's Celery Compound.

Yours very truly,
MRS. HENRY LEWIS.

The proprietors of Paine's Celery Compound are now making an effort to reach the heart and home of sufferers who are unable to buy medicines or employ a physician. They are in a position to deal liberally with those having means and who are seeking relief from suffering. All who wish to obtain a supply of the great life-giver—Paine's Celery Compound—can have it by sending in, with their application, a letter from some clergyman, mayor, reeve, justice of the peace or postmaster testifying to their character and standing.

Scores have sent in, and their hearts have been gladdened and cheered by receiving the great medicine free. Address Wells & Richardson Co., Montreal.

Flowering Bulbs.

If for out-door culture should be planted now. A large and varied stock comprising most of the leading kinds and of remarkably healthy growth at Wilson's Pharmacy.

George H. Embury, Napanee, removes to Belleville. Mrs. Brimley has bought out his milk business.

Itch on human and all animals cured in thirty minutes by Woolford's Sanitary Lotion. Warranted by H. Wade.

George Burton has leased the Deseronto opera house for three years, and will sell out his Uncle Tom's Cabin show.

A free sample package of the Wonderful Working Dyspepsia Cure, K. D. C. mailed to any address. K. D. C. Company, New Glasgow, N.S.

T. M. Henry, rector of the collegiate institute, Napanee, while at the G. T. station, on Saturday, slipped and sprained his ankle.

Hanson's Magic Corn Salve cures corns and bunions with three applications. 15c. per box at Wade's drug store, Kingston.

Mrs. Richard Osborne died suddenly at Belleville, at the age of eighty-two years. She was the last of three sisters who have died within a year.

When you decide to be cured of Dyspepsia try K. D. C. the King of Cures. Free sample to any address. K. D. C. Company, New Glasgow, N.S.

Real estate is advancing in Deseronto in anticipation of smelting works being established there. A farmer has been offered $1,000 for his farm.

Hasten purgative remedies are fast giving way to the gentle action and mild effects of Carter's Little Liver Pills. If you try them, they will certainly please you.

At the annual meeting of the S. Heath school provincial convention H. C. McMullen, Picton, was named as a member of the executive committee.

The best recommendation for K. D. C. is the cure it makes. It has cured sufferers from every stage of Dyspepsia. It will cure you too. Sold by E. C. Mitchell.

Michael Havey, Arnprior, has received the appointment of license commissioner for South Renfrew in place of his brother, James Havey, who became a hotel keeper.

If you once try Carter's Little Liver Pills for sick headache, biliousness or constipation, you will never be without them. They are purely vegetable; small and easy to take. Don't forget this.

Anna Sophy, Tweed, for the alleged larceny of two bags of grain from John Hutchinson, will be tried Nov 9th. The prisoner is eighty-two years of age and hard of hearing.

A sponge is of animal origin, not vegetable, as many suppose. This mistake is common. You should see the desirable sorts. At prices as rock bottom as the spot on which they grow. Wilson's Pharmacy.

Richard Hynes, Sterling, met with a serious loss on Thursday. His barns and outbuildings were destroyed by fire, together with four horses, implements and all his crops.

If you had taken two of Carter's Little Liver Pills before retiring you would not have had that coated tongue or bad taste in the mouth this morning. Keep a vial with you for occasional use.

Thomas Corrigan was married last week to Miss Minnie Hart, eldest daughter of Michael Hart, Belleville. Miss Corrigan acted as bridesmaid and John Hart as groomsman.

Ask your neighbors if they use Dodd's Kidney Pills? They strengthen the nerves, tone the system, and the most stubborn cases of kidney disease yield to their influence. They are especially appreciated by the old. Ask your neighbors about them.

The output of the A. C. Miller canning company, Picton, this year has been 1,700,000 cans of goods, a portion of which consists of 26,000 cases of tomatoes and 23,000 cases of corn.

It does its work quickly and thoroughly. It is the best and the cheapest, and the world cannot beat it, or match it. If you have a cold ask for Magnus Expectorant, the great cough mixture. At any druggists in the city.

Charlie Pollard, Napanee, went to break up some packing boxes, and in pulling out the box at the bottom those on the top toppled over, pinning him to the earth, and a nail running through his ear.

A. I. Rice, photographer, New Glasgow: "I have much pleasure in adding my testimony to those already given that K. D. C. is a positive cure for indigestion and dyspepsia. My own trial of the medicine proved a case of instant relief and as far as I can judge a permanent cure."

On Tuesday, after an illness of over two years, Mrs. Elijah Hutchings, Newboro, has passed away. Her two sons, E. F. Hutchings, Winnipeg, and E. Hutchings, Calgary, arrived home to see her before life had fled.

'Tis a wonderful treasure
A thing full of merit,
It has plucked from the grave
It has raised the weak spirit;
It has conquered consumption!
Saved from nervous prostrations.
'Tis the king of lung remedies!
And the pride of the nations.
If your lungs are affected,
Don't wait until it's too late!
Ask for "salva or Magnus"
Or "Magnus salve for!"

At any druggists in the city.

W. J. Chamberlin, postmaster, Chambers, has a curiosity, found while repairing the old Lajeunesse church. It is a tin rocket, with a gun using for support for holding a candle, with which the chapel was lighted in olden time.

Rebecca Wilkinson, of Brown Valley, Ind., says: "I had been in a distressed condition for three years from nervousness, weakness of the stomach, dyspepsia and indigestion until my health was gone. I bought one bottle of South American Nervine, which did me more good than $50 worth of doctoring I ever had in my life. I would advise every weakly person to use this valuable and lovely remedy. I consider it the grandest medicine in the world." A trial bottle will convince. Warranted by H. Wade.

Miss Catherine Hough, teaching in Tamworth public school since New Year's, died on 26th October of consumption. She taught until Wednesday, and died on the following Sunday. The remains were placed in the R. C. vault at Erinsville.

The Neglected Baby.

We have all seen the neglected baby, and know well how it acts and looks. Such babies are to be found in homes surrounded with all modern comforts, as well as in the homes of the poor.

The neglected baby is usually cross, peevish and restless; its sleep is never sound and sweet, as the sleep of the healthy infant should be.

The whole trouble arises from the food with which the little one is fed from day to day. Improper foods cause serious disturbances in the stomach and digestive organs; and the weak machinery becomes deranged and clogged.

No wonder that baby is cross and sleepless, weak and peevish. No wonder that so many babies die before they are a year old.

There is a happy remedy for all such infantile troubles—a food that will save the little darlings from the cold and dark grave. It is Lactated Food, now so universally popular, and so well recommended by our best physicians.

Lactated Food, possessing all the nourishing elements of pure breast milk, is unsurpassed for the weakest digestion.

Weak and puny babies soon become strong, hearty and happy; they sleep well and grow fat, and always escape the ills and troubles which beset the infants who are fed with poorly prepared foods.

We strongly advise every mother to give Lactated Food a trial if her baby is not strong and healthy. When Lactated Food is fed to baby for a month you will be surprised at the results.

Superstitious Investigation.

Lennox Advertiser.

A few weeks ago, by a majority of nearly three to one, the people of Wantonia voted in favor of prohibition. Now the so called royal commission is busily spending time and money in Winnipeg, presumably with the object of discovering what the people want! Was ever a more grotesque spectacle presented?

A CALGARY MIRACLE

MOST WONDERFUL CASE EVER RECORDED IN THE NORTHWEST.

Miss Lola Cullen Is Rescued From What Her Physicians and Friends Thought to be Her Deathbed.

Winnipeg Tribune.

CALGARY, N.W.T., Oct. 20, 1892.—For some time past the residents of this town have been deeply interested in the case of Miss Lola Cullen, a young lady, who had so nearly approached the portals of the great unknown that her friends despaired of her recovery, and who has now fully, indeed almost miraculously, regained her health and strength. Having read on various occasions in the Tribune the particulars of what appeared to be miraculous cures, your correspondent determined to investigate the case of Miss Cullen, and now sends you the particulars fully believing that you will be justified in giving them the widest publication.

When your correspondent visited the residence of Mrs Cullen, the mother of the young lady, he was courteously received, and in reply to his inquiries as to whether she would be willing to give the facts of her daughter's wonderful recovery, for publication for the benefit of other sufferers, Mrs. Cullen readily assented. "My daughter's first illness," said Mrs. Cullen, "was in June, 1891, when she was taken with the measles. All that time she was seventeen years of age, tall, fine looking, and exceedingly healthy, weighing about 140 pounds. All the family took the measles, and all got over them without trouble, except Lola. Her case from the first baffled all the ordinary remedies used for that disease, and as the measles did not come out, a physician was called in. He administered remedies, but with no better results, and her case seemed to baffle the physician's skill. After a few weeks my daughter began to improve somewhat, but did not regain her former strength, and six weeks after she was first taken ill her face, neck and limbs broke out in blotches. The doctor was again called in and said it was the measles getting out of her system, and that she would soon be all right again. The doctor's statement was not verified, however, for not only did my daughter not improve, but she gradually grew worse. Soon after she began to swell, first at the feet, then the limbs, breast and face became puffed up. Another doctor was called in and he pronounced her trouble dropsy, resulting from the measles. The doctor attended her all winter, and although he seemed to do all in his power for her, she gradually became weaker and weaker. She did not eat, and tonics failed to improve her appetite, and as she gradually grew weaker she lost her courage, felt that hope of life was fast slipping away. In the spring the doctor's medicine having done her no good, was discontinued, and instead he gave her preparations of beef, iron and wine, hypophosphites, eggs, cream, etc. In fact, stimulants of this kind had to be constantly forced upon her to keep her alive and I gave up all hope of her recovery, and in my misery waited for her death. She was now so weak that she could not walk across the floor, and in order to rest her we would lift her into a chair, where she would sit for a short while when we would again place her in bed. She was slowly but surely dying before our eyes, and nothing we could do for her was of avail. She was still puffed up, and nothing the doctors could do would reduce the swelling. Her limbs would no longer support her and she could only sit up a very short time each day. In this condition she lingered on until August, 1891, some fifteen months after she was first taken ill, and while we were sorrowfully awaiting what seemed the inevitable end, a ray of hope came to us. I read in a newspaper of a remarkable cure from the use of Dr. Williams' Pink Pills for Pale People, and while I feared that I had heard of this wonderful medicine too late, I hoped almost against hope and sent to the headquarters of the company at Brockville, Ont., for a supply. At this time Lola was not able to be removed from bed. Her weight was reduced to ninety pounds, and her lips were blue. You will thus see how little hope there appeared for her when she began the use of Dr. Williams' Pink Pills. After she had taken the first box although there was no visible improvement, she thought they were doing her good, and her spirits began to rise. At the end of the second box I could notice the improvement, and Lola was very hopeful, and felt life was returning to her again. After she had been taking Dr. William's Pink Pills for a month, she was able to get up, and by October she was so well that she could superintend work about the house. She still continued taking the pills, and rapidly recovered all her old time health, strength and spirits. I cannot tell you," continued Mrs. Cullen, "how deeply grateful I am for the wonderful medicine that saved my daughter's life. You may be sure that both me and mine will always warmly recommend it, as we have every reason to do so."

WHAT A PROMINENT DRUGGIST SAYS.

Your correspondent then called upon J. G. Templeton, the well-known druggist on Stephen avenue. In reply to an enquiry as to what he could tell me about Dr. Williams' Pink Pills, Mr. Templeton replied: "What can I tell you about Pink Pills? Well I can tell you they are the most wonderful medicine I ever handled. I had experience with them in Ontario before coming out here, and in all my experience as a druggist, I never knew any medicine have such a wonderful demand, or give such great satisfaction. My experience here has been like my experience in Ontario, all who have used Dr. Williams' Pink Pills speak in their praise, and if I were to tell you how many boxes I am selling here daily, you would be readily excused for being somewhat incredulous. If I am asked to recommend a medicine, I unhesitatingly recommend Dr. Williams' Pink Pills, and my confidence in them has never been misplaced. I have already sold the demand for Pink Pills is astonishing, and they invariably give the best satisfaction. I know this to be so from the statements of customers. I have sold here and in Ontario thousands of boxes and have no hesitation in recommending them as a perfect blood builder and nerve restorer, curing such diseases as rheumatism, neuralgia, partial paralysis, locomotor ataxia, St. Vitus' dance, nervous headache, nervous prostration and the tired feeling therefrom, the after effects of la grippe, diseases depending on humors in the blood, such as scrofula, chronic erysipelas, etc. Pink Pills give a healthy glow to pale and sallow complexions, and are a specific for the troubles peculiar to the female system, and in the case of men they effect a radical cure in all cases arising from mental worry, over-work or excesses of any nature.

These Pills are manufactured by the Dr. Williams' Medicine company, Brockville, Ont., and Schenectady, N.Y., and are sold only in boxes bearing the firm's trade mark and wrapper, at 50c a box, or six boxes for $2 50. Bear in mind that Dr. Williams' Pink Pills are never sold in bulk, or by the dozen or hundred, and any dealer who offers substitutes in this form is trying to defraud you and should be avoided. Dr. Williams' Pink Pills may be had of all druggists or direct by mail from Dr. Williams Medicine company from either address. The price at which these pills are sold makes a course of treatment comparatively inexpensive as compared with other remedies or medical treatment.

A Wholesale Exodus.

Exchange.

The exodus from the district of Toronto is seen-thing alarming. We are informed that from Jan. 1 to Oct. 1 the United States consul at that city sent to the States 7,662 citizens, not counting young persons who have no baggage to pass through the customs.

The Back-Stitch.

Or, in other words, a stitch in the back, or lumbago, was successfully treated in the following way: Baltimore, Md., U.S.A., February 26, 1890: "I suffered a long time with pains in the back and obtained no relief until I tried St. Jacobs Oil, which cured me completely, and take pleasure in recommending it as a most valuable remedy." GEORGE H. BERNITZ, 120 N. Eden St.

An Awful Exhibit.

Exchange.

A man in Kirkintilloch, Scotland, has been fined ten shillings for playing the bagpipes on Sunday. Awful.

The Renovo steam carpets without taking them off the floor. No. 3 York street.

SAVED BY A BEAN.

The Club Liar Relates a Lion Hunting Experience in Africa.

"Some years ago," said the club liar, speaking rapidly—(if he spoke rapidly, with no pauses, he thus avoided interruption)—"some years ago a gentleman and his two attendants were treed by a Nubian lion. They were journeying by the cataract of the Upper Nile, in what would have been the "garden spot" of the earth but for its fertility. It was so fertile that things planted there grew, matured and withered away to nothing before one could get time to harvest them.

"Starvation stared at this gentleman and his two attendants, trapped as they were by the raging lion. Their old-fashioned muzzle loading muskets were useless. They had dropped their bullet pouch, and dared not climb down.

"It was the commencement of the rainy season and the rain clouds were gathering. They were starving. There was nothing for them to eat—absolutely nothing—except a cedar—except a single bean—a bean which the gentleman had found in his pocket, where he had put it months before as a souvenir—a souvenir of Boston. Now this gentleman knew beans. He noted the fast approaching rain.
